The LTI 2016 is expected to result in costs of MSEK 1.8 annually for Concentric if participants invest to their individual limits, and full vesting and annual 15 per cent share price growth is assumed. In addition to this, social security charges will apply in the year of vesting, 2019. Social security charges are expected to be expensed to an amount of MSEK 0.6 annually based on the same assumptions.

Issue of warrants and approval of transfer of warrants

As one of several options to secure a cost-efficient supply of Concentric shares for transfer under the LTI 2016, the meeting adopted the board's proposal to issue, free of charge, 250,000 warrants to its wholly-owned subsidiary Concentric Skånes Fagerhult AB. Should the board choose the option to utilize the warrants for delivery of shares under the LTI 2016, the dilution effect will total 0.6 per cent, otherwise the warrants will lapse and the dilution effect be nil.

Furthermore, the meeting resolved to approve that Concentric Skånes Fagerhult AB, on one or more occasions, may transfer warrants to the participants in LTI 2016 in accordance with the terms and conditions of LTI 2016, and otherwise dispose of the warrants in order to cover costs related to, and fulfil obligations occurring under, LTI 2016.

Acquisitions and transfers of own shares

Acquisition of the company's own shares shall be made on Nasdaq Stockholm, for the purpose of, inter alia, being able to improve the company's capital structure and to enable share transfers in accordance with the authorisation for the board to transfer own shares and resolution on transfer of own shares to participants in LTI 2013-2016, to increase the flexibility for the board in connection to potential future corporate acquisitions, as well as to cover costs for LTI 2013-2016 and enable delivery of shares in accordance with LTI 2013-2016. The company's total holdings of own shares must not at any time exceed 10 per cent of the total number of shares in the company.

Transfer of the company's own shares may be done for the purpose of, inter alia, being able to improve the company's capital structure, to cover costs relating to LTI 2013-2016 as well as to increase the flexibility of the board in connection to potential future corporate acquisitions, by facilitating a fast and efficient financing by divesting holdings of own shares. Transfer of own shares can be made either on Nasdaq Stockholm or in any other manner, and the maximum number of shares that may be transferred is the total number of own shares held by the company at the time of the board's resolution to transfer the shares.
