Item 16 - The Board's proposal for resolution regarding principles for remuneration to senior executives

The Board of Directors proposes that the AGM approve the following guidelines for remuneration and other terms of employment for senior executives in the Group. These principles apply to employment contracts entered into after the decision of the AGM and in the event that changes are made in the existing terms after this date.

It is of fundamental importance for the Board that the principles for remuneration and other terms of employment of senior executives in the Group create long-term motivation and enable the company to retain competent employees who work to attain maximum shareholder and customer value. In order to achieve this, it is vital to uphold fair and internally balanced terms that are market-based and competitive with respect to the structure, scope and level of remuneration. The total remuneration package for the affected individuals should contain a well balanced mix of fixed salary, variable remuneration, long-term incentive schemes, pension benefits, other benefits and terms of notice/termination benefits.

Fixed salary – Fixed salary shall be differentiated on the basis of the individual's role and responsibilities, as well as the individual's competence and experience in relevant positions.

Variable remuneration – Variable remuneration shall be equal to not more than 25% of the total remuneration.

Long-term incentive schemes – Every year, the Board of Directors shall evaluate whether a share-based or share price-based incentive scheme should be proposed to the AGM. Other types of long-term incentive schemes can be decided on by the Board. Any remuneration in the form of long-term incentive schemes shall be consistent with generally accepted practices in the respective market.

Pensions – Senior executives who are entitled to pension benefits shall have pension agreements of the defined contribution type. The mandatory age of retirement for the senior executives who are Swedish citizens is 65 years, and for others according to the pension rules in their respective countries. The amount of benefit payable depends on the amount payable under the pension agreements in force.

Other benefits – Other benefits shall be of limited value in relation to the other remuneration and shall be consistent with general norms in the respective geographic market.

Terms of notice and termination benefits – The President and the company have a mutual period of notice of 18 months. The company's Vice President(s) shall have a corresponding period of notice of six months, and other senior executives three months.

The Board of Directors proposes that the Board be authorised to deviate from the above proposed guidelines in individual cases when there is special reason to do so.

Number of shares/votes and AGM documents, etc.

The total number of shares in the company on the record date amounts to 17,270,962, consisting of 740,668 class A shares and 16,530,294 class B shares, carrying a combined total of 23,936,974 votes.

At the AGM, if any shareholder should so request and the Board feels that this can be done without significant damage to the company, the Board of Directors and the President shall provide disclosures about conditions that could affect the assessment of items on the agenda and conditions that could affect the assessment of the company's or a subsidiary's financial situation and the company's relationship to other group companies.

The financial statements and audit report have been sent to the shareholders in March 2013.
