

## **Nederman receives order worth over 30 MSEK from Bradken® in Queensland, Australia**

**Nederman has entered into an agreement to supply one of Bradken's foundries in Queensland, Australia with a complete solution for fume mitigation for their electric arc furnaces.** Bradken® approached Nederman to assist them with the development of a solution to further reduce the level of emissions from the electric arc furnaces in their Queensland foundry.

"The order from Bradken® shows the strength of our presence and position in APAC and is an important advancement in our growing Australian market. We are honoured that Bradken® recognise Nederman's expertise for this application and look forward to working with them on this project", says Sven Kristensson, CEO Nederman.

Bradken® is a global manufacturer and supplier of differentiated consumable and capital products to the mining and construction, rail and transit, energy and general industrial markets and a leading ferrous-casting company with an extensive network of 59 manufacturing, sales and service centres throughout the world. The Queensland foundry manufactures components for e.g. construction machines, including crawler systems, couplers and yokes.

Installation and commissioning will be completed during the 4th quarter 2013.
