Enea Awarded USD 1.9 Million Contract for Traffic Management

Enea has been awarded a contract by a tier-one communication service provider in Africa to deploy its market-leading Traffic Management solution.

The solution is designed to open new channels for monetization while enhancing the quality of experience for end-users. Furthermore, it will enable the operator to manage the surge in mobile data traffic by reducing congestion and ensuring fair usage policies for all subscribers.

Software licenses corresponding to a value of USD 1.1 million are recognized in the third quarter of 2025, while remaining parts of the agreement are delivered during next year. The total contract value is USD 1.9 million.

“We are proud to announce this new win, which strengthens our leading position in the region and emphasizes our technical edge in the field. Our approach is simple, we deliver value to our customers through our unique products. In this case, we are providing our traffic management solution to enable monetization, optimization, and enhanced quality of user experience,” says Ammar Hamdan, VP Sales EMEA & APAC at Enea.

Enea’s 4G, 5G applications, and Wi-Fi service management products serve hundreds of millions of subscribers across the world. The software is cloud native and is commercially deployed on multiple platforms, including public cloud providers.
