Item 2.02 Results of Operations and Financial Condition

The information in this Current Report on Form 8-K, including the exhibits attached hereto, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities under that Section. Furthermore, such information, including the exhibits attached hereto, shall not be deemed to be incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

On July 31, 2025, The Southern Company (“Southern Company”) issued a press release regarding its earnings for the three-month and six-month periods ended June 30, 2025, including certain additional information regarding the financial results for such period. A copy of this release is being furnished as Exhibit 99 to this Current Report on Form 8-K.

Use of Non-GAAP Financial Measures

Exhibit 99 to this Current Report on Form 8-K includes earnings and earnings per share in accordance with generally accepted accounting principles (“GAAP”) for the three-month and six-month periods ended June 30, 2025 and 2024. The exhibit also includes earnings and earnings per share (1) for the three-month and six-month periods ended June 30, 2025 and 2024, excluding charges (net of salvage proceeds) and credits, associated legal expenses (net of insurance recoveries), and tax impacts related to plants under construction and (2) for the three-month and six-month periods ended June 30, 2025, excluding (a) accelerated depreciation related to the repowering of certain wind facilities at Southern Power Company and (b) costs associated with the extinguishment of debt at Southern Company. The attached exhibit includes additional information regarding these excluded items, as well as reconciliations of each non-GAAP financial measure to the most comparable financial measure under GAAP. Southern Company believes the presentation of earnings and earnings per share, excluding these items, is useful to investors because it provides investors with additional information to evaluate the performance of Southern Company’s ongoing business activities. Southern Company management also uses earnings

and earnings per share, excluding the effect of these items, to evaluate the performance of Southern Company's ongoing business activities. The presentation of this additional information is not meant to be considered a substitute for financial measures prepared in accordance with GAAP.

Exhibits

Exhibit 99 contains business segment information for Alabama Power Company, Georgia Power Company, Mississippi Power Company, Southern Power Company and Southern Company Gas. Accordingly, this report is also being furnished on behalf of each such registrant.

Southern Company reports second-quarter 2025 earnings

ATLANTA – Southern Company today reported second-quarter earnings of \$0.9 billion, or \$0.80 per share, in 2025 compared with earnings of \$1.2 billion, or \$1.10 per share, in the second quarter of 2024. For the six months ended June 30, 2025, Southern Company reported earnings of \$2.2 billion, or \$2.01 per share, compared with \$2.3 billion, or \$2.13 per share, for the same period in 2024.

Excluding the items described under “Net Income – Excluding Items” in the table below, Southern Company earned \$1.0 billion, or \$0.92 per share, during the second quarter of 2025, compared with \$1.2 billion, or \$1.10 per share, during the second quarter of 2024. For the six months ended June 30, 2025, excluding these items, Southern Company earned \$2.4 billion, or \$2.15 per share, compared with \$2.3 billion, or \$2.13 per share, for the same period in 2024.

NOTE: For more information regarding these non-GAAP adjustments, see the footnotes accompanying the Financial Highlights page of the earnings package.

Adjusted earnings drivers for the second quarter 2025, as compared with the same period in 2024, were higher non-fuel operations and maintenance expenses, prior year gains on transmission asset sales, milder weather, and higher income taxes, depreciation and amortization, and interest expense, partially offset by higher utility revenues.

Second-quarter 2025 operating revenues were \$7.0 billion, compared with \$6.5 billion for the second quarter of 2024, an increase of 7.9%. For the six months ended June 30, 2025, operating revenues were \$14.7 billion, compared with \$13.1 billion for the corresponding period in 2024, an increase of 12.5%.

“This is an exciting time for Southern Company. We performed well both financially and operationally through the first half of the year and remain well positioned to deliver on our 2025 goals,” said Chris Womack, chairman, president and CEO. “Our focus continues to be on balancing growth, reliability and affordability for all customers. The regulatory outcomes we have reached in our service territories demonstrate our ability to work with all stakeholders to deliver on all of our objectives. Because of our team’s commitment to making the right investments, running our business efficiently and effectively, and keeping customers at the center of everything we do, we’ve accomplished a great deal so far this year and we’ve positioned Southern Company for an even brighter future ahead.”

Southern Company’s second-quarter earnings slides with supplemental financial information are available at investor.southerncompany.com.

Southern Company’s financial analyst call will begin at 1 p.m. Eastern Time today, during which Womack, new Chief Financial Officer David P. Porocho and former Chief Financial Officer Daniel S. Tucker will discuss earnings and provide a general business update. Investors, media and the public may listen to a live webcast of the call and view associated slides at investor.southerncompany.com. A replay of the webcast will be available on the site for 12 months.

Cautionary Note Regarding Forward-Looking Statements

Certain information contained in this release is forward-looking information based on current expectations and plans that involve risks and uncertainties. Forward-looking information includes, among other things, statements concerning the likelihood of achieving 2025 goals. Southern Company cautions that there are certain factors that can cause actual results to differ materially from the forward-looking information that has been provided. The reader is cautioned not to put undue reliance on this forward-looking information, which is not a guarantee of future performance and is subject to a number of uncertainties and other factors, many of which are outside the control of Southern Company; accordingly, there can be no assurance that such suggested results will be realized. The following factors, in addition to those discussed in Southern Company’s Annual Report on Form 10-K for the year ended December 31, 2024, Quarterly Reports on Form 10-Q for the quarters ended March 31, 2025 and June 30, 2025 and subsequent securities filings, could cause actual results to differ materially from management expectations as suggested by such forward-looking information: the impact of recent and future federal and state regulatory changes, including tax, environmental and other laws and regulations to which Southern Company and its subsidiaries are subject, as well as changes in application of existing laws, regulations and guidance; the extent and timing of costs and legal requirements related to coal combustion residuals; current and future litigation or regulatory investigations, proceedings, or inquiries, including litigation and other disputes related to the Kemper County energy facility and Plant Vogtle Units 3 and 4; the effects, extent, and timing of the entry of additional competition in the markets in which Southern Company’s subsidiaries operate, including from the development and deployment of alternative energy sources; variations in demand for electricity and natural gas; available sources and costs of natural gas and other fuels and commodities; the ability to complete necessary or desirable pipeline expansion or infrastructure projects, limits on pipeline capacity, public and

policymaker support for such projects, and operational interruptions to natural gas distribution and transmission activities; transmission constraints; the ability to control costs and avoid cost and schedule overruns during the development, construction, and operation of facilities or other projects due to challenges which include, but are not limited to, changes in labor costs, availability, and productivity, challenges with the management of contractors or vendors, subcontractor performance, adverse weather conditions, shortages, delays, increased costs, or inconsistent quality of equipment, materials, and labor, contractor or supplier delay, the impacts of inflation and tariffs, delays due to judicial or regulatory action, nonperformance under construction, operating, or other agreements, operational readiness, including specialized operator training and required site safety programs, engineering or design problems or any remediation related thereto, design and other licensing-based compliance matters, challenges with start-up activities, including major equipment failure or system integration, and/or operational performance, challenges related to future pandemic health events, continued public and policymaker support for projects, environmental and geological conditions, delays or increased costs to interconnect facilities to transmission grids, and increased financing costs as a result of changes in interest rates or as a result of project delays; legal proceedings and regulatory approvals and actions related to past, ongoing, and proposed construction projects, including state public service commission or other applicable state regulatory agency approvals and Federal Energy Regulatory Commission and U.S. Nuclear Regulatory Commission actions; the ability to construct facilities in accordance with the requirements of permits and licenses, to satisfy any environmental performance standards and the requirements of tax credits and other incentives, and to integrate facilities into the Southern Company system upon completion of construction; investment performance of the employee and retiree benefit plans and nuclear decommissioning trust funds; advances in technology, including the pace and extent of development of low- to no-carbon energy and battery energy storage technologies and negative carbon concepts; performance of counterparties under ongoing renewable energy partnerships and development agreements; state and federal rate regulations and the impact of pending and future rate cases and negotiations, including rate actions relating to return on equity, equity ratios, additional generating capacity and transmission facilities, extension of retirement dates for fossil fuel plants, and fuel and other cost recovery mechanisms; the ability to successfully operate Southern Company's electric utilities' generation, transmission, distribution, and battery energy storage facilities, as applicable, and Southern Company Gas' natural gas distribution and storage facilities and the successful performance of necessary corporate functions; the inherent risks involved in operating nuclear generating facilities; the inherent risks involved in generation, transmission, and distribution of electricity and transportation and storage of natural gas, including accidents, explosions, fires, mechanical problems, discharges or releases of toxic or hazardous substances or gases, and other environmental risks; the performance of projects undertaken by the non-utility businesses and the success of efforts to invest in and develop new opportunities; internal restructuring or other restructuring options that may be pursued; potential business strategies, including acquisitions or dispositions of assets or businesses, or interests therein, which cannot be assured to be completed or beneficial to Southern Company or its subsidiaries; the ability of counterparties of Southern Company and its subsidiaries to make payments as and when due and to perform as required; the ability to obtain new short- and long-term contracts with wholesale customers; the direct or indirect effect on the Southern Company system's business resulting from cyber intrusion or physical attack and the threat of cyber and physical attacks; global and U.S. economic conditions, including impacts from geopolitical conflicts, recession, inflation, changes in trade policies (including tariffs and other trade measures) of the United States and other countries, interest rate fluctuations, and financial market conditions, and the results of financing efforts; access to capital markets and other financing sources; changes in Southern Company's and any of its subsidiaries' credit ratings; the ability of Southern Company's electric utilities to obtain additional generating capacity (or sell excess generating capacity) at competitive prices; catastrophic events such as fires, earthquakes, explosions, floods, tornadoes, hurricanes and other storms, droughts, pandemic health events, political unrest, wars, or other similar occurrences; the direct or indirect effects on the Southern Company system's business resulting from incidents affecting the U.S. electric grid, natural gas pipeline infrastructure, or operation of generating or storage resources; impairments of goodwill or long-lived assets; and the effect of accounting pronouncements issued periodically by standard-setting bodies. Southern Company expressly disclaims any obligation to update any forward-looking information.

Financial Highlights

Notes

- (1) Dilution is not material in any period presented. Diluted earnings per share was \$0.79 and \$2.00 for the three and six months ended June 30, 2025, respectively, and \$1.09 and \$2.12 for the three and six months ended June 30, 2024, respectively.
- (2) Earnings include income tax charges of \$4 million for the three and six months ended June 30, 2025 and \$14 million for the three and six months ended June 30, 2024 related to the remeasuring of deferred tax assets associated with the previously recognized estimated probable loss on Plant Vogtle Units 3 and 4 due to changes in the State of Georgia corporate tax rate. Additionally, earnings for the three and six months ended June 30, 2024 include a pre-tax credit to income of \$21 million (\$16 million after tax) related to the estimated probable loss on Plant Vogtle Units 3 and 4 reflecting a revision to Georgia Power Company's total project capital cost forecast resulting from a reduction in remaining expected site demobilization costs and other contractor obligations. Further charges and/or credits may occur; however, the amount and timing are uncertain. Earnings for the three and six months ended June 30, 2025 and 2024 also include charges (net of salvage proceeds), associated legal expenses (net of insurance recoveries), and tax impacts related to Mississippi Power Company's integrated coal gasification combined cycle facility project in Kemper County, Mississippi. Mississippi Power Company expects to incur additional pre-tax period costs through the end of 2025 related to dismantlement of the abandoned gasifier-related assets and site restoration activities, including related costs for compliance and safety, asset retirement obligation accretion, and property taxes, net of salvage.
- (3) Earnings for the three and six months ended June 30, 2025 include pre-tax charges, net of noncontrolling interests impacts, of \$40 million (\$31 million after tax) and \$65 million (\$51 million after tax), respectively, associated with accelerated depreciation related to the repowering of certain wind facilities at Southern Power. Accelerated depreciation related to the equipment being replaced will continue until the commercial operation dates of the repowering projects, which are projected to occur between the third quarter 2026 and the second quarter 2027. At June 30, 2025, the remaining pre-tax accelerated depreciation, net of noncontrolling interest impacts, is projected to total approximately \$215 million in 2025, \$320 million in 2026, and \$25 million in 2027.
- (4) Earnings for the three and six months ended June 30, 2025 include costs associated with the extinguishment of debt at Southern Company as a result of Southern Company's repurchase of certain convertible senior notes. Similar transaction costs may occur in the future at Southern Company or one of its unregulated subsidiaries; however, the amount and timing of any such costs are uncertain.

- (3) Earnings for the three and six months ended June 30, 2025 include pre-tax charges, net of noncontrolling interests impacts, of \$40 million (\$31 million after tax) and \$65 million (\$51 million after tax), respectively, associated with accelerated depreciation related to the repowering of certain wind facilities at Southern Power. Accelerated depreciation related to the equipment being replaced will continue until the commercial operation dates of the repowering projects, which are projected to occur between the third quarter 2026 and the second quarter 2027. At June 30, 2025, the remaining pre-tax accelerated depreciation, net of noncontrolling interest impacts, is projected to total approximately \$215 million in 2025, \$320 million in 2026, and \$25 million in 2027.
- (4) Earnings for the three and six months ended June 30, 2025 include costs associated with the extinguishment of debt at Southern Company as a result of Southern Company's repurchase of certain convertible senior notes. Similar transaction costs may occur in the future at Southern Company or one of its unregulated subsidiaries; however, the amount and timing of any such costs are uncertain.
