Press release, Gothenburg
May 7, 2013

Exercise of warrants

The exercise of warrants has been registered on May 6, 2013 and resulted in Fingerprint Cards' share capital rising by SEK 52,700, whereby it amounted to SEK 10,300,505 on May 6, 2013. The number of shares has risen by 263,500 Class B shares, whereby the number of Class B shares subsequently amounts to 50,302,527, while the number of Class A shares remains unchanged at 1,200,000, the total number of shares amounts to 51,502,527 shares. The total number of shares thereby corresponds to 62,302,527 voting rights.

The exercise price for the share was SEK 15.74, which means that SEK 4,147,490 was contributed to the company.

An Extraordinary General Meeting on November 9, 2010 resolved to approve the warrants program. In total, employees subscribed for 938,000 warrants, of which 853,000 were exercisable at the start of the exercise period. Each warrant entitled the holder to subscribe for one Class B share for SEK 15.74 kronor during the period February 9, 2013 – May 11, 2013. In total, 694,392 warrants have been exercised at three occasions and 158,608 warrants remained exercisable for subscription of shares at the forth occasion no later than May 11, 2013.

About Fingerprint Cards AB (publ)

Fingerprint Cards AB (Fingerprint Cards) develops, produces and markets biometric components that through analysis and matching of an individual's unique fingerprint verify a person's identity. The technology consists of biometric sensors, processors, algorithms and modules that can be used separately or in combination with each other. The competitive advantages offered by Fingerprint Cards' technology include unique image quality, extreme robustness, low power consumption and complete biometric systems. With these advantages and the ability to achieve extremely low manufacturing costs, the technology can be implemented in volume products such as smart cards and mobile phones, where extremely rigorous demands are placed on such characteristics. Fingerprint Cards' technology can also be used in IT and Internet products for security and access control, etc. Fingerprint Cards AB (FPC) is listed on Nasdaq OMX Stockholm (FING B) and has its head office in Gothenburg, Sweden.
