

## Addnode Group's receives renewal from a large state agency

**STOCKHOLM, 2015-11-19** - Ida Infront, a subsidiary of Addnode Group, has received renewed trust to manage and further develop the Agency's various implementations of task management platform iipax. The contract has a total value of approximately SEK 10 million over one year with an extension option for another two years.

The Agency has for many years used Ida Infront task management platform iipax for a number of applications. Common to all systems is very high demands on safety, traceability, robustness and performance. The Agency uses an option to extend the existing contract for consultancy on the management and further development of the Agency's various implementations of task management platform iipax.

"We see it as very pleasing and are proud that the authority has given Ida Infront renewed confidence to assist them in the further development of the very critical applications," said Stefan Jonegård, Managing director of Ida Infront.

The Agency's applications is based on case management platform iipax that contains functions for document and task management, professional e-services, secure information and e-archives. The product is used by a large number of government agencies as well as private companies. iipax is developed and maintained by Ida Infront.
