

# PRESS RELEASE

April 14, 2022, Lund, Sweden

## **Immunovia CPT PLA Code submission for the IMMray™ PanCan-d test is on the agenda of American Medical Association**

**LUND, SWEDEN** – Immunovia, Inc., the American subsidiary of Immunovia AB (Nasdaq Stockholm: IMMNOV), has submitted an application for a Current Procedural Terminology (CPT) Proprietary Laboratory Analyses (PLA) code to the American Medical Association (AMA) for the IMMray PanCan-d test.

A PLA code for IMMray PanCan-d would allow health care professionals to specifically identify IMMray PanCan-d when submitting information and claims to health insurances and payers.

The PLA submission by Immunovia will be reviewed and voted on by the Technical Advisor Group on May 13<sup>th</sup> during a panel meeting. If approved, the issued PLA code would be published on July 1, 2022, and would be effective on October 1, 2022.

The CPT codes offer doctors and health care professionals a uniform language for coding medical services and procedures. It is the most widely accepted medical nomenclature used in the US to report physician and healthcare professional services including laboratory tests under public and private health insurance programs.

PLA Codes are an addition to the CPT code set approved by the AMA CPT Editorial Panel. They are alpha-numeric CPT codes with a corresponding descriptor for laboratories or manufacturers that want to identify their test more specifically.

## **About Immunovia**

Immunovia AB is a diagnostic company with the vision to revolutionize blood-based diagnostics and increase survival rates for patients with cancer.

Our first product, IMMray™ PanCan-d is the only blood test currently available specifically for the early detection of pancreatic cancer. The test has unmatched clinical performance. Commercialization of IMMray™ PanCan-d started in August 2021 in the USA and IMMray™ PanCan-d is offered as a laboratory developed test (LDT) exclusively through Immunovia, Inc. For more information see: [www.immunoviainc.com](http://www.immunoviainc.com).

Immunovia collaborates and engages with healthcare providers, leading experts and patient advocacy groups globally to make this test available to all high-risk pancreatic cancer groups.

The USA, the first market in which IMMray™ PanCan-d is commercially available, is the world's largest market for the detection of pancreatic cancer with an estimated value of more than USD 4 billion annually.

Immunovia's shares (IMMNOV) are listed on Nasdaq Stockholm. For more information, please visit [www.immunovia.com](http://www.immunovia.com).
