

PRESS RELEASE

Helsingborg, April 20, 2015

## **Nederman receives order from major aluminium producer in the UK.**

**The order, worth approximately SEK 30 million, will provide design, products and installation of a complete fume abatement plant.**

The order will be booked in Q2, 2015, and the installation is targeted to be completed during 2015.

The facility, which supplies plate products to the world's aerospace, defense, tooling and general engineering markets, will be upgraded to comply with regulations and the company's environmental targets. Nederman has worked closely with the company to find the best solution to meet new requirements.

"The aluminium industry is interesting and puts high demands on our products and solutions. This order confirms our ability to fulfill the need of eco-efficient solutions, creating both economic and ecological benefits for our customer, says Hans Dahlén, SVP, Division EMEA.
