

Pressrelease

Helsingborg 1st April 2009

Nederman receives a large order from the Danish wind power industry. The order is worth MSEK 16.

Nederman Denmark has received another order from Vestas Head Quarter in Denmark for about MSEK 16.

The order includes Nederman's system solutions for capturing and filtering of particles which occur with the handling of composite material.

The system will be included in a major extension of a current Vestas facility for rotary blades in Tianjin, China.

The systems will be installed and ready during the month of September. Nederman Denmark will be responsible for the installation.
