Fingerprint Cards successfully completes private placement of SEK 120 million

Fingerprint Cards AB (publ) ("FPC" or the "Company") today announces that it has completed a private placement of 2,500,000 new class B shares, providing the company with SEK 120 million before transaction costs.

The private placement, which was announced on 16 December 2013, has allowed FPC to place 2,500,000 new class B shares with international institutional investors at a price of SEK 48 per share.

The proceeds from the private placement are intended to be used to fund the development of the Company and for general corporate purposes.

For the purpose of the private placement, the Board of Directors of FPC has resolved, pursuant to the authorization given by the 2013 annual general meeting, on a directed issue of 2,500,000 new class B shares. The purpose of the resolution to issue new shares, deviating from the shareholders' preferential rights, is primarily to broaden the long-term international institutional ownership in FPC, and to take advantage of an opportunity to raise capital for the above-mentioned purposes on attractive terms, thereby promoting FPC's ability to create further value to all shareholders.

The resolution of the Board of Directors is conditional upon the registration of the new issue with the Swedish Companies Registration Office not later than on 20 December 2013 and Piper Jaffray and Carnegie Investment Bank (the "Placing Agents") not having terminated the placing agreement entered into with FPC prior thereto. FPC will make an announcement when the conditions are satisfied and the new issue is definitive.

Through the issue, the number of class B shares in FPC increases by 2,500,000 from 50,461,135 to 52,961,135 and the share capital increases by SEK 500,000 from SEK 10,332,227 to SEK 10,832,227. The new issue results in an equity dilution of 4.6 percent after completed issue.

Johan Carlström, CEO of FPC, comments
