Trelleborg's acquisition of business in offshore oil and gas in Brazil finalized

Trelleborg's acquisition of a business in the offshore oil and gas industry in Brazil from a subsidiary of Veyance Technologies has been finalized. The business focuses on specially designed oil hoses for surface and deep-sea applications for the strongly growing offshore oil and gas extraction industry in Brazil.

The operation will be integrated into Trelleborg Engineered Systems business area.

A press release on the agreement regarding the acquisition was published on March 14, 2011.

Trelleborg is a global industrial group whose leading positions are based on advanced polymer technology and in-depth applications know-how. Trelleborg develops high-performance solutions that seal, damp and protect in demanding industrial environments. The Trelleborg Group had annual sales during 2010 of approximately SEK 27 billion, with about 20,000 employees in 40 countries. The Group comprises four business areas: Trelleborg Engineered Systems, Trelleborg Automotive, Trelleborg Sealing Solutions and Trelleborg Wheel Systems. The Trelleborg share has been listed on the Stockholm Stock Exchange since 1964 and is listed on the OMX Nordic List, Large Cap. www.trelleborg.com
