

## Wallenstam expands its Group Management

**In 2024, Erik Klang, Business Strategist, will be part of Wallenstam's Group Management team.**

As Business Strategist, Erik is responsible for, among other things, evaluating sales and acquisition prospects for the Group and carrying out transactions that have been decided on.

“I am happy to welcome Erik to the Group Management team in 2024! In 2023, there have been few property transactions in the sector. Opportunities for transactions may be created to a different extent in 2024, therefore it feels appropriate that Erik joins the Group Management team,” says Hans Wallenstam, CEO.

Erik Klang was born in 1986 and was employed by Wallenstam in 2015 as a Project Developer. During the years 2019–2022, Erik served as Land and Development Manager in Stockholm and in early 2023 he moved to Wallenstam’s headquarters in Gothenburg to take up a new role as a Business Strategist.

Wallenstam is expanding its Group Management with Business Strategist Erik Klang during 2024.
