

Nederman signs agreements worth around SEK 50 million with the Zhongwang Aluminium Group, China

Nederman has signed agreements to supply the Zhongwang Aluminium Group with complete solutions for filtrating fumes from the aluminum smelting furnaces to be installed at their new plant in northern China. The agreements cover several installations and are worth totally around SEK 50 million. The first sub-order worth around SEK 20 million has been received.

The Zhongwang Aluminium Group is one of the largest enterprises for supplying aluminium profiles in the world. The order includes the design and complete turnkey supply of Nederman filters and coolers, engineered and produced by the Nederman factory in Suzhou, China, as well as project management by the Chinese organization.

“This order confirms the strength of our Chinese organization and our competitiveness with solutions for creating eco-efficient production. We will continue to expand our business in China and we are proud of the confidence that the Zhongwang Aluminium Group has in us,” says Sven Kristensson, CEO of Nederman.

The remaining sub-orders in the agreement are expected to be placed during 2014. Installation is planned to take place from May 2014 to March 2015.
