(3) Compensation in Fiscal 2025

1) Matters relating to the policy regarding amount and calculation of compensation for Directors and Executive Officers

The Company decides its compensation policy for fiscal 2025 by means of its Compensation Committee comprising Outside Directors.

ORIX's business objective is to increase shareholder value over the medium- to long-term. ORIX believes in the importance of each Director's and Executive Officer's responsibly performing his or her duties and cooperation among different business units in order to achieve continued growth of ORIX.

The Compensation Committee believes that in order to accomplish such business objectives, Directors and Executive Officers should place emphasis not only on performance during the current fiscal year, but also on medium- to long-term results. Accordingly, under the basic policy that compensation should provide effective incentives, ORIX takes such factors into account when making decisions regarding the compensation system and compensation levels for Directors and Executive Officers.

In light of this basic policy, the Compensation Committee therefore established the following compensation policies in accordance with the responsibilities of Directors and Executive Officers, based on the resolution at the Compensation Committee meeting held on June 25, 2024.

From April 1, 2024 through March 31, 2025, the Compensation Committee met five times, and the attendance rate of committee members for all of these meetings was 100%. The Compensation Committee conducts a comprehensive review, including confirming whether the specific compensation, etc. for individual Directors and Executive Directors is consistent with the following compensation policies, determines the compensation after verifying that the level of compensation is appropriate based on third-party research reports on Director compensation and other information, and judges whether the compensation is in line with the following compensation policies.

Compensation Policy for Directors

- The compensation policy for Directors who are not also Executive Officers aims for composition of compensation that is effective in maintaining supervisory and oversight functions of Executive Officers' performance in business operations, which is the main duty of Directors. Specifically, ORIX's compensation structure for Directors consists of fixed compensation and share-based compensation.
- Fixed compensation is, in principle, a certain amount that is added to the compensation of the chairperson and member of each committee.
- Share-based compensation reflecting medium- to long-term performance is granted at the time of retirement in the form of ORIX's shares, which is calculated based on the number of points earned and accumulated by the individual while in office until the end of his or her directorship.
- In addition, the Company strives to maintain a competitive level of compensation with Director compensation according to the role fulfilled, and receives third-party research reports on Director compensation for this purpose.

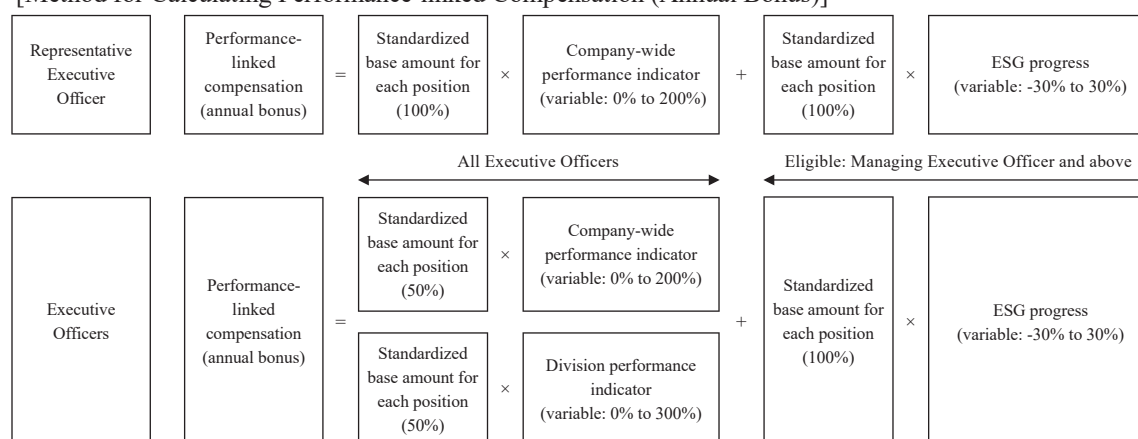

Compensation Policy for Executive Officers

- The compensation policy for Executive Officers, including those who are also Directors, aims for a level of compensation that is effective in maintaining business operation functions, while also incorporating a component that is linked to current period business performance. Specifically, ORIX's compensation structure for Executive Officers consists of fixed compensation, performance-linked compensation (annual bonus), and share-based compensation. The basic policy is a ratio of 1:1:1 for these components.
- Fixed compensation is decided for each individual based on a standard amount for each position.
- For Executive Officers, compensation linked to business performance for fiscal 2025 uses the level of achievement of the consolidated net income growth target as a company-wide performance indicator, adjusting 50% of the position-based standard amount within the range of 0% to 200% while, at the same time, using the level of achievement of the target of the division for which the relevant Executive Officer was responsible as a division performance indicator, adjusting 50% of the position-based standard amount within the range of 0% to 300%. In the case of the Representative Executive Officers, the consolidated net income growth target is used as a sole performance indicator, adjusting the standard amount within the range of 0% to 200%. These performance indicators are selected based on the Company's medium-term management targets.
- In addition to the above, annual bonuses for Executive Officers at the Managing Executive Officer level and above will be increased or decreased by an amount ranging from 0% to 30% of the base amount for each position based on progress toward the ESG-related Key Goals. If progress towards ESG-related Key Goals is proceeding as planned, the annual bonus will not be adjusted.
- Share-based compensation reflecting medium- to long-term performance is granted as a certain number of points based on a standard amount for each position while in office, and the amount of the payment is decided according to the share price at the time of an individual executive officer's retirement.
- In addition, based on third-party compensation research reports, the Company strives to maintain a competitive level of compensation with Executive Officer compensation functioning as an effective incentive.

[Composition Ratio of Compensation]

Fixed compensation (1)	Performance-linked compensation (annual bonus) (1)	Share-based compensation (1)
---------------------------	--	---------------------------------

[Method for Calculating Performance-linked Compensation (Annual Bonus)]

Notes: 1. The compensation for Executive Officers based in overseas subsidiaries and Executive Officers with a high degree of specialization, etc., is decided upon deliberation for each individual and in consideration of the local compensation system and level, and specialization.

2. For performance-linked compensation (annual bonus), the level of achievement of the target of the division for which the relevant Executive Officer was responsible is determined through a comprehensive evaluation that takes into account qualitative factors (target difficulty, performance, preparation for the future, status of ESG initiatives etc.), centered on the annual growth rate of the performance of the relevant division for the fiscal year under review.
3. The Company's share-based compensation system is a system in which a fixed amount of points is annually allocated to Directors and Executive Officers based upon prescribed standards while in office, and ORIX shares are granted through a trust based on the number of accumulated points at the time of retirement. However, the Compensation Committee does not specify the length of time that shares purchased under this system must be held. In addition, if it is determined that a Director or Executive Officer engaged in serious inappropriate conduct while in office that could cause damage to the Company, the Compensation Committee may restrict the payment of share-based compensation.

Compensation Clawback Policy

- The Company has established a Compensation Clawback Policy pursuant to applicable New York Stock Exchange listing standards. This Policy provides for the clawback of performance-linked compensation (annual bonus) received in excess of executive officers' original salaries based on erroneous financial statements in the event of an accounting restatement resulting from material noncompliance with financial reporting requirements.

2) Total amount of compensation for Directors and Executive Officers

 3. The actual indicators for the performance-linked compensation (annual bonus) in the table presented earlier are as follows.
 - Company-wide performance indicator
To support the achievement of medium-term management targets, the Compensation Committee sets milestones for annual growth rate related to consolidated net income. The level of achievement of this milestone was 90%.
 - Division performance indicator
Division performance targets are based on Company-wide performance targets. The level of achievement of division performance targets among the 27 responsible Executive Officers (comprehensive evaluation including qualitative aspects) ranged from 0% to 200%, with a median of 100%.
 4. The share component of the compensation system is a system in which Directors and Executive Officers are awarded a prescribed number of points during their period of service, and at the time of retirement, ORIX's shares are delivered through a trust to them in accordance with the number of points they have accumulated. The amount paid listed in the table above is calculated by multiplying the number of points confirmed to be provided as the portion for fiscal 2025 by the stock market price paid by the trust when ORIX's shares were acquired (¥2,248.39 per share). The actual total amount of the share component of compensation paid in fiscal 2025 was ¥408 million paid to one Executive Officer who retired during fiscal 2025.
 5. The Company did not provide stock options in the form of stock acquisition rights in fiscal 2025.

Opinion

We have audited the consolidated financial statements, which comprise the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in equity and the related notes of ORIX Corporation and its consolidated subsidiaries (collectively referred to as “the Group”), as at March 31, 2025 and for the year from April 1, 2024 to March 31, 2025 in accordance with Article 444-4 of the Companies Act.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position and the results of operations of the Group for the period, for which the consolidated financial statements were prepared, in accordance with the accounting principles prescribed by the second sentence of Article 120-1 of the Ordinance of Companies Accounting, as applied mutatis mutandis pursuant to Article 120-3-3 of the said Ordinance, that prescribes some omissions of disclosure items required under U.S. Generally Accepted Accounting Principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The other information comprises the business report and its supplementary schedules. Management is responsible for the preparation and presentation of the other information. The audit committee is responsible for overseeing the executive officers' and directors' performance of their duties with regard to the design, implementation and maintenance of the reporting process for the other information.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and the Audit Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the accounting principles prescribed by the second sentence of Article 120-1 of the Ordinance of Companies

Accounting, as applied mutatis mutandis pursuant to Article 120-3-3 of the said Ordinance, that prescribes some omissions of disclosure items required under U.S. Generally Accepted Accounting Principles, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with the accounting principles prescribed by the second sentence of Article 120-1 of the Ordinance of Companies Accounting, as applied mutatis mutandis pursuant to Article 120-3-3 of the said Ordinance, that prescribes some omissions of disclosure items required under U.S. Generally Accepted Accounting Principles.

The audit committee is responsible for overseeing the executive officers' and directors' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The selection and application of audit procedures depends on the auditor's judgment.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with the accounting principles prescribed by the second sentence of Article 120-1 of the Ordinance of Companies Accounting, as applied mutatis mutandis pursuant to Article 120-3-3 of the said Ordinance, that prescribes some omissions of disclosure items required under U.S. Generally Accepted Accounting Principles, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purpose of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

Our firm and its engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Notes to the Reader of Independent Auditor's Report:

The Independent Auditor's Report herein is the English translation of the Independent Auditor's Report as required by the Companies Act at the Group's responsibility.
