Diös has completed a directed new share issue of 7,272,727 shares, raising approximately SEK 800 million

Diös Fastigheter AB (publ) ("Diös" or the "Company") has, in accordance with the Company's press release earlier today, completed directed new share issue of 7,272,727 new shares directed to institutional investor resolved upon by the Board of Directors based on the authorization from the Annual General Meeting on 13 April 2021 (the "New Share Issue"). The subscription price in the New Share Issue is SEK 110 per share and has been determined through an accelerated book-building procedure led by Danske Bank A/S, Danmark, Sverige Filial ("Danske Bank"). Through the New Share Issue, the Company will raise approximately SEK 800 million before issue costs.

The New Share Issue

The New Share Issue was oversubscribed and both new and existing institutional shareholders, including the three largest shareholders AB Persson Invest, Erik Paulsson & Bolag and Nordstjernan, participated in the New Share Issue.

The New Share Issue implies that the total number of shares and votes in Diös increases by 7,272,727, from 134,512,438 to 141,785,165, and that the share capital increases by SEK 14,545,421.6, from SEK 269,024,276.0 to SEK 283,569,697.6, which implies a dilution effect for existing shareholders of approximately 5.1 percent based on the total number of shares and votes in the Company after the New Share Issue. The subscription price in the New Share Issue is SEK 110.0 per share and has been determined through an accelerated book-building procedure. Since the subscription price in the New Share Issue has been determined through an accelerated bookbuilding procedure it is the Board of Directors' assessment that the subscription price is market based and reflects prevailing market conditions and demand.

Use of proceeds and the reasons for the deviation from the shareholders' preferential right

Diös is a real estate company, with an active acquisition strategy, that owns and develops commercial and residential properties in 10 prioritised growth cities in northern Sweden. On 30 November 2021 Diös announced, through a separate press release, to acquire five centrally located properties comprising approximately 40,000 sq.m in Skellefteå (the "**Properties**") as a part of Diös growth journey, which further strengthens the Company's current property portfolio in Skellefteå. Proceeds received from the New Share Issue is intended to further strengthen the Company's financial position for continued growth through value-adding investments in current property portfolio and be used to carry out further acquisitions of properties with the right profile in the right locations with a focus on commercial and

SEK 26.6 billion, a portfolio of 336 properties and a lettable area of 1,490,000 sq.m, our vision is to create the most inspiring cities in Sweden. The market extends from Borlänge to Luleå, and the company's head office is in Östersund. residential properties, in accordance with the Company's business plan and strategy.

The reasons for the deviation from the shareholders' preferential rights is that Diös wants to strengthen its financial position in order to retain sufficient financial flexibility for continued growth in accordance with the Company's business plan and strategy after the latest acquisition. The Board of Directors intends to strengthen the Company's financial position by carrying out a directed issue, instead of a rights issue with preferential rights for existing shareholders, as the identified need for additional capital is too limited to motivate the costs of a rights issue with preferential rights as these would be high in relation to the capital raised, and because the time required for carrying out a rights issue with preferential rights is longer and may potentially lead to the Company missing out on potential acquisition opportunities. In addition, the Board of Directors considers it to be positive to increase Diös' institutional ownership base, which is also deemed to be positive for the liquidity of the share.

The Board of Directors' overall assessment is thus that the reasons for carrying out the New Share Issue this way outweighs the principal rule that new share issues shall be carried out with preferential rights for existing shareholders and that a new share issue with deviation from the shareholders' preferential rights is in the interest of the Company and all the shareholders.

Lock-up

In connection with the New Share Issue, the Company has, subject to customary exceptions, agreed to not propose or take actions that entail an increase in the share capital before the publication of the Company's Q1 interim report expected to be published on 28 April 2022, without the consent of Danske Bank.

In addition, the Company's Board of Directors and senior management, that currently owns shares in the Company, have agreed to not sell or otherwise dispose of any shares in the Company before the publication of the Company's Q1 interim report expected to be published on 28 April 2022, subject to customary exceptions and given that the New Share Issue is executed, without the consent of Danske Bank.
