## CTT Systems Announces Cair™ VIP Inflight Humidification Order for one BBJ MAX 8 from Comlux

**CTT SYSTEMS AB ("CTT"), the market leader of aircraft humidity control systems, announces a Cair™ VIP Inflight Humidification order from Comlux Completion for one Boeing BBJ MAX 8. The BBJ MAX 8 completion will feature humidity in the entire aircraft cabin which requires support from three humidifiers. This award is CTT Systems' 89th VIP order for Airbus ACJs/Boeing BBJs.**

"We look forward to working with Comlux on our second BBJ MAX 8 program", says Peter Landquist, Vice President Sales & Marketing of CTT Systems. "We are committed to improving our inflight humidification system even further."

"We have significant experience in working with CTT on several VIP programs, starting with our first VIP Completion in 2010. Humidification is one of the most important features in engineering luxury and comfort for our most prestigious completion clients.", stated Scott Meyer CEO Comlux Completion. Meyer continued, "Cair™ VIP Inflight Humidification has proven to be a very reliable and efficient system."

The CTT VIP Inflight Humidification (IFH) system achieves a comfortable level of 22 % relative humidity throughout the entire aircraft cabin. Without such system the relative humidity is only 3-5 %, far below the recommended level for human comfort, health and well-being. VIP passengers will, on long-haul flights, benefit from the increase in humidity with reduction of dry air related problems (e.g. fatigue, jet-lag, red eyes, dry skin, spread of virus diseases), but also from improved well-being and sleep. The CTT IFH system utilizes evaporative cooling technology that effectively precludes the transfer of bacteria and improves air quality by reducing particles in the cabin air. The system also offers total anti-condensation protection.

### About Comlux

Comlux is one of the leaders in Business Aviation, Transaction and Completion services. For over 15 years, we have been Engineering luxury for VIP customers looking for personal and professional management of their private aviation needs: aircraft sales and acquisitions, aircraft operations and charter management, cabin interiors, maintenance and upgrades. Headquartered in Switzerland with a global presence around the world, Comlux delivers World-class Swiss-made business aviation services at the highest standards of the industry.

### About CTT SYSTEMS

CTT Systems is the market leading provider of humidity control products in aircraft, including moisture control systems to prevent fuselage condensation, and inflight humidifiers for crew and passenger well-being. All products are available for retrofit installations and line-fit on Airbus A380, A350, Boeing 787 and 777X. The crew humidifier is standard equipment in a crew rest compartment on Boeing 787 and standalone option in the crew rest compartment on A380, A350XWB and B777X. The flight deck humidifier is SFE listed on Airbus A350XWB, Boeing 787 and Boeing 777X. Cair™ inflight humidification (IFH) is SFE listed for First/Business Class on A350XWB (Zone 1-3) and Boeing 777X (Zone 1 and 2). The Zonal Drying™ system is basic equipment in all Boeing 787s and optional for the Boeing Next-Generation 737-800 and Airbus A350. Also visit: [www.ctt.se](http://www.ctt.se)
