Helsingborg 25<sup>th</sup> January 2008

### **Nederman receive large order from the wind power industry**

Nederman Denmark has received an order worth approximately SEK 7 million. The customer is Vestas Damiel, Spain. The order includes a number of complete ATEX earthed high vacuum systems (for explosive industry environments) the capturing and filtering of particles which occur with the handling of composite material. Nederman will be responsible for the installation and the construction plant will start operation in June.

During 2007 Nederman received orders from the wind turbine industry for the total of around SEK 30 million.

The rotary blades of the windmills are produced of a composite material which is a material that is used more and more within this type of manufacturing industry, for amongst other things cars, boats airplanes and tanks.
