### **Major order for Nederman India worth just over SEK 7 million**

Nederman has received its biggest ever order for oilmist systems in India. The customer is Fiat India in cooperation with Tata Motors Ltd and is worth just over SEK 7 million.

Tata Motors, India's second biggest car manufacturer, and Fiat, have a well-established multi-level partnership. A new Fiat factory for manufacturing gearboxes for both Fiat and Tata cars is being built in India. The Nederman order is for over 40 complete NOM oilmist systems plus a few Filter systems. The installation should be finished by the end of April 2008.

Nederman is fully in charge from design to installation. The installation will be carried out by a locally contracted Nederman team, and will start in the autumn.

Shirish Bhaskar Sathe, project manager, India says: "This is a very prestigious order for Nederman India. Designing and installing centralised/cellular oil mist filtration systems is a completely new concept in India. The installation will be a good reference point for the Indian market. Today, the Indian authorities expect companies to follow the environmental rules and regulations which are constantly being introduced."

Nederman has had good cooperation with Tata Motors Limited in India. At the start of the year Nederman was awarded an order thanks to its better solution technology and network support. That order consisted of complete Exhaust extraction systems for truck assembly department.

Nederman is the global, leading provider of environmentally friendly products, systems and services to all types of industry sectors, such as extraction of dust, smoke, automobile exhaust fumes, and equipment for industrial cleaning. These are based on a vacuum technology which encompasses the entire range from high vacuum to middle and low vacuum. Nederman also has an extensive programme of self-retractable hose and cable reels for water, air, oil and other media.

Nederman's systems contribute in several ways to creating clean, efficient and safe workplaces all over the world.

The company's commitments to customers encompass everything from preliminary studies and project planning to installation, operational start-up and service.

The manufacturing is certified according to ISO 9001 and ISO 14000. Units for production and assembly are located in Sweden, Norway and Canada.

Nederman's products and systems are marketed by our own subsidiaries in 24 countries, and by agents and distributors in more than 50 countries.

The Group has approximately 560 employees.
