ANNUAL REPORT

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-K**

☒ **ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Fiscal Year Ended March 29, 2025

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Transition Period from _____ to _____

Commission File Number 0-17795

CIRRUS LOGIC, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

800 W. 6th Street Austin, Texas
(Address of principal executive offices)

77-0024818
(I.R.S. Employer Identification No.)

78701
(Zip Code)

Registrant's telephone number, including area code: (512) 851-4000

Securities registered pursuant to Section 12(b) of the Act:

| Title of each class | Trading Symbol | Name of each exchange on which registered |
|---------------------------------|----------------|---|
| Common stock, \$0.001 par value | CRUS | The NASDAQ Global Select Market |

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the registrant's voting and non-voting common equity held by non-affiliates was \$4,316,767,046 based on the closing price reported on the NASDAQ Global Select Market as of September 28, 2024. Stock held by directors, officers and stockholders owning 5 percent or more of the outstanding common stock were excluded as they may be deemed affiliates. This determination of affiliate status is not a conclusive determination for any other purpose.

As of May 21, 2025, the number of outstanding shares of the registrant's common stock, \$0.001 par value, was 51,560,135.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information contained in the registrant's proxy statement for its annual meeting of stockholders to be held July 29, 2025 is incorporated by reference in Part III of this Annual Report on Form 10-K.

CIRRUS LOGIC, INC.

PART I

Forward-Looking Statements

This Annual Report on Form 10-K and certain information incorporated herein by reference contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements included or incorporated by reference in this Annual Report on Form 10-K, other than statements that are purely historical, are forward-looking statements. In some cases, forward-looking statements are identified by words such as “expect,” “anticipate,” “target,” “project,” “believe,” “goals,” “estimates,” “will,” “would,” “could,” “can,” “may,” “plan,” and “intend”, and other similar types of words and expressions. Variations of these types of words and similar expressions are intended to identify these forward-looking statements. Any statements that refer to our plans, beliefs, expectations, strategies or other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that these forward-looking statements are predictions based on management’s expectations as of the date of this filing and are subject to risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Factors that could cause actual results to differ materially from those indicated or implied by our forward-looking statements include, but are not limited to, those discussed in *Item 1A. Risk Factors* and elsewhere in this report, as well as in the documents we file with the Securities and Exchange Commission (the “SEC”), including our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

We caution you not to place undue reliance on these forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K, and we undertake no obligation, and expressly disclaim any duty, to revise or update this information, whether as a result of new information, events or circumstances after the filing of this report with the SEC, except as required by law. We urge readers to carefully review and consider the various disclosures made in this Annual Report on Form 10-K and in other documents we file from time to time with the SEC that disclose risks and uncertainties that may affect our business. All forward-looking statements, expressed or implied, included in this Annual Report on Form 10-K and attributable to Cirrus Logic, Inc. are expressly qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that we may make or persons acting on our behalf may issue.

ITEM 1. *Business*

Cirrus Logic, Inc. (“Cirrus Logic,” “We,” “Us,” “Our,” or the “Company”) is a leader in low-power, high-precision mixed-signal processing solutions that create innovative user experiences for the world’s top mobile and consumer applications.

We were incorporated in California in 1984, became a public company in 1989 and were reincorporated in the State of Delaware in February 1999. Our primary facility, which houses engineering, sales and marketing, and administrative functions, is located in Austin, Texas. We also have offices in various other locations in the United States, United Kingdom, Taiwan, the People’s Republic of China, South Korea, Japan, and Singapore. Our common stock, which has been publicly traded since 1989, is listed on the NASDAQ’s Global Select Market under the symbol CRUS.

We maintain a website with the address www.cirrus.com. We are not including the information contained on our website as a part of, or incorporating it by reference into, this Annual Report on Form 10-K. We make available free of charge through our website our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, and amendments to these reports, as soon as reasonably practicable after we electronically file such material with, or furnish such material to the SEC. We also routinely post other important information on our website, including information specifically addressed to investors. We intend for the investor relations section of our website to be a recognized channel of distribution for disseminating information to the securities marketplace for purposes of complying with our disclosure obligations under SEC Regulation Fair Disclosure. To receive a free copy of this Annual Report on Form 10-K, please forward your written request to

Cirrus Logic, Inc., Attn: Investor Relations, 800 W. 6th Street, Austin, Texas 78701, or via email at Investor@cirrus.com. In addition, the SEC maintains a website at www.sec.gov that contains reports, proxy and information statements filed electronically with the SEC by Cirrus Logic.

Company Strategy

Cirrus Logic targets growing markets where we can leverage our expertise in low-power, high-precision mixed-signal processing to solve complex problems that span the analog-to-digital divide. The Company is committed to a three-pronged strategy for growing our business: first, maintaining our leadership position in smartphone audio; second, increasing high-performance mixed-signal (“HPMS”) content in smartphones; and third, leveraging our strength in audio and HPMS to expand into additional applications and markets with both new and existing components.

The Company develops custom and general market components that embody our latest innovations, which we use to engage key players in a particular market or application. We focus on building strong engineering relationships with our customers’ product teams and developing highly differentiated components that address their technical and price requirements across product tiers. Many of our products include programmable aspects and are comprised of our best-in-class hardware, which incorporates software algorithms from some combination of our own intellectual property (“IP”), and our third-party partners’ and customers’ IP. When we have been successful with this approach, an initial design win can often lead to an opportunity to further increase our content with a customer over time through the incorporation of new features, the integration of other system components into our products, and the addition of new products.

Markets and Products

The Company’s product lines are categorized into Audio and HPMS. While we continue to see new opportunities with audio products, we believe that our HPMS product line presents the largest opportunity to drive product diversification and fuel exciting avenues of growth in the coming years. See Note 9 - Revenues for disclosure of revenue by product line categories.

The following provides a detailed description of our Audio and HPMS product lines.

Audio Products: Amplifiers, codecs, smart codecs, analog-to-digital converters, digital-to-analog converters and standalone digital signal processors.

HPMS Products: Camera controllers, haptics and sensing solutions, and battery and power ICs.

AUDIO PRODUCTS

Cirrus Logic is a leading supplier of low-power, low-latency, high-precision audio components that are used in a variety of applications including smartphones, laptops, tablets, AR/VR headsets, wearables, home theater systems, automotive entertainment systems and professional audio systems. Our extensive portfolio of audio products include: amplifiers; “codecs,” which are components that integrate analog-to-digital converters (“ADCs”) and digital-to-analog converters (“DACs”) into a single integrated circuit (“IC”); “smart codecs,” which are codecs with integrated digital signal processing; and standalone digital signal processors (“DSPs”). Additionally, the Company’s SoundClear® technology consists of a broad portfolio of tools, software and algorithms that help to differentiate our customers’ products by improving the user experience with features such as louder, high-fidelity sound, high-quality audio playback, voice capture, and hearing augmentation.

HPMS PRODUCTS

By leveraging our extensive mixed-signal design and low-power processing expertise, Cirrus Logic has expanded beyond our traditional audio domain into HPMS products, which are primarily used in smartphones. Our portfolio of HPMS products include: camera controllers for automatic focus and optical image stabilization;

haptic and sensing solutions to deliver highly responsive and consistent tactile feedback; and battery and power ICs for improving battery health and performance. This product line also includes a broad product portfolio that services automotive, industrial, and imaging applications.

Customers, Marketing, and Sales

We offer products worldwide through both direct and indirect sales channels. Our major customers are among the world's leading electronics manufacturers. We target both large existing and emerging customers that obtain value from our expertise in advanced analog and mixed-signal design processing, systems-level integrated circuit engineering and embedded software development. We derive our revenues from both domestic and international sales. Our domestic sales force includes direct sales offices located primarily in California and Texas. International sales offices and staff are located in Japan, People's Republic of China, Singapore, South Korea, Taiwan, and the United Kingdom. We supplement our direct sales force with external sales representatives and distributors. Our worldwide sales force provides geographically specific support to our customers and specialized selling of product lines with unique customer bases. See Note 18—Segment Information, of the Notes to Consolidated Financial Statements contained in Item 8 for further detail and for additional disclosure regarding sales and property, plant and equipment, net, by geographic locations.

Since the components we produce are largely proprietary and generally not available from secondary sources, we generally consider our end customer to be the entity specifying the use of our component in their design. These end customers may then purchase our products directly from us, through distributors, or indirectly from third-party manufacturers contracted to produce their designs. For fiscal year 2025, 2024 and 2023, our ten largest end customers, represented approximately 96 percent, 95 percent and 92 percent of our net sales, respectively. For fiscal years 2025, 2024, and 2023, we had one end customer, Apple, Inc., who purchased through multiple contract manufacturers and represented approximately 89 percent, 87 percent, and 83 percent, of the Company's total net sales, respectively. No other customer or distributor represented more than 10 percent of net sales in fiscal years 2025, 2024, or 2023.

Manufacturing

As a fabless semiconductor company, we contract with third parties for wafer fabrication and product assembly and test. We use a variety of foundries in the production of wafers, primarily supplied by GLOBALFOUNDRIES Inc., ("GlobalFoundries") and Taiwan Semiconductor Manufacturing Company, Limited ("TSMC"). In fiscal year 2022, the Company entered a Capacity Reservation and Wafer Supply Commitment Agreement with GlobalFoundries to reserve capacity and set wafer pricing for products purchased pursuant to the agreement through calendar year 2026. On February 18, 2025, the Capacity Reservation Agreement was amended (the "Amendment") to define the quarterly spread of the remaining wafer quantities under the agreement. See Note 13 - Commitments and Contingencies of the Notes to the Consolidated Financial Statements for additional details. The Company's primary assembly and test houses include Advanced Semiconductor Engineering, Inc., STATS ChipPAC Pte. Ltd., Amkor Technology, Inc., Siliconware Precision Industries Co., Ltd., and SFA Semicon Co., Ltd. Our outsourced manufacturing strategy allows us to concentrate on our design strengths and minimize fixed costs and capital expenditures while giving us access to advanced manufacturing facilities. It also provides the flexibility to source multiple leading-edge technologies through strategic relationships. After wafer fabrication by the foundry, third-party assembly vendors package the wafer die. The finished products are then tested before shipment to our customers. While we believe we are able to mitigate the risk of supply disruption by using multiple outside foundries, an interruption of supply by one or more of these foundries could materially impact the Company. We maintain business interruption insurance to help reduce the risk of wafer supply interruption; however, the impact of an interruption could exceed our insurance. Our supply chain management organization is responsible for the management of all aspects of the fabrication, assembly, and testing of our products, including process and package development, test program development, and production testing of products in accordance with our ISO-certified quality management system.

Although our products are made from basic materials (principally silicon, metals and plastics), all of which are available from a number of suppliers, capacity at wafer foundries sometimes becomes constrained. The limited availability of certain materials may impact our suppliers' ability to meet our demand needs or impact the

price we are charged. The prices of certain other basic materials, such as metals, gases and chemicals used in the production of circuits can increase as demand grows for these basic commodities. In most cases, we do not procure these materials ourselves; nevertheless, we are reliant on such materials for manufacturing our products because our outside foundry and package and test subcontractors must procure them. To help mitigate risks associated with constrained capacity, we use multiple foundries and assembly and test sources.

Patents, Licenses and Trademarks

We rely on patent, copyright, trademark, and trade secret laws to protect our intellectual property, products, and technology. As of March 29, 2025, we held approximately 4,130 pending and issued patents worldwide, which include approximately 1,570 granted U.S. patents, 350 U.S. pending patent applications and various international patents and applications. Our U.S. patents expire in calendar years 2025 through 2045. While our patents are an important element of our success, our business as a whole is not dependent on any one patent or group of patents. We do not anticipate any material effect on our business due to any patents expiring in 2025, and we continue to obtain new patents through our ongoing research and development.

We have maintained U.S. federal trademark registrations for CIRRUS LOGIC, CIRRUS, Cirrus Logic logo designs, and SoundClear, among others. These U.S. registrations may be renewed as long as the marks continue to be used in interstate commerce. We have also filed or obtained foreign registration for these marks in other countries or jurisdictions where we conduct, or anticipate conducting, international business. To complement our own research and development efforts, we have also licensed and expect to continue to license, a variety of intellectual property and technologies important to our business from third parties.

Segments

We determine our operating segments in accordance with Financial Accounting Standards Board (“FASB”) guidelines. Our Chief Executive Officer (“CEO”) has been identified as the chief operating decision maker (“CODM”) as defined by these guidelines.

The Company operates and tracks its results in one reportable segment, but reports revenue performance in two product lines: Audio and HPMS. Our CEO receives and uses enterprise-wide financial information to assess financial performance and allocate resources. Our product lines have similar characteristics and customers and share operations support functions such as sales, public relations, supply chain management, various research and development and engineering support, in addition to the general and administrative functions of human resources, legal, finance and information technology. Therefore, there is no discrete financial information maintained for these product lines.

See Note 9—Revenues and Note 18 — Segment Information, of the Notes to Consolidated Financial Statements contained in Item 8 for further details including sales by product line and sales and property, plant and equipment, net, by geographic locations.

Research and Development

We concentrate our research and development efforts on the design and development of new products for each of our principal markets. We also fund certain advanced-process technology development, as well as other emerging product opportunities. Our future success is highly dependent upon our ability to develop complex new products, transfer new products to volume production, introduce them into the marketplace in a timely fashion, and have them selected for design into products of systems manufacturers. Our future success may also depend on assisting our customers with integration of our components into their new products, including providing support from the concept stage through design, launch and production ramp.

Competition

Markets for our products are highly competitive, and we expect that competition will continue to increase. Our ability to compete effectively and to expand our business will depend on our ability to continue to recruit key engineering talent, execute on new product developments, partner with customers to create compelling

products for their applications and provide cost efficient versions of existing products. We compete with other semiconductor suppliers that offer standard semiconductors, application-specific standard products and fully customized ICs, including embedded software, chip and board-level products.

While no single company competes with us across all our product lines, we face significant competition in all markets where our products are available. We expect to face additional competition from new entrants in our markets, which may include both large domestic and international IC manufacturers, as well as smaller, emerging companies. Our primary competitors include, but are not limited to, AKM Semiconductor Inc., Analog Devices Inc., QUALCOMM Incorporated, Realtek Semiconductor Corporation, Renesas Electronics Corporation, Shanghai Awinic Technology Co., Ltd., Shenzhen Goodix Technology Co, Ltd., Skyworks Solutions Inc., ST Microelectronics N.V., Synaptics Incorporated and Texas Instruments, Inc.

The principal competitive factors in our markets include: time to market; quality of hardware/software design and end-market systems expertise; price; product performance, features, quality and compatibility with standards; access to advanced process and packaging technologies at competitive prices; and sales and technical support, which includes assisting our customers with integration of our components into their new products and providing support from the concept stage through design, launch and production ramp.

Product life cycles may vary greatly by product category. For example, many consumer products have shorter design-in cycles; therefore, our competitors have increasingly frequent opportunities to achieve design wins in next-generation systems. Conversely, this also provides us frequent opportunities to displace competitors in products that have previously not utilized our design.

Backlog

Sales are made primarily pursuant to short-term purchase orders for delivery of products. The quantity actually ordered by the customer, as well as the shipment schedules, are frequently revised, without significant penalty, to reflect changes in the customer's needs. The majority of our backlog is typically requested for delivery within six months. In markets where the end system life cycles are relatively short, customers typically request delivery in six to twelve weeks. We believe a backlog analysis at any given time gives little indication of our future business except on a short-term basis, principally within the next 60 days.

We utilize backlog as an indicator to assist us in production planning. However, backlog is influenced by several factors including market demand, pricing, and customer order patterns in reaction to product lead times. Quantities actually purchased by customers, as well as prices, are subject to variations between booking and delivery because of changes in customer needs or industry conditions. As a result, we believe that our backlog at any given time is an incomplete indicator of future sales.

Governmental Regulations

Our business and operations around the world are subject to government regulation at the national, state or local level addressing, among other matters, applicable environmental laws, health and safety laws and regulations, and laws relating to export controls, economic sanctions, and trade, including tariffs.

We believe that our properties and operations comply in all material respects with applicable laws protecting the environment and worker health and safety. As a fabless semiconductor company, we do not manufacture our own products but do maintain research and laboratory space at certain of our facilities to facilitate the development, evaluation, and testing of our products. These laboratories may maintain small quantities of hazardous materials. While we believe we are in material compliance with applicable law concerning the safeguarding of these materials and with respect to other matters relating to health, safety and the environment, the risk of liability relating to hazardous conditions or materials cannot be eliminated completely. To date, we have not incurred significant expenditures relating to environmental compliance at our facilities.

In addition to environmental and worker health and safety laws, our business is subject to various rules and regulations and executive orders relating to export controls and trade sanctions. Certain of our products are subject to the Export Administration Regulations ("EAR"), which are administered by the United States Department of Commerce's Bureau of Industry and Security ("BIS"), and we may from time to time be required

to obtain an export license before we can export certain products or technology to specified countries or customers. In addition, the EAR imposes broad controls on entities listed on sanctioned persons lists, including the BIS Entity List. If one of our customers is listed on the BIS Entity List or another U.S. government sanctioned persons' list, we may be precluded from doing business with that customer. For example, certain of our Chinese customers, or their affiliated entities, have been added to the BIS Entity List, which limits our ability to support these customers. We cannot guarantee that export control restrictions or sanctions imposed in the future will not prevent, or materially limit, our ability to conduct business with certain customers or in certain countries. Any failure to comply with these laws could result in governmental enforcement actions, including substantial monetary penalties and denial of export privileges.

For further discussion relating to the potential effects that compliance with government regulation may have upon our business, refer to "Item 1A. Risk Factors."

Human Capital

Our long-term success depends, in part, on attracting and retaining highly qualified technical, marketing, engineering and administrative talent. At Cirrus Logic, our goal is to maintain an employee-centric culture that encourages innovation, teamwork, and individual growth. The Company strives to cultivate an inclusive workplace where all employees feel they belong, diverse backgrounds and perspectives are valued, and everyone has an opportunity to reach their full potential. Additionally, we value our employees' feedback and regularly seek their input. This enables us to collect information that helps to identify and address challenges and continuously improve.

We believe that we offer competitive compensation and health and wellness benefits, designed to improve the quality of our employees' lives. Cirrus Logic prides itself on providing continuous learning and development opportunities, such as, technical training and professional development programs to support our employees' growth. Our comprehensive benefits, such as health insurance coverage and emotional well-being support are tailored for each country. Our benefits focus on family care, including fertility coverage, paid parental leave, dependent care benefits, and benefits for surrogacy and adoption assistance programs. The Company also provides fitness facilities and classes at several locations, as well as other employee benefits including health screenings, COVID-19 testing and vaccinations, flu shots, and free confidential virtual mental health support. Cirrus Logic provides retirement planning programs with matching contributions, such as a 401(k) plan in the United States and defined contribution pension plans for our employees in other countries.

We believe that these benefits, combined with our employee-centric culture, contribute to low voluntary employee turnover. In fiscal year 2025, our voluntary turnover rate was 8 percent, below the technology industry benchmarks (2024 Radford Salary Increase and Turnover Study_Second Edition Refresh (December 2024)).

As of March 29, 2025, we had 1,660 employees, 99 percent of whom were full-time, 71 percent were engaged in research and product development activities, 24 percent in sales, marketing, general and administrative activities, and 5 percent in manufacturing-related activities. As of March 29, 2025, 13 percent of our employees worldwide were foreign nationals and 64 percent of our total workforce reside in the U.S., with 36 percent residing offshore. We also employ individuals on a temporary basis and use the services of contractors as necessary. We have never had a work stoppage, and the majority of our employees are not represented by collective bargaining agreements.

We believe that diverse teams fuel innovation, and we are committed to creating an inclusive culture that supports all employees, regardless of gender, veteran status, race, ethnicity, or ability. As of March 29, 2025, our global workforce was 81 percent male and 19 percent female, and based on self-reported identification, our workforce in the United States was composed of 52 percent White, 35 percent Asian, 8 percent Hispanic or Latino, 3 percent Black or African American, and 2 percent Other.

Cirrus Logic is committed to promoting a safe, secure, and productive environment for our employees, customers, and visitors. Our global health and safety policy outlines our commitment to employees. Employees working in our research facilities receive specialized, role-specific health and safety training. The Company takes measures to reduce employee exposure to potential health hazards in our offices and research facilities and

conducts regular inspections to maintain a safe and healthy work environment. A risk management system also provides technicians with additional data and information on the potential hazards associated with certain chemicals. In fiscal year 2025, the Company had no monetary losses as a result of legal proceedings associated with employee health and safety violations and received no notices of violation related to health and safety at our facilities, nor have we ever had a work-related fatality. In calendar year 2024, we had one recordable injury and zero lost-time incidents as defined by the U.S. Occupational Safety and Health Administration.

For more information on the commitment to our employees and other Environmental, Social and Governance (“ESG”) topics visit <https://www.cirrus.com/company/esg>. We are not including the information contained on our website as a part of, or incorporating it by reference into, this Annual Report on Form 10-K.

ITEM 1A. Risk Factors

Our business faces significant risks. The risk factors set forth below may not be the only risks that we face and there is a risk that we may have failed to identify all possible risk factors. Additional risks that we are not aware of yet or that currently are not material may adversely affect our business operations. You should read the following cautionary statements in conjunction with the factors discussed elsewhere in this and other Cirrus Logic filings with the SEC. These cautionary statements are intended to highlight certain factors that may affect the financial condition and results of operations of Cirrus Logic and are not meant to be an exhaustive discussion of all of the risks that may be associated with an investment in our securities.

Summary of Risk Factors

The following summarizes the principal factors that make an investment in the Company speculative or risky. This summary should be read in conjunction with the remainder of this “*Item 1A. Risk Factors*” section and should not be relied upon as an exhaustive summary of the material risks facing our business.

Business & Operational Risks

- Risks related to dependence on a limited number of customers and distributors and a lack of diversification in our revenue base, including risks related to the loss of, or a significant reduction in orders from, or pricing on products sold to, any key customer or distributor
- Risks related to global economic conditions, including economic downturns or recessions and the effects of tariffs and inflationary pressures
- Risks related to third-party manufacturing and supply chain relationships, including risks associated with our efforts to increase the geographic diversity and regional resilience of our supply chain
- Risks related to our long-term capacity reservation and wafer supply agreement with GlobalFoundries
- Risks related to fluctuation in sales in the consumer electronics and smartphone markets
- Risks related to our international operations, including government trade policies and delays or disruptions to our international subcontractors, which may be impacted by political/economic factors
- Risks related to system security, cyber-attacks, data breaches, and disruptions to our IT systems
- Risks related to strong competition in the semiconductor market, including competition to attract, hire, and retain highly qualified personnel
- Risks related to our fabless business model
- Risks related to the use or application of emerging technologies, including artificial intelligence
- Risks related to acquiring other companies or technologies
- Risks related to product concentration, difficulty in forecasting sales due to customers’ ability to cancel or reschedule orders, and declining average selling prices

Strategic & Industry Risks

- Risks related to joint development or other custom product collaborations, including the development of products for specific system architectures
- Risks related to the timely development, production, and acceptance of new and advanced technologies while complying with environmental regulations
- Risks related to increasing complexity of our products and the potential for security vulnerabilities or other product defects and difficulties in transitioning to advanced manufacturing process technologies
- Risks related to changes in the system architecture of our customers' end products
- Risks related to our ability to protect our intellectual property rights

Financial Risks

- Risks related to exposure to tax liabilities and changes in tax laws
- Risks related to fluctuations in inventory, including risks related to our customers' ability to cancel/ reschedule orders on short notice
- Risks related to fluctuations in operating results, stock price, and foreign currency exposures
- Risks related to debt obligations, including under our Second Amended Credit Agreement

Legal & General Risks

- Risks related to intellectual property claims and litigation and export control regulations, including the potential for illicit diversion of products
- Risks related to certain provisions of Delaware law and our Certificate of Incorporation and Bylaws
- Risks related to corporate social responsibility initiatives and ESG matters
- Risks related to owning real property

Business and Operational Risks

We depend on a limited number of customers and distributors for a substantial portion of our sales, and the loss of, or a significant reduction in orders from, or pricing on products sold to, any key customer or distributor could significantly reduce our sales and our profitability.

While we generate sales from a broad base of customers worldwide, the loss of any of our key customers, or a significant reduction in sales or selling prices to any key customer, or reductions in selling prices made to retain key customer relationships, would significantly reduce our revenue, margins, and earnings and adversely affect our business. For the twelve-month periods ending March 29, 2025, March 30, 2024, and March 25, 2023, our ten largest end customers represented approximately 96 percent, 95 percent and 92 percent of our net sales, respectively. For the twelve-month periods ending March 29, 2025, March 30, 2024, and March 25, 2023, we had one end customer, Apple Inc., who purchased through multiple contract manufacturers and represented approximately 89 percent, 87 percent and 83 percent of the Company's total net sales, respectively.

We may not be able to maintain or increase sales to certain of our key customers for a variety of reasons, including:

- most of our customers can stop incorporating our products into their own products with limited notice to us and suffer little or no penalty;
- our agreements with our customers typically do not require them to purchase a minimum quantity of our products;
- many of our customers have pre-existing or concurrent relationships with our current or potential competitors that may affect the customers' decisions to purchase our products;

- many of our customers have sufficient resources to internally develop technology solutions and semiconductor components that could replace the products that we currently supply in our customers' end products;
- our customers face intense competition from other manufacturers that do not use our products;
- our customers may be subject to investigations and litigation that could result in injunctive or other relief that negatively impacts sales of their products, which in turn would result in a decrease in demand for our products;
- our customers regularly evaluate alternative sources of supply in order to diversify their supplier base, which increases their negotiating leverage with us and their ability to either obtain or dual-source components from other suppliers; and
- our current customers may be hesitant in some cases to award new business to us based on their desire to manage their supply chain risks around any potential over-dependence on a supplier or supply chain.

In addition, our dependence on a limited number of key customers may make it easier for them to demand favorable commercial terms or to pressure us on price reductions or to not accept price increases resulting from unexpected or additional cost increases or fees associated with our suppliers. We have experienced pricing pressure from certain key customers, and we expect that the average selling prices ("ASPs") for certain of our products will decline from time to time, potentially reducing our revenue, margins, and earnings.

Our key customer relationships often require us to develop new products that may involve significant technological challenges. Our customers frequently place considerable pressure on us to meet tight development schedules. In addition, we have entered, and may again enter in the future, into customer agreements providing for exclusivity periods during which we may only sell specified products or technology to a specific customer. Even without exclusivity periods, the products that we develop are often specific to our customer's system architecture and frequently cannot be sold to other customers. Accordingly, we have in the past and may in the future devote a substantial amount of resources to strategic relationships, which could detract from or delay our completion of other important development projects or the development of next-generation products and technologies. Notwithstanding our efforts, our customers are not always obligated to purchase new products that we develop for them, and their failure to do so could have a material effect on our operating results, financial condition, and cash flows.

Our reliance on certain customers may continue to increase, which could heighten the risks associated with having key customers, including making us more vulnerable to significant reductions in revenue, margins, and earnings; pricing pressure; and other adverse effects on our business.

Changes in government trade policies, including the imposition of tariffs and export restrictions, could have an adverse impact on our business operations and sales.

The United States or foreign governments may enact changes in government trade policies that could adversely impact our ability to sell products in certain countries and increase prices associated with our customers' products. For example, the U.S. government has recently imposed and/or threatened to impose tariffs on nearly all imported goods. In addition, the U.S. government has imposed significant tariffs aimed at China due to perceived unfair trade practices. In return, the Chinese government has imposed significant tariffs on certain U.S. products. Additionally, export restrictions imposed by the U.S. government, including the addition of licensing requirements by the United States Department of Commerce's Bureau of Industry and Security ("BIS") through the addition of companies to the BIS Entity List, as well as trade restrictions imposed by the U.S. related to goods imported from regions in China with records of forced labor and other human rights issues, may require us to suspend our business with certain international customers and/or manufacturing entities if we conclude or are notified by the U.S. government that such business presents a risk of noncompliance with U.S. regulations.

We cannot predict what actions may be taken with respect to tariffs or trade relations, what products may be subject to such actions, or what actions may be taken by other countries in response. The current global trade situation is highly dynamic, and it is not possible to anticipate the timing or duration of such tariffs, export restrictions, or other regulatory actions. These government trade policies may materially adversely affect our sales and operations with current customers as well as impede our ability to develop relationships with new customers.

While we have in the past received licenses from the U.S. government to export certain items to companies on the BIS Entity List, there can be no assurances that we will be able to continue to obtain or maintain licenses for the manufacture or sale of future products or for other entities if the U.S. government adds other companies to the BIS Entity List and/or subjects them to additional trade restrictions. Despite our receipt of licenses, BIS Entity List restrictions may also encourage foreign customers to seek a greater supply of similar or substitute products from competitors or other third parties who are not subject to these restrictions or to develop their own solutions, especially as the Chinese government develops its domestic semiconductor industry. If export restrictions and tariffs are sustained for a long period of time, or increased, or if other export restrictions are imposed in the future, our long-term competitiveness as a supplier, particularly in China, will likely be impacted.

There is a risk of further escalation and retaliatory actions between the U.S. and other foreign governments. If significant tariffs or other restrictions are placed on goods exported and/or imported from/to China or other countries, or any related counter-measures are taken, our revenue and results of operations may be materially harmed. These tariffs may also make our customers' products more expensive for consumers, which may reduce consumer demand.

The U.S. government also may seek to implement more protective trade measures, not just with respect to China but with respect to other countries as well. This could include new or higher tariffs and even more restrictive trade barriers, such as prohibiting certain types of, or all, sales of certain products or products sold by certain parties into the U.S. Any increased trade barriers or restrictions on global trade could have a materially adverse impact on our business and financial results.

We may not be able to increase the geographic diversity and regional resilience of our supply chain, which could have an adverse impact on our financial results and potential business opportunities.

Many of our customers and potential customers are placing increased emphasis on geographic diversity and regional resilience in their supply chains, particularly seeking to reduce reliance on manufacturing concentrated in Taiwan and to mitigate broader geopolitical and tariff risks. To achieve geographic diversity, we may need to make increased investments in qualifying geographically diversified manufacturing and test facilities, which could result in additional costs and impact our operating margins. In addition, certain customers have already requested that we hold additional inventory to protect against potential supply disruptions, and such demands may increase over time. These requirements increase our working capital needs, expose us to inventory obsolescence risks, and limit our manufacturing flexibility. If we are unable to meet customer expectations for geographic diversity, inventory management, or supply continuity, we may experience delays in product qualifications, pricing pressure, or loss of business opportunities. Competitors with manufacturing operations in the United States or with a broader geographic manufacturing footprint may be better positioned to meet evolving customer requirements, which could place us at a competitive disadvantage.

We are dependent on third-party manufacturing and supply chain relationships for all of our products. Our reliance on third-party foundries and suppliers involves certain risks that may result in increased costs, delays in meeting our customers' demand, and loss of revenue.

We do not own or operate a semiconductor fabrication facility and do not have the resources to manufacture our products internally. We use third parties to fabricate, assemble, package, and test the vast majority of our products. As a result, we are subject to risks associated with these third parties, including:

- insufficient capacity available to meet our demand on time;
- inability of our suppliers to obtain the equipment or replacement parts necessary to fully operate their facilities or expand available manufacturing capacity;
- inadequate manufacturing yields and excessive costs;
- inability of these third parties to obtain an adequate supply of raw materials;
- extended lead times on supplies used in the manufacturing of our products;
- difficulties selecting and integrating new subcontractors;

- limited warranties on products supplied to us;
- potential increases in prices (including the cost of freight and potential tariffs); and
- increased exposure to potential misappropriation of our intellectual property.

Outside of our long-term supply agreement for wafer fabrication supply with GlobalFoundries, our outside foundries and assembly and test suppliers generally manufacture our products on a purchase order basis, and we have few other long-term supply arrangements with these suppliers. Therefore, our third-party manufacturers and suppliers are not obligated to supply us with products for any specific period of time, quantity, or price, except as may be provided in any particular purchase order or in relation to an existing supply agreement. A manufacturing or supply disruption experienced by one or more of our outside suppliers or a disruption of our relationship with an outside foundry could negatively impact the production of certain of our products for a substantial period of time.

We have experienced the effects of industry-wide manufacturing capacity constraints. These supply challenges have impacted, and may continue to impact, our ability to fully satisfy increases in demand for some of our products. We do not typically manufacture the majority of these products at more than one foundry or more than one assembly and test subcontractor, and the costs and effort associated with the potential transfer of any portion of our supply chain to a backup supplier would likely be substantial. Therefore, if one or more of our third-party manufacturers and suppliers are not able to provide us sufficient capacity to meet our current demand, we may not be able to ship our products to customers on time and in the quantity requested, which could cause an unanticipated decline in our sales and damage our existing customer relationships and our ability to establish new customer relationships. Capacity constraints could further result in increased prices in our supply chain, which, if we are unable to increase our selling prices or if we have previously committed to pricing, could result in lower revenues and margins that could adversely affect our financial results.

In addition, difficulties associated with adapting our technology and product design to the proprietary process technology and design rules of outside foundries can lead to reduced yields of our products. Since low yields may result from either design or process technology failures, yield problems may not be effectively determined or resolved until an actual product exists that can be analyzed and tested to identify process sensitivities relating to the design rules that are used. As a result, yield problems may not be identified until well into the production process, and resolution of yield problems may require cooperation between our manufacturer and us. This risk could be compounded by the offshore location of certain of our manufacturers, increasing the effort and time required to identify, communicate, and resolve manufacturing yield problems. Manufacturing defects that we do not discover during the manufacturing or testing process may lead to costly product recalls. These risks may lead to increased costs or delayed product delivery, which would harm our profitability and customer relationships.

In some cases, our requirements may represent a small portion of the total production of the third-party suppliers. As a result, we are subject to the risk that a producer will cease production of an older or lower-volume process that it uses to produce our parts. We cannot provide any assurance that our external foundries will continue to devote resources to the production of parts for our products or continue to advance the process design technologies on which the manufacturing of our products are based. Each of these events could increase our costs, lower our gross margin, and cause us to hold more inventories, or materially impact our ability to deliver our products on time.

Our results may be affected by fluctuation in sales in the consumer electronics and smartphone markets.

Because we sell products primarily in the consumer electronics and smartphone markets, we are likely to be affected by any decrease in demand or unit volumes, seasonality in the sales of our products, and the cyclical nature of these markets. We have experienced, and expect to continue to experience, slowing growth in a maturing smartphone market, due to, among other factors, market saturation in developed countries, lengthening replacement cycles, and a growing market for refurbished devices. Further, a decline in consumer confidence and consumer spending relating to economic conditions, increases in our customers' products' prices (including any potential impact of increased tariffs), inflationary pressures, terrorist attacks, armed conflicts, oil prices, global

health conditions, natural disasters, and/or the political stability of countries in which we operate or sell products could have an adverse effect on consumer demand in these markets, which would likely impact our business, operating results, and financial condition.

We have a long-term capacity reservation and wafer supply agreement with GlobalFoundries, which includes obligations to purchase wafers from GlobalFoundries through calendar year 2026. If our requirements are different from the number of wafers that we have committed to purchase from GlobalFoundries, or if GlobalFoundries is not able to satisfy our manufacturing requirements, our results of operations and financial condition could be adversely impacted.

In 2021, in an effort to alleviate some of our future expected supply constraints, the Company entered into a Capacity Reservation and Wafer Supply Commitment Agreement with GlobalFoundries on July 28, 2021 to reserve capacity and set wafer pricing for products purchased pursuant to the agreement through 2026. In February 2025, this agreement was amended to reflect an agreed change in the number of wafers to be shipped on a quarterly basis during calendar years 2025 and 2026.

Although we believe this agreement is a good use of our financial resources and secures capacity for certain products through 2026, the agreement with GlobalFoundries involves certain risks that have resulted and may in the future result in excess inventory, or may place us at a competitive disadvantage, have a negative impact on our liquidity, or adversely affect our results of operations and financial condition. Pursuant to the agreement, the Company is required to purchase, and GlobalFoundries is required to supply, a certain number of wafers on a quarterly basis. Customers, on occasion, cancel, reschedule orders, or change future product plans on short notice, which can lead to our actual wafer requirements being less than the number of wafers required to meet the applicable wafer purchase requirements, potentially resulting in excess inventory or higher inventory unit costs, both of which may adversely impact our gross margin and our results of operations.

Additionally, the agreement sets forth pricing for wafer purchases pursuant to the agreement through 2026. If market conditions change and wafer prices in the market decrease significantly below what is contemplated in the agreement, the agreement may put us at a competitive disadvantage relative to our competitors.

Even with a long-term supply agreement, we are still subject to risks that GlobalFoundries will be unable to meet its supply commitments, achieve anticipated manufacturing yields, manufacture our products on a timely basis, or provide additional wafer capacity beyond its current contractual commitments sufficient to meet our customers' product demands. If this were to occur, we may experience delays in product launches or supply shortages for certain products, which could cause an unanticipated decline in our sales and damage our existing customer relationships and our ability to establish new customer relationships. In addition, if GlobalFoundries experiences financial difficulties or goes into bankruptcy, it could be difficult or impossible, or may require substantial time and expense, for us to recover any or all of our prepayments made as part of the agreement.

Any of the foregoing could materially harm our liquidity, financial condition and results of operations and could put us at a disadvantage relative to our competitors.

The lack of diversification in our revenue and customer base increases the risk of an investment in our company, and our consolidated financial condition, results of operations, and stock price may deteriorate if we fail to diversify.

Although we continuously explore opportunities to diversify our revenue and customer base, our sales, marketing, and development efforts have historically been focused on a limited number of customers and opportunities. Many companies have the ability to manage their risk by product, market, and customer diversification. However, we lack diversification, in terms of both the nature and scope of our business, which increases the risk of an investment in our company. If we cannot diversify our customer and revenue opportunities, our financial condition and results of operations could deteriorate.

System security and data breaches, cyber-attacks and other related cyber security incidents could disrupt our internal operations and/or supply chain, result in the loss of our, our customers', and our suppliers' proprietary and confidential information, adversely impact our reputation and business, and result in potentially significant expenses, costs, liabilities and other negative consequences, any or all of which could adversely affect results of operations and our stock price.

Despite implementing security measures, we are subject to risk, both at Cirrus Logic and through our supply chain, of attack from malicious threat actors, which could include agents of organized crime or nation-state or nation-state supported actors. We manage and store various proprietary information and sensitive or confidential data relating to our business and our employees. In addition, we manage and store a significant amount of proprietary and sensitive or confidential information from third parties, such as our customers and suppliers. Unauthorized insiders and/or third-party threat actors may be able to penetrate our security measures, evade our controls, or exploit vulnerabilities in our systems or our third-party providers' systems and misappropriate or compromise our, our customers' or our suppliers' proprietary and confidential information, including intellectual property and personal information of our current and former employees, create system disruptions, or cause shutdowns. Threat actors also may be able to develop and deploy viruses, worms, phishing attempts, ransomware, and other malicious software that attack our websites, computer systems, access to critical information, products, or otherwise exploit security vulnerabilities. The sophistication, scale and frequency of cyber-attacks has continued to increase and evolve at a rapid pace, and the risk of attack may be heightened when our employees are working remotely. Artificial intelligence and machine learning also may be used for certain cybersecurity attacks, improving or expanding the existing capabilities of threat actors in manners we cannot predict at this time, resulting in greater risks of security incidents and breaches. The risk of state-sponsored or geopolitical-related cybersecurity incidents has also increased due to ongoing geopolitical tensions with China or incidents, such as the war in Ukraine or the Israel-Hamas war. Our prioritization of security measures and remediation of known vulnerabilities may prove inadequate and we may be unable to anticipate or protect against attacks. If an incident occurs, we may be unable to detect it for an extended period of time.

Any breach of our security measures or the loss, inadvertent disclosure, or unapproved dissemination of proprietary information or sensitive or confidential data about us, our customers, our suppliers or our employees, including the potential loss or disclosure of such information or data, could result in numerous risks and adverse consequences. Such consequences include remediation costs, litigation and potential liability for us, including as a result of U.S. or foreign governmental investigations or enforcement actions, penalties for violation of applicable laws or regulations, including laws and regulations in the United States and other jurisdictions relating to the collection, use and security of user and other personally identifiable information and data, damage to our brand and reputation, the loss of sales and customer or supplier relationships, negative impacts to our employee recruiting and retention, loss of intellectual property protection, risk of inadequate insurance coverage and increased insurance premiums, and numerous other financial, legal and business risks, any or all of which could harm our business, financial condition and results of operations and result in significant stock price volatility. In addition to our own systems, our business also is reliant upon the security of various third parties in our supply chain, and any breach of their systems and securities could result in our being subjected to the numerous risks and adverse consequences noted above.

In the past, we have experienced attempted cybersecurity attacks and we anticipate continuing to be subject to such attempts, particularly given the evolving nature of the cybersecurity threat landscape; however, we believe that the past threats have not had a material impact on our business.

We may be adversely impacted by global economic conditions. As a result, our financial results and the market price of our common shares may decline.

We have been and may continue to be adversely impacted by global economic conditions, including as a result of rapid and fluctuating changes in global trade policies. Global economic conditions could make it difficult for our customers, our suppliers, and us to accurately forecast and plan future business activities and could cause global businesses to defer or reduce spending on our products, or increase the costs of manufacturing our products. During challenging economic times our customers and distributors may face issues gaining timely access to sufficient credit, which could impact their ability to make timely payments to us. If that were to occur,

we may be required to increase our allowance for doubtful accounts and our days sales outstanding would increase. Additionally, if our own supply chain or others from whom our customers source are financially impacted and ultimately unable to deliver their required component(s), then our customers may delay or cancel their orders from us.

We cannot predict the timing, strength, or duration of any economic slowdown or subsequent economic recovery. However, inflation continues to be an issue in the U.S. and overseas, resulting in rising transportation, wages, and other costs. Inflation has and may continue to increase our cost of labor, manufacturing, and other costs. If our costs continue to be subject to significant inflationary pressures, we may not be able to fully offset such higher costs with increased prices or revenues. Our inability or failure to do so could harm our business, financial condition, and results of operations. In addition, inflationary pressures could also result in a decline in consumer confidence and spending, potentially impacting demand for our customers' end products in the consumer electronics and smartphone markets. Any such decline would likely impact our business, operating results, and financial condition.

Moreover, we regularly maintain cash balances at third-party financial institutions in excess of the Federal Deposit Insurance Corporation ("FDIC") insurance limit or at financial institutions located outside the U.S. where FDIC insurance does not apply. If a depository institution fails to return our deposits or if a depository institution is subject to other adverse conditions in the financial or credit markets, there is no guarantee that we have access to such uninsured deposits, which could restrict access to our cash or cash equivalents and could adversely impact our operating liquidity, financial condition, and results of operations.

Strong competition in the semiconductor market may harm our business.

Our industry is intensely competitive and is frequently characterized by rapid technological change, price erosion, technological obsolescence, and a push towards integrated circuit ("IC") component integration. Because of shortened product life cycles and even shorter design-in cycles in a number of the markets that we serve, our competitors have increasingly frequent opportunities to achieve design wins in next-generation systems. As markets mature and components become commoditized, competitors that can tolerate lower margins/operating income pose a risk to our profitability and growth. In the event that competitors succeed in supplanting our products, our market share may not be sustainable and our net sales, gross margin and operating results would be adversely affected.

We compete in a number of markets. Our principal competitors in these markets include AKM Semiconductor Inc., Analog Devices Inc., Qualcomm Incorporated, Realtek Semiconductor Corporation, Renesas Electronics Corporation, Shanghai Awinic Technology Co., Ltd., Shenzhen Goodix Technology Co, Ltd., Skyworks Solutions Inc., ST Microelectronics N.V., Synaptics Incorporated and Texas Instruments, Inc.

Many of these competitors have greater financial, engineering, manufacturing, marketing, technical, distribution, and other resources; broader product lines; and broader intellectual property portfolios. We also expect intensified competition from emerging companies and from customers who develop their own IC products or other technologies. In addition, some of our current and future competitors maintain their own fabrication facilities, which could benefit them in connection with cost, capacity, and technical issues.

We cannot provide assurances that we will be able to compete successfully in the future or that competitive pressures will not adversely affect our financial condition and results of operations. Competitive pressures could reduce market acceptance of our products, reduce selling prices, and increase expenses, which could adversely affect our business and financial condition.

Our sales could be materially impacted by the failure of other component suppliers to deliver required parts needed in the final assembly of our customers' end products.

The products we supply our customers are typically a portion of the many components provided from multiple suppliers to complete the final assembly of an end product. If other component suppliers are unable to deliver their required component(s) for the final end product to be assembled, our customers may delay, or ultimately cancel, their orders from us. For example, shipping routes in the Middle East have been and may in the future be disrupted, lengthening the time for shipments to reach their destinations.

Because we operate a fabless business model, we may not be eligible for certain U.S. government incentives and tax credits offered to promote domestic semiconductor production.

From time to time, governments may provide subsidies or make other investments that could give competitive advantages to certain semiconductor companies. For example, in 2022, the U.S. government passed the Creating Helpful Incentives to Produce Semiconductors & Sciences Act to provide \$52.7 billion of funding to U.S.-based semiconductor companies to promote domestic production. Because we operate a fabless business model, we may not be eligible for such incentives from the U.S. government at this time. However, many of our current and future competitors maintain their own fabrication facilities and may secure such funding, which could benefit them in connection with cost, capacity, and technical issues. Additionally, to remain competitive with top talent, we may need to incur additional costs to provide certain additional benefits even though we are not receiving subsidies or other government funding. These competitive pressures could adversely affect our business, financial condition, and results of operations.

If we fail to attract, hire and retain qualified personnel, we may not be able to develop, market, or sell our products or successfully manage our business.

Competition for highly qualified personnel in our industry, particularly for employees with technical backgrounds, is intense. Some companies in our industry have adopted flexible remote work arrangements providing more flexibility than ours that further increase competition for talent. Accordingly, we expect competition for qualified personnel to intensify because there are only a limited number of individuals in the job market with the skills that we require.

There also is a risk that changes in immigration laws and regulations, or their administration or enforcement, can impair our ability to attract and retain qualified engineering personnel. In the U.S., where a significant portion of our research and development teams are located, tightening of immigration controls may adversely affect the employment status of non-U.S. engineers and other key technical employees or further impact our ability to hire new non-U.S. employees. Moreover, certain immigration policies in the U.S. may make it more difficult for us to recruit and retain highly skilled foreign national graduates of universities in the U.S., additionally limiting the pool of available talent.

There are significant costs to the Company associated with attracting and retaining qualified personnel in key technology positions. Recruiting and employee costs, such as cash and stock-based compensation, have increased relative to historic levels and may continue to increase, which could adversely affect our results of operations. Further, the loss of the services of key personnel or our inability to hire new personnel with the requisite skills or to assimilate talent could restrict our ability to develop new products or timely enhance existing products, sell products to our customers, or manage our business effectively.

Because we depend on subcontractors internationally to perform key manufacturing functions for us, we are subject to political, economic, climate and natural disaster risks that could disrupt the fabrication, assembly, packaging, or testing of our products.

We depend on third-party subcontractors, primarily in Asia, for the fabrication, assembly, packaging, and testing of most of our products. International operations may be subject to a variety of risks, including political instability, global health conditions, currency controls, exchange rate fluctuations, changes in import/export regulations, tariff and freight rates, as well as the risks of natural disasters such as earthquakes, tsunamis, and floods. The potential physical impacts of climate change, including high heat events, power or water shortages, fires, rising sea levels, changes in storm patterns or intensities, or other extreme weather conditions, are uncertain and could impact operations at our subcontractors. Any disruption to our manufacturing cycle could adversely affect our operations and financial results.

Although we seek to reduce our dependence on any one subcontractor, the substantial majority of our semiconductor wafers are manufactured by TSMC at fabs in Taiwan, and GlobalFoundries in Singapore and Germany. This concentration of subcontractors and manufacturing operations, subjects us to the risks of conducting business internationally, including associated political and economic conditions. If we experience manufacturing problems at a particular location, or a supplier is unable to continue operating due to financial

difficulties, natural disasters, political or economic turmoil or conflict, or other reasons, we would be required to transfer manufacturing to a backup supplier. Transferring from a primary supplier to another facility would likely result in increased production costs and a delay in production. Further, such a transition may not be possible, particularly in a supply constrained environment. There are only a few foundries that are currently available for certain advanced processing technologies that we utilize or may utilize. As a result, delays in our production or shipping by the parties to whom we outsource these functions could reduce our sales, damage our customer relationships, and damage our reputation in the marketplace, any of which could harm our business, results of operations, and financial condition.

For example, we rely on several third-party suppliers located in Taiwan. Any deterioration in the social, political, or economic conditions in Taiwan, particularly as it relates to China-Taiwan relations, may disrupt our business operations and materially and adversely affect our results of operations. Similarly, our operations could be harmed, and our costs could increase, if the war in Ukraine results in a shortage of materials that our suppliers require to manufacture our products.

In addition, we are currently working with a supplier that is headquartered in Israel on the development of additional manufacturing alternatives. The declaration of war by Israel against Hamas, the rising tensions in the Middle East, and the resulting actions that may be taken by governments in response to the war could potentially impact or delay the supplier's ability to provide timely engineering support that may be required to advance our efforts to develop future manufacturing alternatives.

Risks relating to the adoption, use or application of emerging technologies, including artificial intelligence may impact financial results and could result in reputational and financial harm and liability.

Artificial intelligence ("AI") is a rapidly developing field that presents both risks and opportunities. For example, our business operations and research and development tasks may benefit from the use of AI tools. It is possible that we may not leverage this technological change as effectively as our competitors. Additionally, our use of AI may also increase vulnerability to cybersecurity risks, including through unauthorized use or misuse of AI tools and bad inputs or logic or the introduction of malicious code incorporated into AI generated code. While we have implemented security measures and developed internal policies to govern the use of AI, risks exist relating to the protection of data (including the potential exposure of our or our customers' proprietary and confidential information), the misuse of third-party intellectual property, or our failure to identify and correct deficiencies or inaccuracies generated by AI. Our failure to utilize AI responsibly may impact our reputation and could have a negative impact on our business, operating results, and financial condition.

In general, our customers may cancel or reschedule orders on short notice without incurring significant penalties; therefore, our sales and operating results in any quarter are difficult to forecast.

In general, we rely on customers issuing purchase orders to buy our products rather than long-term supply contracts. Customers on occasion cancel, reschedule, or change future product plans on short notice without incurring significant penalties. Additionally, it is possible that some customers may place orders for our products that exceed their actual demand and may cancel all or portions of their order if circumstances change. Cancellations, reductions, or delays of orders from any significant customer could have an adverse effect on our business, financial condition, and results of operations and may require us to recognize excess inventory write-off charges.

Because our expense levels to a large extent are fixed in the short term, we likely will be unable to adjust spending on a timely basis to compensate for any unexpected shortfall in sales and our operating results could be harmed in any particular quarter.

Our international operations subject our business to additional political and economic risks that could have an adverse impact on our business.

In addition to international sales constituting a large portion of our net sales, we maintain international operations, sales, and technical support personnel. International expansion has required, and will continue to

require, significant management attention and resources. There are risks inherent in expanding our presence into non-U.S. regions, including, but not limited to:

- difficulties in staffing and managing non-U.S. operations, including compliance with local employment regulations;
- failure in non-U.S. regions to adequately protect our intellectual property, patent, trademarks, copyrights, know-how, and other proprietary rights and the risk of potential theft or compromise of our intellectual property;
- global health conditions and potential natural disasters, including those resulting from climate change;
- power or water shortages or other operational disruptions, including those resulting from extreme weather conditions;
- political, social and economic instability in international regions, including wars;
- international currency controls and exchange rate fluctuations; - financial accounting and reporting burdens and complexities;
- vulnerability to terrorist groups targeting U.S. interests abroad;
- legal uncertainty regarding liability and compliance with non-U.S. laws and regulatory requirements; and
- changing U.S. regulation of foreign operations, including potential sanctions.

If we are unable to successfully manage the demands of our international operations, it may have an adverse effect on our business, financial condition, or results of operations.

Our products may be subject to average selling prices that decline over time. If we are unable to maintain or increase average selling prices for existing products, increase our volumes, introduce new or enhanced products with higher selling prices, or reduce our costs, our business and operating results could be harmed.

Historically in the semiconductor industry, average selling prices of products have decreased over time. Moreover, our dependence on a limited number of key customers may make it easier for key customers to pressure us to reduce prices. Further, we have made commitments not to exceed certain pricing with some key customers on some of our products, and as a result, we may not be able to pass on any unexpected or additional cost increases or fees associated with our suppliers.

If the average selling price of any of our products declines or we are unable to pass on increased supply costs to our customers, and we are unable to increase our unit volumes, introduce new or enhanced products with higher margins, and/or reduce manufacturing costs to offset anticipated decreases in the prices of our existing products, our operating results may be adversely affected.

In addition, because of procurement lead times, we are limited in our ability to reduce total costs quickly in response to any reductions in prices or sales shortfalls. Because of these factors, we may experience adverse fluctuations in our future operating results on a quarterly or annual basis.

We are subject to risks relating to product concentration.

We derive a substantial portion of our revenues from a limited number of products, and we expect these products to represent a large percentage of our revenues in the near term. Customer acceptance of these products is critical to our future success. Our business, operating results, financial condition and cash flows could therefore be adversely affected by:

- a decline in demand for any of our more significant products;
- a decline in the average selling prices of our more significant products ;
- failure of our products to achieve continued market acceptance;

- competitive products;
- new technological standards or changes to existing standards that we are unable to address with our products;
- manufacturing or supply issues that prevent us from meeting our customers' demand for these products;
- a failure to release new products or enhanced versions of our existing products on a timely basis;
- the failure of our new products to achieve market acceptance or grow as expected; and
- any changes to a customer's future product plans.

We have significant international sales, and risks associated with these sales could harm our operating results.

International sales represented 99 percent, 99 percent, and 97 percent of our net sales in fiscal year 2025, 2024 and 2023, respectively.

We expect international sales to continue to represent a significant portion of product sales. This reliance on international sales subjects us to certain risks, including risks associated with political and economic instability, global health conditions, currency controls, exchange rate fluctuations, changes in import/export regulations, and tariff and freight rates. For example, the political or economic instability in a given region may have an adverse impact on the financial position of end users in the region, which could affect future orders and harm our results of operations. Our international sales operations involve a number of other risks including, but not limited to:

- unexpected changes in government regulatory requirements;
- sales, VAT, or other indirect tax regulations and treaties and potential changes in regulations and treaties in the United States and in and between countries in which we manufacture or sell our products;
- changes to countries' banking and credit requirements;
- changes in diplomatic and trade relationships, including as a result of geopolitical conflict;
- delays resulting from difficulties in obtaining export licenses for technology, particularly in China;
- further changes in U.S. trade policy, including potential adoption and expansion of trade restrictions, higher tariffs, or cross border taxation by the U.S. government involving other countries, particularly China, that might impact overall customer demand for our products or affect our ability to manufacture and/or sell our products overseas;
- tariffs and other barriers and restrictions, particularly in China;
- competition with non-U.S. companies or other domestic companies entering non-U.S. markets in which we operate;
- longer sales and payment cycles; - problems in collecting accounts receivable;
- the burdens of complying with a variety of non-U.S. laws; and
- changes to economic, social, or political conditions in countries such as Taiwan and China, where we have significant operations.

In addition, our competitive position may be affected by the exchange rate of the U.S. dollar against other currencies. While our sales are predominately denominated in U.S. dollars, increases in the value of the dollar would increase the price in local currencies of our products in non-U.S. markets and make our products relatively more expensive. We cannot provide assurances that regulatory, political, and other factors will not adversely affect our operations in the future or require us to modify our current business practices.

We may acquire other companies or technologies, which may create additional risks, including risks associated with our ability to successfully integrate these acquisitions into our business.

We continue to consider future acquisitions of other companies, or their technologies or products, to improve our market position, broaden our technological capabilities, and expand our product offerings. Acquiring companies or technologies involves a number of risks, including, but not limited to:

- the potential disruption of our ongoing business;
- unexpected costs or incurring unknown liabilities;
- the diversion of management resources from other strategic and operational issues;
- the inability to retain the employees of the acquired businesses;
- difficulties relating to integrating the operations and personnel of the acquired businesses;
- adverse effects on our existing customer relationships or the existing customer relationships of acquired businesses;
- the potential incompatibility of the acquired business or their business customers;
- adverse effects associated with entering into markets and acquiring technologies in areas in which we have little experience; and
- acquired intangible assets, including goodwill, becoming impaired as a result of technological advancements or worse-than-expected performance of the acquired business.

If we are unable to successfully address any of these risks, our business could be harmed.

We depend on the use of information technology systems; disruptions to these systems could impact our ability to perform necessary business operations and have an adverse impact on our financial condition.

Our business relies on the security and availability of our information technology systems and solutions, such as hardware, software, cloud services, and networks. This includes, among other things, human capital solutions, financial solutions, customer relationship management solutions, design and software development solutions and tools, and data center processing. While we own and manage some of these information technology systems directly, we also rely on third-party information technology systems in the operation of our business. Our operations could be harmed and our costs could increase if any of these systems are disrupted for any reason, including information technology system failures or cyber-attacks; natural disasters; power or water shortages; political, social or economic instability including military, terrorist, or other catastrophic events; labor disruptions; insolvency of third-parties on which we rely; or other operational issues or system failures. We have experienced outages in the past and could be subjected to periods in which our systems and solutions or the third-party systems on which we rely are negatively impacted, degraded or unavailable, potentially for extended periods of time. If this were to occur, we could be subject to data loss or corruption, inability to accurately process or record transactions, reputational harm, litigation, indemnity obligations and other liabilities, and our business, revenues, profitability and financial condition could be negatively impacted.

Strategic and Industry Risks

We have entered into, and may enter into in the future, joint development agreements, custom product arrangements, and strategic relationships with some of our largest customers. These arrangements subject us to a number of risks, and any failure to execute on any of these arrangements could have a material adverse effect on our business, results of operations, and financial condition.

We have entered into, and may enter into in the future, joint development, product collaboration and technology licensing arrangements with some of our largest customers, and we expect to enter into new strategic arrangements of these kinds from time to time in the future. Such arrangements can magnify several risks for us, including loss of control over the development and development timeline of jointly developed products, risks associated with the ownership of the intellectual property developed pursuant to such arrangements, and

increased risk that our joint development activities may result in products that are not commercially successful or that are not available in a timely fashion. In addition, any third party with whom we enter into a joint development, product collaboration, or technology licensing arrangement may fail to commit sufficient resources to the project, change its policies or priorities, or abandon or fail to perform its obligations related to such arrangement. We have previously and may in the future enter into customer product arrangements that provide for exclusivity periods during which we may only sell specified products or technologies to that particular customer. Any failure to timely develop commercially successful products through our joint development activities as a result of any of these and other challenges could have a material adverse effect on our business, results of operations, and financial condition.

Our failure to develop and ramp new products into production in a timely manner could harm our operating results.

Our success depends upon our ability to develop new products for new and existing customers, and to introduce these products in a timely and cost-effective manner. The development of new products involves significant investment and is highly complex. From time-to-time, we have experienced delays in developing and introducing these new products. Successful product development and introduction depend on a number of factors including, but not limited to:

- proper new product definition;
- timely completion of design and testing of new products;
- assisting our customers with integration of our components into their new products, including providing support from the concept stage through design, launch and production ramp;
- successfully developing and implementing software necessary to integrate our products into our customers' products;
- achievement of acceptable manufacturing yields;
- availability of wafer fabrication, assembly, and test capacity; and
- market acceptance of our products and the products of our customers.

Both sales and/or margins may be materially affected if new product introductions are delayed, or if our products are not designed into successive generations of new or existing customers' products. Our failure to develop and introduce new products successfully could harm our business and operating results.

In addition, difficulties associated with adapting our technology and product design to the proprietary process technology and design rules of new foundries can lead to complications resulting in delays and/or reduced yields of our products. Since low yields may result from either design or process technology failures, yield problems may not be effectively determined or resolved until an actual product exists that can be analyzed and tested to identify process sensitivities relating to the design rules that are used. As a result, yield problems may not be identified until well into the production process, and resolution of yield problems may require cooperation between our manufacturer and us. This risk could be compounded by the offshore location of certain of our manufacturers, increasing the effort and time required to identify, communicate, and resolve manufacturing yield problems. Manufacturing defects that we do not discover during the manufacturing or testing process may lead to costly product recalls. These risks may lead to increased costs or delayed product delivery, which would harm our profitability and customer relationships.

Our products are increasingly complex and could contain defects, which could result in material costs to us.

Product development in the markets we serve is becoming more focused on the integration of multiple functions on individual devices. There is a general trend towards increasingly complex products, including software or firmware developed by us and/or third parties. The greater integration of functions and complexity of operations of our products increases the risk that we or our customers or end users could discover latent defects

or subtle faults after volumes of product have been shipped. Quality and reliability issues could result in material costs and other adverse consequences to us, including, but not limited to:

- reduced margins;
- damage to our reputation;
- replacement costs for product warranty and support;
- payments to our customers related to recall claims, or the delivery of product replacements as part of a recall claim, as a result of various industry or business practices, contractual requirements, or in order to maintain good customer relationships;
- an adverse impact to our customer relationships by the occurrence of significant defects;
- a delay in recognition or loss of revenues, loss of market share, or failure to achieve market acceptance;
- writing off or reserving the value of inventory of such products; and
- a diversion of the attention of our engineering personnel from our product development efforts.

In addition, any defects or other problems with our products could result in financial losses or other damages to our customers who could seek damages from us for their losses. A product liability or warranty claim brought against us, even if unsuccessful, would likely be time consuming and costly to defend. In particular, the sale of systems and components that are incorporated into certain applications for the automotive industry involves a high degree of risk that such claims may be made.

While we believe that we are reasonably insured against some of these risks and that we have attempted to contractually limit our financial exposure with many of our customers, a warranty or product liability claim against us in excess of our available insurance coverage and established reserves, or a requirement that we participate in a customer product recall, could have material adverse effects on our business, results of operations, and financial condition.

Security vulnerabilities may exist in our products, which could expose us to significant costs and damage our business.

Our hardware and software products, including software tools deployed by our customers, may be vulnerable to cyber-attacks. An attack could disrupt the proper functioning of our products, disrupt or cause errors in our customers' products, allow unauthorized access to our or our customers' proprietary information, or cause other destructive outcomes. A failure to prevent or mitigate such an attack could harm our business reputation, diminish our competitive position in the market, and expose us to significant expense and liability.

The costs to eliminate or alleviate cyber or other security problems, bugs, viruses, worms, phishing attempts, ransomware, malicious software programs and security vulnerabilities could be significant, and our efforts to address these problems may not succeed and could result in interruptions, delays, an inability to access information, cessation of service and loss of existing or potential customers that may impede our sales, manufacturing, distribution or other critical functions.

We continue to invest in research and development efforts for several new markets. If we are unable to commercialize these technologies, our future results and profits could be negatively affected.

Our investments into new markets subject us to additional risks. We may have limited or no experience in these markets, and our customers may not adopt our new offerings. These new offerings may present new and difficult challenges, including risks related to technology, customers, competitors, product cycles, customer demand, terms and conditions and other industry specific issues which could negatively affect our operating results. These developing products and market segments may not grow as significantly or as quickly as projected, or at all, and we may not realize an adequate return on our investments or may be required to write-down the value of certain tangible and intangible assets.

We frequently develop our products for the specific system architecture of our customers' end products. If our customers were to change system architectures, develop competing technologies and integrated circuits, incorporate some of the functionality of our products into other parts of the system, or eliminate certain functionality that our products provide in their future end products, we risk the potential loss of revenue and reduced average selling prices.

Our customers, particularly in the smartphone market, could potentially transition to different audio and system architectures, develop their own competing technologies and ICs, integrate the functionality that our ICs and software have historically provided into other components in their systems, or eliminate certain functionality that our products provide in their future end products. Some of the audio and voice functionality and/or some of our high-performance mixed-signal functionality that we have historically provided could be performed outside of our components. If our customers were to transition to these different system architectures or to eliminate certain functionality in their future end products, our results of operations could be adversely affected, resulting in reduced average selling prices for our components and loss of revenue.

New and/or more stringent environmental laws, rules, regulations, and/or customer expectations may impact our product design and manufacturing processes, which could increase our costs and adversely impact our future operating results.

There has been an increase in the number of new and/or more stringent environmental laws, rules, and regulations introduced in various jurisdictions related to controlling the transportation, storage, use, and discharge of certain chemicals and materials used in the process of manufacturing semiconductors. Additionally, our customers have certain requirements and expectations related to the potential environmental impacts of their products and the processes used to manufacture them.

For example, a number of domestic and foreign jurisdictions regulate, or may seek to regulate, the use of a class of chemicals known as per- and poly-fluoroalkyl substances ("PFAS"), which are currently used in our products or the manufacture of some of our products. Additionally, the European Union Restriction of Hazardous Substances ("RoHS") Directive restricts the use of certain hazardous substances in electrical and electronic equipment while the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH") regulation addresses the production and use of chemical substances.

To comply with these regulations, and to meet customer requirements, we have in the past worked, and may in the future, need to work, with our supply chain to eliminate certain substances from the manufacturing processes used to produce our products. There may be instances where alternative substances will not be available or commercially feasible, or may only be available from a single source, or may be significantly more expensive than their restricted counterparts – resulting in increased manufacturing costs. Additionally, if we are unable to comply with the regulations, we may be subject to fines, penalties, and/or restrictions imposed by government agencies.

We expect that these and other rapidly changing laws, regulations, policies, interpretations, and expectations, as well as increased enforcement actions by various governmental and regulatory agencies, will continue to increase the cost of our compliance and internal risk management programs, which could have an adverse effect on our business, results of operations, and financial condition. Further, if our practices and disclosures do not meet the expectations and standards of our stockholders, customers, and other industry stakeholders, our reputation and business activities may be negatively impacted and our appeal to certain investors may be reduced.

We may be unable to protect our intellectual property rights.

Our success depends in part on our ability to obtain patents and to preserve our other intellectual property rights covering our products. We seek patent protection for those inventions and technologies for which we believe such protection is suitable and is likely to provide a competitive advantage to us. We also rely on trade secrets, proprietary technology, non-disclosure and other contractual terms, and technical measures to protect our technology and manufacturing knowledge. We actively work to foster continuing technological innovation to

maintain and protect our competitive position. We cannot provide assurances that steps taken by us to protect our intellectual property will be adequate, that our competitors will not independently develop or design around our patents, or that our intellectual property will not be misappropriated. In addition, the laws of some non-U.S. countries may not protect our intellectual property as well as the laws of the United States.

Any of these events could materially and adversely affect our business, operating results, or financial condition. Policing infringement of our technology is difficult, and litigation may be necessary in the future to enforce our intellectual property rights. Any such litigation could be expensive, take significant time, and divert management's attention.

Financial Risks

We have historically experienced fluctuations in our operating results and expect these fluctuations to continue.

Our quarterly and annual operating results are affected by a wide variety of factors that could materially and adversely affect our net sales, gross margin, and operating results. If our operating results fall below expectations of market analysts or investors, the market price of our common stock could decrease significantly. We are subject to business cycles and it is difficult to predict the timing, length, or volatility of these cycles. These business cycles may create pressure on our sales, gross margin, and/or operating results and make it difficult for us to predict operating results as between subsequent fiscal quarters.

Factors that could cause fluctuations and materially and adversely affect our net sales, gross margin and/or operating results include, but are not limited to:

- the volume and timing of orders received;
- changes in the mix of our products sold;
- market acceptance of our products and the products of our customers;
- excess or obsolete inventory;
- pricing pressures from competitors and key customers;
- our ability to introduce new products on a timely basis;
- the timing and extent of our research and development expenses;
- the failure to anticipate changing customer product requirements;
- disruption in the supply of wafers, assembly, or test services;
- reduction of manufacturing yields;
- certain production and other risks associated with using independent manufacturers, assembly houses, and testers; and
- product obsolescence, price erosion, competitive developments, and other competitive factors.

We could be subject to changes in tax laws, the adoption of new U.S. or international tax legislation or exposure to additional tax liabilities.

We are subject to taxes in the U.S. and numerous foreign jurisdictions, including the United Kingdom ("U.K."), where a number of our subsidiaries are organized. Due to economic and political conditions, tax laws in various jurisdictions may be subject to significant change. For example, many countries have started to implement legislation and other guidance to align their international tax rules with the Organization of Economic Cooperation and Development's Base Erosion and Profit Shifting recommendations and action plan that aim to standardize and modernize global corporate tax policy, including implementation of a global minimum tax ("Pillar Two"). These and other changes in tax laws and regulations may impact both our international and domestic tax liabilities and result in increased complexity and uncertainty and may adversely affect our provision

for income taxes. Our future effective tax rates could be affected by changes in the mix of earnings in countries with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities, or changes in tax laws or their interpretation. If our effective tax rates were to increase, particularly in the U.S. or the U.K., or if the ultimate determination of taxes owed is for an amount in excess of amounts previously accrued, our operating results, cash flows, and financial condition could be adversely affected.

Significant judgment is required in the calculation of our tax provision and the resulting tax liabilities. Our estimates of future taxable income and the regional mix of this income can change as new information becomes available. Any such changes in our estimates or assumptions can significantly impact our tax provision in a given period. For discussion of our income taxes, see Note 17 - Income Taxes, of the Notes to Consolidated Financial Statements contained in Item 8.

We are also subject to the examination of our tax returns and other tax matters by the U.S Internal Revenue Service (“IRS”) and other tax authorities and governmental bodies. We regularly assess the likelihood of an adverse outcome resulting from these examinations to determine the adequacy of our provision for taxes. There can be no assurance as to the outcome of these examinations.

The Company’s fiscal year 2017, 2018, and 2019 federal income tax returns are under examination by the IRS. The IRS has proposed adjustments that would increase U.S. taxable income related to transfer pricing matters with respect to our U.S. and U.K. affiliated companies. The final Revenue Agent’s Report asserted additional tax of approximately \$168.3 million, excluding interest, and imposing penalties of approximately \$63.7 million. We do not agree with the IRS’s positions and we are vigorously defending against the proposed adjustments. We are pursuing resolution through the administrative process with the IRS Independent Office of Appeals and, if necessary, through judicial remedies. We expect it could take a number of years to reach resolution on these matters. Although the final resolution of these matters is uncertain, the Company believes adequate amounts have been reserved for any adjustments to the provision for income taxes that may ultimately result. However, if the IRS prevails in these matters, the assessed tax, interest, and penalties, if any, could have an adverse impact on our financial position, results of operations, and cash flows in future periods.

If certain tax credits or incentives we receive change or cease to be in effect or applicable for any reason, or if our assumptions and interpretations regarding tax laws and incentives prove to be incorrect, our financial results could be adversely impacted.

Our operations are currently structured to benefit from various incentives available to us in various jurisdictions to encourage research and development investment. For example, we receive a research and development expenditure credit in the United Kingdom (“RDEC”), which is recorded for accounting purposes as an offset to research and development expenses in the Company’s consolidated income statement and resulted in a benefit of \$43 million in fiscal year 2025. The Company makes estimates of the RDEC receivable as of each balance sheet date, based upon facts known at the time. Although the Company does not expect its estimates to be materially different from the amounts ultimately recognized, its estimates could differ from actual results. To date, there have not been any material adjustments to the Company’s prior estimates of RDEC receivables. If such credit is modified or rescinded, or we are no longer eligible for such credit, our financial results could be adversely impacted, including increasing our R&D expenses, decreasing our profitability, and adversely affecting our cash flows. See further discussion of the research and development expenditure credit in the U.K. in Note 2 - Summary of Significant Accounting Policies - Government Assistance, of the Notes to Consolidated Financial Statements contained in Item 8.

Shifts in industry-wide capacity and our practice of ordering and purchasing our products based on sales forecasts may result in significant fluctuations in inventory and our quarterly and annual operating results.

Shifts in industry-wide capacity from shortages to oversupply, or from oversupply to shortages, may result in significant fluctuations in our quarterly and annual operating results. In addition, we may order wafers and build inventory in advance of receiving purchase orders from our customers. Because our industry is highly cyclical and is subject to significant downturns resulting from excess capacity, overproduction, reduced demand, order cancellations, or technological obsolescence, there is a risk that we will forecast inaccurately and produce

excess inventories of particular products. On occasion, customers have cancelled, and may in the future cancel, reschedule orders, or change future product plans on short notice, leaving us with the potential for excess inventory. In addition, if we experience supply constraints or manufacturing problems at a particular supplier, we may seek to switch suppliers or qualify additional suppliers. Other suppliers may not be available at the time we seek to switch or qualify additional suppliers. Even if additional capacity is available elsewhere, the switching and/or qualifying of additional suppliers could be an expensive process and could take as long as six to twelve months to complete, which could result in material adverse fluctuations to our operating results.

Due to the product manufacturing cycle characteristic of IC manufacturing and the inherent imprecision in the accuracy of our customers' forecasts, product inventories may not always correspond to product demand, leading to shortages or surpluses of certain products. As a result of such inventory imbalances, future inventory write-downs and charges to gross margin may occur due to lower of cost or market accounting, excess inventory, and inventory obsolescence.

Our stock price has been and is likely to continue to be volatile.

The market price of our common stock fluctuates significantly. This fluctuation has been or may be the result of numerous factors, including, but not limited to:

- actual or anticipated fluctuations in our operating results;
- announcements concerning our business or those of our competitors, customers, or suppliers;
- loss of a significant customer, or customers;
- changes in financial estimates by securities analysts or our failure to perform as anticipated by the analysts;
- news, commentary, and rumors emanating from the media relating to our customers, the industry, or us. These reports may be unrelated to the actual operating performance of the Company, and in some cases, may be potentially misleading or incorrect;
- announcements regarding technological innovations or new products by us or our competitors;
- announcements by us of significant acquisitions, strategic partnerships, joint ventures, or capital commitments;
- announcements by us of significant divestitures or sale of certain assets or intellectual property;
- litigation arising out of a wide variety of matters, including, employment matters and intellectual property matters;
- departure of key personnel;
- a significant stockholder selling for any reason;
- general conditions in the IC industry; and
- general market conditions and interest rates.

Our foreign currency exposures may change over time as the level of activity in foreign markets grows and could have an adverse impact upon financial results.

As a global enterprise, we face exposure to adverse movements in foreign currency exchange rates. Certain of our assets, including certain bank accounts, exist in non-U.S. dollar-denominated currencies, which are sensitive to foreign currency exchange rate fluctuations. The principal non-U.S. dollar-denominated currency is the British Pound Sterling. We also have a significant number of employees that are paid in foreign currency, the largest group being U.K.-based employees who are paid in British Pounds Sterling.

If the value of the U.S. dollar weakens relative to these specific currencies, the cost of doing business in terms of U.S. dollars rises. With the growth of our international business, our foreign currency exposures may grow and under certain circumstances, could harm our business.

If we do not hedge against these risks, or our attempts to hedge against these risks are not successful, our financial condition and results of operations could be adversely affected.

Our debt obligations may be a burden on our future cash flows and cash resources.

On July 8, 2021, the Company entered into a second amended and restated credit agreement (the “Second Amended Credit Agreement”) which provides for a \$300 million senior secured revolving credit facility (the “Revolving Credit Facility”). The Revolving Credit Facility matures on July 8, 2026 (the “Maturity Date”). As of March 29, 2025, the Company did not have an outstanding balance under the Revolving Credit Facility. To the extent the Company has an outstanding balance, our ability to repay the principal of, to pay interest on, or to refinance our indebtedness, depends on our future performance, which is subject to economic, financial, competitive, regulatory, and other factors, some of which are beyond our control. Our business may not generate cash flow from operations in the future sufficient to satisfy our obligations or to make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as reducing or delaying investments or capital expenditures, selling assets, or refinancing or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance any indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on the Second Amended Credit Agreement.

Our Second Amended Credit Agreement contains restrictions that could limit our flexibility in operating our business.

Our Second Amended Credit Agreement contains various covenants that could limit our ability to engage in specified types of transactions under certain conditions. These covenants could limit our ability to, among other things:

- pay dividends on, repurchase, or make distributions in respect of our capital stock or make other restricted payments;
- incur additional indebtedness or issue certain preferred shares;
- make certain investments;
- sell certain assets;
- create liens;
- consolidate, merge, sell, or otherwise dispose of all or substantially all of our assets; and
- enter into certain transactions with our affiliates.

A breach of any of these covenants could result in a default under the Second Amended Credit Agreement. In the event of a default, the lenders could elect to declare all amounts then outstanding to be immediately due and payable. If our lenders accelerate the repayment of borrowings, we may not be able to repay our debt obligations. If we were unable to repay amounts due to the lenders under our credit facility, those lenders could proceed against the collateral granted to them to secure that indebtedness.

Legal and Regulatory Risks

We are subject to the export control regulations of the U.S. Department of State and the Department of Commerce. A violation of these export control regulations could have a material adverse effect on our business or our results of operations, cash flows, or financial position.

The nature of our international business subjects us to the export control regulations of the U.S. Department of State and the Department of Commerce. Any changes regarding such regulations or U.S. trade policy more generally, including potential adoption and expansion of trade restrictions or export controls, particularly with respect to China, may impact overall customer demand for our products or affect our ability to manufacture and/or sell our products overseas. Additionally, in response to Russia’s invasion of Ukraine, the U.S. government has imposed numerous export controls and sanctions related to Russia.

Although we have had licenses in the past to export certain products and technologies, particularly to China, and we have historically had limited sales to companies in Russia, any alleged violation could expose us to significant cost, with any final determination of a violation of these export control regulations potentially resulting in monetary penalties and denial of export privileges. Although we are not aware of any violation of any export control regulations, a failure to comply with any of these regulations could have an adverse effect on our business.

Further, we are subject to the risk of illicit diversion of our products to unauthorized end-users, such as sanctioned entities in Russia and/or China, who may use the products for purposes for which they are not intended, which could expose the Company to significant regulatory penalties, reputational harm, and termination of key supplier and/or distributor relationships, which may materially and adversely affect our business operations and financial condition.

Potential intellectual property claims and litigation could subject us to significant liability for damages and could invalidate our proprietary rights.

The IC industry is characterized by frequent litigation regarding patent and other intellectual property rights. We may find it necessary to initiate lawsuits to assert our patent or other intellectual property rights. These legal proceedings could be expensive, take significant time, and divert management's attention. We cannot provide assurances that we will ultimately be successful in any lawsuit, nor can we provide assurances that any patent owned by us will not be invalidated, circumvented, or challenged. We cannot provide assurances that rights granted under our patents will provide competitive advantages to us, or that any of our pending or future patent applications will be issued with the scope of the claims sought by us, if at all.

As is typical in the IC industry, our customers and we have, from time to time, received and may in the future receive, communications from third parties asserting patents, mask work rights, or copyrights. In the event third parties were to make a valid intellectual property claim and a license was not available on commercially reasonable terms, our operating results could be harmed. Litigation, which could result in substantial cost to us and diversion of our management, technical and financial resources, may also be necessary to defend us against claimed infringement of the rights of others. An unfavorable outcome in any such litigation could have an adverse effect on our future operations and/or liquidity.

We have provisions in our Certificate of Incorporation and Bylaws, and are subject to certain provisions of Delaware law, which could prevent, delay, or impede a change of control of our company. These provisions could affect the market price of our stock.

Certain provisions of Delaware law and of our Certificate of Incorporation and Bylaws could make it more difficult for a third party to acquire us, even if our stockholders support the acquisition. These provisions include, but are not limited to:

- the inability of stockholders to call a special meeting of stockholders;
- a prohibition on stockholder action by written consent; and
- a requirement that stockholders provide advance notice of any stockholder nominations of directors or any proposal of new business to be considered at any meeting of stockholders.

We are also subject to the anti-takeover laws of Delaware that may prevent, delay, or impede a third party from acquiring or merging with us, which may adversely affect the market price of our common stock.

Our Bylaws include a forum selection provision that could increase costs to bring a claim, discourage claims, or limit the ability of the Company's stockholders to bring a claim in a judicial forum viewed by the stockholders as more favorable for disputes with the Company or the Company's directors, officers, or other employees.

Our Bylaws provide, to the fullest extent permitted by law, that, unless the Company consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware or, if the Court of Chancery

does not have jurisdiction, a state court located within the State of Delaware or, if no state court located within the State of Delaware has jurisdiction, the federal district court for the District of Delaware, will, to the fullest extent permitted by applicable law, be the sole and exclusive forum for certain legal actions between the Company and its stockholders. In addition, our Bylaws provide that the federal district courts of the United States of America shall, to the fullest extent permitted by law, be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended. The exclusive forum clauses described above do not apply to suits brought to enforce a duty or liability created by the Exchange Act, or any other claim for which the federal courts have exclusive jurisdiction. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock will be deemed to have notice of, and consented to, the provisions of our Bylaws described in the preceding sentences. The enforceability of similar choice of forum provisions in other companies' certificates of incorporation or bylaws has been challenged in legal proceedings and there is uncertainty as to whether a court would enforce such provisions. In addition, investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. This forum selection provision may increase costs to bring a claim, discourage claims, or limit a stockholder's ability to bring a claim in a judicial forum that such stockholder finds favorable for disputes with the Company or the Company's directors, officers, or other employees, which may discourage such lawsuits against the Company or the Company's directors, officers, and other employees. Alternatively, if a court were to find the forum selection provision contained in the Company's Bylaws to be inapplicable or unenforceable in an action, the Company could incur additional costs associated with resolving such action in other jurisdictions.

General Risks

Corporate social responsibility initiatives, specifically related to environmental, social and governance ("ESG") matters, may impose additional costs and expose us to emerging areas of risk.

Providing public disclosures regarding ESG matters, for example sustainability reporting, has become more broadly expected by investors, shareholders, existing and potential employees, customers, and other third parties. Certain organizations currently, and other organizations may in the future, use such disclosures to evaluate companies regarding ESG activities and publish scores or ratings based upon ESG or "sustainability" metrics. Potential and current investors may use the Company's ESG ratings to guide their investment strategies and may decrease or withdraw investment, or alternatively increase investment in our competitors, if our ESG performance is perceived to be lagging. The qualitative and quantitative criteria regarding ESG may continue to evolve and we may need to modify our practices and/or incur additional or unexpected costs to satisfy these expectations. We may communicate certain goals or initiatives regarding our ESG activities from time to time, including goals relating to our carbon footprint, and if we are unable to meet those goals or they are perceived to be inadequate, we could be exposed to reputational damage and other emerging areas of risk.

In addition, one or more of our customers has required, and other customers may in the future request, that we achieve certain carbon emission reductions and/or commit to the use of renewable energy in the manufacture of our goods. Such requests may require us to modify our supply chain practices, make capital investments to modify certain aspects of our operations, or increase our operating costs. There can be no assurance of the extent to which any of our climate goals or the goals of our customers will be achieved or that any future investments that we make in furtherance of achieving our climate goals or the goals of our customers will produce the expected results or meet increasing stakeholder environmental, social and governance expectations. If we do not meet these goals, we could incur adverse publicity and reaction or the loss of business from certain of our customers, which could adversely impact our reputation, and in turn adversely impact our results of operations.

Further, we are subject to increased government laws, regulations, and other standards that impose operational and reporting requirements related to ESG matters, and we will likely be subject to further evolving ESG reporting standards in the future. Collecting, measuring, and reporting ESG information and metrics in response to these increased requirements can be costly, difficult, and time consuming. With these additional regulations and disclosures, we may see our legal compliance, financial reporting, and auditing costs increase along with the emergence of risks associated with the collection, data assurance, and disclosure related to such ESG information.

As we carry only limited insurance coverage, uninsured or under-insured losses could adversely affect our financial condition and results of operations.

Our insurance policies may not be adequate to fully offset losses from covered incidents, and we do not have coverage for certain losses. For example, there is limited coverage available with respect to the services provided by our third-party foundries and assembly and test subcontractors. Although we believe that our existing insurance coverage is consistent with common practices of companies in our industry, our insurance coverage may be inadequate to protect us against product recalls, natural disasters (including those related to changes in climate), cybersecurity and/or information security breaches, and other unforeseen catastrophes that could adversely affect our financial condition and results of operations.

We are subject to the risks of owning real property.

We currently own our U.S. headquarters and research facility in Austin, Texas. The ownership of our U.S. properties subjects us to the risks of owning real property, which may include:

- the possibility of environmental contamination and the costs associated with correcting any environmental problems;
- adverse changes in the value of these properties, due to interest rate changes, changes in the neighborhood in which the property is located, or other factors; and
- the risk of financial loss in excess of amounts covered by insurance, or uninsured risks, such as the loss caused by damage to the buildings as a result of fire, floods, or other natural disasters (including those related to changes in climate).

ITEM 1B. Unresolved Staff Comments

None.

ITEM 1C. Cybersecurity

Cybersecurity risk management and strategy

We have policies and processes in place that are designed to assess, identify and manage material risks from cybersecurity threats. We regularly assess risks from cybersecurity threats, including any potential unauthorized occurrence on or conducted through our information systems that may result in adverse effects on the confidentiality, integrity or availability of our information systems or any information residing therein. We use recognized industry frameworks and standards as guides in identifying, assessing and managing cybersecurity risks relevant to our operations. For example, we primarily use NIST CSF (National Institute of Standards and Technology Cybersecurity Framework) for this purpose.

Key components of our cybersecurity risk management strategy include:

- We have a dedicated Information Security team principally responsible for implementing and managing our cybersecurity strategy and controls.
- We use industry standard technologies and tools appropriate to our operations which are designed to prevent and detect unauthorized access to, or compromise of, our network, servers, endpoints and external applications, such as multi-factor authentication, malware protection, firewalls and monitoring controls.
- We regularly train our personnel on cybersecurity awareness and conduct periodic additional awareness and training activities such as simulated phishing campaigns.
- We have in place an Incident Response Plan that governs how we respond to and manage cybersecurity incidents. We conduct regular tabletop exercises to test our response to potential incidents.
- We use third-party service providers where appropriate to design, implement and support aspects of our security processes as well as to monitor and test our safeguards.

Our cybersecurity risk management strategy forms part of our overall enterprise risk management program. We conduct regular risk assessments designed to identify cybersecurity threats and other risks to the company. These risk assessments include identifying reasonably foreseeable potential internal and external risks, the likelihood of occurrence, and any potential damage that could result from such risks. We also evaluate the sufficiency of our existing internal controls and monitor the effectiveness of such safeguards. In response, we adjust our processes and controls as necessary.

Our risk management process also encompasses cybersecurity risks associated with our use of third-party service providers. For example, as part of our contract management process, we conduct IT security reviews, and require executive approval by the General Counsel, Chief Financial Officer and Executive Vice President of Global Operations in relation to products or services that could potentially expose our company to cybersecurity risks.

As of the end of fiscal year 2025, we have not identified any risks from known cybersecurity threats (including as a result of any prior cybersecurity incidents) that have materially affected, or are reasonably likely to materially affect, our business strategy, results of operations or financial conditions. While our cybersecurity risk management strategy is intended to assess, identify and manage material risks from cybersecurity threats, it may not adequately do so in every instance, particularly given the evolving nature of the cybersecurity threat landscape. We expect that our policies and processes will continue to be subject to update as the risks from cybersecurity threats change. For more information about risks from cybersecurity threats, and whether they are reasonably likely to materially affect our business strategy, results of operations or financial conditions, please see the Risk factors discussion in Item 1A of this Form 10-K, including “Risks related to system security, cyber-attacks and data breaches”.

Cybersecurity Governance

The Board of Directors’ overall risk oversight function includes receiving reports on the Company’s cybersecurity risks and our risk management processes, and assessing whether our risk management strategies are reasonably designed to address such risks. The Board has delegated this oversight responsibility to our Audit Committee, which reports periodically to the Board as appropriate.

Our Executive Vice President of Global Operations and our Director of Information Security are responsible for ongoing assessment and supervision of cybersecurity risks, supported by a dedicated Information Security team who reports up to those individuals. Our Director of Information Security has primary oversight of material risks from cybersecurity threats, has over 25 years of experience in cybersecurity-related roles and holds industry-recognized certifications. Our Executive Vice President of Global Operations and Director of Information Security review and evaluate our cybersecurity readiness through internal cybersecurity measures and metrics, as well as third-party penetration tests and control assessments against industry standards. We also employ various defensive and continuous monitoring techniques designed to escalate potential issues in a timely manner to our Director of Information Security.

Our Director of Information Security meets with the Audit Committee at least twice a year to discuss our cybersecurity risks, strategy, and activities, including cybersecurity incidents and responses, cybersecurity systems testing, third-party activities and related topics. In addition, we have governance and compliance structures that are designed to elevate issues relating to cybersecurity to executive officers, and, as appropriate, to the Audit Committee and Board.

ITEM 2. *Properties*

As of March 29, 2025, our principal facilities are located in Austin, Texas and Edinburgh, Scotland, United Kingdom. The Austin facilities, which we own, consist of approximately 155,000 square feet of office space and are primarily occupied by research and development personnel and testing equipment. We also have leased facilities in Austin, Texas, consist of approximately 280,000 square feet that house a mixture of administrative personnel as well as research and development personnel. Additionally, we lease approximately 125,000 square feet of office space and high quality lab space in Edinburgh, Scotland, United Kingdom. See further details below in Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operation.

Below is a schedule that identifies our principal locations of occupied leased and owned property as of March 29, 2025, with various contractual lease terms through calendar year 2048. We believe that these facilities are suitable and adequate to meet our current operating needs.

| <u>Design Centers</u> | <u>Sales Support Offices – International</u> |
|-------------------------------------|--|
| Austin, Texas | Beijing, China |
| Chandler, Arizona | Shanghai, China |
| Cupertino, California | Shenzhen, China |
| Greensboro, North Carolina | Tokyo, Japan |
| Edinburgh, Scotland, United Kingdom | Singapore |
| Newbury, England, United Kingdom | Seoul, South Korea |
| | Taipei, Taiwan |

See Note 10 — Leases of the Notes to Consolidated Financial Statements contained in Item 8 for further detail.

ITEM 3. *Legal Proceedings*

From time to time, we are involved in legal proceedings concerning matters arising in connection with the conduct of our business activities. We regularly evaluate the status of legal proceedings in which we are involved to assess whether a loss is probable or there is a reasonable possibility that a loss or additional loss may have been incurred and to determine if accruals are appropriate. We further evaluate each legal proceeding to assess whether an estimate of possible loss or range of loss can be made.

Based on current knowledge, management does not believe that there are any pending matters that could potentially have a material adverse effect on our business, financial condition, results of operations or cash flows. However, we are engaged in various legal actions in the normal course of business. While there can be no assurances in light of the inherent uncertainties involved in any potential legal proceedings, some of which are beyond our control, an adverse outcome in any legal proceeding could be material to our results of operations or cash flows for any particular reporting period.

ITEM 4. *Mine Safety Disclosures*

Not applicable.

PART II

ITEM 5. *Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities*

Our common stock is traded on the NASDAQ’s Global Select Market under the symbol CRUS.

As of May 21, 2025, there were 299 holders of record of our common stock.

Dividend Policy

We have not paid any dividends on our capital stock. We do not anticipate declaring or paying in the foreseeable future any dividends on our capital stock. Any future determination to pay dividends will be made at the discretion of our board of directors, subject to applicable laws, and will depend upon our results of operations, financial condition, contractual restrictions, capital requirements, and other factors. Our future ability to pay dividends on our capital stock may be limited by the terms of any future debt that we may incur or any preferred securities that we may issue in the future.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The following table provides information about purchases of equity securities that are registered by us pursuant to Section 12 of the Exchange Act during the three months ended March 29, 2025 (in thousands, except per share amounts):

| <u>Monthly Period</u> | <u>Total Number of Shares Purchased</u> | <u>Average Price Paid Per Share</u> | <u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u> | <u>Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (1)</u> |
|--|---|-------------------------------------|---|---|
| December 29, 2024 - January 25, 2025 | — | \$ — | — | \$154,110 |
| January 26, 2025 - February 22, 2025 | 699 | 107.35 | 699 | 79,049 |
| February 23, 2025 - March 29, 2025 | <u>228</u> | <u>109.39</u> | <u>228</u> | <u>554,108</u> |
| Total | <u>927</u> | <u>\$107.85</u> | <u>927</u> | <u>\$554,108</u> |

- (1) The Company currently has two active share repurchase authorizations: \$500 million in share repurchases authorized by the Board of Directors in July 2022 and \$500 million in share repurchases authorized by the Board of Directors in March 2025. The repurchases are to be funded from existing cash and intended to be effected from time to time in accordance with applicable securities laws through the open market, including pursuant to a Rule 10b5-1 trading plan, or in privately negotiated transactions. The timing of the repurchases and the actual amount purchased depend on a variety of factors including general market and economic conditions and other corporate considerations. The program does not have an expiration date, does not obligate the Company to repurchase any particular amount of common stock, and may be modified or suspended at any time at the Company’s discretion. The Company repurchased 0.9 million shares of its common stock for \$100.0 million during the fourth quarter of fiscal year 2025 under the 2022 authorization. All shares of our common stock that were repurchased were retired as of March 29, 2025.

The Company’s net stock repurchases are subject to a 1 percent excise tax under the Inflation Reduction Act, which is a reduction to accumulated earnings in the Consolidated Statements of Stockholders’ Equity. Disclosure of repurchased amounts and related average price paid per share in the table above excludes the impact of excise taxes.

Stock Price Performance Graph

The following graph and table show a comparison of the five-year cumulative total stockholder return (“TSR”), calculated on a dividend reinvestment basis, for Cirrus Logic, the Russell 3000 Index, and the Philadelphia Semiconductor Index.

Comparison of 5 year cumulative Total Returns
Assumes Initial Investment of \$1000
March 2025

| | 3/28/2020 | 3/27/2021 | 3/26/2022 | 3/25/2023 | 3/30/2024 | 3/29/2025 |
|--|-----------|-----------|-----------|-----------|-----------|-----------|
| Cirrus Logic, Inc. | 100.00 | 134.06 | 141.62 | 170.50 | 149.44 | 160.64 |
| Russell 3000 Index | 100.00 | 165.16 | 185.21 | 162.98 | 218.50 | 233.21 |
| Philadelphia Semiconductor Index | 100.00 | 211.79 | 243.25 | 218.67 | 347.68 | 306.43 |

- (1) The graph assumes that \$100 was invested in our common stock and in each index at the market close on March 28, 2020, and that all dividends were reinvested. No cash dividends were declared on our common stock during the periods presented.
- (2) Stockholder returns over the indicated period should not be considered indicative of future stockholder returns.

The information in this Annual Report on Form 10-K appearing under the heading “Stock Price Performance Graph” is being “furnished” pursuant to Item 201(e) of Regulation S-K under the Securities Act of 1933, as amended, and shall not be deemed to be “soliciting material” or “filed” with the Securities and Exchange Commission or subject to Regulation 14A or 14C, other than as provided in Item 201(e) of Regulation S-K, or to the liabilities of Section 18 of the Exchange Act.

ITEM 6. [Reserved]

ITEM 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Please read the following discussion in conjunction with our audited historical consolidated financial statements and notes thereto, which are included elsewhere in this Form 10-K. Management’s Discussion and Analysis of Financial Condition and Results of Operations contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risk, uncertainties and other factors. Actual results could differ materially because of the factors discussed in Part I, Item 1A. “Risk Factors” of this Form 10-K and elsewhere in this report, as well as in the documents we file with the SEC, including our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Critical Accounting Estimates

Our discussion and analysis of the Company's financial condition and results of operations are based upon the consolidated financial statements included in this report, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts. We evaluate the estimates on an on-going basis. We base these estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions. Our accounting policies are more fully described in Note 2 - Summary of Significant Accounting Policies of the Notes to Consolidated Financial Statements contained in Item 8.

The Company considers the following accounting policies to involve the highest degree of judgment in the preparation of the consolidated financial statements:

Inventory Valuation

Inventories are stated at the lower of cost or net realizable value on a first-in, first-out basis. Cost is computed using standard costs, which approximate actual cost. The Company writes down inventories to net realizable value based on forecasted customer unit demand while taking into account product release schedules and product life cycles. The Company also reviews and writes down inventory, as appropriate, based on the age and condition of the inventory. Actual demand and market conditions may be different from those projected by management, which could have a material effect on our operating results and financial position.

Uncertain Tax Positions

The calculation of our tax liabilities involves assessing uncertainties with respect to the application of complex tax rules. Uncertain tax positions must meet a more likely than not threshold to be recognized in the financial statements and the tax benefits recognized are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon final settlement. The ultimate settlement of uncertain tax positions may differ from our estimates, which could result in the recognition of a tax benefit or an additional charge to the income tax provision in the relevant period. See Note 17 — Income Taxes of the Notes to Consolidated Financial Statements contained in Item 8 for additional details.

Recently Issued Accounting Pronouncements

For a discussion of recently issued accounting pronouncements, refer to Note 2 - Summary of Significant Accounting Policies, of the Notes to the Consolidated Financial Statements.

Overview

Cirrus Logic develops low-power, high-precision mixed-signal processing solutions for a broad range of customers. We track operating results in one reportable segment, but report revenue performance by product line: Audio and HPMS products. In fiscal year 2025, the Company made good progress executing on strategic initiatives. In our flagship smartphone audio business we began shipping the latest-generation of our boosted amplifier and first 22-nanometer smart codec. We also expanded our HPMS content in smartphones as we benefited from increased unit shipments of our camera controllers and broadened our footprint with our general market haptic components.

Additionally, we made considerable progress leveraging our investments in Audio and HPMS into new applications and markets. Our achievements in the laptop market, which is our most immediate growth opportunity, included securing our first high-volume mainstream design win with our latest PC codec, increasing our direct engagement with PC OEMs, and further expanding our presence in leading reference designs. During fiscal year 2025, we also made advancements with our general market business where we have been selectively developing new components that offer sustained differentiation.

Fiscal year 2025 net sales of \$1.90 billion represented an increase over fiscal year 2024 net sales of \$1.79 billion. Audio product line sales of \$1.14 billion in fiscal year 2025 increased 5 percent from fiscal year 2024 sales of \$1.08 billion. The most significant drivers of the increase were sales associated with our latest-generation products and higher smartphone volumes, partially offset by weakness in general market sales versus the prior fiscal year. HPMS product line sales of \$758.9 million represented an 8 percent increase from fiscal year 2024 sales of \$705.0 million, largely attributable to higher content in smartphones and sales associated with latest-generation products, partially offset by lower general market sales.

Overall, gross margin for fiscal year 2025 was 52.5 percent. The increase in gross margin for fiscal year 2025 reflects a more favorable product mix. This was partially offset by unfavorable inventory reserve expense and higher supply chain costs. The Company's number of employees increased from 1,625 as of March 30, 2024 to 1,660 as of March 29, 2025. The Company achieved net income of \$331.5 million in fiscal year 2025, which included an income tax provision in the amount of \$113.4 million.

Results of Operations

A discussion regarding our financial condition and results of operations for fiscal year 2025 compared to fiscal year 2024 is presented below. A discussion regarding our financial condition and results of operations for fiscal year 2024, which was a 53-week fiscal year, compared to fiscal year 2023 can be found under Item 7 in our Annual Report on Form 10-K for the fiscal year ended March 30, 2024, filed with the SEC on May 24, 2024.

The following table summarizes the results of our operations for each of the past three fiscal years as a percentage of net sales. All percentage amounts were calculated using the underlying data, in thousands:

| | Fiscal Years Ended | | |
|-------------------------------------|--------------------|-------------------|-------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| Net sales | 100% | 100% | 100% |
| Gross margin | 53% | 51% | 50% |
| Research and development | 23% | 24% | 24% |
| Selling, general and administrative | 8% | 8% | 8% |
| Restructuring | —% | —% | 1% |
| Intangibles impairment | —% | —% | 4% |
| Income from operations | 22% | 19% | 13% |
| Interest income | 2% | 1% | —% |
| Interest expense | —% | —% | —% |
| Other income (expense) | —% | —% | —% |
| Income before income taxes | 24% | 20% | 13% |
| Provision for income taxes | 6% | 5% | 4% |
| Net income | 18% | 15% | 9% |

Net Sales

We report sales in two product line categories: Audio products and HPMS products. Our sales by product line are shown in the table below (in thousands).

| | Fiscal Years Ended | | |
|--------------------------|--------------------|--------------------|--------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| Audio Products | \$1,137,157 | \$1,083,939 | \$1,172,007 |
| HPMS Products | 758,920 | 704,951 | 725,610 |
| | <u>\$1,896,077</u> | <u>\$1,788,890</u> | <u>\$1,897,617</u> |

Net sales for fiscal year 2025 increased by 6 percent, to \$1.90 billion from \$1.79 billion in fiscal year 2024. Audio product sales increased \$53.2 million, or 5 percent in fiscal year 2025. The most significant drivers of the increase were sales associated with our latest-generation products and higher smartphone volumes, offset by weakness in general market sales versus the prior fiscal year. The increase in net sales also reflects a \$54.0 million increase in HPMS product sales, or 8 percent, from fiscal year 2024 sales of \$705.0 million, primarily due to higher content in smartphones and sales associated with latest-generation products, partially offset by lower general market sales.

International sales, including sales to U.S.-based end customers that manufacture products through contract manufacturers or plants located overseas, were approximately \$1.9 billion in 2025 and \$1.8 billion in each of fiscal years 2024 and 2023, representing 99 percent, 99 percent, and 97 percent of net sales in fiscal year 2025, 2024, and 2023, respectively. Our sales are denominated primarily in U.S. dollars.

Gross Margin

Overall gross margin of 52.5 percent for fiscal year 2025 increased from fiscal year 2024 gross margin of 51.2 percent. The increase reflects a more favorable product mix. This was partially offset by unfavorable inventory reserve expense and higher supply chain costs, compared to fiscal year 2024. Changes in excess and obsolete inventory charges, including scrapped inventory, and sales of product written down in prior periods did not have a material impact on margin in fiscal year 2025.

Research and Development Expenses

Fiscal year 2025 research and development expenses of \$434.7 million reflect an increase of \$8.2 million, or 2 percent, from fiscal year 2024. The increase was attributable to increased employee-related, variable compensation, and facilities-related costs, offset by decreased stock-based compensation, and acquisition-related costs, in addition to increased R&D incentives versus fiscal year 2024. See Note 2 - Summary of Significant Accounting Policies—Government Assistance of the Notes to Consolidated Financial Statements in Item 8 for additional details relating to R&D incentives.

Selling, General and Administrative Expenses

Fiscal year 2025 selling, general and administrative expenses of \$151.0 million reflect an increase of \$6.8 million, or 5 percent, compared to fiscal year 2024. The increase was primarily attributable to increased employee-related and variable compensation costs in fiscal year 2025.

Restructuring

In fiscal year 2024, the Company recorded \$2.0 million in net costs primarily related to a workforce reduction action taken in the second quarter of fiscal year 2024.

Interest Income

Interest income in fiscal years 2025 and 2024 was \$34.0 million and \$21.5 million, respectively. The increase in interest income in fiscal year 2025 versus prior year was a function of higher yields on higher combined average cash, cash equivalent, and marketable securities balances throughout the year.

Interest Expense

The Company reported interest expense of \$0.9 million and \$0.9 million for fiscal years 2025 and 2024, respectively, primarily as a result of commitment fees under the Revolving Credit Facility, described in Note 8 of the Notes to Consolidated Financial Statements in Item 8.

Other Income (Expense)

In fiscal years 2025 and 2024, the Company reported \$1.5 million and \$(0.1) million, respectively, in other income (expense), related to remeasurement on foreign currency denominated monetary assets and liabilities and other non-operating income and expenses.

Provision for Income Taxes

We recorded income tax expense of \$113.4 million in fiscal year 2025 on pre-tax income of \$444.9 million, yielding an effective tax rate of 25.5 percent. We recorded income tax expense of \$89.4 million in fiscal year 2024 on pre-tax income of \$363.9 million, yielding an effective tax rate of 24.6 percent.

Our effective tax rates in fiscal years 2025 and 2024 were higher than the U.S. statutory rate of 21.0 percent, primarily due to U.S. tax paid on our foreign earnings resulting from an increase in global intangible low-taxed income (GILTI), which is treated as a period cost, and a reduction in foreign tax credits. GILTI is unfavorably impacted by a provision in the Tax Cuts and Jobs Act of 2017 that requires research and development expenditures incurred starting in fiscal year 2023 to be capitalized and amortized ratably over five or fifteen years depending on the location in which the research activities are conducted. In addition, U.S. tax rules introduced in fiscal year 2023 related to refundable tax credits, including R&D expenditure credits available to us in the United Kingdom, reduce the amount of foreign tax credits available to offset GILTI.

The Organization for Economic Cooperation and Development has announced an Inclusive Framework on Base Erosion and Profit Shifting, including Pillar Two Model Rules for a global minimum tax that call for the taxation of large multinational corporations at a minimum rate of 15%. Certain jurisdictions in which we operate, including the United Kingdom, have enacted Pillar Two legislation. There was no material impact on our consolidated financial statements in fiscal year 2025.

For additional discussion about our income taxes, see Note 17 - Income Taxes of the Notes to Consolidated Financial Statements in Item 8.

Liquidity and Capital Resources

Operating Activities

In fiscal year 2025, cash flow from operations was \$444.4 million. Operating cash flow during fiscal year 2025 was related to the cash components of our net income and a \$23.4 million unfavorable change in working capital. The unfavorable change in working capital was driven primarily by increases in inventory and accounts receivable, partially offset by prepaid wafer usage (related to the Capacity Reservation Agreement). In fiscal year 2024, cash flow from operations was \$421.7 million. Operating cash flow during fiscal year 2024 was related to the cash components of our net income and an \$18.4 million favorable change in working capital, primarily driven by prepaid wafer usage (related to the Capacity Reservation Agreement), decreases in other assets and increased income taxes payable, partially offset by decreased accounts payable and acquisition-related liabilities, as well as increases in accounts receivable.

Investing Activities

In fiscal year 2025, the Company used \$124.3 million in cash for investing activities primarily related to \$95.5 million in net purchases of marketable securities and capital expenditures and technology investments of \$28.8 million. In fiscal year 2024, the Company used \$163.0 million in cash for investing activities primarily related to \$124.7 million in net purchases of marketable securities and capital expenditures and technology investments of \$38.3 million.

Financing Activities

In fiscal years 2025 and 2024, the Company used \$283.2 million and \$201.7 million, respectively, related to financing activities. In fiscal years 2025 and 2024, the Company utilized approximately \$261.0 million and \$186.0 million, respectively, in cash to repurchase and retire portions of its outstanding common stock. See Note 15 - Stockholders' Equity of the Notes to Consolidated Financial Statements in Item 8 for a description of our share repurchase authorization.

Revolving Credit Facility

On July 8, 2021, the Company entered into a second amended and restated credit agreement (the "Second Amended Credit Agreement") with Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto. The Second Amended Credit Agreement provides for a \$300 million senior secured revolving credit facility (the "Revolving Credit Facility"). The Revolving Credit Facility matures on July 8, 2026 (the "Maturity Date"). The Revolving Credit Facility is required to be guaranteed by all of Cirrus Logic's material domestic subsidiaries (the "Subsidiary Guarantors"). The Revolving Credit Facility is secured by substantially all the assets of Cirrus Logic and any Subsidiary Guarantors, except for certain excluded assets.

On March 20, 2023, the Company, entered into the First Amendment (the "Amendment") to its Second Amended Credit Agreement, with the lending institutions party thereto and Wells Fargo Bank, National Association, as administrative agent. The Amendment updates the benchmark interest rate provisions to replace the London interbank offered rate ("LIBOR") with the forward-looking secured overnight financing rate ("Term SOFR"), for the purposes of calculating interest under the terms of the Second Amended Credit Agreement.

As of March 29, 2025, the Company had no amounts outstanding under the Revolving Credit Facility and was in compliance with all covenants under the Second Amended Credit Agreement.

See Note 8 — Revolving Credit Facility of the Notes to Consolidated Financial Statements in Item 8 for additional information including material terms and related covenants.

Capital Requirements

Our future capital requirements will depend on many factors, including the rate of sales growth, market acceptance of our products, the timing and extent of research and development projects, and potential future acquisitions of companies or technologies, commitments under the Capacity Reservation Agreement with GlobalFoundries (discussed further in Note 13 - Commitments and Contingencies of the Notes to the Consolidated Financial Statements and Item 1A. Risk Factors) and the expansion of our sales and marketing activities. We believe our expected future cash earnings, existing cash, cash equivalents, investment balances, and available borrowings under our Revolving Credit Facility will be sufficient to meet our capital requirements both domestically and internationally, in the short-term (i.e. the next 12 months) and in the long-term, although we could be required, or could elect, to seek additional funding prior to that time. As of March 29, 2025, the Company did not have any off-balance-sheet arrangements, that were reasonably likely to have a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Cash Obligations

In our business activities, we incur certain commitments to make future payments under contracts such as debt agreements, purchase orders, operating leases and other long-term contracts. See Note 8 - Revolving Credit Facility, Note 10 - Leases and Note 13 - Commitments and Contingencies, of the notes to the Consolidated Financial Statements in Item 8, for additional information related to these contractual obligations.

ITEM 7A. *Quantitative and Qualitative Disclosures about Market Risk*

We are exposed to market risks associated with interest rates on drawn balances of our Revolving Credit Facility and marketable securities, and to currency movements on non-functional currency assets and liabilities. We assess these risks on a regular basis and have established policies that are designed to protect against the

adverse effects of these and other potential exposures. All of the potential changes noted below are based on sensitivity analyses as of March 29, 2025. Actual results may differ materially.

Interest Rate Risk

Our primary financial instruments include cash equivalents, marketable securities, accounts receivable, accounts payable, and accrued liabilities. The Company's investments are managed by outside professional managers within investment guidelines set by the Company. These guidelines include security type, credit quality, and maturity, and are intended to limit market risk by restricting the Company's investments to high quality debt instruments with relatively short-term maturities. The Company does not currently use derivative financial instruments in its investment portfolio. Due to the short-term nature of our investment portfolio, our downside exposure to interest rate risk is minimal.

To provide a meaningful assessment of the interest rate risk associated with our investment portfolio, the Company performed a sensitivity analysis to determine the impact a change in interest rates would have on the value of the investment portfolio assuming a 100 basis point parallel shift in the yield curve. Based on investment positions as of March 29, 2025 and March 30, 2024, a hypothetical 100 basis point increase in interest rates across all maturities would result in a \$4.1 million and \$3.5 million decline in the fair market value of the portfolio, respectively. Such losses would only be realized if the Company sold the investments prior to maturity.

Foreign Currency Exchange Risk

Our revenue and spending is transacted primarily in U.S. dollars; however, in fiscal years 2025, 2024, and 2023, we entered into routine transactions in other currencies to fund the operating needs of certain legal entities outside of the U.S. Our balance sheet also reflects monetary assets and liabilities in certain entities which are remeasured to each entity's functional currency. We use forward contracts to manage exposure to foreign currency exchange risk attributable to certain non-functional currency balance sheet exposures. Gains and losses from these foreign currency forward contracts are recognized currently in earnings along with the gains and losses resulting from remeasuring the underlying exposures. Because most of the aggregate balance sheet exposure is hedged by forward currency exchange contracts, at the end of any fiscal period a hypothetical 10 percent fluctuation in exchange rates relative to the U.S. dollar would result in an immaterial pretax currency exchange gain or loss. See Note 5 - Derivative Financial Instruments for additional information related to our hedging activities.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of Cirrus Logic, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Cirrus Logic, Inc. (the Company) as of March 29, 2025 and March 30, 2024, the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the three fiscal years in the period ended March 29, 2025, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at March 29, 2025 and March 30, 2024, and the results of its operations and its cash flows for each of the three fiscal years in the period ended March 29, 2025, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of March 29, 2025, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated May 23, 2025 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Inventory valuation

Description of the Matter

At March 29, 2025, the Company's inventory balance was \$299.1 million. As discussed in Note 2 of the financial statements, inventories are stated at the lower of cost or net realizable value, which includes considerations for inventory becoming obsolete or in excess of management's forecasted customer unit demand. The Company writes down inventories to net realizable value based on forecasted customer unit demand while taking into account product release schedules and product life cycles. The Company also writes down inventory, as appropriate, based on the age and condition of the inventory.

Auditing management's estimate of excess and obsolete inventory involved subjective auditor judgment because management's determination of whether a write down is warranted is judgmental and the estimate is sensitive to changes in assumptions, including management's assumptions over forecasted demand which may be impacted by, among other things, future market and economic conditions outside of the Company's control.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls that address the risks of material misstatement relating to the valuation of inventory. For example, we tested controls over management's review of forecasted demand, the significant assumptions, and the data underlying the excess and obsolete inventory valuation estimate.

Among other audit procedures performed, we evaluated the significant assumptions discussed above, including the forecasted customer unit demand utilized in the estimate, and tested the completeness and accuracy of the underlying data used in management's calculation. We evaluated adjustments to forecasted demand for specific product considerations and assessed the historical accuracy of management's estimates by performing a retrospective analysis comparing prior period forecasted demand to actual historical sales.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of Cirrus Logic, Inc.

Opinion on Internal Control over Financial Reporting

We have audited Cirrus Logic, Inc.'s internal control over financial reporting as of March 29, 2025, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Cirrus Logic, Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of March 29, 2025, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of March 29, 2025 and March 30, 2024, the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the three fiscal years in the period ended March 29, 2025, and the related notes and our report dated May 23, 2025 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

CIRRUS LOGIC, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

Description of Business

Cirrus Logic, Inc. (“Cirrus Logic,” “We,” “Us,” “Our,” or the “Company”) is a leader in low-power, high-precision mixed-signal processing solutions that create innovative user experiences for the world’s top mobile and consumer applications.

We were incorporated in California in 1984, became a public company in 1989, and were reincorporated in the State of Delaware in February 1999. Our primary facility housing engineering, sales and marketing, and administration functions is located in Austin, Texas. We also have offices in various other locations in the United States, United Kingdom, and Asia, including the People’s Republic of China, South Korea, Japan, Singapore, and Taiwan. Our common stock, which has been publicly traded since 1989, is listed on the NASDAQ’s Global Select Market under the symbol CRUS.

Basis of Presentation

We prepare financial statements on a 52- or 53-week year that ends on the last Saturday in March. Fiscal years 2025 and 2023 were 52-week years. Fiscal year 2024 was a 53-week year.

Principles of Consolidation

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the use of management estimates. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at fiscal year-end and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

2. Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of money market funds, U.S. Government Treasury and Agency instruments with original maturities of three months or less at the date of purchase.

Leases

We account for leases under ASC 842, *Leases*. Our leases generally contain fixed rental payments, with additional variable payments linked to actual common area maintenance costs incurred by the landlord. These variable payments are not included within the lease liability and right-of-use (“ROU”) asset, but are recognized as an expense when incurred. As our leases typically do not provide an implicit rate, the Company determines the Incremental Borrowing Rate (“IBR”) for each lease based on the information available at the commencement date, taking into consideration necessary adjustments for collateral, currency, and lease term.

Operating leases in excess of 12 months are recognized on the balance sheet, with future lease payments recognized as a liability, measured at present value, and the ROU asset recognized for the lease term. Lease expense is recognized in the income statement over the lease term.

Inventories

Inventories are stated at the lower of cost or net realizable value on a first-in, first-out basis. Cost is computed using standard costs, which approximate actual cost. One of the factors we consistently evaluate in the application of this method is the extent to which products are accepted into the marketplace. By policy, we evaluate market acceptance based on known business factors and conditions by comparing forecasted customer unit demand for our products over a specific future period, or demand horizon, to quantities on hand at the end of each accounting period.

On a quarterly and annual basis, we analyze inventories on a part-by-part basis. Product life cycles and the competitive nature of the industry are factors considered in the evaluation of customer unit demand at the end of each quarterly accounting period. Inventory on-hand in excess of forecasted demand is considered to have reduced market value and, therefore, the cost basis is adjusted to net realizable value. Typically, market values for excess or obsolete inventories are considered to be zero. Inventory charges recorded for excess and obsolete inventory, including scrapped inventory, were \$4.2 million in fiscal year 2025, related to a combination of quality issues and inventory exceeding demand. Net inventory reserve releases of \$1.0 million in fiscal year 2024, primarily related to the sale of previously reserved inventory, offset by charges for excess and obsolete inventory.

Inventories were comprised of the following (in thousands):

| | <u>March 29, 2025</u> | <u>March 30, 2024</u> |
|---------------------------|---------------------------|---------------------------|
| Work in process | \$216,173 | \$130,842 |
| Finished goods | <u>82,919</u> | <u>96,406</u> |
| | <u>\$299,092</u> | <u>\$227,248</u> |

Property, Plant and Equipment, net

Property, plant and equipment is recorded at cost, net of depreciation and amortization. Depreciation and amortization is calculated on a straight-line basis over estimated economic lives, ranging from 3 to 39 years. Leasehold improvements are depreciated over the shorter of the term of the lease or the estimated useful life. Furniture, fixtures, machinery, and equipment are all depreciated over a useful life of 3 to 10 years, while buildings are depreciated over a period of up to 39 years. In general, our capitalized software is amortized over a useful life of 3 years, with capitalized enterprise resource planning software being amortized over a useful life of 10 years. Gains or losses related to retirements or dispositions of fixed assets are recognized in the period incurred. Additionally, if impairment indicators exist, the Company will assess the carrying value in relation to the calculated fair value of the associated asset. There were no material disposal charges for property, plant and equipment in fiscal years 2025 or 2024.

Property, plant and equipment was comprised of the following (in thousands):

| | <u>March 29, 2025</u> | <u>March 30, 2024</u> |
|---|---------------------------|---------------------------|
| Land | \$ 23,853 | \$ 23,853 |
| Buildings | 64,148 | 64,056 |
| Furniture and fixtures | 29,875 | 30,462 |
| Leasehold improvements | 80,683 | 81,118 |
| Machinery and equipment | 208,567 | 200,999 |
| Capitalized software | 21,709 | 23,092 |
| Construction in progress and other | <u>734</u> | <u>9</u> |
| Total property, plant and equipment | 429,569 | 423,589 |
| Less: Accumulated depreciation and amortization | <u>(269,669)</u> | <u>(253,414)</u> |
| Property, plant and equipment, net | <u>\$ 159,900</u> | <u>\$ 170,175</u> |

Depreciation and amortization expense on property, plant, and equipment for fiscal years 2025, 2024, and 2023 was \$31.1 million, \$28.1 million, and \$27.1 million, respectively.

Goodwill

Goodwill is recorded at the time of an acquisition and is calculated as the difference between the aggregate consideration paid for an acquisition and the fair value of the net tangible and intangible assets acquired. The Company tests goodwill for impairment on an annual basis or more frequently if the Company believes indicators of impairment exist. Impairment evaluations involve management's assessment of qualitative factors to determine whether it is more likely than not that goodwill is impaired. If management concludes from its assessment of qualitative factors that it is more likely than not that impairment exists, then a quantitative impairment test will be performed involving management estimates of future cash flows. Significant management judgment is required in the forecasts of future operating results that are used in these evaluations. Following the quantitative test, an impairment charge would be recorded for the amount the carrying value exceeds the calculated fair value. We elected to perform the qualitative assessment of impairment for fiscal year 2025, and based on this assessment, we concluded it was not more likely than not that the fair value of the reporting unit was less than its carrying amount. The Company has recorded no goodwill impairment in fiscal years 2025, 2024, and 2023.

Long-Lived Assets

Intangible assets include purchased technology licenses and patents that are reported at cost and are amortized on a straight-line basis over their useful lives, generally ranging from 1 to 5 years. Acquired intangibles include existing technology, core technology or patents, license agreements, in-process research & development, trademarks, tradenames, customer relationships, and non-compete agreements. These assets are amortized on a straight-line basis over lives ranging from 1 to 15 years.

We regularly review whether facts or circumstances exist that indicate the carrying values of property, plant and equipment or other long-lived assets, including intangible assets, are impaired. We assess the recoverability of assets by comparing the projected undiscounted net cash flows associated with those assets to their respective carrying amounts. We measure any impairment loss by comparing the fair value of the asset to its carrying amount. We estimate fair value based on discounted future cash flows, quoted market prices, or independent appraisals. See Note 7 — Intangibles, net and Goodwill for further detail. There were no material intangible asset impairments recorded in fiscal years 2025 or 2024.

Foreign Currency Translation

Some of the Company's subsidiaries utilize the local currency as the functional currency. The Company's main entities, including the entities that generate the majority of sales and employ the majority of employees, are U.S. dollar functional.

Concentration of Credit Risk

Financial instruments that potentially subject us to material concentrations of credit risk consist primarily of cash equivalents, marketable securities, long-term marketable securities, and trade accounts receivable. We are exposed to credit risk to the extent of the amounts recorded on the balance sheet. By policy, our cash equivalents, marketable securities, and long-term marketable securities are subject to certain nationally recognized credit standards, issuer concentrations, sovereign risk, and marketability or liquidity considerations.

In evaluating our trade receivables, we perform credit evaluations of our major customers' financial condition and monitor closely all of our receivables to limit our financial exposure by limiting the length of time and amount of credit extended. In certain situations, we may require payment in advance or utilize letters of credit to reduce credit risk. By policy, we establish a reserve for trade accounts receivable based on the type of business in which a customer is engaged, the length of time a trade account receivable is outstanding, and other knowledge that we may possess relating to the probability that a trade receivable is at risk for non-payment.

We had two contract manufacturers aggregated at their parent level, Foxconn and Luxsan, who represented 41 percent and 21 percent, respectively, of our consolidated gross trade accounts receivable as of the end of fiscal year 2025. We had three contract manufacturers aggregated at their parent level, Foxconn, Luxshare Precision, and Pegatron, who represented 43 percent, 11 percent, and 10 percent, respectively, of our consolidated gross trade accounts receivable as of the end of fiscal year 2024. No other distributor or contract manufacturer had receivable balances that represented more than 10 percent of consolidated gross trade accounts receivable as of the end of fiscal year 2025 or 2024.

Since the components we produce are largely proprietary and generally not available from second sources, we consider our end customer to be the entity specifying the use of our component in their design. These end customers may then purchase our products directly from us, from a distributor, or through a third-party manufacturer contracted to produce their end product. For fiscal years 2025, 2024 and 2023, our ten largest end customers represented approximately 96 percent, 95 percent and 92 percent of our net sales, respectively. For fiscal years 2025, 2024, and 2023, we had one end customer, Apple Inc., who purchased through multiple contract manufacturers and represented approximately 89 percent, 87 percent, and 83 percent, of the Company's total net sales, respectively. No other customer or distributor represented more than 10 percent of net sales in fiscal years 2025, 2024, or 2023.

Revenue Recognition

We recognize revenue upon the transfer of promised goods or services to customers, in an amount that reflects the consideration the Company expects to be entitled in exchange for those goods or services.

Performance Obligations

The Company's single performance obligation is the delivery of promised goods to the customer. The promised goods are explicitly stated in the customer contract and are comprised of a single type of good. This performance obligation is satisfied upon transfer of control of the promised goods to the customer, as defined per the shipping terms within the customer's contract. The vast majority of the Company's contracts with customers have an original expected term of one year or less.

Contract balances

Payments are typically due within 30 to 60 days of invoicing and terms do not include a significant financing component or noncash consideration. There have been no material impairment losses on accounts receivable. There are no material contract liabilities recorded on the consolidated balance sheets.

Transaction price

The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring the promised goods to the customer. Fixed pricing is the consideration that is agreed upon in the customer contract. Variable pricing includes rights of return, price protection and stock rotation. Rights of return costs are estimated using the "most likely amount" method by reviewing historical returns to determine the most likely customer return rate and applying materiality thresholds. Price protection includes price adjustments available to certain distributors based upon established book price and a stated adjustment period. Stock rotation is also available to certain distributors based on a stated maximum of prior billings.

The Company estimates all variable consideration at the most likely amount which it expects to be entitled. The estimate is based on current and historical information available to the Company, including recent sales activity and pricing. Variable consideration is only included in the transaction price to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. The Company defers all variable consideration that does not meet the revenue recognition criteria.

Shipping Costs

Our shipping and handling costs are included in cost of sales for all periods presented in the consolidated statements of income.

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs were \$0.3 million, \$0.3 million, and \$0.5 million, in fiscal years 2025, 2024, and 2023, respectively.

Stock-Based Compensation

Stock-based compensation is measured at the grant date based on the grant-date fair value of the awards and is recognized as an expense, on a ratable basis, over the vesting period, which is generally between 1 and 4 years. Determining the amount of stock-based compensation to be recorded requires the Company to develop estimates used in calculating the grant-date fair value of stock options and market stock units. The Company calculates the grant-date fair value for stock options and market stock units (“MSUs”) using the Black-Scholes valuation model and the Monte Carlo simulation, respectively. The use of valuation models requires the Company to make estimates of assumptions such as expected volatility, expected term, risk-free interest rate, expected dividend yield, and forfeiture rates. The grant-date fair value of restricted stock units (“RSUs”) is the market value at grant date multiplied by the number of units. The grant-date fair value of performance stock units (“PSUs”) is the market value at grant date multiplied by the target number of award units.

Income Taxes

We are required to calculate income taxes in each of the jurisdictions in which we operate. This process involves calculating the actual current tax liability as well as assessing temporary differences in the recognition of income or loss for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included in our consolidated balance sheet. We record a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company evaluates the ability to realize its deferred tax assets based on all the facts and circumstances, including projections of future taxable income and expiration dates of carryover tax attributes.

The calculation of our tax liabilities involves assessing uncertainties with respect to the application of complex tax rules and the potential for future adjustment of our uncertain tax positions by the U.S. Internal Revenue Service or other taxing jurisdiction. We recognize liabilities for uncertain tax positions based on the required two-step process. The first step requires us to determine if the weight of available evidence indicates that the tax position has met the threshold for recognition; therefore, we must evaluate whether it is more likely than not that the position will be sustained on audit, including resolution of any related appeals or litigation processes. The second step requires us to measure the tax benefit of the tax position taken, or expected to be taken, in an income tax return as the largest amount that is more than 50 percent likely of being realized upon ultimate settlement. We reevaluate the uncertain tax positions each quarter based on factors including, but not limited to, changes in facts or circumstances, changes in tax law, expirations of statutes of limitation, effectively settled issues under audit, and new audit activity. A change in the recognition step or measurement step would result in the recognition of a tax benefit or an additional charge to the tax provision in the period.

Although we believe the measurement of our liabilities for uncertain tax positions is reasonable, we cannot assure that the final outcome of these matters will not be different than what is reflected in the historical income tax provisions and accruals. If additional taxes are assessed as a result of an audit or litigation, it could have a material effect on our income tax provision and net income in the period or periods for which that determination is made. We operate within multiple taxing jurisdictions and are subject to audit in these jurisdictions. These audits can involve complex issues which may require an extended period of time to resolve and could result in additional assessments of income tax. We believe adequate provisions for income taxes have been made for all periods. See Note 17—Income Taxes for further detail.

Government Assistance

The Company benefits from the Research and Development Expenditure Credit (“RDEC”) program in the United Kingdom. The RDEC is recorded as an offset to research and development expenses in the consolidated statements of income, \$43.0 million, \$40.9 million, and \$26.2 million in fiscal years 2025, 2024, and 2023, respectively. The RDEC is first settled against the Company’s United Kingdom quarterly income tax payments with any remainder paid in cash on an annual basis. The RDEC receivable as of March 30, 2024 totaled \$27.9 million, presented within “*Other current Assets*” on the consolidated balance sheets. There was no RDEC receivable as of March 29, 2025. While the duration of RDEC benefits is indefinite, the program is subject to future policy changes and RDEC claims are subject to regular audits by the United Kingdom government.

Net Income Per Share

Basic net income per share is based on the weighted effect of common shares issued and outstanding and is calculated by dividing net income by the basic weighted average shares outstanding during the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares used in the basic net income per share calculation, plus the equivalent number of common shares that would be issued assuming exercise or conversion of all potentially dilutive common shares outstanding. These potentially dilutive items consist primarily of outstanding stock options and restricted stock grants.

The following table details the calculation of basic and diluted earnings per share for fiscal years 2025, 2024, and 2023, (in thousands, except per share amounts):

| | Fiscal Years Ended | | |
|---|--------------------|-------------------|-------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| Numerator: | | | |
| Net income | \$331,507 | \$274,572 | \$176,703 |
| Denominator: | | | |
| Weighted average shares outstanding | 53,135 | 54,290 | 55,614 |
| Effect of dilutive securities | 2,106 | 1,731 | 1,612 |
| Weighted average diluted shares | <u>55,241</u> | <u>56,021</u> | <u>57,226</u> |
| Basic earnings per share | \$ 6.24 | \$ 5.06 | \$ 3.18 |
| Diluted earnings per share | <u>\$ 6.00</u> | <u>\$ 4.90</u> | <u>\$ 3.09</u> |

The weighted outstanding shares excluded from our diluted calculation for the years ended March 29, 2025, March 30, 2024, and March 25, 2023 were 225 thousand, 325 thousand, and 268 thousand, respectively, as the exercise price of certain outstanding stock options exceeded the average market price during the period.

Accumulated Other Comprehensive Loss

Our accumulated other comprehensive loss is comprised of foreign currency translation adjustments and unrealized gains and losses on investments classified as available-for-sale. See Note 16 — Accumulated Other Comprehensive Loss for additional discussion.

Recently Adopted Accounting Pronouncements

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. This ASU requires interim and annual disclosure of significant segment expenses that are regularly provided to the CODM and included within each reported measure of a segment’s profit or loss, requires interim disclosures about a reportable segment’s profit or loss and assets that are currently required annually and requires disclosure of the position and title of the CODM and how the CODM uses segment profit or loss information in assessing segment performance and deciding how to allocate resources. In

the event the CODM uses more than one measure of a segment's profit or loss in assessing performance and allocation of resources, clarification of disclosure requirements is provided. Additionally, a company with a single reportable segment is required to provide all the disclosures prescribed under this ASU. The guidance is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, to be applied retrospectively to all periods presented. The Company retrospectively adopted this standard for the fiscal year ending March 29, 2025. See Note 18 - Segment Information. The adoption of this standard had no impact on our results of operations, cash flows or financial position.

Recently Issued Accounting Pronouncements

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740) - Improvements to Income Tax Disclosures*. The guidance provides qualitative and quantitative updates to the rate reconciliation and income taxes paid disclosures, requiring more consistent categories and greater disaggregation of information by jurisdiction. This ASU is effective for financial statements issued for annual periods beginning after December 15, 2024, with early adoption permitted, to be applied on a prospective basis, although retrospective application is also permitted. The Company is currently evaluating the impact of this guidance on financial statement disclosures.

In November 2024, FASB issued ASU 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Topic 220-40): Disaggregation of Income Statement Expenses*, which requires disaggregation of certain expense categories in the notes to the financial statements in order to provide enhanced transparency into the expense captions presented on the face of the income statement. The amendments are effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption and prospective or retrospective application permitted. The Company is currently evaluating the impact of this guidance on financial statement disclosures.

3. Marketable Securities

The Company's investments have been classified as available-for-sale securities in accordance with U.S. GAAP. Marketable securities are categorized on the consolidated balance sheet as "*Marketable securities*" within the short-term or long-term classification, as appropriate.

The following table is a summary of available-for-sale securities (in thousands):

| <i>As of March 29, 2025</i> | <u>Amortized Cost</u> | <u>Gross Unrealized Gains</u> | <u>Gross Unrealized Losses</u> | <u>Estimated Fair Value (Net Carrying Amount)</u> |
|---------------------------------|---------------------------|-----------------------------------|------------------------------------|---|
| Corporate debt securities | \$284,885 | \$1,635 | \$(55) | \$286,465 |
| U.S. Treasury securities | <u>8,689</u> | <u>45</u> | <u>(3)</u> | <u>8,731</u> |
| Total securities | <u>\$293,574</u> | <u>\$1,680</u> | <u>\$(58)</u> | <u>\$295,196</u> |

The Company typically invests in highly-rated securities with original maturities generally ranging from one to three years. The Company's specifically identified gross unrealized losses of \$0.1 million related to securities with total amortized costs of approximately \$29.8 million at March 29, 2025. Securities in a continuous unrealized loss position for more than 12 months as of March 29, 2025 had an aggregate amortized cost of \$1.9 million and an immaterial aggregate unrealized loss. The Company may sell certain of its marketable securities prior to their stated maturities for strategic reasons including, but not limited to, anticipated or actual changes in credit rating and duration management. The Company records an allowance for credit loss when a decline in investment market value is due to credit-related factors. When evaluating an investment for impairment, the Company reviews factors including the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer, changes in market interest rates and whether it is more likely than not the Company will be required to sell the investment before recovery of the investment's cost basis. As of March 29, 2025, the Company does not consider any of its investments to be impaired.

| <i>As of March 30, 2024</i> | <u>Amortized Cost</u> | <u>Gross Unrealized Gains</u> | <u>Gross Unrealized Losses</u> | <u>Estimated Fair Value (Net Carrying Amount)</u> |
|---------------------------------|---------------------------|-----------------------------------|------------------------------------|---|
| Corporate debt securities | \$186,194 | \$115 | \$ (916) | \$185,393 |
| U.S. Treasury securities | 9,850 | — | (81) | 9,769 |
| Agency discount notes | 1,135 | — | (11) | 1,124 |
| Commercial paper | 866 | — | — | 866 |
| Total securities | <u>\$198,045</u> | <u>\$115</u> | <u>\$(1,008)</u> | <u>\$197,152</u> |

The Company's specifically identified gross unrealized losses of \$1.0 million related to securities with total amortized costs of approximately \$172.1 million at March 30, 2024. Securities in a continuous unrealized loss position for more than 12 months as of March 30, 2024 had an aggregate amortized cost of \$25.0 million and an aggregate unrealized loss of \$0.3 million as of March 30, 2024. As of March 30, 2024, the Company did not consider any of its investments to be impaired.

The cost and estimated fair value of available-for-sale investments by contractual maturity were as follows:

| | <u>March 29, 2025</u> | | <u>March 30, 2024</u> | |
|---------------------|---------------------------|---------------------------------|---------------------------|---------------------------------|
| | <u>Amortized Cost</u> | <u>Estimated Fair Value</u> | <u>Amortized Cost</u> | <u>Estimated Fair Value</u> |
| Within 1 year | \$ 56,044 | \$ 56,160 | \$ 24,071 | \$ 23,778 |
| After 1 year | 237,530 | 239,036 | 173,974 | 173,374 |
| Total | <u>\$293,574</u> | <u>\$295,196</u> | <u>\$198,045</u> | <u>\$197,152</u> |

4. Fair Value of Financial Instruments

The Company has determined that the assets and liabilities in the Company's financial statements that are required to be measured at fair value on a recurring basis are the Company's cash equivalents and marketable securities portfolio. The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's cash equivalents and marketable securities portfolio consist of money market funds, commercial paper, debt securities, non-U.S government securities, U.S Treasury securities, and securities of U.S. government-sponsored enterprises, and are reflected on our consolidated balance sheet under the headings cash and cash equivalents, marketable securities, and long-term marketable securities. The Company determines the fair value of its marketable securities portfolio by obtaining non-binding market prices from its third-party pricing providers on the last day of the quarter, whose sources may use quoted prices in active markets for identical assets (Level 1 inputs) or inputs other than quoted prices that are observable either directly or indirectly (Level 2 inputs) in determining fair value.

The Company's long-term revolving facility, described in Note 8 - Revolving Credit Facility, bears interest at a base rate plus applicable margin or forward-looking secured overnight financing rate ("Term SOFR") plus 10 basis points plus applicable margin. As of March 29, 2025, there are no amounts drawn under the facility and the fair value is zero.

As of March 29, 2025 and March 30, 2024, the Company has no material Level 3 assets or liabilities. There were no transfers between Level 1, Level 2, or Level 3 measurements for the years ending March 29, 2025 and March 30, 2024.

The following summarizes the fair value of our financial instruments at March 29, 2025 (in thousands):

| | Quoted Prices in Active Markets for Identical Assets Level 1 | Significant Other Observable Inputs Level 2 | Significant Unobservable Inputs Level 3 | Total |
|-------------------------------------|---|---|--|------------------|
| Assets: | | | | |
| Cash equivalents | | | | |
| Money market funds | \$491,467 | \$ — | \$— | \$491,467 |
| Available-for-sale securities | | | | |
| Corporate debt securities | \$ — | \$286,465 | \$— | \$286,465 |
| U.S. Treasury securities | 8,731 | — | — | 8,731 |
| | <u>\$ 8,731</u> | <u>\$286,465</u> | <u>\$—</u> | <u>\$295,196</u> |

The following summarizes the fair value of our financial instruments at March 30, 2024 (in thousands):

| | Quoted Prices in Active Markets for Identical Assets Level 1 | Significant Other Observable Inputs Level 2 | Significant Unobservable Inputs Level 3 | Total |
|-------------------------------------|---|---|--|------------------|
| Assets: | | | | |
| Cash equivalents | | | | |
| Money market funds | \$439,065 | \$ — | \$— | \$439,065 |
| Certificates of deposit | — | 400 | — | 400 |
| | <u>\$439,065</u> | <u>\$ 400</u> | <u>\$—</u> | <u>\$439,465</u> |
| Available-for-sale securities | | | | |
| Corporate debt securities | \$ — | \$185,393 | \$— | \$185,393 |
| U.S. Treasury securities | 9,769 | — | — | 9,769 |
| Agency discount notes | — | 1,124 | — | 1,124 |
| Commercial paper | <u>\$ —</u> | <u>\$ 866</u> | <u>\$—</u> | <u>\$ 866</u> |
| | <u>\$ 9,769</u> | <u>\$187,383</u> | <u>\$—</u> | <u>\$197,152</u> |

5. Derivative Financial Instruments

Foreign Currency Forward Contracts

The Company uses foreign currency forward contracts to reduce the earnings impact that exchange rate fluctuations have on non-functional currency balance sheet exposures. The Company recognizes both the gains and losses on foreign currency forward contracts and the gains and losses on the remeasurement of non-functional currency assets and liabilities within "Other income (expense)" in the consolidated statements of income. The Company does not apply hedge accounting to these foreign currency derivative instruments.

As of March 29, 2025, the Company held one foreign currency forward contract denominated in British Pound Sterling with a notional value of \$21.5 million. The fair value of this contract was not material as of March 29, 2025.

The before-tax effect of derivative instruments not designated as hedging instruments was as follows (in thousands):

| | Fiscal Years Ended | | | Location |
|--|--------------------|-------------------|-------------------|------------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 | |
| Loss recognized in income | | | | |
| Foreign currency forward contracts | \$(2) | \$(431) | \$(564) | Other income (expense) |

6. Accounts Receivable, net

The following are the components of accounts receivable, net (in thousands):

| | March 29, 2025 | March 30, 2024 |
|---|-------------------|-------------------|
| Gross accounts receivable | \$216,009 | \$162,478 |
| Allowance for doubtful accounts | — | — |
| Accounts receivable, net | <u>\$216,009</u> | <u>\$162,478</u> |

The Company regularly evaluates the collectability of accounts receivable based on age, historical customer payment trends and ongoing customer relations. The allowance for doubtful accounts and recoveries on bad debt were immaterial for fiscal years 2025, 2024, and 2023.

7. Intangibles, net and Goodwill

The following information details the gross carrying amount, accumulated amortization, and net carrying value of our intangible assets subject to amortization (in thousands):

| Intangible Category / Weighted-Average Remaining Amortization Period (in years) | March 29, 2025 | | | March 30, 2024 | | |
|---|------------------|-----------------------------|--------------------------|------------------|-----------------------------|--------------------------|
| | Gross Amount | Accumulated Amortization | Net Carrying Value | Gross Amount | Accumulated Amortization | Net Carrying Value |
| Existing technology (3.3) | 146,146 | (124,183) | 21,963 | 146,146 | (117,595) | 28,551 |
| Customer relationships (a) | 15,381 | (15,381) | — | 15,381 | (14,840) | 541 |
| Technology licenses (9.2) | 16,029 | (10,531) | 5,498 | 10,692 | (10,206) | 486 |
| Total | <u>\$177,556</u> | <u>\$(150,095)</u> | <u>\$27,461</u> | <u>\$172,219</u> | <u>\$(142,641)</u> | <u>\$29,578</u> |

(a) Intangible assets are fully amortized as of March 29, 2025.

Amortization expense for intangibles in fiscal years 2025, 2024, and 2023 was \$7.6 million, \$9.0 million, and \$33.7 million, respectively. The following table details the estimated aggregate amortization expense for all intangibles owned as of March 29, 2025, for each of the five succeeding fiscal years and in the aggregate thereafter (in thousands):

| Fiscal Year | |
|----------------------|---------|
| 2026 | \$7,290 |
| 2027 | \$7,210 |
| 2028 | \$7,057 |
| 2029 | \$2,613 |
| 2030 | \$ 417 |
| Thereafter | \$2,874 |

The goodwill balance included on the consolidated balance sheet was \$435.9 million and \$435.9 million at March 29, 2025 and March 30, 2024, respectively.

8. Revolving Credit Facility

On July 8, 2021, the Company entered into a second amended and restated credit agreement (the “Second Amended Credit Agreement”) with Wells Fargo Bank, National Association, as administrative agent, and the lenders party thereto. The Second Amended Credit Agreement provides for a \$300 million senior secured revolving credit facility (the “Revolving Credit Facility”). The Revolving Credit Facility matures on July 8, 2026 (the “Maturity Date”). The Revolving Credit Facility is required to be guaranteed by all of Cirrus Logic’s material domestic subsidiaries (the “Subsidiary Guarantors”). The Revolving Credit Facility is secured by substantially all the assets of Cirrus Logic and any Subsidiary Guarantors, except for certain excluded assets.

On March 20, 2023, the Company, entered into the First Amendment (the “Amendment”) to its Second Amended Credit Agreement, with the lending institutions party thereto and Wells Fargo Bank, National Association, as administrative agent. The Amendment updates the benchmark interest rate provisions to replace the London interbank offered rate (“LIBOR”) with the forward-looking secured overnight financing rate (“Term SOFR”), for the purposes of calculating interest under the terms of the Second Amended Credit Agreement.

Borrowings under the Revolving Credit Facility may, at Cirrus Logic’s election, bear interest at either (a) a base rate plus the applicable margin (“Base Rate Loans”) or (b) a Term SOFR rate plus a 10 basis point credit spread adjustment plus the applicable margin. The applicable margin ranges from 0% to 0.75% per annum for Base Rate Loans and 1.00% to 1.75% per annum for SOFR Loans based on the ratio of consolidated funded indebtedness to consolidated EBITDA for the most recently ended period of four consecutive fiscal quarters (the “Consolidated Leverage Ratio”). A Commitment Fee accrues at a rate per annum ranging from 0.175% to 0.275% (based on the Consolidated Leverage Ratio) on the average daily unused portion of the commitment of the lenders.

The Revolving Credit Facility contains certain financial covenants providing that (a) the ratio of consolidated funded indebtedness (minus up to \$200 million of unrestricted cash and cash equivalents available on such date) to consolidated EBITDA for the prior four consecutive quarters must not be greater than 3.00 to 1.00 (the “Consolidated Net Leverage Ratio”) and (b) the ratio of consolidated EBITDA for the prior four consecutive quarters to consolidated interest expense paid or payable in cash for the prior four consecutive quarters must not be less than 3.00 to 1.00 (the “Consolidated Interest Coverage Ratio”). The Second Amended Credit Agreement also contains negative covenants limiting the Company’s or any Subsidiary’s ability to, among other things, incur debt, grant liens, make investments, effect certain fundamental changes, make certain asset dispositions, and make certain restricted payments. Further, the Second Amended Credit Agreement contains customary affirmative covenants, including, among others, covenants regarding the payment of taxes and other obligations, maintenance of insurance, reporting requirements, and compliance with applicable laws and regulations.

As of March 29, 2025, the Company had no amounts outstanding under the Revolving Credit Facility and was in compliance with all covenants under the Second Amended Credit Agreement.

As of March 29, 2025, future interest payment obligations based on forecasted commitment fees under the Revolving Credit Facility were as follows (in thousands):

| Fiscal Year | |
|--------------------|-------|
| 2026 | \$532 |
| 2027 | 277 |
| 2028 | — |
| 2029 | — |
| 2030 | — |
| Thereafter | — |
| Total | \$809 |

9. Revenues

Disaggregation of revenue

We disaggregate revenue from contracts with customers by product line and ship to location of the customer. Sales are designated in the product line categories of Audio and High-Performance Mixed-Signal (“HPMS”).

Total net sales based on the product line disaggregation criteria described above are shown in the table below (in thousands).

| | Fiscal Years Ended | | |
|----------------------|--------------------|--------------------|--------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| Audio Products | \$1,137,157 | \$1,083,939 | \$1,172,007 |
| HPMS Products | 758,920 | 704,951 | 725,610 |
| Total | <u>\$1,896,077</u> | <u>\$1,788,890</u> | <u>\$1,897,617</u> |

The geographic regions that are reviewed are China, the United States, and the rest of the world.

Total net sales based on the geographic disaggregation criteria described are as follows (in thousands):

| | Fiscal Years Ended | | |
|---------------------|--------------------|--------------------|--------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| China | \$1,126,367 | \$1,114,310 | \$1,230,602 |
| United States | 15,838 | 17,971 | 52,688 |
| Rest of World | 753,872 | 656,609 | 614,327 |
| Total | <u>\$1,896,077</u> | <u>\$1,788,890</u> | <u>\$1,897,617</u> |

See Note 2 - Summary of Significant Accounting Policies for additional discussion surrounding revenue recognition considerations.

10. Leases

The Company has operating leases for corporate offices and certain office equipment. Our leases have remaining lease terms of 1 year to 24 years, some of which include options to extend the leases that are considered reasonably certain to be exercised. There are no residual value guarantees in any of our leases. No restrictions or covenants have been imposed on the Company as a result of the lease agreements in place. All of the Company’s leases have been classified as operating leases.

The components of net operating lease expense were as follows (in thousands):

| | Fiscal Years Ended | |
|--|--------------------|-------------------|
| | March 29, 2025 | March 30, 2024 |
| Operating lease - in excess of 12 months | \$19,750 | \$17,498 |
| Variable lease | 6,137 | 5,259 |
| Short-term lease | 351 | 853 |
| Operating lease income | <u>(944)</u> | <u>(164)</u> |
| Total net operating lease expense | \$25,294 | \$23,446 |

Supplemental operating lease information:

| | Fiscal Years Ended | |
|--|--------------------|-------------------|
| | March 29, 2025 | March 30, 2024 |
| Balance Sheet Information (in thousands) | | |
| Operating lease right-of-use assets | \$126,688 | \$138,288 |
| Operating lease liabilities | \$143,719 | \$155,216 |
| Cash Flow Information (in thousands) | | |
| Operating cash outflows from operating leases | \$ 21,965 | \$ 19,189 |
| Non-Cash Information | | |
| Right-of-use assets obtained in exchange for new operating lease liabilities | 3,538 | 24,784 |
| Lease remeasurements | (1,078) | (1,606) |
| Lease impairments and other related charges | — | (563) |
| Operating Lease Information | | |
| Weighted-average remaining lease term - operating leases (in years) | 11 | 12 |
| Weighted-average discount rate - operating leases | 4% | 4% |

As of March 29, 2025, we have an additional operating lease that has not yet commenced with an estimated lease obligation of approximately \$5 million. This operating lease will commence in fiscal year 2026 with a lease term of approximately 10 years.

Future lease commitments and income under non-cancellable leases, including extension options reasonably anticipated to be exercised as of March 29, 2025, are as follows (in thousands):

| Fiscal Year | Operating Lease Commitments | Operating Lease Income |
|-------------------------------------|--------------------------------|---------------------------|
| 2026 | \$ 21,915 | \$(1,578) |
| 2027 | 19,239 | (1,889) |
| 2028 | 19,702 | (2,029) |
| 2029 | 19,487 | (1,418) |
| 2030 | 16,945 | — |
| Thereafter | 86,104 | — |
| Total | \$183,392 | \$(6,914) |
| Less imputed interest and other ... | (39,673) | — |
| Total | \$143,719 | \$(6,914) |

Operating lease liabilities consisted of the following (in thousands):

| | March 29, 2025 | March 30, 2024 |
|---|-------------------|-------------------|
| Current lease liabilities | \$ 21,811 | \$ 20,640 |
| Non-current lease liabilities | 121,908 | 134,576 |
| Total operating lease liabilities | \$143,719 | \$155,216 |

11. Postretirement Benefit Plans

We have Defined Contribution Plans (“the Plans”) covering all of our qualifying employees. Under the Plans, employees may elect to contribute any percentage of their annual compensation up to the annual regulatory limits. The Company made matching employee contributions of \$11.3 million, \$11.0 million, and \$10.2 million during fiscal years 2025, 2024, and 2023, respectively.

12. Equity Compensation

The Company is currently granting equity awards from the 2018 Long Term Incentive Plan (the “Plan”), which was approved by stockholders in August 2018 and subsequently amended and restated on July 26, 2024. The Plan provides for granting of stock options, restricted stock awards, restricted stock units, performance awards, and bonus stock awards, or any combination of the foregoing. To date, the Company has granted stock options, restricted stock units, and performance awards (including market stock units and performance stock units). Each stock option granted reduces the total shares available for grant under the Plan by one share. Each full value award granted (including restricted stock awards, restricted stock units, market stock units, and performance stock units) reduces the total shares available for grant under the Plan by 1.5 shares. Stock options generally vest between one and four years, and are exercisable for a period of ten years from the date of grant. Restricted stock units are generally subject to vesting from one to three years, depending upon the terms of the grant. Market stock units are subject to a vesting schedule of three years. Performance stock units are generally subject to vesting from one to three years, depending upon the terms of the grant.

The following table summarizes the activity in total shares available for grant (in thousands):

| | Shares Available for Grant |
|-------------------------------|----------------------------------|
| Balance, March 26, 2022 | 2,617 |
| Shares added | 2,090 |
| Granted | (2,536) |
| Forfeited | <u>303</u> |
| Balance, March 25, 2023 | 2,474 |
| Shares added | — |
| Granted | (1,813) |
| Forfeited | <u>317</u> |
| Balance, March 30, 2024 | 978 |
| Shares added | 2,670 |
| Granted | (1,322) |
| Forfeited | <u>214</u> |
| Balance, March 29, 2025 | <u><u>2,540</u></u> |

Stock-based Compensation Expense

The following table summarizes the effects of stock-based compensation on cost of goods sold, research and development, sales, general and administrative, pre-tax income, and net income after taxes for shares granted under the Plan (in thousands, except per share amounts):

| | Fiscal Year | | |
|--|----------------------|----------------------|----------------------|
| | 2025 | 2024 | 2023 |
| Cost of sales | \$ 1,332 | \$ 1,403 | \$ 1,270 |
| Research and development | 59,184 | 63,678 | 57,312 |
| Sales, general and administrative | <u>23,630</u> | <u>24,190</u> | <u>23,059</u> |
| Effect on pre-tax income | 84,146 | 89,271 | 81,641 |
| Income Tax Benefit | <u>(19,152)</u> | <u>(20,646)</u> | <u>(15,184)</u> |
| Total stock-based compensation expense (net of taxes) | <u><u>64,994</u></u> | <u><u>68,625</u></u> | <u><u>66,457</u></u> |
| Stock-based compensation effects on basic earnings per share | \$ 1.22 | \$ 1.26 | \$ 1.19 |
| Stock-based compensation effects on diluted earnings per share | 1.18 | 1.22 | 1.16 |

The total stock-based compensation expense included in the table above and which is attributable to restricted stock units, performance based stock units, and market stock units was \$80.7 million, \$85.1 million, \$78.0 million, for fiscal years 2025, 2024, and 2023, respectively. Stock-based compensation expense is presented within operating activities in the consolidated statement of cash flows.

As of March 29, 2025, there was \$138.7 million of compensation costs related to non-vested stock options, restricted stock units, market stock units, and performance stock units granted under the Company's equity incentive plans not yet recognized in the Company's financial statements. The unrecognized compensation cost is expected to be recognized over a weighted average period of 1.48 years for stock options, 1.45 years for restricted stock units, 1.92 years for market stock units, and 2.16 years for performance stock units.

In addition to the income tax benefit of stock-based compensation expense shown in the table above, the Company recognized excess tax benefits of \$9.4 million, \$0.2 million and \$1.4 million in fiscal years 2025, 2024, and 2023 respectively.

Stock Options

We estimate the fair value of each stock option on the date of grant using the Black-Scholes option-pricing model using a dividend yield of zero and the following additional assumptions:

| | <u>March 29, 2025</u> | <u>March 30, 2024</u> | <u>March 25, 2023</u> |
|---|-----------------------|-----------------------|-----------------------|
| Expected stock price volatility | 35.70% | 34.53% - 39.92% | 35.18% - 46.50% |
| Risk-free interest rate | 4.33% | 3.99% - 4.11% | 2.47% - 3.96% |
| Expected term (in years) | 3.73 | 3.85 - 4.07 | 4.04 - 4.33 |

The Black-Scholes valuation calculation requires us to estimate key assumptions such as stock price volatility, expected term, risk-free interest rate and dividend yield. The expected stock price volatility is based upon implied volatility from traded options on our stock in the marketplace. The expected term of options granted is derived from an analysis of historical exercises and remaining contractual life of stock options, and represents the period of time that options granted are expected to be outstanding after becoming vested. The risk-free interest rate reflects the yield on zero-coupon U.S. Treasury securities for a period that is commensurate with the expected term assumption. Finally, we have never paid cash dividends, do not currently intend to pay cash dividends, and thus have assumed a zero percent dividend yield.

Using the Black-Scholes option valuation model, the weighted average estimated fair values of stock options granted in fiscal years 2025, 2024, and 2023, were \$54.04, \$39.61, and \$42.37, respectively.

During fiscal years 2025, 2024, and 2023, we received a net \$15.4 million, \$3.3 million, and \$10.1 million, respectively, from the exercise of 0.3 million, 0.1 million, and 0.2 million, respectively, stock options granted under the Company's Stock Plan.

The total intrinsic value of stock options exercised during fiscal year 2025, 2024, and 2023, was \$14.7 million, \$2.8 million, and \$11.4 million, respectively. Intrinsic value represents the difference between the market value of the Company's common stock at the time of exercise and the strike price of the stock option.

Additional information with respect to stock option activity is as follows (in thousands, except per share amounts):

| | Outstanding Options | |
|-------------------------|---------------------|---------------------------------|
| | Number | Weighted Average Exercise Price |
| Balance, March 26, 2022 | 820 | \$ 57.75 |
| Options granted | 143 | 96.33 |
| Options exercised | (225) | 45.10 |
| Options forfeited | (18) | 71.14 |
| Options expired | — | — |
| Balance, March 25, 2023 | 720 | \$ 69.03 |
| Options granted | 132 | 92.69 |
| Options exercised | (66) | 50.39 |
| Options forfeited | — | — |
| Options expired | — | — |
| Balance, March 30, 2024 | 786 | \$ 74.56 |
| Options granted | 4 | 129.24 |
| Options exercised | (257) | 59.93 |
| Options forfeited | (29) | 91.26 |
| Options expired | — | — |
| Balance, March 29, 2025 | <u>504</u> | \$ 81.53 |

Additional information with regards to outstanding options that are vesting, expected to vest, or exercisable as of March 29, 2025 is as follows (in thousands, except years and per share amounts):

| | Number of Options | Weighted Average Exercise price | Weighted Average Remaining Contractual Term (years) | Aggregate Intrinsic Value |
|-----------------------------|-------------------|---------------------------------|---|---------------------------|
| Vested and expected to vest | 495 | \$81.27 | 6.63 | \$9,404 |
| Exercisable | 337 | \$74.72 | 5.87 | \$8,497 |

In accordance with U.S. GAAP, stock options outstanding that are expected to vest are presented net of estimated future option forfeitures, which are estimated as compensation costs are recognized. Options with a fair value of \$4.3 million, \$4.2 million, and \$3.0 million, became vested during fiscal years 2025, 2024, and 2023, respectively.

The following table summarizes information regarding outstanding and exercisable options as of March 29, 2025 (in thousands, except per share amounts):

| Range of Exercise Prices | Options Outstanding | | | Options Exercisable | |
|--------------------------|---------------------|---|---------------------------------|---------------------|---------------------------------|
| | Number | Weighted Average Remaining Contractual Life (years) | Weighted Average Exercise Price | Number Exercisable | Weighted Average Exercise Price |
| \$31.25 - \$68.43 | 88 | 3.32 | \$ 44.27 | 88 | \$ 44.27 |
| \$68.56 - \$78.00 | 95 | 5.44 | 74.51 | 95 | 74.51 |
| \$79.16 - \$88.00 | 111 | 7.00 | 85.69 | 80 | 85.76 |
| \$93.24 | 113 | 8.87 | 93.24 | 28 | 93.24 |
| \$102.37 | 93 | 7.86 | 102.37 | 46 | 102.37 |
| \$129.24 | 4 | 9.33 | 129.24 | — | — |
| | <u>504</u> | 6.66 | \$ 81.53 | <u>337</u> | \$ 74.72 |

As of March 29, 2025, March 30, 2024, and March 25, 2023, the number of options exercisable was 0.3 million, 0.5 million, and 0.5 million respectively.

Restricted Stock Units

Restricted stock units (“RSUs”) are valued as of the grant date and amortized over the requisite vesting period. Generally, RSUs vest 100 percent on the first to third anniversary of the grant date depending on the vesting specifications. A summary of the activity for RSUs in fiscal year 2025, 2024, and 2023 is presented below (in thousands, except per share amounts):

| | <u>Shares</u> | <u>Weighted Average Fair Value</u> |
|----------------------|---------------------|--|
| March 26, 2022 | 2,576 | \$ 74.45 |
| Granted | 1,574 | 75.97 |
| Vested | (877) | 70.02 |
| Forfeited | <u>(183)</u> | 75.58 |
| March 25, 2023 | 3,090 | \$ 76.42 |
| Granted | 1,099 | 71.12 |
| Vested | (879) | 73.54 |
| Forfeited | <u>(211)</u> | 75.70 |
| March 30, 2024 | 3,099 | \$ 75.41 |
| Granted | 711 | 105.87 |
| Vested | (1,163) | 81.45 |
| Forfeited | <u>(115)</u> | 78.41 |
| March 29, 2025 | <u><u>2,532</u></u> | \$ 81.04 |

The aggregate intrinsic value of RSUs outstanding as of March 29, 2025, March 30, 2024, and March 25, 2023 was \$252.0 million, \$286.9 million, and \$326.3 million, respectively. Intrinsic value is calculated using the closing stock price on the last day of trading in fiscal 2025. Additional information with regards to outstanding RSUs that are expected to vest as of March 29, 2025, is as follows (in thousands, except year and per share amounts):

| | <u>Shares</u> | <u>Weighted Average Fair Value</u> | <u>Weighted Average Remaining Contractual Term (years)</u> |
|------------------------|---------------|--|--|
| Expected to vest | 2,396 | \$80.75 | 1.43 |

RSUs outstanding that are expected to vest are presented net of estimated future forfeitures, which are estimated as compensation costs are recognized. RSUs with a fair value of \$94.7 million, \$64.6 million, and \$61.4 million became vested during fiscal years 2025, 2024, and 2023, respectively. The majority of RSUs that vested in 2025, 2024 and 2023 were net settled such that the Company withheld a portion of the shares to satisfy tax withholding requirements. In fiscal years 2025, 2024, and 2023 the vesting of RSUs reduced the authorized and unissued share balance by approximately 1.2 million, 0.9 million, and 0.9 million, respectively. Total shares withheld and subsequently retired out of the Plan were approximately 0.3 million, 0.3 million, and 0.2 million and total payments for the employees’ tax obligations to taxing authorities were \$36.4 million, \$18.9 million, and \$18.0 million for fiscal years 2025, 2024, and 2023, respectively.

Market Stock Units

Market stock units (“MSUs”) granted prior to February 2024 vest based upon the relative total shareholder return (“TSR”) of the Company as compared to that of the Philadelphia Semiconductor Index, while MSUs

granted after February 2024 vest based on the TSR of the Company as compared to that of the Russell 3000 Index (collectively referred to as the “Indexes”. The requisite service period for these MSUs is also the vesting period, which is three years. The fair value of each MSU granted was determined on the date of grant using the Monte Carlo simulation, which calculates the present value of the potential outcomes of future stock prices of the Company and the Indexes over the requisite service period. The fair value is based on the risk-free rate of return, the volatility of the stock price of the Company and the Indexes, the correlation of the stock price of the Company with the Indexes, and the dividend yield.

The fair values estimated from the Monte Carlo simulation were calculated using a dividend yield of zero and the following additional assumptions:

| | Fiscal Years Ended | | |
|---|--------------------|-------------------|-------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| Expected stock price volatility | 39.34% - 41.61% | 34.53% | 35.18% - 46.50% |
| Risk-free interest rate | 3.97% - 4.15% | 4.12% | 2.67% - 3.92% |
| Expected term (in years) | 3.00 | 3.00 | 3.00 |

Using the Monte Carlo simulation, the weighted average estimated fair value of the MSUs granted in fiscal year 2025 was \$151.8. A summary of the activity for MSUs in fiscal year 2025, 2024, and 2023 is presented below (in thousands, except per share amounts):

| | Shares | Weighted Average Fair Value |
|--------------------------|------------|-----------------------------------|
| March 26, 2022 | 85 | \$ 95.75 |
| Granted | 38 | 135.87 |
| Vested | (10) | 87.43 |
| Forfeited | (24) | 94.80 |
| March 25, 2023 | 89 | \$113.83 |
| Granted | 35 | 141.48 |
| Vested | (9) | 83.96 |
| Forfeited | (14) | 83.96 |
| March 30, 2024 | 101 | \$130.46 |
| Granted | 59 | 151.80 |
| Vested | (47) | 109.18 |
| Forfeited | (9) | 128.36 |
| March 29, 2025 | <u>104</u> | \$152.23 |

The aggregate intrinsic value of MSUs outstanding as of March 29, 2025, March 30, 2024, and March 25, 2023 was \$10.4 million, \$9.4 million, and \$9.3 million, respectively. Intrinsic value is calculated using the closing stock price on the last day of trading in fiscal 2025. Additional information with regard to outstanding MSUs that are expected to vest as of March 29, 2025 is as follows (in thousands, except year and per share amounts):

| | Shares | Weighted Average Fair Value | Weighted Average Remaining Contractual Term (years) |
|----------------------------|--------|-----------------------------------|---|
| Expected to vest | 97 | \$151.73 | 1.89 |

MSUs with a fair value of \$5.1 million, \$0.8 million, and \$0.8 million became vested during fiscal year 2025, 2024, and 2023 respectively.

Performance Stock Units

Performance stock units (“PSUs”) consist of performance-based restricted stock units subject to a three-fiscal-year performance period, with annual vesting based on performance achieved each fiscal year. The number of shares earned is based on the Company’s strategic revenue during fiscal year 2026 and the year-over-year growth of such strategic revenue over fiscal years 2027 and 2028 relative to goals established by the Compensation Committee. PSUs are valued at the Company’s closing stock price on the date of grant.

A summary of the activity for PSUs in fiscal year 2025 is presented below (in thousands, except per share amounts):

| | <u>Shares</u> | <u>Weighted Average Fair Value</u> |
|----------------------|---------------|--|
| March 30, 2024 | — | \$ — |
| Granted | 109 | 104.41 |
| Vested | — | — |
| Forfeited | — | — |
| March 29, 2025 | <u>109</u> | <u>\$104.41</u> |

The aggregate intrinsic value of PSUs outstanding as of March 29, 2025 was \$10.9 million, which is calculated using the closing stock price on the last day of trading in fiscal 2025. Additional information with regard to outstanding PSUs that are expected to vest as of March 29, 2025 is as follows (in thousands, except year and per share amounts):

| | <u>Shares</u> | <u>Weighted Average Fair Value</u> | <u>Weighted Average Remaining Contractual Term (years)</u> |
|------------------------|---------------|--|--|
| Expected to vest | 100 | \$104.41 | 2.14 |

No PSUs vested during fiscal year 2025.

13. Commitments and Contingencies

Facilities and Equipment Under Operating Lease Agreements

We currently own our corporate headquarters and select surrounding properties. We lease certain of our other facilities and certain equipment under operating lease agreements, some of which have renewal options. Certain of these arrangements provide for lease payment increases based upon future fair market rates. As of March 29, 2025, our principal facilities are located in Austin, Texas and Edinburgh, Scotland, United Kingdom.

Total rent expense under operating leases was approximately \$26.2 million, \$23.6 million, and \$24.4 million, for fiscal years 2025, 2024, and 2023, respectively. Rental income was \$0.9 million, \$0.2 million, and \$0.5 million, for fiscal years 2025, 2024, and 2023, respectively.

See Note 10 - Leases for minimum future rental commitments and income under all operating leases as of March 29, 2025.

Capacity Reservation Agreement

On July 28, 2021, the Company entered into a Capacity Reservation and Wafer Supply Commitment Agreement (the “Capacity Reservation Agreement”) with GLOBALFOUNDRIES Singapore Pte. Ltd. (“GlobalFoundries”) to provide the Company a wafer capacity commitment and wafer pricing for Company products for calendar years 2022-2026 (the “Commitment Period”). On February 18, 2025, the Capacity Reservation Agreement was amended (the “Amendment”) to define the quarterly spread of the remaining wafer quantities under the agreement.

The Capacity Reservation Agreement requires GlobalFoundries to provide, and the Company to purchase, a defined number of wafers on a quarterly basis for the Commitment Period, subject to shortfall payments. In exchange for GlobalFoundries' capacity commitment, the Company paid a \$60 million non-refundable capacity reservation fee, which is amortized over the Commitment Period. The balance of this reservation fee is \$16 million as of March 29, 2025, and is recorded in "Other current assets" and "Other assets" on the consolidated balance sheets within the short-term or long-term classification, as appropriate. In addition, the Company pre-paid GlobalFoundries \$195 million for future wafer purchases, which are credited back to the Company as a portion of the price of wafers purchased, which began in the Company's second fiscal quarter of 2024. The balance of the prepayment is \$68 million at March 29, 2025, and is currently recorded in "Prepaid wafers" and "Long-term prepaid wafers" on the consolidated balance sheets. As of March 29, 2025, the Company estimates its remaining purchase obligation to be approximately \$450 million of wafers from GlobalFoundries under the Capacity Reservation Agreement.

Purchase Commitments

We rely primarily on third-party foundries for our wafer manufacturing needs. With the exception of the terms of the Capacity Reservation Agreement described above, generally, our foundry agreements do not have volume purchase commitments and primarily provide for purchase commitments based on purchase orders. Cancellation fees or other charges may apply and are generally dependent upon whether wafers have been started or the stage of the manufacturing process at which the notice of cancellation is given.

In addition to our wafer supply arrangements, we contract with third-party assembly vendors to package the wafer die into finished products. Assembly and test vendors provide fixed-cost-per-unit pricing, as is common in the semiconductor industry.

The Company's purchase commitments primarily include the Company's obligations to purchase wafers and related assembly and testing services described above, in addition to future payments related to multi-year tool commitments.

Total future unconditional purchase commitments as of March 29, 2025 were as follows (in thousands):

| Fiscal Year | |
|--------------------|-----------|
| 2026 | \$405,585 |
| 2027 | 205,787 |
| 2028 | 5,525 |
| 2029 | — |
| 2030 | — |
| Thereafter | — |
| Total | \$616,897 |

14. Legal Matters

From time to time, we are involved in legal proceedings concerning matters arising in connection with the conduct of our business activities. We regularly evaluate the status of legal proceedings in which we are involved to assess whether a loss is probable or there is a reasonable possibility that a loss or additional loss may have been incurred and to determine if accruals are appropriate. We further evaluate each legal proceeding to assess whether an estimate of possible loss or range of loss can be made. Based on current knowledge, management does not believe that there are any pending matters that could potentially have a material adverse effect on our business, financial condition, results of operations or cash flows.

15. Stockholders' Equity

Share Repurchase Program

Beginning in fiscal year 2024, the Company's net stock repurchases are subject to a 1 percent excise tax under the Inflation Reduction Act, included as a reduction to accumulated earnings in the Consolidated

Statements of Stockholders' Equity. As of March 29, 2025, the Company has accrued approximately \$1.4 million related to this excise tax. Disclosure of repurchased amounts and related average costs below exclude the impact of excise taxes.

In July 2022, the Company announced that the Board of Directors authorized the repurchase of up to \$500 million of the Company's common stock. During the fiscal year ended March 29, 2025, the Company repurchased 2.3 million shares of its common stock under the 2022 authorization for \$261.0 million, at an average cost of \$112.33 per share. All of these shares were repurchased in the open market and were funded from existing cash. All shares of our common stock that were repurchased were retired as of March 29, 2025. As of March 29, 2025, \$54.1 million remains available for repurchase under the 2022 authorization. Additionally, in March 2025, the Board of Directors authorized the repurchase of up to an additional \$500 million of the Company's common stock. No shares have been repurchased under the 2025 authorization as of March 29, 2025.

Preferred Stock

We have 5.0 million shares of Preferred Stock authorized. As of March 29, 2025, we have not issued any of the authorized shares.

16. Accumulated Other Comprehensive Loss

Our accumulated other comprehensive loss is comprised of foreign currency translation adjustments, unrealized gains and losses on investments classified as available-for-sale, and cumulative effects of adopting new accounting standards.

The following table summarizes the changes in the components of accumulated other comprehensive loss, net of tax (in thousands):

| | <u>Foreign Currency</u> | <u>Unrealized Gains (Losses) on Securities</u> | <u>Cumulative Effect of Adoption of ASU 2018-02</u> | <u>Total</u> |
|--|-----------------------------|--|---|-------------------|
| Balance, March 25, 2023 | \$ (1,047) | \$ (1,235) | \$ (257) | \$ (2,539) |
| Current period foreign exchange translation | (850) | — | — | (850) |
| Current period marketable securities activity | — | 996 | — | 996 |
| Tax effect | — | (210) | — | (210) |
| Balance, March 30, 2024 | <u>\$ (1,897)</u> | <u>\$ (449)</u> | <u>\$ (257)</u> | <u>\$ (2,603)</u> |
| Current period foreign exchange translation | (566) | — | — | (566) |
| Current period marketable securities activity | — | 2,514 | — | 2,514 |
| Tax effect | — | (528) | — | (528) |
| Balance, March 29, 2025 | <u>\$ (2,463)</u> | <u>\$ 1,537</u> | <u>\$ (257)</u> | <u>\$ (1,183)</u> |

17. Income Taxes

Income (loss) before income taxes consisted of (in thousands):

| | Fiscal Years Ended | | |
|---------------|---------------------------|---------------------------|---------------------------|
| | <u>March 29, 2025</u> | <u>March 30, 2024</u> | <u>March 25, 2023</u> |
| U.S. | \$ 538 | \$ (10,343) | \$ (141,670) |
| Non-U.S. | 444,376 | 374,279 | 396,409 |
| | <u>\$444,914</u> | <u>\$363,936</u> | <u>\$ 254,739</u> |

The provision (benefit) for income taxes consists of (in thousands):

| | Fiscal Years Ended | | |
|-----------------------------------|--------------------|-------------------|-------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| Current: | | | |
| U.S. | \$ 39,932 | \$ 42,184 | \$ 60,603 |
| Non-U.S. | <u>73,573</u> | <u>60,615</u> | <u>52,023</u> |
| Total current tax provision | <u>\$113,505</u> | <u>\$102,799</u> | <u>\$112,626</u> |
| Deferred: | | | |
| U.S. | 1,575 | (5,178) | (28,529) |
| Non-U.S. | <u>(1,673)</u> | <u>(8,257)</u> | <u>(6,061)</u> |
| Total deferred tax provision | <u>(98)</u> | <u>(13,435)</u> | <u>(34,590)</u> |
| Total tax provision | <u>\$113,407</u> | <u>\$ 89,364</u> | <u>\$ 78,036</u> |

The effective income tax rates differ from the rates computed by applying the statutory federal rate to pretax income as follows (in percentages):

| | Fiscal Years Ended | | |
|--|--------------------|-------------------|-------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| U.S. federal statutory rate | 21.0 | 21.0 | 21.0 |
| Foreign income taxed at different rates | (3.5) | (7.1) | (14.4) |
| Stock-based compensation | (1.7) | (0.1) | (0.3) |
| Foreign-derived intangible income deduction | — | (0.2) | — |
| GILTI and Subpart F income | 14.1 | 14.6 | 30.6 |
| Foreign tax credits | (5.6) | (4.1) | (7.7) |
| Change in valuation allowance | — | — | 0.2 |
| Release of prior year unrecognized tax benefits | — | (0.2) | — |
| Interest related to unrecognized tax benefits | 0.6 | 0.7 | 0.7 |
| U.S. research and development credit | — | (0.7) | — |
| Other | <u>0.6</u> | <u>0.7</u> | <u>0.5</u> |
| Effective tax rate | <u>25.5</u> | <u>24.6</u> | <u>30.6</u> |

Under the legislation commonly referred to as the Tax Cuts and Jobs Act (“Tax Act”), research and development expenses incurred for tax years beginning after December 31, 2021 must be capitalized and amortized over five or fifteen years for tax purposes, depending on where the research activities are conducted. Because the Company elected to treat global intangible low-taxed income (“GILTI”) as a period cost, the capitalization of research and development costs in the computation of GILTI resulted in an increase in the Company’s provision for income taxes in fiscal years 2023, 2024 and 2025.

The Tax Act also required companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax-deferred. We elected to pay the transition tax over the eight-year period provided in the Tax Act. As of March 29, 2025, the remaining balance of our transition tax obligation was \$10.7 million, which will be paid as the final installment in fiscal year 2026.

Significant components of our deferred tax assets and liabilities as of March 29, 2025 and March 30, 2024 are (in thousands):

| | <u>March 29, 2025</u> | <u>March 30, 2024</u> |
|---|---------------------------|---------------------------|
| Deferred tax assets: | | |
| Accrued expenses and allowances | \$ 3,939 | \$ 3,559 |
| Net operating loss carryforwards | 889 | 932 |
| Research and development tax credit carryforwards | 12,024 | 12,547 |
| Stock-based compensation | 23,099 | 28,437 |
| Lease liabilities | 23,562 | 25,564 |
| Capitalized research and development | 10,461 | 11,307 |
| Depreciation and amortization | 6,823 | 994 |
| Other | 714 | 938 |
| Total deferred tax assets | \$ 81,511 | \$ 84,278 |
| Valuation allowance for deferred tax assets | (12,475) | (12,508) |
| Net deferred tax assets | <u>\$ 69,036</u> | <u>\$ 71,770</u> |
| Deferred tax liabilities: | | |
| Right of use asset | 20,302 | 22,279 |
| Acquisition intangibles | 134 | 845 |
| Other | 450 | — |
| Total deferred tax liabilities | \$ 20,886 | \$ 23,124 |
| Total net deferred tax assets | <u>\$ 48,150</u> | <u>\$ 48,646</u> |

Deferred tax assets and liabilities are recorded for the estimated tax impact of temporary differences between the tax basis and book basis of assets and liabilities. A valuation allowance is established against a deferred tax asset when it is more likely than not that the deferred tax asset will not be realized.

At March 29, 2025, the Company had gross federal net operating loss carryforwards of \$1.5 million, all of which are subject to certain limitations under Section 382 of the Internal Revenue Code and expire in fiscal years 2026 through 2031. At March 29, 2025 the Company had gross foreign net operating loss carryforwards of \$0.2 million that do not expire and gross state net operating loss carryforwards of \$6.2 million that expire in fiscal years 2026 through 2030. In addition, the Company had \$12.1 million of state business tax, minimum tax, and research and development tax credit carryforwards. Certain of these state tax credits will expire in fiscal years 2026 through 2034, and others do not expire.

The Company maintains a valuation allowance for certain deferred tax assets primarily relating to certain state net operating loss and state tax credit carryforwards due to the likelihood that they will expire or go unutilized. Our valuation allowance decreased by \$33 thousand in fiscal year 2025, which was the net effect of a gross increase of \$206 thousand that affected the effective tax rate and a gross decrease of \$239 thousand that was offset by a corresponding reduction in deferred tax assets on the balance sheet. Management believes that the Company's results from future operations will generate sufficient taxable income in the appropriate jurisdictions and of the appropriate character such that it is more likely than not that the remaining deferred tax assets will be realized.

At March 29, 2025, unremitted earnings of our foreign subsidiaries that can be distributed without tax consequence, other than withholding taxes that may apply based on the jurisdiction of the subsidiary, are not expected to be indefinitely reinvested. We accrued an immaterial amount of withholding taxes on foreign earnings expected to be remitted in the next year due to the planned liquidation of a foreign entity. No other taxes have been accrued for potential foreign withholding taxes on other foreign earnings as these amounts are not material. We have not provided additional income taxes for other outside basis differences inherent in our foreign

entities, as these amounts continue to be indefinitely reinvested in foreign operations. Determining the amount of unrecognized deferred tax liability related to all other outside basis differences in these entities is not practicable at this time.

On July 27, 2015, the U.S. Tax Court issued an opinion in *Altera Corp. et al. v. Commissioner* which concluded that the regulations relating to the treatment of stock-based compensation expense in intercompany cost-sharing arrangements were invalid. In 2016 the U.S. Internal Revenue Service appealed the decision to the U.S. Court of Appeals for the Ninth Circuit (the “Ninth Circuit”). On July 24, 2018, the Ninth Circuit issued a decision that was subsequently withdrawn and a reconstituted panel conferred on the appeal. On June 7, 2019, the Ninth Circuit reversed the decision of the U.S. Tax Court and upheld the cost-sharing regulations. On February 10, 2020, Altera Corp. filed a Petition for a Writ of Certiorari with the Supreme Court of the United States, which was denied by the Supreme Court on June 22, 2020. Although the issue is now resolved within the Ninth Circuit, the Ninth Circuit’s opinion is not binding in other circuits. The potential impact of this issue on the Company, which is not located within the jurisdiction of the Ninth Circuit, is unclear at this time. We will continue to monitor developments related to this issue and the potential impact of those developments on the Company’s current and prior fiscal years.

The following table summarizes the changes in the unrecognized tax benefits (in thousands):

| | <u>March 29, 2025</u> | <u>March 30, 2024</u> |
|--|---------------------------|---------------------------|
| Beginning balance | \$32,077 | \$32,879 |
| Additions based on tax positions related to the current year | — | — |
| Reduction for the lapse of applicable statute of limitations | — | (802) |
| Ending balance | <u>\$32,077</u> | <u>\$32,077</u> |

At March 29, 2025, the Company had gross unrecognized tax benefits of \$32.1 million, all of which would impact the effective tax rate if recognized. The Company’s unrecognized tax benefits are classified as “*Non-current income taxes*” in the consolidated balance sheet. The Company recognizes interest and penalties related to unrecognized tax benefits in the provision for income taxes. During fiscal years 2025 and 2024 we recognized interest expense, net of tax, of approximately \$2.8 million and \$2.4 million, respectively. The total amount of interest accrued as of March 29, 2025 was \$12.0 million.

The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax in multiple state and foreign jurisdictions including the United Kingdom. Fiscal years 2017 through 2019 and 2022 through 2025 remain open to examination by the major taxing jurisdictions in which the Company operates.

The Company’s fiscal year 2017, 2018, and 2019 federal income tax returns are under examination by the U.S. Internal Revenue Service (“IRS”). The IRS has proposed adjustments that would increase U.S. taxable income related to transfer pricing matters with respect to our U.S. and U.K. affiliated companies. The final Revenue Agent’s Report asserted additional tax of approximately \$168.3 million, excluding interest, and imposed penalties of approximately \$63.7 million. We do not agree with the IRS’s positions and have not accrued an additional liability. We intend to vigorously dispute the proposed adjustments. We are pursuing resolution through the administrative process with the IRS Independent Office of Appeals and, if necessary, through judicial remedies. We expect it could take a number of years to reach resolution on these matters. Although the final resolution of these matters is uncertain, the Company believes adequate amounts have been reserved for any adjustments to the provision for income taxes that may ultimately result. However, if the IRS prevails in these matters, the assessed tax, interest, and penalties, if any, could have an adverse impact on our financial position, results of operations, and cash flows in future periods. The Company is not under an income tax audit in any other major taxing jurisdiction.

18. Segment Information

We determine our operating segments in accordance with Financial Accounting Standards Board (“FASB”) guidelines. Our Chief Executive Officer (“CEO”) has been identified as the CODM under these guidelines.

The Company operates and tracks its results in one reportable segment, but reports revenue performance in two product lines: Audio and HPMS. Our CEO receives and uses enterprise-wide financial information to assess financial performance and allocate resources. Our product lines have similar characteristics and customers and share operations support functions such as sales, public relations, supply chain management, various research and development and engineering support, in addition to the general and administrative functions of human resources, legal, finance and information technology. Therefore, there is no complete, discrete financial information maintained for these product lines. Revenue by product line is disclosed in Note 9 - Revenues.

The CODM allocates resources and evaluates Company performance based on net income. This information is used to measure profitability, make budgeting and forecasting decisions, monitor performance trends, and to compare actual results to forecasts. The CODM regularly reviews the consolidated statement of income and a disaggregation of operating expenses, with a focus on personnel-related and product development costs. The measure of segment assets is reported on the balance sheet as total consolidated assets.

The table below presents the Company’s significant segment operating expenses (in thousands):

| | Fiscal Years Ended | | |
|-----------------------------------|--------------------|-------------------|-------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| Personnel-related (1) | 353,338 | 333,559 | 339,192 |
| Product development (2) | 64,946 | 65,912 | 71,245 |
| Other segment items (3) | <u>167,395</u> | <u>173,135</u> | <u>297,511</u> |
| Total Operating Expense | \$585,679 | \$572,606 | \$707,948 |

- (1) Personnel-related expenses include employee base pay, benefits, variable compensation and other employee-related expenses.
- (2) Product development costs include software, engineering mask sets, wafers, and boards, as well as outside design services.
- (3) Other segment items primarily include stock-based compensation, facilities-related costs, depreciation and amortization, and non-recurring charges, offset by the benefit received from research and development expenditure credits.

Geographic Area

The Company’s geographic details of revenue and property, plant and equipment are included below.

The following illustrates net sales by ship to location of the customer (in thousands):

| | Fiscal Years Ended | | |
|--|--------------------|--------------------|--------------------|
| | March 29, 2025 | March 30, 2024 | March 25, 2023 |
| China | \$1,126,367 | \$1,114,310 | \$1,230,602 |
| India | 205,902 | 125,138 | 69,343 |
| Hong Kong | 196,530 | 219,053 | 223,405 |
| South Korea | 142,655 | 119,532 | 93,177 |
| Vietnam | 123,073 | 96,080 | 93,760 |
| United States | 15,838 | 17,971 | 52,688 |
| Rest of World | <u>85,712</u> | <u>96,806</u> | <u>134,642</u> |
| Total consolidated net sales | <u>\$1,896,077</u> | <u>\$1,788,890</u> | <u>\$1,897,617</u> |

The following illustrates property, plant and equipment, net, by geographic locations, based on physical location (in thousands):

| | Fiscal Years Ended | |
|---|--------------------|-------------------|
| | March 29, 2025 | March 30, 2024 |
| United States | \$133,383 | \$140,300 |
| United Kingdom | 13,570 | 16,822 |
| Rest of World | 12,947 | 13,053 |
| Total consolidated property, plant and equipment, net | <u>\$159,900</u> | <u>\$170,175</u> |

ITEM 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

None.

ITEM 9A. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(e) of the Exchange Act, we have evaluated, under the supervision and with the participation of our management, including our chief executive officer (CEO) and chief financial officer (CFO), the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(b) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Form 10-K. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. Based upon the evaluation, our management, including our CEO and CFO, has concluded that our disclosure controls and procedures were effective as of March 29, 2025.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined under Rule 13a-15(f). Under the supervision and with the participation of our management, including our CEO and CFO, we assessed the effectiveness of our internal control over financial reporting as of the end of the period covered by this report based on the criteria set forth in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework).

Because of its inherent limitation, internal control over financial reporting may not prevent or detect all errors and all fraud. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions and that the degree of compliance with the policies or procedures may deteriorate.

Based on its assessment of internal control over financial reporting, management has concluded that our internal control over financial reporting was effective as of March 29, 2025, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Our independent registered public accounting firm, Ernst & Young LLP, has issued an attestation report on management's assessment of our internal control over financial reporting as of March 29, 2025, included in Item 8 of this report.

Changes in Internal Control Over Financial Reporting

There has been no change in the Company's internal control over financial reporting during the quarter ended March 29, 2025, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. Other Information

Trading Arrangements

The following table details contracts, instructions and written plans for the purchase or sale of securities, which were entered into during the fourth quarter of fiscal year 2025. None of our directors or Section 16 officers entered into or terminated a non-Rule 10b5-1 trading arrangement during the fourth quarter of fiscal year 2025.

| <u>Name and Title</u> | <u>Action</u> | <u>Trading Arrangement ⁽¹⁾</u> | <u>Date of Adoption</u> | <u>Expiration Date</u> | <u>Aggregate Number of Securities to be Purchased or Sold Pursuant to the Trading Arrangement ⁽²⁾</u> |
|---------------------------|---------------|---|-------------------------|------------------------|--|
| Carl Alberty— EVP, MSP | Adoption | Rule 10b5-1(c) | February 28, 2025 | March 31, 2026 | up to 8,648 to be sold |

(1) Except as indicated by footnote, each trading arrangement marked as “Rule 10b5-1(c)” is intended to satisfy the affirmative defense of Rule 10b5-1(c), as amended.

(2) Includes shares to be acquired upon the exercise of employee stock options.

ITEM 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

None.

PART III

ITEM 10. *Directors, Executive Officers and Corporate Governance*

The information set forth in the proxy statement to be delivered to stockholders in connection with our Annual Meeting of Stockholders to be held on July 29, 2025 (the “Proxy Statement”) under the headings *Corporate Governance*, *Proposals to be Voted on — Proposal No. 1 — Election of Directors*, and *Delinquent Section 16(a) Reports*, if applicable, is incorporated herein by reference.

Code of Ethics

The Company has adopted a Code of Conduct (“the Code”) that applies to all of its directors, officers, and employees. A copy of the Code can be found within the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com. We intend to satisfy the disclosure requirements of the SEC regarding amendments to, or waivers from, the Code by posting such information on the same website.

Insider Trading Policies and Procedures

The information contained under the heading *Insider Trading Policies and Prohibition Against Short Selling, Hedging, and Pledging* in our proxy statement for the 2025 Annual Meeting of Stockholders is incorporated by reference. A copy of our insider trading policy is filed as Exhibit 19.1 to this Annual Report on Form 10-K.

ITEM 11. *Executive Compensation*

The information set forth in the Proxy Statement under the headings *Director Compensation Arrangements*, *Compensation Discussion and Analysis*, *Compensation Committee Report*, *Consideration of Risk Related to Compensation Programs*, *Executive Compensation Tables*, *Pay Ratio Disclosure*, *Pay vs Performance Disclosure* and *Proposals to be Voted on — Proposal No. 3 — Advisory Vote to Approve Named Executive Officer Compensation* is incorporated herein by reference.

ITEM 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

The information set forth in the Proxy Statement under the headings *Equity Compensation Plan Information* and *Security Ownership of Certain Beneficial Owners and Management* is incorporated herein by reference.

ITEM 13. *Certain Relationships and Related Transactions, and Director Independence*

The information set forth in the Proxy Statement under the headings *Certain Relationships and Related Transactions* and *Corporate Governance* is incorporated herein by reference.

ITEM 14. *Principal Accountant Fees and Services*

The information set forth in the Proxy Statement under the headings *Audit and Non-Audit Fees and Services* and *Proposal No. 2 — Ratification of Appointment of Independent Registered Public Accounting Firm* is incorporated herein by reference.

PART IV

ITEM 15. *Exhibits and Financial Statement Schedules*

(a) The following documents are filed as part of this Report:

1. Consolidated Financial Statements

- Reports of Ernst & Young LLP, Independent Registered Public Accounting Firm.
- Consolidated Balance Sheets as of March 29, 2025 and March 30, 2024.
- Consolidated Statements of Income for the fiscal years ended March 29, 2025, March 30, 2024, and March 25, 2023.
- Consolidated Statements of Comprehensive Income for the fiscal years ended March 29, 2025, March 30, 2024, and March 25, 2023.
- Consolidated Statements of Cash Flows for the fiscal years ended March 29, 2025, March 30, 2024, and March 25, 2023.
- Consolidated Statements of Stockholders' Equity for the fiscal years ended March 29, 2025, March 30, 2024, and March 25, 2023.
- Notes to Consolidated Financial Statements.

2. Financial Statement Schedules

All schedules have been omitted since the required information is not present or not present in amounts sufficient to require submission of the schedule, or because the information required is included in the consolidated financial statements or notes thereto.

3. Exhibits

June 4, 2025

To our Stockholders:

I would like to invite you to participate in the Annual Meeting of Stockholders of Cirrus Logic, Inc. to be held on Tuesday, July 29, 2025, at 11:00 a.m. Central Time. This year's Annual Meeting will once again be a virtual-only stockholder meeting, which allows all of our stockholders the opportunity to participate no matter where they are located. You will be able to participate, vote, and submit your questions during the meeting on a live webcast at www.virtualshareholdermeeting.com/CRUS2025. To access this website and enter the meeting, you should have available your control number, which is included with the proxy materials. We intend to hold the virtual-only meeting in a manner that affords you the same rights and opportunities to participate as you would have at an in-person meeting.

We are providing the proxy materials electronically via the internet, which will allow our stockholders to have immediate access to those materials at their discretion. Paper copies may also be requested.

Even if you plan to participate in the Annual Meeting by live webcast, I hope you will vote as soon as possible. Although you may vote the day of the Annual Meeting, you may also vote in advance via the internet, as well as by telephone, or by mailing a proxy card. Voting in advance will ensure your representation at the Annual Meeting even if you do not participate in the virtual meeting. Please review the instructions on the Notice of Internet Availability or the proxy card regarding your voting options.

Cirrus Logic values the participation of its stockholders. Your vote is an important part of our system of corporate governance, and I strongly encourage you to participate.

Sincerely,

John M. Forsyth
President and Chief Executive Officer

2025 Annual Meeting of Stockholders

**July 29, 2025
YOUR VOTE IS IMPORTANT**

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

Cirrus Logic, Inc. (the “Company” or “we”) will hold our 2025 Annual Meeting of Stockholders as follows:

Tuesday, July 29, 2025

11:00 A.M. (Central Daylight Time)

Via live webcast available at www.virtualshareholdermeeting.com/CRUS2025

This year’s Annual Meeting will again be a virtual-only meeting, which we intend to hold in a manner that affords you the same rights and opportunities to participate as you would have at an in-person meeting. You will be able to attend, vote, and submit your questions during the meeting on a live webcast via the internet at www.virtualshareholdermeeting.com/CRUS2025. To access this website and enter the meeting, you must have your control number available. You will not be able to attend the Annual Meeting in person.

While connected to the Annual Meeting via the internet, you may vote and submit questions. We will answer any timely submitted and relevant questions on a matter to be voted on at the Annual Meeting before voting is closed on the matter. Following adjournment of the formal business of the Annual Meeting, we will address appropriate general questions from stockholders regarding the Company as time allows. Questions relating to stockholder proposals or the Company may be submitted in the field provided in the web portal at or before the time the questions are to be discussed. If we receive substantially similar questions, we may group those questions together and provide a single response to avoid repetition.

We are utilizing a virtual meeting solution from Broadridge Financial Solutions, Inc., or Broadridge. If you have any questions about accessing the virtual meeting website for the Annual Meeting, please contact Broadridge support at 844-986-0822 / International: 303-562-9302. If you encounter any technical difficulties with the virtual meeting during the log in or meeting time, please call the technical support number that will be posted on the virtual meeting login page.

At the meeting, stockholders will vote on the following matters:

- (i) the election of seven nominees named in this proxy statement to serve as Company directors for one-year terms;
- (ii) the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending March 28, 2026;
- (iii) an advisory (non-binding) vote to approve named executive officer compensation; and
- (iv) such other business as may properly come before the meeting.

You can vote four different ways. You can vote by participating in the virtual meeting online or you can vote in advance of the virtual meeting by internet, telephone, or mail. For specific voting information, please see “Questions and Answers about the Proxy Materials, the Annual Meeting, and Voting Procedures” on page 3.

Stockholders of record at the close of business on June 2, 2025, are entitled to notice of, and to vote at, the Annual Meeting. On June 2, 2025, 51,298,359 shares of the Company common stock were outstanding. Each share entitles the holder to one vote. A complete list of the stockholders entitled to vote at the meeting will be open to the examination of any stockholder for any purpose germane to the meeting for at least 10 days prior to the meeting.

The Board of Directors of the Company asks you to vote in favor of the seven nominated directors and for Proposal Nos. 2-3. The Company knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters properly come before the Annual Meeting, it is the intention of the persons named in the proxy to vote the shares they represent as the Board may recommend. Discretionary authority with respect to such other matters is granted by the execution of the proxy. This proxy statement provides you with detailed information about each proposal. We are also using this proxy statement to discuss our corporate governance and compensation practices and philosophies.

We encourage you to read this proxy statement carefully. In addition, you may obtain information about the Company from the Annual Report to Stockholders and from other documents that we have filed with the Securities and Exchange Commission.

PROXY STATEMENT

2025 ANNUAL MEETING OF STOCKHOLDERS To Be Held Virtually on Tuesday, July 29, 2025

Cirrus Logic, Inc.
800 W. 6th Street
Austin, Texas 78701
www.cirrus.com

These proxy materials are furnished to you in connection with the solicitation of proxies by the Board of Directors (the “Board”) of Cirrus Logic, Inc. (the “Company” or “we”) for use at our 2025 Annual Meeting of Stockholders and any adjournments or postponements of the meeting (the “Annual Meeting”). The Annual Meeting will be held on July 29, 2025, at 11:00 a.m., Central Daylight Time, and may be accessed on a live webcast via the internet at www.virtualshareholdermeeting.com/CRUS2025.

Beginning on June 4, 2025, Cirrus Logic will make these proxy materials available to our stockholders on the internet or through the mail in connection with the solicitation of proxies by the Board for proposals to be voted on at the Annual Meeting.

QUESTIONS AND ANSWERS ABOUT THE PROXY MATERIALS, THE ANNUAL MEETING, AND VOTING PROCEDURES

Q: Why am I receiving these materials?

A: The Board, on behalf of the Company, is soliciting your proxy for the Annual Meeting of Stockholders to take place on July 29, 2025. As a stockholder of record as of the close of business on June 2, 2025 (the “Record Date”), you are invited to participate in the meeting and are entitled to and requested to vote on the proposals described in this proxy statement.

Q: Who is entitled to notice of and to vote at the Annual Meeting?

A: Stockholders of record as of the Record Date are entitled to notice of and to vote at the Annual Meeting.

Q: What information is contained in these materials?

A: The information included in this proxy statement relates to the proposals to be voted on at the meeting, the voting process, the compensation of directors and our most highly paid executive officers, and certain other required information. Our 2025 Annual Report on Form 10-K for the fiscal year ended March 29, 2025, is also being made electronically available or mailed to each stockholder as of the Record Date.

If you requested and received a copy of these materials by mail or email, then the proxy materials also include a proxy card or a voting instruction card for the Annual Meeting.

Q: Why did I receive a notice in the mail regarding the internet availability of the proxy materials instead of a paper copy of the proxy materials?

A: We are complying with the U.S. Securities and Exchange Commission (the “SEC”) rule that allows companies to furnish their proxy materials over the internet. As a result, we are mailing to our stockholders a Notice of Internet Availability of the proxy materials instead of a paper copy of the proxy materials. All stockholders receiving the Notice of Internet Availability will have the ability to access the proxy materials over the internet, or alternatively, request to receive a copy of the proxy materials by mail or email.

Q: How can I access the proxy materials over the internet?

A: Your Notice of Internet Availability of the proxy materials contains instructions regarding how to:

- view the proxy materials for the Annual Meeting on the internet;
- request a paper copy of the proxy materials for the Annual Meeting; and
- instruct us to send future proxy materials to you by email.

Q: How may I obtain a paper copy of the proxy materials?

A: Your Notice of Internet Availability of the proxy materials contains instructions regarding how to obtain a paper copy of the proxy materials.

Q: What if I receive more than one Notice of Internet Availability of the proxy materials or more than one paper copy of the proxy materials?

A: If you receive more than one Notice of Internet Availability or set of proxy materials, it means your shares are registered in more than one name or are held in more than one account. To vote all your shares by proxy, you must vote using all Notices of Internet Availability you receive, or all proxy cards and voting instruction cards you received.

Q: What proposals will be voted on at the meeting?

A: There are three proposals scheduled to be voted on at the meeting:

- (1) the election of seven nominees named in this proxy statement to serve as Company directors for one-year terms;
- (2) the ratification of the appointment of Ernst & Young LLP (“Ernst & Young”) as our independent registered public accounting firm for the fiscal year ending March 28, 2026; and
- (3) an advisory (non-binding) vote to approve named executive officer compensation.

Q: Will I be able to attend the Annual Meeting?

A: We will host the Annual Meeting live via the internet. **You will not be able to attend the meeting in person.** Any stockholder can listen to and participate in the Annual Meeting live via the internet at www.virtualshareholdermeeting.com/CRUS2025. The webcast will begin at 11:00 a.m., Central Daylight Time, on July 29, 2025. Stockholders as of the Record Date may vote and submit questions while connected to the Annual Meeting via the internet. We will answer any timely submitted and relevant questions on a matter to be voted on at the Annual Meeting before voting is closed on the matter. Following adjournment of the formal business of the Annual Meeting, we will address appropriate general questions from stockholders regarding the Company as time allows. Questions relating to stockholder proposals or the Company may be submitted in the field provided in the web portal at or before the time the questions are to be discussed. If we receive substantially similar questions, we may group those questions together and provide a single response to avoid repetition.

We are utilizing a virtual meeting solution from Broadridge Financial Solutions, Inc., or Broadridge. If you have any questions about accessing the virtual meeting website for the Annual Meeting, please contact Broadridge support at 844-986-0822 / International: 303-562-9302. If you encounter any technical difficulties with the virtual meeting during the log in or meeting, please call the technical support number that will be posted on the virtual meeting login page.

Q: What do I need to do to be able to participate in the Annual Meeting online?

A: The Annual Meeting will be held live via the internet. You will not be able to attend the meeting in person. A summary of the information you need to attend the meeting online is provided below:

- Any stockholder can listen to the meeting and participate live via the internet at www.virtualshareholdermeeting.com/CRUS2025.
- Webcast begins at 11:00 a.m. Central Daylight Time on July 29, 2025.
- Stockholders as of the Record Date may vote and submit questions while connected to the meeting via the internet.

- Please have your control number to enter the meeting.
- Instructions on how to connect and participate via the internet will be posted at www.virtualshareholdermeeting.com/CRUS2025.
- A webcast replay of the meeting will be available for one year after the meeting at www.virtualshareholdermeeting.com/CRUS2025.

Q: What are the Board's voting recommendations?

A: The Board recommends that you vote your shares as follows:

- "FOR" each of the director nominees;
- "FOR" the ratification of the appointment of Ernst & Young as our independent registered public accounting firm for the fiscal year ending March 28, 2026; and
- "FOR" the approval, on a non-binding, advisory basis, of executive compensation.

Q: What shares owned by me can be voted?

A: All shares owned by you as of the close of business on the Record Date may be voted by you. These shares include (1) shares held directly in your name as the stockholder of record, and (2) shares held for you as the beneficial owner through a stockbroker, bank, or other nominee. For stockholders who hold their shares through a stock brokerage account or by a bank or other nominee and whose voting instruction form or Notice of Internet Availability indicates that shares may be voted through the www.proxyvote.com website, then shares may be voted at the meeting with the control number indicated on that voting instruction form or the Notice of Internet Availability. Stockholders whose voting instruction form or Notice of Internet Availability does not allow voting through www.proxyvote.com will need to obtain a legal proxy from their nominee in advance of the meeting in order to vote during the meeting.

Q: What is the difference between holding shares as a stockholder of record and as a beneficial owner?

A: Most stockholders of the Company hold their shares through a stockbroker, bank, or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholder of Record

If your shares are registered directly in your name with the Company's transfer agent, Computershare Investor Services, you are considered, with respect to those shares, the *stockholder of record*, and, if you held those shares as of the Record Date, you have the right to vote by proxy by following the instructions in the Notice of Internet Availability of the proxy materials or to vote online at the meeting.

Beneficial Owner

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the *beneficial owner* of shares held in *street name*, and your stockbroker, bank, or other nominee is considered, with respect to those shares, the *stockholder of record*. As the beneficial owner, you have the right to direct your stockbroker, bank, or other nominee how to vote, and you are also invited to participate in the meeting.

Q: How can I vote my shares at the meeting?

A: Shares may be voted at the Annual Meeting via the internet on a live webcast at www.virtualshareholdermeeting.com/CRUS2025. To access the meeting and vote your shares, you must have your control number.

Even if you currently plan to participate in the Annual Meeting via the live webcast, we recommend that you submit your proxy in advance of the meeting so that your vote will be counted if you later decide not to attend the meeting.

Q: How can I vote my shares without participating in the meeting?

A: Whether you hold shares directly as the stockholder of record or beneficially in street name, you may direct your vote without participating in the meeting. You may vote by granting a proxy or by submitting voting instructions to your stockbroker, bank, or other nominee for shares held in street name. In most instances, you will be able to do this over the internet, by telephone, or by mail, but if you hold shares in street name, you should refer to the voting instructions provided to you by your stockbroker, bank, or other nominee for voting instructions specific to your holdings. If you are the stockholder of record, please refer to the summary instructions below and those included on your Notice of Internet Availability of the proxy materials. Specifically, you may vote without participating in the meeting:

BY INTERNET – If you have internet access, you may vote by going to www.proxyvote.com and following the instructions included with the proxy materials. You will need to have the control number on your Notice of Internet Availability on your proxy card in order to vote by internet.

BY TELEPHONE – If you have access to a touch-tone telephone, you may vote by calling 1-800-690-6903 and following the instructions within the proxy materials. You will need to have the control number that appears on your Notice of Internet Availability of the proxy materials available when voting by telephone.

BY MAIL – If you have requested and received a paper copy of a proxy card, you may submit a proxy by signing your proxy card and returning it by mail using the enclosed, postage prepaid and addressed envelope. If you sign but do not provide instructions, your shares will be voted as described in the response to “*What are the Board’s voting recommendations?*” above.

Q: What if I hold shares in street name and do not transmit voting instructions before the stockholder meeting to my stockbroker, bank, or other nominee?

A: If you do not transmit voting instructions, your stockbroker is permitted to vote on your behalf on routine matters only. The ratification of the appointment of the Company’s independent registered public accounting firm (Proposal No. 2) is the only routine matter, and therefore, the only matter that brokers may vote on without instruction from the beneficial owner. Your stockbroker is not permitted to vote on your behalf on non-routine matters if you do not transmit your voting instructions. The election of directors (Proposal No. 1) and the advisory vote to approve named executive officer compensation (Proposal No. 3) are considered non-routine matters. Therefore, if you do not transmit your voting instructions to your stockbroker or other nominee, then they cannot vote on these non-routine matters, and your shares will be counted as “broker non-votes” as further described in the response to “*How are abstentions and broker non-votes counted?*” below.

Q: Can I revoke my proxy?

A: You may revoke your proxy instructions at any time prior to the vote at the Annual Meeting. For shares held directly in your name, you may revoke your proxy instructions by granting a new proxy bearing a later date (that automatically revokes the earlier proxy) or by voting during the Annual Meeting. For shares held beneficially by you, you may revoke your proxy by submitting new instructions to your stockbroker, bank, or other nominee.

Q: What is the quorum requirement for the meeting?

A: The quorum requirement for holding the meeting and transacting business is the presence, either in person or represented by proxy, of the holders of a majority of the outstanding shares entitled to be voted at the Annual Meeting. For the Annual Meeting, both abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

Q: How are votes counted?

A: In the election of directors, you may vote “FOR” all of the nominees or you may “WITHHOLD” your vote with respect to one or more of the nominees. For all other proposals you may vote “FOR,” “AGAINST,” or “ABSTAIN,” and if you “ABSTAIN” on any of these matters, it has the same effect as a vote “AGAINST,” as described in response to the question below.

If you sign your proxy card with no further instructions, your shares will be voted in accordance with the recommendations of the Board.

Q: What is the voting requirement to approve each of the proposals?

A: Directors are elected by a plurality of votes cast, which means that, for this year, the seven persons receiving the highest number of “FOR” votes will be elected. Proposal Nos. 2-3 require the affirmative “FOR” vote of a majority of those shares present and entitled to vote. If you are a beneficial owner and do not provide your stockbroker, bank, or other nominee with voting instructions on a non-routine matter such as a director election, your shares may constitute broker non-votes, as described in “How are abstentions and broker non-votes counted?” below.

Q: How are abstentions and broker non-votes counted?

A: Generally, broker non-votes occur when shares held by a stockbroker for a beneficial owner are not voted with respect to a particular proposal because the proposal is a non-routine matter, the stockbroker has not received voting instructions from the beneficial owner, and the stockbroker lacks discretionary voting power to vote the shares. Abstentions and broker non-votes are counted as present for purposes of determining the shares present and entitled to vote for purposes of the quorum requirement. Each of Proposal Nos. 2 and 3 will require the affirmative vote of a majority of the shares of common stock represented in person or by proxy at the Annual Meeting and entitled to vote. Abstentions will have the same effect as a vote against such proposals. Broker non-votes are not counted as either votes for or votes against these proposals and will have no effect on their outcome.

Q: Where can I find the voting results of the meeting?

A: We will announce preliminary voting results at the meeting and will file with the SEC via EDGAR a Current Report on Form 8-K within four business days of the meeting with the final voting results. If final voting results are not available at the time of such filing, the Company intends to disclose preliminary voting results at the time of the filing and file an amended Current Report on Form 8-K within four business days after obtaining the final results.

Q: What happens if additional proposals are presented at the meeting?

A: Other than the proposals described in this proxy statement, we do not expect any matters to be presented for a vote at the Annual Meeting. If you grant a proxy, the persons named as proxy holders, Michael Barrett, our Corporate Secretary, and Gregory Scott Thomas, our General Counsel, will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If for any unforeseen reason any of our nominees is not available as a candidate for director, the persons named as proxy holders will vote your shares for such other candidate or candidates as may be nominated by the Board, or the Board may reduce the size of the Board.

Q: What classes of shares are entitled to be voted?

A: Each share of common stock of the Company (“common stock”) outstanding as of the Record Date is entitled to one vote on each item being voted upon at the Annual Meeting. On the Record Date, we had 51,298,359 shares of common stock outstanding.

Q: Is cumulative voting permitted for the election of directors?

A: No.

Q: Who will count the votes?

A: A representative of Broadridge will tabulate the votes. A representative of the Company will act as the inspector of election.

Q: Is my vote confidential?

A: Proxy instructions, ballots, and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within the Company or to third parties except (1) as necessary to meet applicable legal requirements, (2) to allow for the tabulation of votes and certification of the vote, or (3) to facilitate a proxy solicitation by the Board.

Q: Who will bear the cost of soliciting votes for the meeting?

A: The Company will pay the entire cost of soliciting proxies to be voted, along with the costs of preparing, assembling, printing, mailing, and distributing the proxy materials. If you choose to access the proxy materials and/or submit your proxy over the internet or by telephone, however, you are responsible for internet access or telephone charges you may incur. In addition to the mailing of the proxy materials, the solicitation of proxies or votes may be made by our directors, officers, and employees, either in person, by telephone, or by electronic communication. Our directors, officers, and employees will not receive any additional compensation for the solicitation activities. We will also reimburse brokerage houses and other custodians, nominees, and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to our stockholders.

Q: May I propose actions for consideration at next year's annual meeting of stockholders or nominate individuals to serve as directors?

A: You may make nominations and submit proposals for consideration at future stockholder meetings. Any proposal that a stockholder wishes to include in the Company's proxy materials for the 2026 annual meeting of stockholders, in accordance with the regulations of the SEC, must be received by no later than 120 calendar days prior to the anniversary date that the Company released this proxy statement for the Annual Meeting (February 4, 2026). The written proposal will need to comply with the regulations of the SEC under Rule 14a-8 regarding the inclusion of stockholder proposals in company-sponsored proxy materials.

A proposal or nomination for election of directors that a stockholder wishes to propose for consideration at the 2026 annual meeting of stockholders, other than pursuant to Rule 14a-8, must be submitted in accordance with our Bylaws. To be considered timely, our Bylaws provide that such notice must be received at our principal executive offices no earlier than 120 calendar days (March 31, 2026) and no later than 90 calendar days (April 30, 2026) prior to the first anniversary date of the previous year's annual meeting of stockholders. Proposals and nominations should be addressed to: Corporate Secretary, Cirrus Logic, Inc., 800 W. 6th Street, Austin, Texas 78701.

Under our Bylaws, a stockholder or a group of up to 20 stockholders owning 3% or more of our common stock continuously for at least three years may nominate and include in our proxy statement a number of candidates not exceeding the greater of (a) two or (b) 20% of our Board (rounded down). Nominations must comply with the requirements and conditions in our Bylaws, including delivering proper notice to us no earlier than 150 calendar days (March 1, 2026) and no later than 120 calendar days (March 31, 2026) prior to the first anniversary date of the previous year's annual meeting of stockholders.

In addition to satisfying advance notice requirements under our Bylaws, to comply with the universal proxy rules under the Exchange Act, stockholders who intend to solicit proxies in support of director nominees other than those nominees nominated by the Company must provide notice

that sets forth the information required by Rule 14a-19 under the Exchange Act no later than May 30, 2026, which is 60 days prior to the anniversary date of the 2025 Annual Meeting. Unless we receive notice in the manner specified above, the proxy holders will have discretionary authority to vote for or against any such proposal presented at our 2026 annual meeting of stockholders.

Copy of Bylaw Provisions: You may contact the Corporate Secretary at our headquarters, 800 W. 6th Street, Austin, Texas 78701, for a copy of the relevant Bylaw provisions regarding the requirements for making stockholder proposals and nominating director candidates.

CORPORATE GOVERNANCE

Board Meetings and Committees

During the fiscal year ended March 29, 2025, the Board held 12 meetings. Directors are expected to attend each meeting of the Board and the committees of the Board (the “Committees”) on which they serve. During the period of their service, all directors attended at least 75% of the aggregate of (i) the total number of Board meetings and (ii) the total number of their Committee meetings. Pursuant to our Corporate Governance Guidelines, directors are also expected to attend the Company’s Annual Meeting of Stockholders absent extraordinary circumstances. All directors who were in service at the time attended the Company’s 2024 annual meeting of stockholders, other than Deirdre R. Hanford who was not standing for re-election at that meeting.

We have three Committees: Audit, Compensation and Human Resources, and Governance and Nominating. Each member of the Audit, Compensation and Human Resources, and Governance and Nominating Committees is independent in accordance with the applicable SEC rules and applicable Nasdaq Stock Market, Inc. (the “Nasdaq”) listing standards, including, with respect to members of the Audit and Compensation and Human Resources Committees, the heightened requirements applicable to members of those committees. Each Committee has a written charter that has been approved by the Board; the Committee charters are available under the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com. On occasion, the Board may appoint special committees or designate directors to undertake special assignments on behalf of the Board.

The composition of the Board and each Committee as of the filing of this proxy statement is identified in the following table, and the function of each Committee is described below.

| Directors | Independent | Audit | Compensation and Human Resources | Governance and Nominating |
|--|--------------------|--------------|---|--------------------------------------|
| Alexander M. Davern | Yes | Chair | X | |
| John M. Forsyth | No | | | |
| Raghib Hussain | Yes | | X | |
| Duy-Loan Le | Yes | X | Chair | |
| Catherine P. Lego | Yes | X | | Chair |
| William D. Mosley | Yes | | | X |
| David J. Tupman, Chair | Yes | | | X |
| Number of Meetings Held in Fiscal Year 2025 | | 8 | 7 | 5 |

Audit Committee

The Audit Committee is currently composed of three independent directors. The responsibilities of the Audit Committee include:

- selecting, retaining, compensating, overseeing, evaluating, and, where appropriate, terminating the Company's independent auditors;
- resolving any disagreements between management and the independent auditors regarding financial reporting;
- adopting and implementing pre-approval policies and procedures for audit and non-audit services to be rendered by the independent auditors;
- reviewing with management and the independent auditors the financial information and the Management's Discussion and Analysis proposed to be included in each of the Company's Quarterly Reports on Form 10-Q prior to their filing;
- reviewing before release the unaudited interim financial results in the Company's quarterly earnings release;
- reviewing with management and the independent auditors, at the completion of the annual audit, the audited financial statements and the Management's Discussion and Analysis proposed to be included in the Company's Annual Report on Form 10-K prior to its filing and provide or review judgments about the quality, not only the acceptability, of accounting principles, and such other matters required to be discussed with the independent auditors under generally accepted auditing standards;
- reviewing with management and the independent auditors any required Environmental, Social, and Governance ("ESG") disclosures included within the Company's SEC filings, including human capital disclosures required by Item 101(c) of Regulation S-K, and the adequacy and effectiveness of applicable internal controls related to such disclosures;
- reviewing with the independent auditors critical audit matters ("CAMs") and related CAM disclosures;
- overseeing the Company's internal audit function;
- reviewing and approving, if appropriate, material changes to the Company's auditing and accounting principles and practices as suggested by the independent auditors or management;
- reviewing and approving the Company's hedging policy on an at least annual basis, including making a determination and recommendation to the Board regarding the Company's decision to enter into swaps that are subject to the End User Exception in accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act and associated Commodity Futures Trading Commission ("CFTC") regulations;
- establishing procedures for (i) the receipt, retention, and treatment of complaints received by the Company regarding accounting, internal accounting controls, or auditing matters, and (ii) the confidential, anonymous submission by employees of the Company of concerns regarding questionable accounting or auditing matters;
- evaluating the professional competency of the financial staff and the internal auditors, as well as the quality of their performance in discharging their respective responsibilities;
- discussing policies with respect to risk assessment and risk management, including appropriate guidelines and policies to govern the process;

- reviewing with management the Company’s business continuity and disaster recovery plans and capabilities; and
- reviewing with management the Company’s major financial and regulatory risk exposures, including cybersecurity-related risks, and the steps management has taken to monitor and control such exposures.

The Board has determined that each member of the Audit Committee is able to read and understand fundamental financial statements and is independent under applicable SEC rules and applicable Nasdaq listing standards. The Board has also determined that Audit Committee members Mr. Davern and Ms. Lego are each an “audit committee financial expert” as defined under applicable SEC rules.

For additional information relating to the Audit Committee, see the section of this proxy statement entitled “*Report of the Audit Committee of the Board*” and the Audit Committee Charter, which is available under the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com.

Compensation and Human Resources Committee

The Compensation and Human Resources Committee (“Compensation Committee”) is currently composed of three independent directors. The Compensation Committee reviews and approves salaries and other matters relating to executive compensation; reviews risks associated with the Company’s compensation policies; monitors the Company’s compliance with applicable regulations relating to compensation arrangements for directors and executive officers; administers the Company’s clawback policies; reviews the Company’s leadership development initiatives and succession planning process for our Chief Executive Officer and other executive officers; and administers the Company’s stock incentive plans, including reviewing and granting stock incentive awards to executive officers and other employees (subject to any delegation of authority approved by the Compensation Committee from time to time relating to equity-based grants to certain employees) and reviewing and approving policies and procedures for awarding grants under these plans. The Compensation Committee also reviews and recommends to the Board for approval various other Company compensation plans, policies and matters related to the Company’s non-employee directors. Additionally, the Compensation Committee assists the Board in its ESG oversight by reviewing ESG matters relating to the Company’s workforce, including human capital management, inclusion and diversity, and the workforce portion of the Company’s ESG report. For additional information relating to the Compensation Committee, see the Compensation and Human Resources Committee Charter, which is available under the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com.

Please see the “*Compensation Discussion and Analysis*” section of this proxy statement for additional information regarding the Compensation Committee’s processes and procedures for the consideration and determination of executive officer compensation, including the Compensation Committee’s engagement of Compensia, Inc. (“Compensia”) as its external compensation consultant.

Governance and Nominating Committee

The Governance and Nominating Committee is currently composed of three independent directors. The Governance and Nominating Committee provides counsel to the Board with respect to corporate governance matters, including oversight of the Company’s Corporate Compliance Program (as defined below), and Board organization, membership, and function, as well as committee structure and membership. The Governance and Nominating Committee is responsible for defining the qualifications for candidates for director positions, evaluating qualified candidates, recommending candidates to the Board for election as directors, and proposing a slate of directors for election by stockholders at each annual meeting.

Additionally, the Governance and Nominating Committee (a) assists the Board in its ESG oversight by reviewing ESG matters, including the Company's ESG report and health and safety matters, not assigned to other committees, (b) oversees the Company's policies and practices regarding political contributions, political lobbying, and charitable contributions and reviews management's strategies and recommendations for such activities, and (c) reviews the implementation and effectiveness of the Company's corporate compliance policies, systems, and procedures (the "Corporate Compliance Program") with the Company's General Counsel.

For more information relating to the Governance and Nominating Committee, see the Governance and Nominating Committee Charter, which is available under the Corporate Governance section of our "Investors" page on our website at investor.cirrus.com.

Director Nominations

The Governance and Nominating Committee annually reviews the needs of the Board for various skills, experience, expected contributions, and other characteristics in determining the director candidates to be nominated at the Annual Meeting of Stockholders. The Governance and Nominating Committee will evaluate candidates for directors proposed by directors, stockholders, or management in light of the Governance and Nominating Committee's views of the current needs of the Board for certain skills; the candidate's background, skills, experience, expected contributions, or other characteristics; and the qualification standards established from time to time by the Governance and Nominating Committee. If the Governance and Nominating Committee believes that the Board requires additional candidates for nomination, the Governance and Nominating Committee may engage a third-party search firm to assist in identifying qualified candidates. All of the director nominees for election at the Annual Meeting have been directors since last year's meeting. All directors and nominees submit a completed form of directors' and officers' questionnaire as part of the nominating process. The process may also include interviews and additional background and reference checks for non-incumbent nominees, at the discretion of the Governance and Nominating Committee.

The Governance and Nominating Committee believes that members of the Board should possess certain basic personal and professional qualities in order to properly discharge their fiduciary duties to stockholders, provide effective oversight of the management of the Company, and monitor the Company's adherence to principles of sound corporate governance. Therefore, the Governance and Nominating Committee has determined that nominees for election as director should have the following qualifications: (i) possess the highest personal and professional ethics, integrity, and values; (ii) be committed to representing the long-term interests of the Company's stockholders; (iii) have an inquisitive and objective perspective and mature judgment; (iv) possess strong business and financial acumen and judgment acquired through education, training, or experience; (v) possess experience at policy-making levels in business, government, education, or technology, and in areas that are relevant to the Company's global business activities; (vi) have experience in matters of corporate governance; (vii) have experience in positions with a high degree of responsibility in the companies or institutions with which they are affiliated; and (viii) be prepared to devote appropriate time and attention to the Board and Committee duties required of a public company board member. Additionally, for non-employee director candidates, the nominees should have personal and business circumstances that permit them to serve on one or more of the various Committees.

These are not meant to be the exclusive criteria, however, and the Governance and Nominating Committee will also consider the contributions that a candidate can be expected to make to the collective functioning of the Board based upon the totality of the candidate's credentials, experience, and expertise; the composition of the Board at the time; and other relevant circumstances. The Board does not have a policy with regard to the consideration of diversity in identifying director nominees. Its objective is to nominate a group of directors with various skills, qualifications, experience, and

backgrounds who can best ensure the continuing success of our business and represent stockholder interests through the exercise of sound judgment and constructive working relationships.

To assist in its annual review and nomination process, the Governance and Nominating Committee has developed the matrix provided below, which summarizes some of the key skills, qualifications, experience, and backgrounds that our director nominees bring to the Board based on self-reported responses that are reviewed by the Governance and Nominating Committee. The matrix below further identifies the Company's needs and the qualifications and attributes of directors that the Governance and Nominating Committee has determined are important to the Company. This identification helps the Governance and Nominating Committee in its evaluation of director competencies and how the composition of the Board, as a whole, meets these needs. Within the matrix, a checkmark reflects that the nominee identified that they possessed a comprehensive or professional/expert level of the noted attribute. The lack of a checkmark should not be interpreted to mean that a candidate does not have relevant skills, qualifications, or background in that particular area, but simply that their qualifications do not rise to the professional or expert level. The director biographies contained in the section of this proxy statement entitled "*Proposal No. 1: Election of Directors*" further describe each nominee's background and relevant experience and may identify additional attributes that are relevant to the decision to nominate candidates to serve on our Board.

Summary of Skills, Qualifications, Experience, and Backgrounds of Director Nominees

| | Davern | Forsyth | Hussain | Le | Lego | Mosley | Tupman |
|--|--------|---------|---------|--------|--------|--------|--------|
| Skills, Qualifications, Experience | | | | | | | |
| CEO Experience | ✓ | ✓ | | | | ✓ | |
| Senior Management and Operations Experience | ✓ | ✓ | ✓ | ✓ | | ✓ | ✓ |
| Semiconductor Industry Knowledge and Experience | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |
| Deep Technical Experience in the Semiconductor Industry | | ✓ | ✓ | ✓ | | | ✓ |
| Emerging Technologies and Business Models | | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |
| Financial, Accounting, and Tax Expertise | ✓ | | | | ✓ | | |
| Enterprise Risk Management Experience | ✓ | | ✓ | ✓ | ✓ | ✓ | |
| Public Company Board and Corporate Governance Experience | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |
| Venture Capital, Private Equity, and Financing Experience | | | | | ✓ | | |
| Business Development and M&A Experience | ✓ | ✓ | ✓ | ✓ | ✓ | | ✓ |
| Corporate Culture/Human Capital Management | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | |
| Extensive Knowledge and Experience in Business-to-Business Sales and Marketing | ✓ | ✓ | ✓ | | | ✓ | |
| International Business Operations Experience | ✓ | ✓ | | ✓ | | ✓ | ✓ |
| Background Information | | | | | | | |
| Years on Board | 10 | 4 | 4 | 2 | 5 | 1 | 10 |
| Age | 58 | 51 | 54 | 63 | 68 | 58 | 62 |
| Gender | male | male | male | female | female | male | male |
| Race/ethnicity | White | White | Asian | Asian | White | White | White |

The following charts show the composition of our director nominees by tenure, age, gender, and race/ethnicity.

Stockholder-Recommended Candidates

The Governance and Nominating Committee will consider stockholder-recommended candidates pursuant to the same process as the director nominations process that is in accordance with our Bylaws and outlined in the Corporate Governance Guidelines, which are available under the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com.

For information regarding stockholder nominations of candidates for election, please see the section of this proxy statement entitled “*Questions and Answers about the Proxy Materials, the Annual Meeting and Voting Procedures: May I propose actions for consideration at next year’s annual meeting of stockholders or nominate individuals to serve as directors?*” for further information.

Determination of Independence

The Board has determined that six of the seven nominated directors are independent as defined by the applicable listing and regulatory standards. Specifically, the Governance and Nominating Committee has reviewed the independence of each director and determined that nominees Davern, Hussain, Le, Lego, Mosley, and Tupman qualify as independent directors under these standards. No director has a familial relationship with another director, director nominee, or executive officer.

Corporate Governance Guidelines

On an annual basis, the Company reviews its corporate governance practices in light of any changes to applicable law, the rules of the SEC, and the Nasdaq listing standards. Among other matters, the Corporate Governance Guidelines include the following requirements:

- Two-thirds of the members of the Board must be independent directors based on the criteria under the Nasdaq listing standards and other applicable laws and regulations.
- If the Chair of the Board is not an independent director, the Board will designate a “lead independent director.”
- Directors shall retire at the first stockholders’ meeting in which directors will be elected following the director’s 75th birthday.
- Stock Ownership Guidelines require our Chief Executive Officer, non-employee directors, and officers of the Company to accumulate and maintain, after a phase-in period, an ownership position in the Company’s stock to more closely link their interests with those of other Company stockholders.
- The Board will have an Audit Committee, Compensation and Human Resources Committee, and Governance and Nominating Committee, each of which shall consist solely of independent directors.
- The independent directors shall meet in executive session either before or after each regularly scheduled Board meeting.
- In considering stockholder proposals and candidates recommended by stockholders for the Board (other than pursuant to Rule 14a-8), the Governance and Nominating Committee will follow the procedures outlined in the Corporate Governance Guidelines and our Bylaws.

For additional details, see the Corporate Governance Guidelines, which are available under the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com.

Board Leadership Structure

The Board is committed to maintaining an independent Board comprised primarily of independent directors. To enhance the independence of the Board from management, we currently separate the roles of our President and Chief Executive Officer (“CEO”), John Forsyth, and Chair of the Board, David Tupman. We believe that this leadership structure demonstrates our commitment to good corporate governance and benefits our stockholders by enhancing the oversight of management by the Board, balancing power on the Board, and encouraging balanced decision making.

The Board’s Role in Risk Oversight

As part of Cirrus Logic’s commitment to maintaining a robust governance framework, the Board is dedicated to overseeing the Company’s enterprise risk management process (the “ERM Process”). This process involves a formal assessment of the Company’s risk environment and is performed by senior management and reviewed by our CEO and other executive officers on a periodic basis. The ERM Process aligns with the Company’s disclosure controls and procedures to ensure transparency, accuracy, and compliance with regulatory requirements. Our public reports are prepared by management who participate in the ERM Process and are designed to appropriately identify potential risks for disclosure.

While management is responsible for identifying, assessing, and managing the material risks facing the Company, the Board plays an ongoing and active role in the oversight of the Company’s most significant strategic and operational risks and management’s efforts to assess and manage those risks. The Board is involved in the setting of the Company’s business strategy, which necessarily entails a determination of what constitutes an appropriate level of risk for the Company.

Each of the Committees also considers risk within the Committee's area of responsibility. Our Audit Committee, comprised fully of independent members, discusses risk assessment and risk management policies and regularly reviews with management the Company's major financial and regulatory risk exposures, including information security and cybersecurity-related risks, and the steps management has taken to monitor and control such exposures. For more information on the Board's oversight of cybersecurity risks in particular, please review Item 1C of our Annual Report on Form 10-K. In designing our compensation programs and structuring awards, the Compensation Committee considers whether such compensation programs may lead to undue risk taking. Finally, our Governance and Nominating Committee oversees risks relating to corporate governance policies and related governance matters.

Oversight of AI

We recognize the transformative potential of artificial intelligence ("AI") and are committed to its responsible and ethical use within our business. Given the importance of the topic to our business, our Board has determined that oversight of our AI strategy and risk management approach should remain with the full Board. As part of this oversight, the Board receives periodic updates on AI-related developments to ensure alignment with our broader corporate strategy.

To further strengthen our governance, the Company has established an AI Technology Usage Policy that addresses risks related to confidentiality, data privacy, and intellectual property, including the trustworthiness and reliability of AI tools and compliance with applicable laws. The Company has also formed a cross-functional AI Steering Committee, currently comprised of representatives from Information Technology, Information Security, Legal, Engineering, and Operations. The AI Steering Committee evaluates the potential deployment of AI solutions, oversees the use of AI tools in internal operations, provides implementation guidance, and establishes controls to mitigate potential risks.

Board and Committee Evaluations

Each year, the Board conducts a self-evaluation of the Board, its committees, and the individual directors, overseen by the Governance and Nominating Committee. The evaluation solicits the opinions of the directors regarding the effectiveness of the Board and its committees in fulfilling their obligations. The Chair of the Governance and Nominating Committee reviews the results of the evaluation with the Board, and the results of the evaluations are also considered by the Governance and Nominating Committee and the Board as part of the director nomination process.

Environmental, Social, and Governance (ESG)

Our Company is committed to creating a responsible and sustainable business environment that drives value for our key stakeholders including employees, investors, customers, suppliers, and our global communities. Responsibility for ESG oversight belongs to the Board with delegation to the Audit, Compensation, and Governance and Nominating Committees within their respective areas of expertise pursuant to their charters.

The Company recognizes the importance of embedding sustainable policies and practices across our business and strives to ensure our products are produced and manufactured in a sustainable and responsible manner. We adhere to core principles of human rights by complying with applicable international standards and by establishing a safe and healthy working environment. As an Affiliate Member, we are committed to adopting the approach of the Responsible Business Alliance ("RBA"), a non-profit organization that sets the standards for supply chain compliance issues related to labor, health and safety, the environment, ethics, and management systems. For example, all of our primary suppliers must acknowledge their obligations to comply with our Supplier Code of Conduct, which was developed using inputs from both the RBA Code of Conduct and additional customer requirements. In addition to complying with our Supplier Code of Conduct, our primary foundries and

assembly and test suppliers maintain ISO 14001 environmental management system certificates, which demonstrates their commitment to high environmental standards and responsible management of environmental impacts. Additionally, we ourselves have been awarded ISO 14001 certification, further reinforcing our commitment to these standards.

We work to attract and retain top talent in our diverse, global workforce through competitive compensation and benefits, along with a positive corporate culture based on respect and fairness for all employees. Through volunteer activities and financial contributions, we also help develop a STEM pipeline in an effort to expand the pool of qualified candidates who will be available for key roles in the future.

For more information about our ESG efforts, including the Company's ESG Report, please refer to the Environment, Social, and Governance section of our website at cirrus.com/company/esg.

Code of Conduct

The Company has adopted a Code of Conduct that applies to all of its directors, officers, and employees (including its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions). A copy of the Code of Conduct is available under the Corporate Governance section of our "Investors" page on our website at investor.cirrus.com. The Code of Conduct, as applied to the Company's senior financial officers, constitutes the Company's "code of ethics" within the meaning of Section 406 of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act") and the Company's "code of conduct" under the Nasdaq listing standards. Any violation of the Company's Code of Conduct, or any complaint or concern, including those regarding accounting, internal accounting controls, or auditing matters, may be reported anonymously by contacting EthicsPoint, an independent reporting system provider, by telephone at 1-866-384-4277 (1-866-ETHICSP) or through its website at cirruslogic.ethicspoint.com.

DIRECTOR COMPENSATION ARRANGEMENTS

Non-employee directors receive a combination of quarterly cash retainers and equity-based compensation. Directors who are employed by the Company do not receive any additional compensation for their Board service. Non-employee directors may not receive consulting, advisory, or other compensatory fees from the Company in addition to their Board compensation.

The following table sets forth the quarterly cash payments paid to non-employee directors for Board service during fiscal year 2025:

Director Compensation Retainers

| | |
|---|----------|
| Quarterly Director Retainer | \$17,500 |
| Board Chair Quarterly Retainer | \$18,750 |
| Audit Chair Quarterly Retainer | \$ 7,500 |
| Audit Committee Member Quarterly Retainer | \$ 3,000 |
| Compensation Committee Chair Quarterly Retainer | \$ 6,250 |
| Compensation Committee Member Quarterly Retainer | \$ 2,500 |
| Governance and Nominating Committee Chair Quarterly Retainer | \$ 3,750 |
| Governance and Nominating Committee Member Quarterly Retainer | \$ 1,500 |
| Lead Independent Director Quarterly Retainer | \$ 2,500 |

Directors receive cash payments for each retainer category applying to them. The Company also reimburses non-employee directors for all reasonable out-of-pocket expenses incurred for attending Board and Committee meetings.

In addition to the cash compensation described above, each non-employee director receives equity-based compensation, as follows:

Options

In fiscal year 2025 and up until the present Annual Meeting, new non-employee directors would receive, upon first joining the Board through appointment or election, options having a fair market value of \$225,000 as estimated at or around the time of grant with 25% vesting after one year and the remainder vesting ratably each month over the following 36 months.

On May 16, 2025, the independent members of the Board, based on a recommendation from the Compensation Committee and the Governance and Nominating Committee, approved a modification to the Company's non-employee director compensation program. This recommendation followed a review of peer company practices provided by Compensia. Specifically, the Board approved the elimination of this initial stock option award provided to new non-employee directors upon joining the Board, with the change to take effect as of the current Annual Meeting.

Full-Value Stock Awards

New non-employee directors who first join the Board by appointment prior to an annual meeting receive upon appointment a full-value stock award having a fair market value up to \$210,000 prorated to reflect the period from the time of appointment up until the annual meeting, with such award vesting at the annual meeting. Additionally, each non-employee director, upon first election and each subsequent re-election at an annual meeting, receives a full-value stock award having a fair market value up to \$210,000, with such award vesting at the earlier of the next annual meeting or one year from the date of grant.

Our Amended and Restated 2018 Long Term Incentive Plan provides that, in a calendar year, the aggregate value of all compensation paid to or granted to any non-employee member of the Board,

including equity awards (valued on the grant date pursuant to FASB ASC Topic 718) and cash compensation, shall not exceed \$750,000.

The following table sets forth information regarding the cash and equity-based compensation paid to our non-employee directors for services as members of the Board or any Committee during fiscal year 2025.

Note that throughout this proxy statement, amounts may not compute exactly across individual lines of a table, and such differences are due to rounding to the nearest dollar.

DIRECTOR COMPENSATION TABLE FOR FISCAL YEAR 2025

| Name (a) | Fees Earned or Paid in Cash ⁽¹⁾ (\$) (b) | Stock Awards ⁽²⁾ (\$) (c) | Option Awards ⁽³⁾ (\$) (d) | Total (\$) (h) |
|------------------------------------|--|---|--|----------------------|
| Alexander M. Davern ⁽⁴⁾ | \$118,786 | \$209,886 | \$ — | \$328,671 |
| Timothy R. Dehne ⁽⁵⁾ | \$ 33,750 | \$ — | \$ — | \$ 33,750 |
| Deirdre R. Hanford ⁽⁶⁾ | \$ 28,286 | \$ — | \$ — | \$ 28,286 |
| Raghib Hussain ⁽⁷⁾ | \$ 82,885 | \$209,886 | \$ — | \$292,770 |
| Duy-Loan Le ⁽⁸⁾ | \$105,107 | \$209,886 | \$ — | \$314,993 |
| Catherine P. Lego ⁽⁹⁾ | \$103,000 | \$209,886 | \$ — | \$312,886 |
| William D. Mosley ⁽¹⁰⁾ | \$ 48,687 | \$209,886 | \$224,968 | \$483,541 |
| David J. Tupman ⁽¹¹⁾ | \$151,000 | \$209,886 | \$ — | \$360,886 |

- (1) Represents fees earned or paid in cash for services as a director during the fiscal year ended March 29, 2025, including quarterly retainer fees and Committee chair and membership retainer fees.
- (2) On July 26, 2024, upon their re-election (or, first election in the case of Dr. Mosley) as directors at the Company's 2024 annual meeting of stockholders, directors Davern, Hussain, Le, Lego, Mosley, and Tupman received a full value stock award having a fair market value on the date of grant of approximately \$210,000, which will vest at the earlier of one year or the 2025 Annual Meeting. Amounts reported in this column represent the aggregate grant date fair value of the stock awards granted in fiscal year 2025, computed in accordance with FASB ASC Topic 718. See Note 12, Equity Compensation, in our Annual Report on Form 10-K for the fiscal year ended March 29, 2025 for additional detail regarding the assumptions underlying the value of these awards.
- (3) On July 26, 2024, upon his appointment as a director, Dr. Mosley received an option to purchase shares of common stock with an exercise price equal to the closing price of common stock reported on Nasdaq on the date of grant, with 25% vesting after one year and the remainder vesting ratably each month over the following 36 months. The amount in this column represents the aggregate grant date fair value of the options computed in accordance with FASB ASC Topic 718. See Note 12 Equity Compensation, in our Annual Report on Form 10-K for the fiscal year ended March 29, 2025 for additional detail regarding the assumptions underlying the value of these awards.
- (4) At the end of fiscal year 2025, Mr. Davern had no options outstanding and 1,624 RSUs outstanding.

- (5) At the end of fiscal year 2025, Mr. Dehne had no options outstanding and no RSUs outstanding. During fiscal year 2025, Mr. Dehne served as a director only through last year's annual meeting (July 26, 2024).
- (6) At the end of fiscal year 2025, Ms. Hanford had no options outstanding and no RSUs outstanding. During fiscal year 2025, Ms. Hanford served as a director only through last year's annual meeting (July 26, 2024).
- (7) At the end of fiscal year 2025, Mr. Hussain had 7,238 options outstanding and 1,624 RSUs outstanding.
- (8) At the end of fiscal year 2025, Ms. Le had 6,134 options outstanding and 1,624 RSUs outstanding.
- (9) At the end of fiscal year 2025, Ms. Lego had 7,657 options outstanding and 1,624 RSUs outstanding.
- (10) At the end of fiscal year 2025, Dr. Mosley had 4,163 options outstanding and 1,624 RSUs outstanding.
- (11) At the end of fiscal year 2025, Dr. Tupman had no options outstanding and 1,624 RSUs outstanding.

PROPOSALS TO BE VOTED ON

Proposal No. 1:

Election of Directors

Based upon the recommendation of our Governance and Nominating Committee, the Board nominated each of the seven individuals listed below for election to the Board this year.

Information regarding each of our nominees is provided below. All directors are elected annually to serve until the next annual meeting and until their respective successors are elected, or until their earlier resignation or removal. There are no family relationships among the Company's executive officers, directors, or director nominees.

Vote Required

In the election of directors, the seven persons receiving the highest number of "FOR" votes will be elected.

Director Resignation Policy

Any nominee for director who receives a greater number of "WITHHOLD" votes than "FOR" votes in an uncontested election of directors shall tender to the Board their resignation as a director promptly following the certification of the election results. For purposes of this policy, (i) an "uncontested" election is one in which the Secretary determines that the number of nominees does not exceed the number of directors to be elected as of the date seven days prior to the scheduled mailing date of the proxy statement for such meeting, and (ii) abstentions and broker non-votes will not be considered as either "WITHHOLD" votes or "FOR" votes. The Governance and Nominating Committee will consider any resignation tendered under this policy and recommend to the Board whether to accept or reject it and the Board will act on such resignation, taking into account the Governance and Nominating Committee's recommendation, within 90 days following the certification of the election results. The Governance and Nominating Committee in making its recommendation, and the Board in making its decision, may consider any information it deems appropriate including without limitation any reasons given by stockholders for their "WITHHOLD" votes, the qualifications of the director, and the director's contributions to the Board and the Company. The Board will promptly disclose publicly its decision to accept or reject such resignation and, if rejected, the reasons for doing so.

Information about Nominees

Ages are as of our Annual Meeting date.

ALEXANDER M. DAVERN

Director since 2015

Mr. Davern, age 58, is currently a member of the Board of Directors of FARO Technologies, Inc., a public company that provides leading-edge measurement solutions and is traded on the Nasdaq exchange. Additionally, he currently serves on the board of Computer Modelling Group Ltd., a global software and consulting company that provides advanced reservoir modelling capabilities to the energy industry and is traded on the Toronto Stock Exchange. In the past five years, Mr. Davern served on the board of National Instruments Corporation (“NI”), an Austin-based public company that supplies measurement and automation products used by engineers and scientists in a wide range of industries, between January 2017 and October 2023 and of ESI-Group, a French Software simulation company listed on the Euronext Exchange, between 2021 and 2023. Mr. Davern worked at NI between February 1994 and May 2020, and during his career there he served in numerous leadership positions, including as Chief Financial Officer, Chief Operating Officer, and Chief Executive Officer. Prior to joining NI, Mr. Davern worked both in Europe and in the United States for the international accounting firm of Price Waterhouse, LLP (now PricewaterhouseCoopers LLP). Since 2020, he also has a teaching position at the University of Texas McCombs School of Business. Mr. Davern received his bachelor’s degree in Commerce and a diploma in professional accounting from University College in Dublin, Ireland.

The Governance and Nominating Committee believes that Mr. Davern is well qualified to be on the Board based on his extensive leadership experience in all aspects of managing a high technology company in Austin, Texas. In addition, Mr. Davern has extensive international finance experience within the technology industry. The Governance and Nominating Committee further believes that his experiences, along with his financial expertise, his familiarity with acquisitions and integrations, and his international tax experience make him well qualified to provide valuable insights to the Board and to serve a role in the oversight of our financial reporting and accounting practices as Chair of the Audit Committee.

JOHN M. FORSYTH

Director since 2021

Mr. Forsyth, age 51, became the Company's President and Chief Executive Officer in January 2021. Previously, from January 2020, he held the role of President, and prior to that position, from June 2018, he was the Company's Chief Strategy Officer. From August 2014, he served as Vice President of Product Marketing. Mr. Forsyth joined the Company in 2014 through the acquisition of Wolfson Microelectronics, where he served as Vice President of Audio Products. Mr. Forsyth currently serves, since November 2023, as a member of the Board of Directors of Lattice Semiconductor Corporation, where he is a member of the Compensation Committee and Nominating and Governance Committee. Lattice Semiconductor is a low power programmable leader in the communications, computing, industrial, automotive, and consumer markets. Mr. Forsyth earned a M.A. (Social Science) degree from the University of Glasgow, Scotland, in 1995.

The Governance and Nominating Committee believes that Mr. Forsyth's current role as President and CEO of the Company makes him well qualified to be on the Board based on his detailed and unique knowledge of the Company's operations, opportunities, and challenges. In addition, the Governance and Nominating Committee believes that having Mr. Forsyth serve on the Board helps to bridge the gap between the Board and management, to facilitate the regular flow of information between management and the Board, and to ensure that the Board and management act with a common purpose to execute our strategic initiatives and business plans.

RAGHIB HUSSAIN

Director since 2021

Mr. Hussain, age 54, became the Chief Executive Officer of Altera in May 2025. Altera is currently a subsidiary of Intel Corporation that supplies programmable hardware, software, and development tools. Previously, Mr. Hussain was President of Products and Technologies at Marvell Technology, Inc., a fabless semiconductor supplier from April 2021 to May 2025. In this role, he oversaw Marvell's businesses and technologies by defining overall strategy, aligning roadmaps, monitoring and prioritizing product development investments, leading innovation, and driving growth through organic and inorganic planning. Mr. Hussain also had oversight of the Office of the Chief Technology Officer, which drove Marvell's long-term technology vision and strategy transformation efforts. Previously, from July 2018 to April 2021, Mr. Hussain held the title of Chief Strategy Officer and Executive Vice President of Marvell's Networking and Processors Group. Prior to this role, from 2001–2018, he served as Co-Founder, Chief Technology Officer, and Chief Operating Officer of Cavium, Inc., a semiconductor company that offered a portfolio of infrastructure solutions for compute, security,

storage, switching, connectivity, and baseband processing, and which was acquired by Marvell in July 2018. Mr. Hussain earned a B.S. degree in Computer Systems Engineering from NED University in Karachi, Pakistan and an M.S. degree in Computer Engineering from San Jose State University. He holds more than 40 patents in the fields of networking and security.

The Governance and Nominating Committee believes that Mr. Hussain is well qualified to be on the Board based on his extensive leadership skills, background in mergers and acquisitions, and engineering and technology experience in the semiconductor field, including his business experience with corporate culture, human capital management, and driving long-term technology and growth strategies in the communications, security, networking, and computing markets.

DUY-LOAN LE

Director since 2023

Ms. Le, age 63, retired in July 2017 from Texas Instruments Inc. (“TI”) after 35 years. From 2002 until 2017, she held the role of Senior Fellow and previously she held various leadership positions including Advanced Technology Ramp Manager for the Embedded Processing Division and worldwide project manager for the Memory Division. While at TI, Ms. Le led all aspects of execution for advanced technology nodes, design, assembly and test, productization, qualification, release to market, high volume ramp, and quality and reliability assurance. While at TI, she also gained experience opening international offices and developing engineering talent. Ms. Le is currently a member of the board of directors of: (1) Wolfspeed, Inc., a supplier of Silicon Carbide and gallium nitride (GaN) technologies, since 2018, where she serves as a member of its Compensation Committee and Governance and Nominations Committee; (2) Atomera, Inc., a semiconductor materials and technology licensing company, since 2019, where she serves as Chair of its Compensation Committee and as a member of its Nominating and Corporate Governance Committee; and (3) BrainChip Holdings Ltd., a provider of edge AI on-chip processing that is traded on the Australian Securities Exchange, since 2022, where she serves as a member of its Audit & Risk and Remuneration & Nominations Committees. Ms. Le holds a bachelor’s degree in Electrical Engineering from the University of Texas at Austin and a master’s degree in Business Administration from the Bauer College of Business at the University of Houston. She has been awarded 24 patents, has been inducted into the Women in Technology Hall of Fame, and became the first engineer to be inducted into the Asian Hall of Fame. Ms. Le has also received recognition as NACD Directorship 100 and Most Influential Corporate Board Directors.

In the past five years, Ms. Le also served on the board of (1) National Instruments Corporation, an Austin-based company that supplies measurement and automation products, between 2002 and October 2023, where she served as Chair of its Compensation Committee and as a member of its Nomination & Governance Committee, and (2) Ballard Power Systems, a company that delivers fuel cell power, between 2017 and February 2023, where she was a member of its People, Corporate Governance & Compensation Committee.

The Governance and Nominating Committee believes that Ms. Le is well qualified to serve as a director of the Company based on her extensive experience in semiconductors, specifically in chip design, silicon manufacturing technology development, and advanced technology manufacturing; her

global business experience, including managing global R&D centers, joint ventures, foundries, and OSAT (Outsourced Semiconductor Assembly and Test) partnerships; and her Board governance experience and knowledge, including her service as a chair of compensation committees and as a member of audit & risk and nomination & governance committees.

CATHERINE P. LEGO

Director since 2020

Ms. Lego, age 68, is the founder of Lego Ventures LLC, a consulting services firm and source of start-up capital for early-stage technology companies, which she operated from 1992 until December 2018. She currently serves as a member of the Board of Directors of Guidewire Software, Inc., an industry platform provider for property and casualty insurers, since September 2019, where she serves as the Audit Committee Chair and is a member of the Nominating and Governance Committee.

In the past five years, Ms. Lego has served on the boards of (1) Lam Research Corporation, a wafer fabrication equipment company, between 2006 and November 2022, where at various times she was Chair of the Compensation Committee, Chair of the Audit Committee, and member of the Nominating and Governance Committee, (2) Cypress Semiconductor Corp., a developer of advanced embedded system solutions, between September 2017 and April 2020, where she served as Chair of the Audit Committee and a member of the Nominating and Corporate Governance Committee, and (3) IPG Photonics Corporation, a high-power fiber laser and amplifier company for diverse applications, between July 2016 and May 2021, where she was a member of the Audit Committee and Chair of the Compensation Committee. Previously, Ms. Lego served on several other public company boards, along with other privately-held technology companies. Ms. Lego previously was a partner at two venture capital funds and practiced as a certified public accountant with Coopers & Lybrand LLP (now PricewaterhouseCoopers LLP). Ms. Lego received a B.A. degree in economics and biology from Williams College and a M.S. degree in accounting from the New York University Stern School of Business.

The Governance and Nominating Committee believes that Ms. Lego is well qualified to serve as a director of the Company based on her extensive board-level experience; her substantial risk management, accounting, and finance expertise; her knowledge of the electronics and semiconductor industries; her experience with mergers, acquisitions, and corporate financing; and her Board governance experience and knowledge, including her service as a chair of an audit committee and member of audit, compensation, and nominating and governance committees.

WILLIAM D. MOSLEY

Director since 2024

Dr. Mosley, age 58, has served as the CEO of Seagate Technology Holdings plc (“Seagate”) since October 2017 and as a member of its Board since July 25, 2017. He was previously Seagate’s President and Chief Operating Officer from June 2016 to September 2017. He joined Seagate in 1996 as a Senior Engineer, and during his tenure he has held a variety of posts of increasing responsibility including President Operations and Technology, Executive Vice President Global Sales and Marketing, as well as many R&D leadership roles. Dr. Mosley earned a Ph.D. in Physics from the University of California, Davis focusing on solid state physics.

The Governance and Nominating Committee believes that Dr. Mosley is well qualified to be on the Board based on his broad-based, executive-level experience in managing a high technology company. In addition, Dr. Mosley’s extensive experience involving global operations, technology, research and development, and sales and marketing make him well qualified to provide valuable insights to the Board.

DAVID J. TUPMAN

Director since 2015

Dr. Tupman, age 62, is currently the owner of Details Lab Inc., an advisory firm focusing on scaling organizations for high-growth, technology development and new product introduction. From 2001 to 2011, Dr. Tupman rose from manager to Vice President of hardware engineering at Apple Inc., where he led the hardware engineering and technology teams for multiple mobile devices. Prior to Apple, Dr. Tupman worked at Psion Computers in London, England, from 1995 to 2001 as a hardware-engineering manager, developing a number of personal digital assistant products. From 1988 to 1995, Dr. Tupman was a Principal Design Engineer at Schlumberger in Farnborough, England, where he developed low power, high precision sensors for the gas, fuel and aerospace industries. Dr. Tupman holds a Bachelor’s degree in Electronics Engineering and an honorary doctorate (D.Sc.) from the University of Salford, England. Dr. Tupman is named as an inventor on more than 30 U.S. patents. Dr. Tupman served as a director of Pixelworks, Inc., a company that develops video display processing technology, from April 2014 to May 2025.

The Governance and Nominating Committee believes that Dr. Tupman is well qualified to be on the Board based on his extensive engineering and technology background in the consumer electronics and industrial markets as well as his public company board and corporate governance experience.

The Board recommends a vote “FOR” the election to the Board of each of the foregoing nominees.

Proposal No. 2:
**Ratification of Appointment of Independent Registered Public
Accounting Firm**

The Audit Committee has appointed Ernst & Young LLP (“Ernst & Young”) as the Company’s independent registered public accounting firm to audit the Company’s consolidated financial statements for the fiscal year ending March 28, 2026. During the fiscal year that ended March 29, 2025, Ernst & Young served as the Company’s independent registered public accounting firm and also provided certain tax services.

The Audit Committee pre-approves and reviews all audit and non-audit services provided by Ernst & Young. In considering the services to be provided by Ernst & Young, the Audit Committee considers whether the provision of non-audit services is compatible with maintaining the independence of Ernst & Young.

For additional information relating to the Audit Committee, see the section of this proxy statement entitled “*Report of the Audit Committee of the Board*,” as well as the Audit Committee Charter, which is available under the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com.

A representative of Ernst & Young is expected to attend the Annual Meeting and be available to respond to questions and, if they desire, to make a statement.

The Board recommends a vote “FOR” Proposal No. 2.

If the appointment is not ratified, the Audit Committee retains the discretion to select other auditors for the following fiscal year or to determine that Ernst & Young will continue to serve as the independent auditor. Ratification of the appointment of Ernst & Young as the Company’s independent registered public accounting firm for the fiscal year ending March 28, 2026, requires the affirmative vote of a majority of the shares of common stock present or represented by proxy and entitled to vote at the meeting.

Proposal No. 3:
Advisory Vote to Approve Named Executive Officer Compensation

Section 14A of the Securities Exchange Act of 1934 and related rules of the SEC enable our stockholders to vote to approve, on an advisory, non-binding basis, the compensation of our CEO, our Chief Financial Officer (“CFO”), and our three other most highly compensated executive officers (collectively, our “Named Executive Officers” or “NEOs”) as disclosed in this proxy statement. This vote is advisory and, therefore, not binding on the Company, the Compensation Committee, or the Board. However, the Board and the Compensation Committee value the opinions of our stockholders and to the extent there is a significant vote against the compensation of the NEOs, we will consider our stockholders’ concerns, and the Compensation Committee will evaluate whether any actions are necessary to address those concerns. The Board has determined that it will include this vote in the Company’s proxy materials annually, pending consideration of future stockholder votes on the frequency of this advisory vote on executive compensation.

As described in detail in the section of this proxy statement entitled “*Compensation Discussion and Analysis*,” our executive compensation program is designed to attract, motivate, and retain executive officers, while aligning their interests with those of our stockholders. Under this program, our executive officers are rewarded for the achievement of strategic and operational objectives and the realization of increased stockholder value. Please read the Compensation Discussion and Analysis and

the accompanying compensation tables of this proxy statement for additional information about our executive compensation program, including information about the compensation of the NEOs for fiscal year 2025.

By way of this proposal, commonly known as a “Say-on-Pay” proposal, we are asking our stockholders to indicate their support for the compensation of the NEOs as described in this proxy statement. Please note that this vote is not intended to address any specific item of compensation, but rather the overall compensation of the NEOs and the philosophy, policies, and practices described in this proxy statement.

The stockholders are being asked to approve the following resolution at the Annual Meeting:

“RESOLVED, that the compensation paid to the company’s Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.”

The Board recommends a vote “FOR” Proposal No. 3.

OTHER MATTERS

The Company knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters properly come before the Annual Meeting, it is the intention of the persons named in the proxy to vote the shares they represent as the Board may recommend. Discretionary authority with respect to such other matters is granted by the execution of the proxy.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table contains information regarding the beneficial ownership of common stock as of May 13, 2025, by:

- The stockholders we know to beneficially own more than 5% of outstanding common stock;
- Each director and nominee;
- Each executive officer named in the Summary Compensation Table included in this proxy statement; and
- All of our directors and executive officers as a group.

Common stock is the only class of voting securities issued by the Company. Unless otherwise indicated in the footnotes, the beneficial owner has sole voting and investment power with respect to the securities beneficially owned, subject only to community property laws, if applicable. In addition, unless otherwise indicated in the footnotes, the beneficial owner’s address is 800 W. 6th Street, Austin, Texas 78701.

| <u>Beneficial Owner</u> | <u>Shares Beneficially Owned</u> | |
|---|----------------------------------|-------------------------------|
| | <u>Number</u> | <u>Percent ⁽¹⁾</u> |
| 5% or Greater Stockholders: | | |
| The Vanguard Group ⁽²⁾ | 6,234,795 | 12.01% |

| All current directors and executive officers as a group (16 persons) ⁽¹⁴⁾ | 608,140 | 1.16% |

* Less than 1% of the outstanding common stock

- (1) Percentage ownership is based on 51,897,835 shares of common stock issued and outstanding on May 13, 2025. Shares of common stock issuable under stock options that are currently exercisable or will become exercisable within 60 days after May 13, 2025, and shares of common stock subject to with Restricted Stock Units (“RSUs”), Market Stock Units (“MSUs”), and Performance Stock Units (“PSUs”) that will vest and be issued within 60 days after May 13, 2025, are deemed to be outstanding and beneficially owned by the person holding such options, RSUs, MSUs, or PSUs for the purpose of computing the number of shares beneficially owned and the percentage ownership of such person, but are not deemed outstanding for the purpose of computing the percentage of any other person. This table does not include options, RSUs, MSUs, or PSUs that vest more than 60 days after May 13, 2025.
- (2) Based on a Schedule 13G filed with the SEC on February 13, 2024, The Vanguard Group, 100 Vanguard Blvd.; Malvern, PA 19355, is the beneficial owner of 6,234,795 shares, with sole voting power as to 0 shares, sole dispositive power as to 6,158,706 shares, shared dispositive power as to 76,089 shares, and shared voting power as to 18,483 shares.
- (3) Based on a Schedule 13G filed with the SEC on April 17, 2025, BlackRock, Inc., 50 Hudson Yards; New York, NY 10001, is the beneficial owner of 4,856,306 shares, with sole voting power as to 4,729,009 shares, and sole dispositive power as to 4,856,306 shares.
- (4) Includes 126,925 shares issuable upon exercise of options held by Mr. Forsyth and 72,529 shares held directly.
- (5) Includes 49,843 shares issuable upon exercise of options held by Mr. Thomas and 26,307 shares held directly.
- (6) Includes 30,378 shares issuable upon exercise of options held by Mr. Alberty and 43,645 shares held directly.

- (7) Includes 0 shares issuable upon exercise of options held by Mr. Habermann and 28,106 shares held directly.
- (8) Includes 0 shares issuable upon exercise of options held by Dr. Tupman and 24,294 shares held directly.
- (9) Includes 0 shares issuable upon exercise of options held by Mr. Davern and 21,907 shares held directly.
- (10) Includes 12,725 shares issuable upon exercise of options held by Mr. Dougherty and 6,334 shares held directly.
- (11) Includes 7,657 shares issuable upon exercise of options held by Ms. Lego and 11,086 shares held directly.
- (12) Includes 6,785 shares issuable upon exercise of options held by Mr. Hussain and 6,957 shares held directly.
- (13) Includes 2,938 shares issuable upon exercise of options held by Ms. Le and 2,575 shares held directly.
- (14) Includes options held by all executive officers and directors to purchase an aggregate of 333,429 shares of common stock that are exercisable within 60 days of May 13, 2025.

EXECUTIVE OFFICERS

Set forth below is information regarding the Company's executive officers as of the Record Date (ages as of Annual Meeting date).

Carl J. Alberty – Executive Vice President, Mixed-Signal Products

Mr. Alberty, age 48, was appointed Executive Vice President, Mixed-Signal Products in December 2024. Prior to that position, since March 2019, he was Vice President of Mixed-Signal Products. Mr. Alberty joined the Company in 1999 in an engineering role supporting audio products and has worked in various audio product marketing leadership roles, leading up to his most recent positions.

Jeffrey W. Baumgartner – Executive Vice President, Research and Development

Mr. Baumgartner, age 51, was appointed Executive Vice President, Research and Development in December 2024. Prior to that position, since October 2018, he was Vice President of Research and Development. Mr. Baumgartner joined the Company in 1998 as a design engineer, and in 2006, he began his career in engineering management.

Andrew Brannan – Executive Vice President, Worldwide Sales

Mr. Brannan, age 58, was appointed Executive Vice President, Worldwide Sales in December 2024. Prior to that position, from August 2014, he was Vice President of Worldwide Sales. Mr. Brannan joined Cirrus Logic in 2014 through the acquisition of Wolfson Microelectronics plc ("Wolfson"), where he served as Chief Commercial Officer.

Justin Dougherty – Executive Vice President, Global Operations

Mr. Dougherty, age 49, was appointed Executive Vice President, Global Operations in December 2024. Prior to that position, since November 2022, he was Senior Vice President, Global Operations. Prior to that position, since June 2019, he was Vice President, Engineering Operations. Mr. Dougherty joined the Company in 2013 in the role of Senior Manager of Product and Test Engineering.

John M. Forsyth – President and Chief Executive Officer, and Director Nominee

Mr. Forsyth, age 51, was appointed President and Chief Executive Officer in January 2021. Previously, from January 2020, he held the role of President, and prior to that position, from June 2018, he was the Company's Chief Strategy Officer. Previously, from August 2014, he served as Vice President of Product Marketing. Mr. Forsyth joined the Company in 2014 through the acquisition of Wolfson, where he served as Vice President of Audio Products.

Denise Grodé – Executive Vice President, Chief Human Resources Officer

Ms. Grodé, age 51, was appointed Executive Vice President, Chief Human Resources Officer in December 2024. Prior to that position, since March 2022 when she joined the Company, she was Chief Human Resources Officer. Prior to joining the Company, from 2017, Ms. Grodé worked at Centene Corporation in roles including Regional Vice President, Global Talent Management, Employee Experience and Centene University.

Gregory Scott Thomas – Executive Vice President, General Counsel

Mr. Thomas, age 60, was appointed Executive Vice President, General Counsel in December 2024. Prior to that position, since December 2023, he was Senior Vice President, General Counsel. Previously, from November 2017, he was Senior Vice President, General Counsel, Corporate Secretary, and prior to that position, from December 2003, he was Vice President, General Counsel, Corporate Secretary. He joined the Company in December 2000 as Vice President and Associate General Counsel, Intellectual Property.

Jeff Woolard – Chief Financial Officer

Mr. Woolard, age 55, was appointed Chief Financial Officer in February 2025, when he joined the Company. Prior to that position, since September 2023, he served as CFO of Velocity Global, L.L.C., a private company that provides a global workforce platform and related services. Previously, from December 2021, Mr. Woolard served as CFO for Solidigm, a private company that provides flash memory solutions. Prior to that, from May 2020, Mr. Woolard worked at Intel Corporation, a public semiconductor company, as CFO Manufacturing and Technology and from March 2012 as CFO Intel Capital, Emerging Growth Incubation. From 2019-2022, Mr. Woolard served as a board member for McAfee Corp., a computer security software company.

I. Purpose

The purpose of this Compensation Discussion and Analysis is to explain the Compensation and Human Resources Committee’s (the “Compensation Committee”) philosophy for determining the compensation program for our Chief Executive Officer (“CEO”) during the fiscal year, each individual who served as our Chief Financial Officer (“CFO”), and the three other most highly compensated executive officers (collectively, the “Named Executive Officers” or “NEOs”) for fiscal year 2025 and to discuss why and how the fiscal year 2025 compensation decisions for these executive officers were

reached. As used in this Compensation Discussion and Analysis, all references to the 2025 fiscal year are applicable to the time period that began on March 31, 2024 and ended on March 29, 2025. Following this discussion are tables that include compensation information for the NEOs, the CEO pay ratio analysis, and a pay versus performance analysis. This Compensation Discussion and Analysis contains descriptions of various employee compensation and benefit plans. These descriptions are qualified in their entirety by reference to the full text of the plans that are filed as exhibits to the Company's Annual Report on Form 10-K for fiscal year 2025.

The NEOs for fiscal year 2025 were as follows:

- John M. Forsyth, President and Chief Executive Officer;
- Jeff Woolard, Chief Financial Officer;¹
- Ulf Habermann, Former Interim Chief Financial Officer; Principal Accounting Officer, Treasurer, and Senior Vice President of Finance;²
- Venk Nathamuni, Former Chief Financial Officer;³
- Gregory S. Thomas, Executive Vice President, General Counsel;
- Carl J. Alberty, Executive Vice President, Mixed-Signal Products; and
- Justin Dougherty, Executive Vice President, Global Operations.

The Compensation Committee reviews and approves base salaries and other matters relating to executive compensation and administers the Company's equity incentive plans, including reviewing and granting equity incentive awards to our executive officers and other employees and reviewing and approving policies and procedures for granting awards under these plans.

II. Executive Summary

Listed below are select business highlights for, and significant actions taken by the Compensation Committee in, fiscal year 2025. Additional details are described in the discussion and analysis that follows.

Business Highlights

- **Financials.** We reported revenue of \$1.90 billion for fiscal year 2025, an increase of six percent year-over-year. Our GAAP operating profit was 21.6 percent (a year-over-year increase of about 12.7 percent), and we delivered record GAAP earnings per share of \$6.00. Our cash and investment balance at the end of fiscal year 2025 was \$834.8 million, up from \$699.9 million the prior fiscal year, as we generated strong cash flow from operations, while also returning \$261.0 million of cash to stockholders in the form of stock buybacks. In fiscal year 2025, we repurchased 2.3 million shares at an average price of \$112.33 per share.
- **Company Strategy.** In the past fiscal year, we remained committed to a three-pronged strategy: first, maintaining leadership in our core smartphone audio business; second,

¹ Mr. Woolard was appointed as our CFO effective February 24, 2025, a little more than one month prior to the end of fiscal year 2025.

² Mr. Habermann was appointed as our Interim CFO effective May 24, 2024, and served in that role through February 24, 2025, the date Mr. Woolard became CFO. Following that transition, Mr. Habermann now serves as our Principal Accounting Officer, Treasurer, and Senior Vice President of Finance.

³ During fiscal year 2025, Mr. Nathamuni served as our CFO for approximately two months. He resigned from the Company on May 24, 2024, at which point Mr. Habermann was appointed as Interim CFO.

expanding in areas of high-performance mixed-signal (“HPMS”) functionality in smartphones; and third, leveraging both our audio and HPMS capabilities to drive penetration of new markets.

Executive Compensation Highlights

- **Base Salaries.** Fiscal year 2025 base salaries for our NEOs were set as part of the fiscal year 2024 review of executive compensation discussed in our proxy statement of last year, except for the base salaries of Mr. Woolard and Mr. Habermann. Mr. Habermann’s base salary was adjusted separately in connection with his appointment as Interim CFO and his transition from Interim CFO to his current role upon the start date of Mr. Woolard as CFO. Mr. Woolard’s compensation was set separately as part of a new-hire compensation analysis. Effective fiscal year 2026, as a result of a compensation analysis performed in the fourth quarter of fiscal year 2025, the Compensation Committee raised annual base salaries of our NEOs (except for Mr. Woolard and Mr. Habermann) by 3% based on factors discussed herein, including typical annual market adjustments.
- **Equity Grants.** Based on its fourth-quarter compensation analysis, the Compensation Committee approved grants of (1) restricted stock units (“RSUs”), (2) performance-based restricted stock units now referred to as Market Stock Units (“MSUs”), and (3) new performance-based restricted stock units termed Performance Stock Units (“PSUs”) to our NEOs. Mr. Woolard’s equity grants were approved separately, as part of a new-hire compensation analysis. Unlike in prior years, the Compensation Committee did not authorize the grant of any stock options to executives in fiscal year 2025.
- **MSU Performance.** Based on the Company’s three-year stock price performance for the performance period ending in fiscal year 2025, MSUs granted in fiscal year 2022 had a payout percentage of 167%.
- **Cash Bonuses.** In fiscal year 2025, our financial performance resulted in semiannual Incentive Plan Pay-Out Percentages (as defined below in the section of this Compensation Discussion and Analysis entitled “*Executive Compensation Review for Fiscal Year 2025 – Cash Bonuses*”) of 139% and 124%.

We are committed to paying our NEOs based on Company and individual performance. A significant portion of each NEO’s target total direct compensation is based on the achievement of short-term and long-term corporate goals and objectives.

The Compensation Committee believes that the compensation paid to our NEOs as described in this proxy statement reflects, and is fully supported by, the Company’s performance over the relevant time periods. Our one-year revenue growth was around the 68th percentile of our compensation peer group (whose constituents are identified below in the section of this Compensation Discussion and Analysis entitled “*The Information We Use for Comparisons*”), and our operating income and net income for the four quarters preceding our compensation data-gathering efforts placed us at around the 78th and 85th percentiles, respectively, of our compensation peer group.

III. Advisory Vote on Named Executive Officer Compensation and Last Year’s Result

We conduct our stockholder advisory vote on named executive officer compensation on an annual basis. While this vote is not binding on the Company, the Board, or the Compensation Committee, it gives our stockholders an annual opportunity to vote on the compensation of our NEOs as a means to express their views regarding our executive compensation philosophy, our compensation policies and

practices, and our decisions regarding executive compensation, all as disclosed in our proxy statement. The Board and the Compensation Committee value the opinions of our stockholders and, to the extent that there is any significant vote against the compensation of our NEOs as disclosed in this proxy statement, we will consider our stockholders' concerns, and the Compensation Committee will evaluate whether any actions are necessary to address those concerns.

At our 2024 annual meeting of stockholders, 95% of the votes cast on our advisory proposal on named executive officer compensation were in favor of our NEOs' compensation as disclosed in our proxy statement, and as a result, our NEOs' compensation was approved. The Compensation Committee reviewed the final vote results and determined that, given the significant level of support, no specific changes to our executive compensation philosophy or general policies and practices were necessary.

For more information on our fiscal year 2025 stockholder advisory vote, see *"Proposal No. 3 – Advisory Vote to Approve Named Executive Officer Compensation"* within this proxy statement.

IV. Our General Philosophy and Overall Compensation Framework

We provide our NEOs with compensation opportunities that are based on their individual performance, the financial performance of the Company, their contribution to the financial performance of the Company, and the Company's total shareholder return relative to certain other semiconductor companies through a mix of the following compensation elements:

- base salary;
- semiannual cash bonus awards; and
- equity compensation including RSUs, MSUs, and PSUs.

These opportunities are designed to attract and retain highly skilled individuals and to align their incentives with the long-term interests of our stockholders.

We are engaged in a very competitive industry, and the Company's success depends on our ability to attract and retain qualified executives through the competitive compensation packages we offer. We believe that the amounts payable under the compensation program for our NEOs should reflect the Company's performance and the value created for our stockholders. In addition, we believe the compensation program should balance the short-term and long-term strategic goals and objectives of the Company, as informed by the Board's involvement in the setting of business strategy, and reward individual contributions to the Company's success.

The following summarizes some key governance characteristics related to the executive compensation program in which our NEOs participate:

| What We Do / Have | What We Don't Do / Don't Have |
|---|--|
| Maintain an independent Compensation Committee | No guaranteed bonuses |
| Utilize an independent compensation consultant hired by and reporting to the Compensation Committee to annually review compensation and performance alignment | No significant perquisites to our executive officers. Other than an annual physical examination reimbursement, our executive officers participate in broad-based company-sponsored health and welfare benefits programs on the same basis as our other full-time employees |

| What We Do / Have | What We Don't Do / Don't Have |
|--|---|
| Substantial percentage of target annual total direct compensation, including compensation associated with performance-based equity awards, is at risk and tied to financial performance or performance of our stock price | No hedging, pledging, short sales, or transactions in derivatives of Company stock |
| Conduct an annual compensation risk assessment | No incentive compensation plans or arrangements that encourage excessive risk taking |
| Review the risks associated with our executive officer positions to ensure adequate succession plans are in place | No granting of discounted stock options |
| Annual equity awards granted to our NEOs are earned and/or vest over multi-year periods, consistent with current market practice and our retention objectives | No separate, executive retirement plans |
| The mix of base salary, target annual cash bonus opportunity and annual equity awards appropriately balances the shorter-term and longer-term aspects of each NEO's responsibilities and performance, without undue emphasis on any single element of compensation | No automatic acceleration of equity awards upon retirement |
| Conduct an annual "say-on-pay" stockholder advisory vote | No repricing or exchange of underwater stock options without stockholder approval |
| Annually structure our compensation peer group with Compensation Committee review and approval | No excise tax reimbursements or "gross ups" in connection with change in control payments |
| Maintain stock ownership guidelines for directors and executive officers | No "single-trigger" equity award vesting upon a change in control |
| Maintain a clawback policy to reclaim certain awards and incentives compliant with Exchange Act Rule 10D-1 and applicable listing requirements | |
| Require "double-trigger" equity award vesting upon a change in control | |

A. How We Set Target Total Direct Compensation

The Compensation Committee annually reviews and establishes each NEO's target total direct compensation package. The Compensation Committee considers a broad range of facts and circumstances in setting executive compensation, including Company performance, individual performance and responsibilities, relative stockholder return, external pay practices of peer companies, the strategic importance of the NEO's position, the history of pay adjustments, internal pay equity, and the NEO's time in the position. The weight given to each of these factors by the Compensation Committee is not preestablished and may differ from year to year, and among the individual NEOs.

The Company's executive compensation program is heavily weighted toward performance-based compensation elements that are considered to be "variable" or "at risk," because those elements are subject to risk or achievement of short-term and long-term corporate goals and objectives. In setting target total direct compensation for our NEOs, the Compensation Committee seeks to strike a balance between providing compensation that is competitive with the compensation paid to executives of peer companies, while ensuring that a significant percentage of compensation is dependent on the Company's performance, individual performance, and stock price appreciation. See the section of this Compensation Discussion and Analysis entitled "*The Elements Making Up Compensation and Our Target Compensation Levels*" for additional information regarding the target total direct compensation packages for our NEOs.

B. Our Use of a Compensation Consultant

To support the Compensation Committee in fulfilling its duties and staying current with executive compensation developments, the Compensation Committee retained an external compensation consultant to assist with its design and evaluation of compensation for our CEO, other executive officers, and non-employee directors for fiscal year 2025 pursuant to its charter. During fiscal year 2025, the Compensation Committee retained Compensia, Inc. ("Compensia"), a national compensation consulting firm, to provide executive and director compensation consulting services.

At the direction of the Compensation Committee, in fiscal year 2025 Compensia conducted a comprehensive evaluation of the compensation of our NEOs and other executives, including separate analyses related to the hiring of our new CFO, Mr. Woolard, as well as the compensation considerations associated with Mr. Habermann's transition into and out of the Interim CFO role. In November 2024, Compensia reviewed and recommended changes to our compensation peer group, which is used to analyze the competitive market for executive and director compensation.

As required by the Nasdaq listing standards, the Compensation Committee performed an independence assessment of Compensia for fiscal year 2025. The Compensation Committee determined that Compensia should be considered independent based on the following factors:

- Compensia provided no services to the Company other than its work for the Compensation Committee;
- The fees paid to Compensia by the Company for fiscal year 2025 were less than 1% of Compensia's revenues for that year;
- Compensia maintains and has provided to the Company a Conflict of Interest Policy;
- The advisers from Compensia who provided services to the Company have no business or personal relationship with any members of the Compensation Committee or the Company's executive officers; and
- Compensia has confirmed that none of the advisers from Compensia who provided services to the Company own any shares of our common stock.

Accordingly, the Compensation Committee determined that the services provided by Compensia to the Compensation Committee for fiscal year 2025 did not give rise to any conflicts of interest.

C. The Information We Use for Comparisons

1. Our Compensation Peer Group

The Compensation Committee develops an understanding of the competitive market with respect to executive compensation levels and related policies and practices against those of a compensation peer

group. Our compensation peer group generally consists of public companies listed on U.S. stock exchanges in the semiconductor industry that are most comparable in size (approximately \$600 million – \$5.5 billion in revenue and approximately \$1.3 billion – \$25.8 billion in market capitalization), as compared to our approximate \$1.8 billion in revenue and \$6.4 billion in market capitalization as of November 2024, and also share other common characteristics with the Company, including location and similarity of business model and product lines. In determining the composition of our compensation peer group annually, the Compensation Committee considers the ability to achieve year-over-year consistency and position-specific executive-compensation comparisons. The Compensation Committee also considers whether a proposed peer was historically in the Company’s compensation peer group to maintain additional consistency. Another factor the Compensation Committee considers is the likelihood that the Company might compete for executive talent with the companies selected for the compensation peer group. For example, due in part to the Company’s specialized field, the targeted talent pool of skilled leadership is narrow, and as such, the Compensation Committee expects to continue to revisit and revise the compensation peer group on an annual basis to ensure the Company remains competitive in its continuing recruitment and retention efforts.

In November 2024, based on these criteria and under the direction of the Compensation Committee, Compensia reviewed the then-existing compensation peer group and made recommendations regarding potential additions and removals. Specifically, Compensia recommended that SunPower Corporation be removed in view of its acquisition. After review, the Compensation Committee approved that recommendation, and the following group of 18 companies was approved as the compensation peer group:

| Compensation peer group as of November 2024 | |
|--|--------------------------------------|
| Allegro Microsystems, Inc. | Monolithic Power Systems, Inc. |
| Diodes Incorporated | Penguin Solutions, Inc. ⁴ |
| Entegris, Inc. | Power Integrations, Inc. |
| First Solar, Inc. | Qorvo, Inc. |
| FormFactor, Inc. | Semtech Corp. |
| Knowles Corporation | Silicon Laboratories, Inc. |
| Lattice Semiconductor Corporation | Skyworks Solutions, Inc. |
| MACOM Technology Solutions Holdings, Inc. | Synaptics Incorporated |
| MaxLinear, Inc. | Wolfspeed, Inc. |

2. Benchmark Data from Our Compensation Peer Group

Our Compensation Committee reviews executive compensation on an annual basis. To aid that review, Compensia presents an analysis of the Company’s executive compensation program, which is based on (a) publicly available proxy data gathered from our compensation peer group (the “Proxy Compensation Data”), the selection of which is discussed above, and (b) market data obtained from the Radford Global Technology Survey specific to the companies in our peer group who participated in such survey (the “Survey Compensation Data”).

⁴ Effective October 15, 2024, SMART Global Holdings rebranded and began trading as Penguin Solutions, Inc.

In January 2025, Compensia performed its annual executive compensation review and developed comparison compensation data for our executives (“Compensation Market Data”). With respect to the CEO and CFO roles, the Compensation Market Data consisted solely of data derived from the Proxy Compensation Data because data associated with those roles is publicly available from each compensation peer group company. For Mr. Alberty, the Compensation Market Data consisted solely of Survey Compensation Data because data matching his position was not available from the compensation peer group. For Mr. Thomas and Mr. Dougherty, a blend of Survey Compensation Data and Proxy Compensation Data was used, reflecting that while some matching data was available from the compensation peer group, the additional consideration of Survey Compensation Data would result in a more reliable dataset. We note that the extent to which Survey Compensation Data is used, and the degree of variability within such data, can correspondingly impact the variability and reliability of comparison percentile ranges presented herein.

D. The Role of Our Executive Officers in Establishing Compensation

Our Human Resources and Legal departments support the Compensation Committee’s work related to our compensation program. This support consists of assistance with providing data, proposals of potential ranges of various components of compensation for our NEOs, and information regarding the Company’s Amended and Restated 2018 Long Term Incentive Plan. Regular meetings of the Compensation Committee are generally attended by our CEO, CFO, Chief Human Resources Officer, and our General Counsel. Because the Company’s executive officers report to our CEO, the Compensation Committee requests input and recommendations from him regarding executive compensation (other than his own compensation). The Compensation Committee considers and sets the compensation of our CEO when no members of management are present. In addition, members of management are not present while their specific compensation is being discussed and determined.

E. The Elements Making Up Compensation and Our Target Compensation Levels

Each NEO’s compensation package comprises the following elements: (i) base salary to attract and retain executives by offering fixed compensation that reflects individual performance and is competitive with market opportunities, (ii) variable semiannual cash bonus awards tied to the Company’s achievement of specific performance objectives, (iii) variable long-term incentives in the form of equity awards (RSUs) designed to strengthen the mutuality of interests between the NEOs and our stockholders, (iv) additional variable long-term equity incentives explicitly tied to certain Company performance-based criteria (MSUs and PSUs), (v) fixed benefits that promote health and wellness and that are generally available to the Company’s employees and their families, including a 401(k) (or other retirement plan) and medical, vision, and dental plans, and (vi) post-employment compensation (see the sections of this proxy statement entitled “*Post-Employment Compensation*” and “*Potential Payments upon Termination or Change of Control*”).

In general, the Compensation Committee has attempted to establish a strong relationship between total cash compensation, the Company’s performance, and individual executive performance by typically setting base salaries with reference to the 50th percentile level of the applicable Compensation Market Data and by providing additional incentive opportunities that typically place the target total cash compensation opportunity (base salary plus target annual cash incentive compensation) also within the 50th percentile range, with the potential for adjustment above or below such ranges depending on levels of performance and the other factors described herein. We also aim to maintain internal pay equity and set the semiannual target cash bonus opportunity (discussed in more detail below) for each NEO other than our CEO at the same level.

The Compensation Committee also provides equity awards so that an executive officer's target total direct compensation opportunity is set with reference to the 50th percentile level of the applicable Compensation Market Data.

Market-related percentiles are intended only as guidelines for evaluating and establishing each executive officer's target total direct compensation opportunity and are not applied on a rigid or formulaic basis. Sometimes, depending on the totality of the circumstances for particular executive officers, and as determined by the Compensation Committee, compensation levels may fall above or below the referenced percentile ranges. Other factors such as an executive officer's additional responsibilities, prior work experience, and the number of years of experience with the Company may lead to certain executive officers having target total direct compensation opportunities above the 50th percentile of the applicable Compensation Market Data.

V. Executive Compensation Review for Fiscal Year 2025

Special Compensation Actions

In connection with his hiring as our new CFO during fiscal year 2025, the Compensation Committee in December 2024 approved the following new-hire compensation package for Mr. Woolard, which was reflected in his offer letter:

- a base salary of \$475,000;
- a semiannual target cash bonus opportunity of 37.5% of Mr. Woolard's annual base salary, pro-rated as appropriate to reflect his start date, pursuant to the cash bonus plan discussed below in the section entitled "*Cash Bonuses*";
- a hiring bonus of \$200,000 subject to pro-rated repayment if Mr. Woolard voluntarily resigns, takes a personal leave exceeding three months, or is terminated (other than in a reduction in force) within 24 months of his hire date, and
- new-hire equity awards discussed below in the section entitled "*Equity Awards and Comparisons to Compensation Market Data*."

The Compensation Committee during fiscal year 2025 also separately approved compensation changes with respect to Mr. Habermann in conjunction with his transitions into the role of Interim CFO (which occurred in May 2024), and from Interim CFO to his current role upon the start date of Mr. Woolard (in February 2025).

These separate analyses were conducted by the Compensation Committee, taking into account competitive market data specific to the roles of CFO and Interim CFO, as applicable, as well as the Company's retention objectives, particularly in view of competition for technology-company executives. For example, the Compensation Committee determined to award the hiring bonus and new-hire equity awards for Mr. Woolard to induce his commencement of employment with us. These new-hire bonuses and awards for Mr. Woolard were offered as one-time incentives, and next year he will be subject to the same annual compensation review process as our other executives.

Annual Executive Compensation Review (January-March 2025)

Our annual executive compensation review and associated equity award grants occur in the fourth quarter of our fiscal year, which we believe allows the Compensation Committee to determine its compensation decisions in view of our anticipated full fiscal year performance and to better align with the market conditions underlying our peers' disclosures. See the section of this proxy statement entitled "*Responsible Equity Grant Practices*."

In January 2025, the Compensation Committee performed its annual review of our executive officers' compensation at a regularly scheduled meeting. As part of its annual review, the Compensation Committee reviewed the Company's performance as compared to the compensation peer group and considered any changes to an NEO's base salary or target amounts for their semiannual cash bonus awards. The Compensation Committee further considered any annual equity awards for our executive officers, and in February 2025, the Compensation Committee approved equity awards for our NEOs, which were granted that same month, after markets closed on the second business day following the Company's announcement of its third-quarter earnings. In March 2025, the Compensation Committee approved cash-based compensation adjustments for our NEOs for fiscal year 2026.

Ultimately, any decision to adjust compensation was made in the discretion of the Compensation Committee in view of the numerous factors and circumstances discussed in this proxy statement.

A. Base Salaries

In setting base salaries, the Compensation Committee reviews the Compensation Market Data, the recommendations of our CEO for base salaries other than his own, and each NEO's individual performance for the year, as well as the other factors discussed above in the section entitled "*How We Set Target Total Direct Compensation*."

Our NEOs' base salaries for fiscal year 2025 are set forth in the table below. These base salaries were set as part of the fiscal year 2024 review of executive compensation discussed in our proxy statement of last year, except for the base salaries of Mr. Habermann and Mr. Woolard, which were set separately, as noted above, in conjunction with Mr. Habermann's transition into the role of Interim CFO and Mr. Woolard's hiring as CFO.

The figures in the column "Percentile Range" are relative to the applicable Compensation Market Data developed by Compensia for its fiscal year 2024 review (its January 2024 analysis); an "n/a" in this column reflects that the associated salary was not set during that review.

| <u>Named Executive Officer</u> | <u>FY25 Base Salary</u> | <u>Percentile Range</u> |
|--|-------------------------|---------------------------------------|
| John M. Forsyth, President and Chief Executive Officer | \$695,000 | below the 25th percentile |
| Jeff Woolard, Chief Financial Officer | \$475,000 | n/a |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | \$431,047 | n/a |
| Venk Nathamuni, Former Chief Financial Officer | \$489,000 | between the 50th and 75th percentiles |
| Gregory S. Thomas, Executive Vice President, General Counsel | \$471,000 | above the 75th percentile |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | \$457,000 | above the 75th percentile |
| Justin Dougherty, Executive Vice President, Global Operations | \$457,000 | above the 75th percentile |

As noted in our proxy statement of last year, our CEO's fiscal year 2025 base salary adjustment took into account Mr. Forsyth's earlier (in fiscal year 2024), voluntary 10% base-salary reduction. While his 6.1% base-salary increase for fiscal year 2025 was at the higher end relative to our other NEOs listed in last year's proxy statement, his fiscal year 2025 base salary was lower than his initial fiscal year 2024 base salary.

In March 2025, the Compensation Committee took the following actions with respect to the base salaries noted above, effective as of fiscal year 2026. The figures in the column, "Percentile Range,"

shown in the table below, are relative to the applicable Compensation Market Data developed by Compensia for its fiscal year 2025 review (its January 2025 analysis); an “n/a” in this column reflects that the associated salary was not set during that review.

| <u>Named Executive Officer</u> | <u>Action Taken</u> | <u>FY26 Base Salary</u> | <u>Percentile Range</u> |
|--|---------------------|-------------------------|---------------------------------------|
| John M. Forsyth, President and Chief Executive Officer | 3.0% increase | \$715,850 | below the 25th percentile |
| Jeff Woolard, Chief Financial Officer | None | \$475,000 | n/a |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | separate reduction | \$375,000 | n/a |
| Gregory S. Thomas, Executive Vice President, General Counsel | 3.0% increase | \$485,130 | between the 50th and 75th percentiles |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | 3.0% increase | \$470,710 | between the 50th and 75th percentiles |
| Justin Dougherty, Executive Vice President, Global Operations | 3.0% increase | \$470,710 | about the 75th percentile |

These actions were taken in view of the Company’s performance over the prior 12 months, each individual executive officer’s performance, past salary adjustments, typical annual market adjustments, and the objective of setting the target total cash compensation opportunity (including base salary and target annual cash bonus payments discussed below) with reference to the 50th percentile of the applicable Compensation Market Data.

No action was taken with respect to Mr. Woolard’s base salary since the Compensation Committee had recently set it in conjunction with its separate new-hire compensation analysis. Mr. Habermann’s base salary for fiscal year 2026 was also adjusted separately (in February 2025) by the Compensation Committee in connection with, and effective as of, his transition out of the role of Interim CFO.

B. Cash Bonuses

In fiscal year 2025, our NEOs participated in our 2007 Management and Key Individual Contributor Incentive Plan (the “Incentive Plan”), which bases payments on our fiscal year financial performance and provides for semiannual cash bonuses. The Compensation Committee believes that a semiannual cash bonus program, by providing more frequent payouts tied to the Company’s performance, offers timely recognition and reinforces consistent progress toward financial and strategic objectives for building stockholder value.

The Incentive Plan is designed to provide employees who are in management or leadership positions in the Company, or who are key individual contributors whose efforts potentially have a material impact on the Company’s performance, with incentives to enhance the Company’s performance through the achievement of pre-established financial goals.

Each semiannual cash bonus is calculated as the product of three components: (1) an individual’s annual base salary (as measured at the end of the applicable semiannual performance period), (2) an individual’s semiannual target cash bonus opportunity (expressed as a percentage of base salary), and (3) an “Incentive Plan Pay-Out Percentage,” which is a multiplier reflecting whether, and the extent to which, the Company has met or exceeded performance levels concerning Operating Profit Margin (as defined below) and revenue growth for the applicable semiannual performance period:

Semiannual Cash Bonus = Annual Base Salary × Semiannual Target Cash Bonus Opportunity × Incentive Plan Pay-Out Percentage

Prior to the commencement of each semiannual performance period of fiscal year 2025, the Compensation Committee selected the formula and performance levels under which the Incentive Plan Pay-Out Percentage was determined.

1. Incentive Plan Pay-Out Percentage

The “Operating Profit Margin” used in the Incentive Plan Pay-Out Percentage for fiscal year 2025 is defined in the Incentive Plan as the Company’s consolidated GAAP operating income excluding (a) stock compensation expense and (b) any non-recurring items such as gains on sales of assets not otherwise included in revenue, losses on sales of assets, restructuring charges, merger-related costs including amortization or impairments of acquisition-related intangible assets, asset write-offs, write-downs, and impairment charges, and such other items as the Compensation Committee may determine in its sole discretion.

Operating Profit Margin is intended to be equivalent to the Company’s non-GAAP operating profit, and the Company believes that basing profit-related bonus calculations on the Company’s publicly reported non-GAAP operating profit simplifies internal and external messaging and allows our executive officers to more easily gauge progress against Incentive Plan thresholds and targets throughout the year.

For a given semiannual performance period, the Incentive Plan Pay-Out Percentage may range anywhere between 0–250% depending on the Company’s specific Operating Profit Margin and revenue growth.

The Incentive Plan Pay-Out Percentage for each semiannual performance period is calculated as the product of an operating profit payout and a revenue growth multiplier.

Incentive Plan Pay-Out Percentage = Operating Profit Payout × Revenue Growth Multiplier

For both semiannual periods of fiscal year 2025, the Compensation Committee determined that the operating profit payout would be determined according to the same methodology as the prior fiscal year because such methodology would provide appropriate performance incentives:

As shown, the operating profit payout is 0% if the Operating Profit Margin is less than 10%. The operating profit payout is 25% when the Operating Profit Margin is 10%. The operating profit payout increases linearly from 25–100% as the Operating Profit Margin increases from 10–26%. Finally, the operating profit payout increases linearly from 100–200% as the Operating Profit Margin increases from 26–35% and follows the same slope for Operating Profit Margin values greater than 35%.

For both semiannual periods of fiscal year 2025, the Compensation Committee determined that the revenue growth multiplier would be determined according to the same methodology as the prior fiscal year because such methodology would provide appropriate performance incentives:

As shown, the revenue growth multiplier is 100% for revenue growth of 10% or lower. The revenue growth multiplier then increases linearly from 100–200% as revenue growth increases from 10–20% and follows the same slope for revenue growth values greater than 20%.

With reference to the two curves above, the Compensation Committee set a *threshold* level corresponding to an Operating Profit Margin of 10%. If that performance level was not met, the operating profit payout would be 0% and hence, regardless of the revenue growth multiplier, the corresponding Incentive Plan Pay-Out Percentage would also be 0%, and no semiannual cash bonuses would be paid. The Compensation Committee set a *target* level corresponding to an Operating Profit Margin of 26%. At that level, if revenue growth was 10% or less, the operating profit payout and revenue growth multipliers would each be 100%, and the corresponding Incentive Plan Pay-Out Percentage would also be 100%.

Some combinations of Operating Profit Margin and revenue growth would result in Incentive Plan Pay-Out Percentages higher than 100%, which would yield cash bonus payments above target levels. The Incentive Plan, however, provides that semiannual cash bonuses may not exceed 250% of a participant's target cash bonus opportunity for any applicable semiannual performance period (i.e., the

Incentive Plan Pay-Out Percentage cannot exceed 250%). Further, the semiannual cash bonuses were subject to a cap of 12% of the Company's non-GAAP operating profit on total payments under the Company's variable compensation plans. The Compensation Committee instituted a payment cap because it determined that the proposed targets and thresholds under the Incentive Plan created a risk that a large percentage of the Company's operating profit for a semiannual performance period could be paid out as bonuses. The Compensation Committee set the cap at 12% based on its desire to provide a reasonable payout for achieving the Company's performance target levels while maintaining a reasonable cap on payments under all of the Company's variable compensation plans.

The performance measures reflected in the Incentive Plan are designed to balance short-term and long-term financial and strategic objectives for building stockholder value and are further based on a review of the operating results of peer companies and competitors, including the performance of the compensation peer group. As designed, the Operating Profit Margin and revenue growth target levels were intended by the Compensation Committee to be based on the Company's long-term strategic plan, not the Company's annual operating plan. The Compensation Committee periodically sets and reviews these target levels with the belief that achieving both would correspond to performance levels necessary to outperform the majority of peer companies and competitors. Additionally, as designed, achieving both target levels during a measurement period leads to participants earning their target cash bonus opportunities. In contrast to how it has set the target levels for the Incentive Plan, the Compensation Committee typically has set the threshold levels for payments based in part on a review of the Company's annual operating plan along with current economic and market conditions.

2. Semiannual Target Cash Bonus Opportunity

For fiscal year 2025, the Compensation Committee maintained the semiannual target cash bonus opportunity for our CEO at 62.5% of his annual base salary. The semiannual target cash bonus opportunity for each of our other NEOs was 37.5% of their annual base salary, which was the same level for non-CEO NEOs as last year. The Compensation Committee determined that such levels continued to be appropriate for fiscal year 2025 because they continued to be competitive with market levels.

3. Target Total Cash Compensation

Target cash bonuses for each semiannual performance period were calculated using the formula discussed above and by assuming an Incentive Plan Pay-Out Percentage of 100%:

Target Semiannual Cash Bonus = Annual Base Salary (as of the end of the semiannual period) × Semiannual Target Cash Bonus Opportunity × 100%

Target total cash compensation is annual base salary plus both semiannual target cash bonus opportunities:

Target Total Cash Compensation = Annual Base Salary (as of the end of the fiscal year) + Target First Half Cash Bonus + Target Second Half Cash Bonus

For fiscal year 2025, the target total cash compensation for our NEOs was as follows, where the noted percentile ranges are relative to the applicable Compensation Market Data developed by Compensia for its fiscal year 2024 review (its January 2024 analysis); an “n/a” in this column reflects that the associated compensation was not set during that review.

| <u>Named Executive Officer</u> | <u>Base Salary (FY25)</u> | <u>Target First Half FY25 Cash Bonus</u> | <u>Target Second Half FY25 Cash Bonus</u> | <u>FY25 Target Total Cash Compensation</u> | <u>Percentile Range</u> |
|--|-------------------------------|--|---|--|---------------------------------------|
| John M. Forsyth, President and Chief Executive Officer | \$695,000 | \$434,375 | \$434,375 | \$1,563,750 | between the 25th and 50th percentiles |
| Jeff Woolard, Chief Financial Officer | \$475,000 | \$178,125 | \$178,125 | \$ 831,250 | n/a |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | \$431,047 | \$161,643 | \$161,643 | \$ 754,333 | n/a |
| Venk Nathamuni, Former Chief Financial Officer | \$489,000 | \$183,375 | \$183,375 | \$ 855,750 | between the 25th and 50th percentiles |
| Gregory S. Thomas, Executive Vice President, General Counsel | \$471,000 | \$176,625 | \$176,625 | \$ 824,250 | above the 75th percentile |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | \$457,000 | \$171,375 | \$171,375 | \$ 799,750 | above the 75th percentile |
| Justin Dougherty, Executive Vice President, Global Operations | \$457,000 | \$171,375 | \$171,375 | \$ 799,750 | between the 50th and 75th percentiles |

Following the Compensation Committee’s fiscal year 2025 annual review of executive compensation, target total cash compensation for our NEOs is as follows, effective fiscal year 2026. The figures in the column, “Percentile Range,” shown in the table below, are relative to the applicable Compensation Market Data developed by Compensia for its fiscal year 2025 review (its January 2025 analysis); an “n/a” in this column reflects that the associated compensation was not set during that review.

| <u>Named Executive Officer</u> | <u>Base Salary (FY26)</u> | <u>Target First Half FY26 Cash Bonus</u> | <u>Target Second Half FY26 Cash Bonus</u> | <u>FY26 Target Total Cash Compensation</u> | <u>Percentile Range</u> |
|--|-------------------------------|--|---|--|---------------------------------------|
| John M. Forsyth, President and Chief Executive Officer | \$715,850 | \$447,406 | \$447,406 | \$1,610,663 | between the 25th and 50th percentiles |
| Jeff Woolard, Chief Financial Officer | \$475,000 | \$178,125 | \$178,125 | \$ 831,250 | n/a |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | \$375,000 | \$ 93,750 | \$ 93,750 | \$ 562,500 | n/a |
| Gregory S. Thomas, Executive Vice President, General Counsel | \$485,130 | \$181,924 | \$181,924 | \$ 848,978 | about the 75th percentile |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | \$470,710 | \$176,516 | \$176,516 | \$ 823,743 | between the 50th and 75th percentiles |
| Justin Dougherty, Executive Vice President, Global Operations | \$470,710 | \$176,516 | \$176,516 | \$ 823,743 | between the 50th and 75th percentiles |

With reference to the table above, Mr. Habermann’s semiannual target cash bonus opportunity was separately adjusted by the Compensation Committee (in February 2025), and made effective in fiscal year 2026, in connection with his transition out of the Interim CFO role—it was reduced from 37.5% to 25%.

4. Actual Cash Bonuses

The actual cash bonuses paid for each semiannual performance period for fiscal year 2025 were based on the Incentive Plan Pay-Out Percentages for each semiannual performance period, calculated as:

$$\text{Actual Semiannual Cash Bonus} = \text{Annual Base Salary (as of the end of the semiannual period)} \times \text{Semiannual Target Cash Bonus Opportunity} \times \text{Incentive Plan Pay-Out Percentage}$$

The table below summarizes the Company's performance for each semiannual period of fiscal year 2025:

| Performance Period | Incentive Plan Pay-Out Percentage | Operating Profit Margin (Non-GAAP) | GAAP Operating Profit Margin | Revenue Growth |
|--|-----------------------------------|------------------------------------|------------------------------|----------------|
| First Half Fiscal Year 2025 | 139% | 25% | 20% | 15% |
| Second Half Fiscal Year 2025 | 124% | 28% | 24% | Negative 1% |

For more details concerning each of these semiannual performance periods, see the section of this proxy statement entitled “Annex,” which includes a reconciliation of the Company's GAAP operating profit margin to the Operating Profit Margin used in the Incentive Plan calculations.

For fiscal year 2025, the total cash compensation⁵ for our NEOs was as follows:

| Named Executive Officer | Base Salary (FY25) | Actual First Half FY25 Cash Bonus | Actual Second Half FY25 Cash Bonus | FY25 Total Cash Compensation |
|--|--------------------|-----------------------------------|------------------------------------|------------------------------|
| John M. Forsyth, President and Chief Executive Officer | \$695,000 | \$605,742 | \$538,433 | \$1,839,174 |
| Jeff Woolard, Chief Financial Officer | \$475,000 | \$ — | \$ 41,248 | \$ 516,248 |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | \$431,047 | \$225,413 | \$200,365 | \$ 856,825 |
| Venk Nathamuni, Former Chief Financial Officer | \$489,000 | \$ — | \$ — | \$ 489,000 |
| Gregory S. Thomas, Executive Vice President, General Counsel | \$471,000 | \$246,306 | \$218,937 | \$ 936,243 |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | \$457,000 | \$238,985 | \$212,429 | \$ 908,414 |
| Justin Dougherty, Executive Vice President, Global Operations | \$457,000 | \$238,985 | \$212,429 | \$ 908,414 |

In recognition of his service as Interim CFO, Mr. Habermann's second-half cash cash bonus for fiscal year 2025 was based on his salary and semiannual target cash bonus opportunity from his tenure as Interim CFO, despite his base salary and target cash bonus opportunity being adjusted lower during that performance period. Mr. Woolard received a pro-rated bonus payout for the semiannual performance period corresponding to the second half of fiscal year 2025, reflecting his period of employment during that time. Mr. Nathamuni did not receive a bonus for either semiannual performance period, given his departure from the Company in May 2024.

⁵ Since this table reflects base salary rates rather than base salary received, it may not track the base salary figures depicted in the Fiscal Year 2025 Summary Compensation Table.

C. Equity Awards

We provide long-term incentive compensation opportunities in the form of equity awards to motivate and reward our executive officers for their contributions to achieving our business objectives by tying incentives to the performance of our common stock over the long term. Our equity awards include RSUs, MSUs, PSUs, and stock options (granted in previous years). The Compensation Committee reviews and determines relative value weights that can be assigned to each component to achieve a suitable, overall compensation package for our NEOs.

The use of equity awards further reinforces the link between the interests of our NEOs and our stockholders. Generally, equity awards are granted annually by the Compensation Committee to each of our executive officers under our Amended and Restated 2018 Long Term Incentive Plan.

A Note on Terminology

MSUs represent a change in terminology from our prior disclosures. Previously, we referred to performance-based restricted stock units tied to market conditions—specifically, total shareholder return—as PBRsUs. We now refer to these awards as MSUs (“Market Stock Units”) to more clearly reflect their market-based performance criteria.

This change in terminology also helps us to distinguish a new component of our performance-based equity program introduced by the Compensation Committee in fiscal year 2025, which we refer to as PSUs (“Performance Stock Units”). As described in more detail below, PSUs utilize company-specific financial performance metrics and related goals, rather than broader market-based measures.

1. Stock Options and RSUs

Unlike in previous years, the Compensation Committee did not grant stock options to executives in fiscal year 2025. However, stock options remain a component of the overall compensation of our NEOs who continue to hold previously granted stock options that are unvested and/or unexercised. These awards continue to serve their intended purpose of aligning the interests of our NEOs and stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. Each option award enables the recipient to purchase a specified number of shares of our common stock at a specified price per share (the market price of our common stock on the grant date) over a specified period of time (up to 10 years). Accordingly, the options provide a potential return only if the executive officer remains employed by the Company during the vesting period, and only if the market price of our common stock appreciates over the option term.

Each option previously granted in fiscal year 2023 and 2024 typically becomes exercisable in a series of installments over a specified period—over four years, with one-year “cliff” vesting for 25% of the shares of our common stock underlying the options on each of the following four anniversaries of the grant date—contingent upon the recipient’s continued employment with the Company on each vesting date. Options granted in fiscal year 2022 and earlier would typically become exercisable over four years, with one-year cliff vesting for 25% of the shares of our common stock underlying the options on the first anniversary of the grant date and 1/36 of the remaining option shares vesting on a monthly basis over the following three years—also contingent upon the recipient’s continued employment with the Company on each vesting date.

The Compensation Committee believes that the use of time-vested RSUs with a three-year “cliff” vesting requirement helps further our retention objectives by encouraging our executive officers to remain with the Company and fully execute our long-term strategies, which generally take a number of years to be fully implemented and reflected in our financial performance. Because RSUs are typically

granted for a lower number of underlying shares than an equivalent stock option grant, the dilutive impact of our long-term incentive awards as a whole is reduced by using RSUs.

2. Performance-Based Equity Awards

The Compensation Committee believes that the use of performance-based equity further promotes the achievement of our long-term strategic and operational objectives by strengthening the link of our NEOs' compensation to stockholder value creation. The Compensation Committee regularly reviews its performance-based equity program to ensure its continued effectiveness in driving performance that supports such objectives.

a. Market Stock Units

MSU awards granted to our NEOs for fiscal year 2025 consisted of performance-based restricted stock units subject to a three-year performance period, with "cliff" vesting at the conclusion of that period. The number of shares earned, relative to a target number of shares, is based on the Company's total shareholder return ("TSR") measured relative to the TSR of the component companies of the Russell 3000 Index (the "Index"). Thus, the measurement entails determining our ranking among the companies that make up the components of the Index. The TSR determines a payout percentage ranging between 0–200%, which is then multiplied by the target number of MSUs.

To determine the payout percentage, the Company's TSR for the performance period is compared against that of the companies in the Index to yield a Percentile Measurement (for example, if the Company would rank in the 75th percentile of the performance of companies in the Index during the performance period, our Percentile Measurement would be 75%). The payout percentage is a function of the Percentile Measurement as follows:

- If our Percentile Measurement is less than 25%, the payout percentage is zero;
- Threshold performance: if our Percentile Measurement is 25%, the payout percentage is 25%;
- Target performance: if our Percentile Measurement is 50%, the payout percentage is 100%;
- Maximum performance: if our Percentile Measurement is 75% or higher, the payout percentage is 200%;
- A straight line connects the threshold, target, and maximum performance points; and
- If the Company's TSR is negative during the performance period, the maximum payout percentage is 100%.

The MSU payout percentage is therefore determined according to the following curve:

MSUs granted prior to February 2024 were governed by the same methodology noted above, except the number of shares earned, relative to the target number of shares, was based on the Company's TSR measured relative to the TSR of the component companies of the Philadelphia Semiconductor Index, rather than the Russell 3000 Index. The Compensation Committee approved the change in comparison indices for the reasons described in the Compensation Discussion and Analysis section of the Company's 2024 proxy statement.

b. Performance Stock Units

As noted earlier, PSUs represent a new component of our performance-based equity program introduced by the Compensation Committee in fiscal year 2025. PSU awards granted to our NEOs for fiscal year 2025 consisted of performance-based restricted stock units subject to a three-fiscal-year performance period, with annual vesting based on performance achieved each fiscal year. The number of shares earned is based on the Company's strategic revenue during fiscal year 2026 and the year-over-year growth of such strategic revenue over fiscal years 2027 and 2028 relative to goals established by the Compensation Committee.

The strategic revenue is intended to represent investments made in growth beyond the Company's current core business, with a particular emphasis on key target markets such as integrated circuit components for PC devices, automotive, and/or industrial applications. The goal for strategic revenue for fiscal year 2026 is based on the Company's fiscal year 2026 Annual Operating Plan forecast, and the year-over-year strategic revenue growth goals for fiscal years 2027 and 2028 are derived from the Company's strategic plan.

Strategic revenue performance is evaluated annually at the end of each fiscal year—2026, 2027, and 2028. At the time of grant, a target number of PSUs is set, representing the total potential award if

target performance is met across all three fiscal years. One-third of this target share number serves as a baseline allocation for calculating that year's performance-based payout. The payout amount for each fiscal year depends on the level of performance achieved, assessed at three levels:

- threshold performance results in a payout equal to 50% of the annual baseline allocation;
- target performance results in a payout equal to 100% of the annual baseline allocation; and
- maximum performance results in a payout equal to 200% of the annual baseline allocation.

For performance levels that fall between these points, payouts are calculated using straight-line interpolation. For a given year, payout is zero shares if threshold performance is not met, and payout cannot exceed 200% of the annual baseline allocation. The PSUs vest (at a level in accordance with these performance criteria) in three tranches, with each vesting event occurring as soon as reasonably practicable following the public reporting of the financial results of each fiscal year of the three-fiscal-year performance period.

With the support of management, the Compensation Committee assessed the level of challenge associated with achieving the strategic revenue goals tied to these new PSUs. The target level was intended to reflect the achievement of key operational objectives through solid execution, while attainment of the maximum level was designed to reward outstanding performance.

c. Performance Outcomes

During fiscal year 2022, on March 2, 2022, MSUs were granted to NEOs Mr. Forsyth, Mr. Thomas, Mr. Alberty, and Mr. Dougherty, among other executives, in connection with the Compensation Committee's annual review of their compensation. Over the following three-year performance period, the Percentile Measurement for these awards was 67%, which resulted in a payout percentage of 167%. The payout percentages for MSUs granted in conjunction with annual executive equity awards granted in fiscal years 2023, 2024, and 2025 have yet to be determined.

We believe these results comport with the Compensation Committee's intention of linking MSU payout with a relative level of achievement, based on shareholder return, and particularly our TSR performance during the prior three years as compared to the component companies of the Philadelphia Semiconductor Index (which was the comparison index for the MSU awards vesting in fiscal year 2025).

3. Equity Awards and Comparisons to Compensation Market Data

As discussed above, the Compensation Committee's long-term incentive compensation philosophy is typically to grant equity awards to our NEOs that position their target total direct compensation approximately at the 50th percentile of the applicable Compensation Market Data, subject to other factors considered by the Compensation Committee. For example, the Compensation Committee also takes into account past increases or decreases in overall compensation and the number, and current unrealized value, of outstanding equity awards, including unvested or unearned, held by each NEO to maintain an appropriate level of equity-based incentive for that individual. The Compensation Committee further considers the Company's overall performance, current equity burn rate, and dilution in setting the amount of equity available for grant to our NEOs. The size of the equity award granted to each NEO is set by the Compensation Committee at a level that is intended to create a meaningful opportunity tied to overall Company performance and stock price appreciation based upon the individual's position with the Company, current performance, anticipated future contributions based on that performance, and ability to affect corporate or business unit results. The Compensation Committee looks collectively at all of these factors when making its decisions.

In February 2025, based on Compensia’s analysis of competitive market practices and the other relevant factors summarized above, the Compensation Committee approved monetary award values for (a) RSUs, (b) MSUs, and (c) PSUs, split equally into thirds,⁶ for our NEOs other than Mr. Woolard. These approved monetary values were converted to a corresponding number of shares and target shares, rounding up to the nearest whole share, using the Company’s closing stock price on the day of grant (for the RSUs and PSUs) or a Monte Carlo calculation (for the MSUs).

For fiscal year 2025, the target total direct compensation (the base salary plus target annual cash bonus plus the grant date fair value of equity awards) for our NEOs was as follows, where the noted percentile ranges are relative to the applicable Compensation Market Data developed by Compensia for its fiscal year 2025 review (its January 2025 analysis); an “n/a” in this column reflects that the associated compensation was not set during that review. An “n/a” is also shown in the percentile column for Mr. Nathamuni, as he did not receive equity awards during fiscal year 2025 due to his departure from the Company.

| Named Executive Officer | Base Salary | Target Annual FY25 Cash Bonus | FY25 RSUs | FY25 MSUs | FY25 PSUs | FY25 Target Total Direct Compensation | Percentile Range |
|---|-------------|-------------------------------|-------------|-------------|-------------|---------------------------------------|--|
| John M. Forsyth, President and Chief Executive Officer | \$695,000 | \$868,750 | \$2,666,736 | \$2,666,750 | \$2,666,736 | \$9,563,972 | between the 50th and 75th percentiles |
| Jeff Woolard, Chief Financial Officer | \$475,000 | \$356,250 | \$4,000,077 | \$1,500,070 | \$ — | \$6,331,397 | n/a |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | \$431,047 | \$323,286 | \$ 450,007 | \$ — | \$ 150,037 | \$1,354,377 | n/a |
| Venk Nathamuni, Former Chief Financial Officer | \$489,000 | \$366,750 | \$ — | \$ — | \$ — | \$ 855,750 | n/a |
| Gregory S. Thomas, Executive Vice President, General Counsel | \$471,000 | \$353,250 | \$ 466,713 | \$ 466,668 | \$ 466,713 | \$2,224,344 | between the 25th and 50th percentiles |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | \$457,000 | \$342,750 | \$ 466,713 | \$ 466,668 | \$ 466,713 | \$2,199,844 | above the 75th percentile |
| Justin Dougherty, Executive Vice President, Global Operations | \$457,000 | \$342,750 | \$ 466,713 | \$ 466,668 | \$ 466,713 | \$2,199,844 | about the 50th percentile |

The Compensation Committee determined that the size of its equity awards for fiscal year 2025 was warranted and appropriate in view of the totality of circumstances, including the Company’s performance over the 12 months prior to Compensia’s compensation analysis and the numerous other factors noted in this proxy statement as being considered by the Compensation Committee.

For example, the Compensation Committee’s actions for fiscal year 2025 resulted in our CEO’s target total direct compensation being positioned between the 50th and 60th percentiles of pertinent Compensation Market Data. The Compensation Committee believes that this year’s slight increase in our CEO’s target total direct compensation percentile, up from about the 50th percentile last year, is

⁶ The monetary values for our then-Interim CFO, Mr. Habermann, were allocated 75% to RSUs and 25% to PSUs, reflecting a structure more similar to that of senior non-executive positions.

appropriate and justified based on his strong individual performance, as well as the Company's performance over the past 12 months, among the other factors discussed herein such as retention objectives. As noted earlier, the Company's one-year revenue growth was around the 68th percentile of our compensation peer group, and the Company's operating income and net income for the four quarters preceding the Compensation Committee's compensation data-gathering efforts placed the Company at around the 78th and 85th percentiles, respectively, of our compensation peer group.

With internal pay equity remaining a consideration, the Compensation Committee's decisions resulted in our other NEOs being generally averaging collectively around the 50th percentile.

Mr. Woolard's equity awards were approved by the Compensation Committee through a separate process, and reflected in his offer letter. In fiscal year 2025, special equity awards in the form of new-hire awards were granted to Mr. Woolard in connection with his joining the Company. Specifically, Mr. Woolard's new-hire equity awards had an intended grant-date value of \$5.5 million, consisting of:

- a one-time, make-whole equity award valued at \$2.5 million in RSUs vesting over three years, with 20% vesting at the first anniversary of grant, 40% vesting at the second anniversary, and 40% vesting at the third anniversary, intended to compensate Mr. Woolard for equity or compensation forfeited upon joining the Company. This equity award is subject to accelerated vesting in the event that Mr. Woolard's employment is terminated by the Company without Cause other than in connection with a Change of Control (as those terms are defined in the Company's Executive Severance and Change of Control Plan), conditioned upon Mr. Woolard's execution and delivery of an effective release of claims against the Company and related parties;
- a one-time, new-hire equity award valued at \$1.5 million in RSUs vesting over two years, with 50% vesting at the first anniversary of grant and 50% vesting at the second anniversary; and
- a one-time, new-hire equity award valued at \$1.5 million in MSUs, which will "cliff" vest after three years based on the terms and achievement of performance criteria as set forth herein in the subsection entitled "*Market Stock Units*."

When determining Mr. Woolard's new-hire equity awards, the Compensation Committee considered market data specific to the role of Chief Financial Officer as well as the Company's retention objectives, particularly in view of competition for technology-company executives. The Compensation Committee also determined that the new-hire equity awards for Mr. Woolard were appropriate in order to give Mr. Woolard an equity stake in our Company and thereby align his interests with those of our stockholders.

The following charts utilize the figures presented in the “*Fiscal Year 2025 Summary Compensation Table*” below to illustrate the primary components of our NEOs’ fiscal year 2025 compensation (excluding values listed in the “All Other Compensation” column), along with the performance-based percentage of that compensation.

CEO Compensation, FY2025

CEO Percentage of Performance-Based Compensation, FY2025

Named Executive Officer (other than CEO) Compensation, FY2025

Named Executive Officer (other than CEO) Percentage of Performance-Based Compensation, FY2025

In the charts immediately above, the following were considered performance-based compensation: cash incentive awards, MSUs, and PSUs. The charts above exclude Mr. Nathamuni and Mr. Habermann.

4. Responsible Equity Grant Practices

New-employee equity awards and special stock awards are granted on the first Wednesday of each calendar month (the “Monthly Grant Date”). The purpose of this process is to minimize the administrative burdens that would be created with multiple monthly grant dates and to ensure that all required approvals are obtained on or before the Monthly Grant Date. If the Monthly Grant Date occurs on a Company holiday, or on other days that the Company or Nasdaq is closed for business, the Monthly Grant Date will be the next regularly scheduled business day.

The grant date for our executive officers' annual equity awards occurs after markets close on the second business day following the Company's announcement of its third-quarter earnings. There is no program, plan, or practice of timing equity-based incentive compensation awards in coordination with the release of material non-public information, other than to set these annual equity award grant dates to follow the public announcement of periodic financial results.

In addition to addressing potential risks associated with the release of material non-public information, the annual executive officer grant's timing within the Company's fourth quarter provides the Compensation Committee with an opportunity to consider more complete data on the Company's fiscal-year performance and peers as it makes its compensation decisions.

5. *Stock Ownership Guidelines*

Stock ownership guidelines apply to our CEO, non-employee directors, and executive officers to more closely link their interests with those of our other stockholders. Each individual subject to the guidelines is expected to accumulate and maintain an ownership position in shares of our common stock that is the lesser of the following:

| | |
|---------------------------|---|
| CEO: | Either three times annual salary or 60,000 shares |
| Other Executive Officers: | Either one time annual salary or 10,000 shares |
| Non-employee Directors: | Either three times annual cash retainer or 4,500 shares |

Individuals are expected to meet these requirements within five years from their appointment as an executive officer or initial election to the Board (the "Phase-in Period"). All of our executive officers and non-employee directors subject to the stock ownership guidelines and whose Phase-in Period has been completed met these ownership-position requirements as of March 29, 2025. Additional details concerning our stock ownership guidelines are provided in our Corporate Governance Guidelines, which are available under the Corporate Governance section of our "Investors" page on our website at investor.cirrus.com.

D. *Health and Welfare Benefits and Perquisites*

Our NEOs are eligible to participate in our retirement, welfare, and health benefit programs to substantially the same extent as all other salaried employees based in the United States or United Kingdom, as applicable. For example, as applicable to the United States or United Kingdom, we provide medical, dental, and vision insurance, a retirement/401(k) plan, life and disability insurance, flexible spending accounts, health savings account contributions, and other plans and programs. Although perquisites are not a material part of our compensation programs for our NEOs, we do reimburse up to \$500 for an annual physical examination for each of our executive officers to the extent the physical examination is not covered under our standard health care plans. During fiscal year 2025, none of our NEOs received perquisites or other personal benefits in the amount of \$10,000 or more.

From time to time, we may pay sign-on cash bonuses to aid in recruiting or relocating certain key employees. In addition, from time to time, our executives may request chartered aircraft services to facilitate travel that is directly and integrally related to the performance of their job duties and where the use of a chartered plane will increase efficiency. If a spouse or immediate family member accompanies an executive on such a flight, we would require the executive to pay the greater of the incremental cost, if any, to accommodate such guest, or the imputed income amount determined using the IRS Standard Industry Fare Level ("SIFL") rate. Accordingly, there would be no aggregate incremental cost to the Company for accompaniment on chartered business flights, and no amounts for such guests' travel would be included in our Summary Compensation Table. In the three fiscal years covered by the Fiscal Year 2025 Summary Compensation Table herein there have been no such incremental costs or imputed income amounts.

VI. Post-Employment Compensation

Except for Mr. Woolard's employment offer letter, which is described in the section above entitled "*Equity Awards and Comparisons to Compensation Market Data*," we have not entered into individual severance or change of control agreements with any of our NEOs; however, the Company maintains an Executive Severance and Change of Control Plan, which originally became effective in 2007 and which the Compensation Committee amended and restated as of August 24, 2023 (the "Severance Plan"). The Severance Plan provides for certain payments and benefits to eligible executive officers ("Eligible Executives"), including each of our NEOs, whose employment is involuntarily terminated by the Company (other than for "cause," as defined in the Severance Plan), including an involuntary termination that does not occur in connection with a change of control.

The Severance Plan provides for enhanced levels of severance benefits for Eligible Executives whose employment terminates without cause or for "good reason" (as defined in the Severance Plan) at any time during the 12-month period beginning on the effective date of a change of control of the Company. Details and specific terms of the Severance Plan, which reflect the amendments last adopted, are set forth in the section of this proxy statement entitled "*Potential Payments upon Termination or Change of Control*."

We maintain the Severance Plan because we believe it is consistent with the practices of peer companies and helps ensure that we are able to attract and retain top talent. Further, we believe that our plan provides a level of stability to Eligible Executives during volatile business conditions that have historically existed in our industry so that they remain focused on their responsibilities and the long-term interests of the Company during such times. We periodically review the Severance Plan to assess its continued effectiveness and alignment with our objectives.

The Severance Plan also provides for "double-trigger" rather than "single-trigger" payments and benefits in the event of a change of control of the Company. In other words, payments to Eligible Executives are contingent upon an involuntary termination of employment following a change of control, and not triggered solely by a change of control without a qualifying termination of employment. This plan design is intended to provide a level of security to Eligible Executives negotiating a transaction to avoid any misalignment with the interests of our stockholders without resulting in a windfall to Eligible Executives who remain employed following such a transaction.

VII. Clawback Policy

Effective May 25, 2018, our executive officers became subject to a clawback policy entitled "Policy Regarding Recoupment of Certain Incentive Compensation," which provided for forfeiture of excess incentive compensation in the event of misconduct resulting in a restatement of our financial statements. Until October 2, 2023, this clawback policy governed all incentive compensation (cash and equity-based compensation) that was granted, earned, or vested based upon the achievement of financial or stock performance metrics, and which was granted following the adoption of this clawback policy and paid in the preceding three-year period from the time the Company determined that it must restate its financial statements. Effective October 2, 2023, the Compensation Committee adopted a new clawback policy entitled "Recovery of Erroneously Awarded Incentive Compensation Policy," which, as of that effective date, superseded and replaced the earlier "Policy Regarding Recoupment of Certain Incentive Compensation." The Compensation Committee maintains this policy to comply with the applicable Nasdaq listing standards that require the clawback of incentive compensation paid to current and former executive officers when that compensation is based upon achievement of financial results that later require a restatement, whether or not resulting from error or intentional misconduct by such executive officers. To date, there has been no recovery or repayment of compensation from executive officers pursuant to the current or previous clawback policy.

A copy of the Company's Recovery of Erroneously Awarded Incentive Compensation Policy is included as an exhibit to our Annual Report on Form 10-K for the fiscal year ended March 29, 2025.

Any recoupment under our Severance Plan would be in addition to any applicable recoupment under our Recovery of Erroneously Awarded Incentive Compensation Policy. See the section of this proxy statement entitled "*The Severance Plan*."

VIII. Insider Trading Policies and Prohibition Against Short Selling, Hedging, and Pledging

The Company has adopted a written Insider Trading and Confidentiality Policy governing the purchase, sale, and other dispositions of our securities by directors, officers, employees, and consultants. This policy is reasonably designed to promote compliance with insider trading laws, rules and regulations, and listing standards applicable to the Company. A copy of the policy is filed with our Annual Report on Form 10-K for the year ended March 29, 2025.

The Company's Insider Trading and Confidentiality Policy also prohibits directors, officers, employees (or their designees), and consultants from investing in derivative securities based on or related to our common stock, engaging in any short sale or hedging transactions involving our common stock, and pledging any shares of our common stock as collateral for any margin account or any other similar account or debt instrument where a sale of our stock could occur. Prohibited hedging transactions generally involve the purchase of any financial instrument that will hedge or offset, or is designed to hedge or offset, any decrease in the market value of our common stock.

IX. Tax Considerations Related to Compensation

Section 162(m) of the Internal Revenue Code ("IRC") as amended by the Tax Cuts and Jobs Act of 2017 (the "Tax Act") generally disallows a publicly-held corporation a deduction for federal income tax purposes of remuneration in excess of \$1 million paid in any taxable year to any NEO that is also a covered employee. Although the exception for "performance-based compensation" was repealed by the Tax Act, remuneration paid pursuant to a written binding contract in effect on November 2, 2017, and not materially modified after that date, will not be subject to the deduction limitation if specified requirements are met. For all other compensation, amounts in excess of \$1 million paid to any covered employee generally will not be deductible.

While the Compensation Committee may consider deductibility when designing our executive compensation program, it may award compensation that is not deductible if it determines that doing so is appropriate and in the best interests of the Company and its stockholders. The Compensation Committee cannot guarantee that past compensation, or compensation granted in the future, generally designed to be deductible will in fact be deductible.

Section 409A of the IRC requires that "nonqualified deferred compensation" be deferred and paid under plans or arrangements that satisfy the requirements of the statute with respect to the timing of deferral elections, timing of payments and certain other matters. Failure to satisfy these requirements can expose employees and other service providers to accelerated income tax liabilities, penalty taxes, and interest on their vested compensation under such plans. Accordingly, as a general matter, it is our intention to design and administer our compensation and benefits plans and arrangements for all of our employees and other service providers, including our NEOs, so that they are either exempt from, or satisfy the requirements of, Section 409A of the Code.

Section 280G of the IRC disallows the deduction of any "excess parachute payment" paid in connection with certain events. A portion of amounts payable under the Severance Plan may constitute "excess parachute payments" to our NEOs. Accordingly, the Severance Plan provides for a modified

Section 280G “cut back” pursuant to which payments and benefits under the Severance Plan will be reduced in the event such reduction produces a greater after-tax benefit to an NEO. See the section of this proxy statement entitled “*Potential Payments Upon Termination or Change of Control*.”

X. Compensation Committee Interlocks and Insider Participation

The Compensation Committee currently consists of Duy-Loan Le (Chair), Alexander M. Davern, and Raghiv Hussain. During fiscal year 2025, none of our executive officers served on the board of directors or compensation committee of another company whose executive officer served on our Board or Compensation Committee. The members of the Compensation Committee are considered independent under the Board and the Compensation Committee independence standards of the Nasdaq listing rules and SEC regulations.

COMPENSATION COMMITTEE REPORT

We, the Compensation Committee of the Board of Directors, have reviewed and discussed the Compensation Discussion and Analysis (“CD&A”) required by Item 402(b) of Regulation S-K with management of the Company. Based on such review and discussion, we have recommended to the Board of Directors that the CD&A be included as part of this proxy statement. Submitted by the Compensation Committee of the Board of Directors:

Duy-Loan Le, Chair
Alexander M. Davern
Raghib Hussain

CONSIDERATION OF RISK RELATED TO COMPENSATION PROGRAMS

The Compensation Committee structures our executive compensation program to provide incentives to appropriately reward our executive officers without undue risk taking. Our approach is similar for the compensation practices and policies applicable to all employees throughout the Company. Overall, we believe that our compensation programs do not create risks that are reasonably likely to have a material adverse effect on the Company. In general, we attempt to align our compensation programs with the long-term interests of the Company and its stockholders and mitigate the likelihood of inducing excessive risk-taking behavior. More specifically, we believe the following program features and policies help to mitigate the likelihood of inducing excessive risk-taking behavior:

- The Company pays a mix of fixed and variable compensation, with variable compensation tied both to short-term objectives and the long-term value of our stock price.
- Our annual cash incentive program is based on a mix of bottom-line objectives (e.g., operating profit goals) and top-line objectives (e.g., revenue growth) in order to avoid the risk of excessive focus on one goal or performance measure. The operating profit and revenue growth target levels are intended to be based on the Company’s long-term strategic plan and reflect the Compensation Committee’s belief that achieving both would correspond to performance levels necessary to outperform the majority of our peer companies and competitors.
- We review the short-term performance incentive targets used in our Incentive Plan every six months to ensure alignment with our business plans.
- To prevent the risk that our annual cash incentive program pays bonuses despite weak short-term performance, no payout may occur without a threshold level of operating profit performance being met.
- The aggregate payout under our annual cash incentive program for our executive officers and leadership team is capped at a percentage of overall non-GAAP operating profit to prevent the risk of excessive payout of the Company’s operating profit.
- The individual payout under our annual cash incentive program for our executive officers and leadership team is further capped so that no participants may receive a payout of greater than 250% of their target bonus opportunity.
- Long-term incentives are granted to our executive officers in the form of equity awards that “cliff” vest after three years (RSUs and MSUs) or that vest annually based on performance over a three-fiscal-year performance period (PSUs). The vesting or performance period, as the case may be, is intended to align the interests of our executive officers with the long-term interests of our stockholders and to provide an incentive for our executive officers to remain with the Company.

- Long-term incentives are typically granted annually so our executive officers will have unvested awards that may decrease in value if our business is not managed with long-term goals in mind.
- We use a mix of RSUs, MSUs, and PSUs to create an overall long-term incentive package that aligns with stockholder interests, appropriately balances risk and performance, and provides competitive incentives for the purpose of executive retention.
- We use performance-based equity (MSUs) based on the Company's TSR as a means to align a portion of an executive officer's compensation with the interests of our stockholders. In addition, we cap the payout of these awards at a 100% payout if the Company's TSR is negative over the performance period (typically, three years).
- We use performance-based equity (PSUs) based on the Company's strategic revenue and its year-over-year growth as a means to align a portion of an executive officer's compensation with the Company's long-term operational performance. These metrics are designed to reflect progress against strategic goals and drive sustained value creation over the performance period.
- Our annual equity awards to our executive officers are granted during the fourth quarter of our fiscal year, which allows us to benchmark our compensation decisions in view of our anticipated full fiscal year performance and to better align with the market conditions underlying our compensation peers' disclosures. This alignment in timing reduces risks associated with compensation being analyzed in timeframes significantly different than those used in such disclosures.
- To address potential risks associated with the timing of our executive officer grants and the release of material non-public information by the Company, any annual equity award granted to executive officers will occur at the close of the market on the second business day following the release of the Company's third quarter earnings results.
- Our CEO, non-employee directors, and executive officers of the Company are obligated to meet certain stock ownership guidelines that require accumulation and maintenance of a prescribed value or number of shares of our common stock.
- The Compensation Committee retains an independent compensation consultant and uses competitive market data, when available, to inform our focus on pay for performance.
- Our executive officers are subject to clawback measures. For compensation that was received prior to October 2, 2023, the Company's clawback policy was entitled "Policy Regarding Recoupment of Certain Incentive Compensation," and provided for forfeiture of excess incentive compensation in the event of misconduct resulting in a restatement of financial statements. On October 2, 2023, the clawback policy entitled "Recovery of Erroneously Awarded Incentive Compensation Policy," came into effect and requires the clawback of incentive compensation paid to current and former executive officers when that compensation is based upon achievement of financial results that later require a restatement, whether or not resulting from error or intentional misconduct by such executive officers. Our executive officers are also subject to a clawback provision within our Severance Plan that provides for recoupment of any payments and/or the value of any benefits already provided pursuant to the Severance Plan (plus interest at the then-prevailing prime rate) in the event of acts or omissions being discovered after termination of employment that meet the Severance Plan's definition of "Cause."

EXECUTIVE COMPENSATION TABLES

Fiscal Year 2025 Summary Compensation Table

The following table provides certain summary information concerning the compensation awarded to, earned by, or paid to our NEOs for the fiscal years ended March 29, 2025; March 30, 2024; and March 25, 2023; as applicable. No disclosure is provided for persons for years prior to the executive officer becoming an NEO.

| Name and Principal Position (a) | Year (b) | Salary (\$) (c) | Bonus ⁽¹⁾ (\$) (d) | Stock Awards ⁽²⁾ (\$) (e) | Option Awards ⁽²⁾ (\$) (f) | Non-Equity Incentive Plan Compensation ⁽³⁾ (\$) (g) | All Other Compensation (\$) (i) | Total (\$) (j) |
|---|-------------|-----------------------|-------------------------------------|--|---|--|---------------------------------------|----------------------|

| | 2024 | 425,481 | | 666,895 | 333,337 | 311,343 | 13,189 | 1,750,245 |

- (1) The amounts reported in the column entitled “Bonus” reflect (a) a one-time cash signing bonus made in fiscal year 2025 to Mr. Woolard, and in fiscal year 2023 to Mr. Nathamuni, in connection with their initial hiring and (b) a special, one-time recognition bonus to Mr. Alberty for his 25th work anniversary.
- (2) The amounts reported in the column entitled “Stock Awards” represent the value of the RSUs, MSUs, and PSUs granted to our NEOs. The amounts reported in the column entitled “Option Awards” represent the value of the stock options granted to our NEOs. In each case, the value reported is the aggregate grant date fair value calculated pursuant to FASB ASC Topic 718, excluding any assumptions regarding potential forfeitures, and with respect to the MSUs this valuation entails a Monte Carlo calculation. The assumptions underlying the calculations under FASB ASC Topic 718 are discussed under Note 12, Equity Compensation, in our Annual Report on Form 10-K for the fiscal year ended March 29, 2025. Assuming the highest level of performance is achieved under the MSUs and PSUs granted in fiscal year 2025, the maximum aggregate grant date values of the MSU and PSUs, based on the closing market price per share of the Company’s stock on the last trading day of fiscal year 2025 (\$99.51) at the maximum calculated payout, is: (a) in the case of Mr. Forsyth – \$8,114,045; (b) in the case of Mr. Woolard – \$1,845,711; (c) in the case of Mr. Habermann – \$285,992; (d) in the cases of Mr. Thomas, Mr. Alberty, and Mr. Dougherty – \$1,420,008. For additional information with respect to awards made in fiscal year 2025, see the Fiscal Year 2025 Grants of Plan-Based Awards Table and Fiscal Year 2025 Outstanding Equity Awards at Fiscal Year-End Table herein.
- (3) The amounts reported in the column entitled “Non-Equity Incentive Plan Compensation,” represent the amounts earned with respect to performance for each fiscal year under the Incentive

- Plan, which is described in further detail in the “*Compensation Discussion and Analysis*” section of this proxy statement. Payments earned in the second semiannual period of a fiscal year are included in this table for that fiscal year even though they were paid in the following fiscal year.
- (4) This amount includes \$9,630 in matched contributions under our 401(k) plan, \$1,518 associated with the value of insurance premiums paid with respect to life insurance for the benefit of Mr. Forsyth, \$1,500 in employer contributions to a health savings account under our health benefits program, and \$343 in tax gross-ups paid to all employees of the Company with respect to the Company’s long-term disability plan.
 - (5) This amount includes \$273 associated with the value of insurance premiums paid with respect to life insurance for the benefit of Mr. Woolard, \$115 in employer contributions to a health savings account under our health benefits program, and \$27 in tax gross-ups paid to all employees of the Company with respect to the Company’s long-term disability plan.
 - (6) This amount includes \$7,271 in matched contributions under our 401(k) plan, \$1,500 in employer contributions to a health savings account under our health benefits program, \$1,133 associated with the value of insurance premiums paid with respect to life insurance for the benefit of Mr. Habermann, and \$343 in tax gross-ups paid to all employees of the Company with respect to the Company’s long-term disability plan.
 - (7) This amount includes \$4,417 in matched contributions under our 401(k) plan, \$437 associated with the value of insurance premiums paid with respect to life insurance for the benefit of Mr. Nathamuni, and \$53 in tax gross-ups paid to all employees of the Company with respect to the Company’s long-term disability plan.
 - (8) This amount includes \$11,694 in matched contributions under our 401(k) plan, \$1,500 in employer contributions to a health savings account under our health benefits program, \$3,246 associated with the value of insurance premiums paid with respect to life insurance for the benefit of Mr. Thomas, and \$343 in tax gross-ups paid to all employees of the Company with respect to the Company’s long-term disability plan.
 - (9) This amount includes \$9,646 in matched contributions under our 401(k) plan, \$1,500 in employer contributions to a health savings account under our health benefits program, \$990 associated with the value of insurance premiums paid with respect to life insurance for the benefit of Mr. Alberty, and \$343 in tax gross-ups paid to all employees of the Company with respect to the Company’s long-term disability plan.
 - (10) This amount includes \$11,143 in matched contributions under our 401(k) plan, \$1,500 in employer contributions to a health savings account under our health benefits program, \$990 associated with the value of insurance premiums paid with respect to life insurance for the benefit of Mr. Dougherty, and \$343 in tax gross-ups paid to all employees of the Company with respect to the Company’s long-term disability plan.
 - (11) Mr. Woolard was appointed as Chief Financial Officer effective February 24, 2025.
 - (12) Mr. Habermann was appointed as Interim Chief Financial Officer effective May 24, 2024, and his service as Interim Chief Financial Officer ended effective February 24, 2025.
 - (13) Mr. Nathamuni’s service as our Chief Financial Officer ended effective May 24, 2024.

Fiscal Year 2025 Grants of Plan-Based Awards Table

The following table provides certain information with respect to grants of plan-based awards for the fiscal year ended March 29, 2025, to our NEOs. All of the RSUs, MSUs, and PSUs that are reflected in the table were granted under our Amended and Restated 2018 Long Term Incentive Plan.

The amounts reported in the “Estimated Future Payouts Under Non-Equity Incentive Plan Awards” columns below reflect potential payouts under the Incentive Plan, which is described in further detail in the “*Compensation Discussion and Analysis*” section of this proxy statement.

The amounts reported in the “Estimated Future Payouts Under Equity Incentive Plan Awards” column below set forth potential payouts that are associated with MSUs and PSUs. Each unit granted pursuant to these awards represents a contingent right to receive one share of our common stock for each unit that is earned and vests. For a description of the performance, vesting, and other conditions applicable to these awards, see the section of the Compensation Discussion and Analysis entitled “*Performance-Based Equity Awards.*” Holders of MSUs and PSUs are not eligible to receive any dividends or dividend equivalents with respect to outstanding MSUs or PSUs.

The RSUs will vest with respect to 100% of the units underlying the award on the third anniversary of the grant date, with the exception of RSUs granted to Mr. Woolard. The RSUs reported for Mr. Woolard correspond to special new-hire awards, and for details regarding their vesting and other conditions, see the section of the Compensation Discussion and Analysis entitled “*Equity Awards and Comparisons to Compensation Market Data.*” Each unit granted pursuant to these RSUs represents a contingent right to receive one share of our common stock for each unit that vests. Holders of RSUs are not eligible to receive any dividends or dividend equivalents with respect to outstanding RSUs.

Special accelerated vesting provisions applicable to the equity awards upon a NEO’s termination of employment or upon a change of control of the Company are described in the section of this proxy statement entitled “*Potential Payments Upon Termination or Change of Control.*”

- (1) Annual equity awards to our NEOs other than to Mr. Nathamuni (here, the February 6, 2025 awards) are granted at the close of the market on the second business day following the release of the Company’s third quarter earnings results. The equity awards granted to Mr. Woolard on March 5, 2025, reflect his new-hire equity awards that were granted on the first Monthly Grant Date following the start of his employment.

- (2) The amounts reported in these columns reflect potential payment amounts under the Incentive Plan. Actual amounts earned under this plan are reported in the “Non-Equity Incentive Plan Compensation” column of the Fiscal Year 2025 Summary Compensation Table above. Semiannual payments are made under the Incentive Plan only if certain financial prerequisites, such as operating profit margin thresholds, are achieved, as described in further detail in the “*Compensation Discussion and Analysis*” section of this proxy statement. The amounts reported in the “Threshold” column reflect the minimum amount payable assuming achievement of the applicable financial-result thresholds (25% of the target amount). The amounts reported in the “Target” column reflect the target amount payable to each NEO. The amounts reported in the “Maximum” column reflect that maximum amount payable to each NEO (250% of the target amount).
- (3) The amounts reported in these columns reflect the number of units underlying potential payment amounts for MSUs and PSUs under the Company’s performance-based equity award program. Each unit granted pursuant to these MSUs and PSUs represents a contingent right to receive one share of our common stock for each unit that is earned and vests. For a description of the performance, vesting, and other conditions applicable to these awards, see the section of the Compensation Discussion and Analysis entitled “*Performance-Based Equity Awards*.”
- (4) The amounts reported in this column represent the aggregate grant date fair value of the equity awards calculated pursuant to FASB ASC Topic 718, excluding any assumptions regarding potential forfeitures, and with respect to the MSUs this valuation entails a Monte Carlo calculation. The assumptions underlying the calculations under FASB ASC Topic 718 are discussed under Note 12, Equity Compensation, in our Annual Report on Form 10-K for the fiscal year ended March 29, 2025.
- (5) Given Mr. Nathamuni’s departure from the Company early within fiscal year 2025 (in May 2024), he was not granted equity or eligible to receive payment amounts under the Incentive Plan during fiscal year 2025.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

The Company's executive compensation policies and practices, pursuant to which the compensation set forth in the Fiscal Year 2025 Summary Compensation Table and the Fiscal Year 2025 Grants of Plan-Based Awards Table was paid or awarded, are described above in our Compensation Discussion and Analysis.

Fiscal Year 2025 Outstanding Equity Awards at Fiscal Year-End Table

The following table provides information concerning the outstanding equity award holdings of our NEOs, other than Mr. Nathamuni, as of March 29, 2025. Mr. Nathamuni is not listed in the table below, given the forfeiture of all his equity awards in connection with his departure from the Company effective May 24, 2024.

(1) Stock options with an expiration date listed in column (f) as February 6, 2033 (corresponding to a grant date of February 6, 2023) or February 8, 2034 (corresponding to a grant date of February 8, 2024) vest over four years with one-year “cliff” vesting for 25% of the options on each of the following four anniversaries of the

grant date. All other outstanding stock options vest over four years, with one-year “cliff” vesting for 25% of the options on the first anniversary of the grant date, and 1/36 of the remaining options vesting on a monthly basis over the following three years.

- (2) Options have a maximum 10-year term. The expiration date shown in this column is the normal expiration date occurring on the tenth anniversary of the grant date. Options may terminate earlier in certain circumstances, such as in connection with a NEO’s termination of employment or in connection with certain corporate transactions, including a change in control of the Company.
- (3) This column reflects RSUs granted to our NEOs, other than Mr. Nathamuni. The outstanding RSUs having a stock award grant date of March 5, 2025 for Mr. Woolard (corresponding to new-hire equity awards) will vest as described in the section of the Compensation Discussion and Analysis entitled “*Equity Awards and Comparisons to Compensation Market Data.*” All other outstanding RSUs will vest with respect to 100% of the units underlying the award on the third anniversary of the grant date. Each unit granted pursuant to these RSUs represents a contingent right to receive one share of our common stock for each unit that vests.
- (4) The market value of unvested RSUs reported in column (h) is calculated by multiplying the number of shares of common stock ultimately subject to each award reported in column (g) by the closing market price of our common stock on March 28, 2025, (the last trading day of fiscal year 2025), which was \$99.51 per share.
- (5) This column reflects MSUs and PSUs granted to our NEOs, other than Mr. Nathamuni. The disclosed number of MSUs is based on the next higher performance level (threshold, target, or maximum) above the Company’s performance through the most recently completed fiscal year. Accordingly, each of the MSUs included in this table are listed at their maximum level because the Company’s relative TSR performance for those awards through the most recently completed fiscal year would result in a payout between the target and maximum level. The disclosed number of PSUs corresponds to their maximum level, as the strategic revenue performance for those awards through the most recently completed fiscal year would result in a payout at their target level. Each unit granted pursuant to these MSUs and PSUs represents a contingent right to receive one share of our common stock for each unit that is earned and vested. For a description of the performance, vesting, and other conditions applicable to these awards, see the section of the Compensation Discussion and Analysis entitled “*Performance-Based Equity Awards.*”
- (6) The market value of unvested MSUs and PSUs reported in column (j) is calculated by multiplying the number of shares ultimately subject to each award reported in column (i) by the closing market price of our common stock on March 28, 2025, (the last trading day of fiscal year 2025), which was \$99.51 per share.

Fiscal Year 2025 Option Exercises and Stock Vested Table

The following table provides information on the value realized by each NEO as a result of options that were exercised and stock awards that vested during fiscal year 2025.

| Name (a) | Option Awards | | Stock Awards | |
|--|---|---|---|--|
| | Number of Shares Acquired on Exercise (#) (b) | Value Realized on Exercise ⁽¹⁾ (\$) (c) | Number of Shares Acquired on Vesting (#) (d) | Value Realized on Vesting ⁽²⁾ (\$) (e) |
| John M. Forsyth, President and Chief Executive Officer | — | \$ — | 39,990 | \$4,167,358 |
| Jeff Woolard, Chief Financial Officer | — | \$ — | — | \$ — |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | — | \$ — | 4,457 | \$ 491,607 |
| Venk Nathamuni, Former Chief Financial Officer | 11,811 | \$341,982 | 3,421 | \$ 302,690 |
| Gregory S. Thomas, Executive Vice President, General Counsel | 11,706 | \$760,944 | 7,110 | \$ 740,933 |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | 837 | \$ 33,521 | 7,110 | \$ 740,933 |
| Justin Dougherty, Executive Vice President, Global Operations | 9,203 | \$511,791 | 7,110 | \$ 740,933 |

- (1) The value realized on the exercise of stock options was computed by determining the difference between the closing market price of our common stock underlying each option on the date of exercise and the exercise price of the options for each share exercised multiplied by the number of shares of our common stock acquired on exercise (column b).
- (2) The value realized on the vesting of stock awards was computed by multiplying the number of shares of our common stock acquired on vesting (column d) by the closing market price of our common stock on the date of vesting.

Pension Benefits and Nonqualified Deferred Compensation

The tables disclosing pension benefits or nonqualified deferred compensation are omitted because we do not sponsor or maintain either a defined benefit pension plan or a nonqualified deferred compensation plan for the benefit of our executive officers.

Potential Payments upon Termination or Change of Control

Except for the potential equity vesting acceleration benefits provided in Mr. Woolard's employment offer letter for his one-time make-whole RSUs, we do not maintain individual employment, severance, or change of control agreements with our executive officers, including our NEOs; however, we do maintain the Severance Plan, which provides for certain payments and benefits to Eligible Executives in the event that the employment of such an executive officer is involuntarily terminated other than for cause or in certain circumstances following a change of control of the Company. Our executive officers

may also receive certain benefits under the Incentive Plan in the event of certain terminations of employment that occur prior to the payment of the award for the applicable fiscal year.

The Severance Plan

Each of our NEOs was considered an Eligible Executive under the Severance Plan during fiscal year 2025. We maintain the Severance Plan because it helps us attract and retain top talent. Further, we believe that the Severance Plan provides a level of stability for our executive officers during volatile business conditions that have historically existed so that they remain focused on their responsibilities and the long-term interests of the Company during such times.

The Severance Plan provides that, in the event of an Eligible Executive's involuntary termination of employment by the Company other than for "cause" (as such term is defined below for purposes of the Severance Plan) the Eligible Executive will be eligible to receive: (i) continuation of base salary for a period of up to six months (up to 12 months in the case of our CEO) following termination of employment, and (ii) payment in full of a reasonable estimate of COBRA premiums for six months (12 months in the case of our CEO) (collectively, the "Termination Payment").

The Severance Plan further provides that, if an Eligible Executive's employment is terminated either by the Company other than for "cause" or by the Eligible Executive for "good reason" within 12 months following a "change of control" (each term as defined below for purposes of the Severance Plan) of the Company, they will be eligible to receive a "Change of Control Termination Payment," which is comprised of: (i) a lump sum payment equal to 12 months' base salary (24 months in the case of our CEO), (ii) 100% of their annual target bonus amount as of the executive's termination date (200% in the case of our CEO) and, if not already provided for in an applicable bonus plan, a prorated target bonus amount corresponding to the amount of time elapsed under the current bonus period as of their termination date, (iii) acceleration in full of any unvested stock options or any other securities or similar incentive awards that have been granted or issued to them as of the employment termination date and a post-termination stock option exercise period of six months (provided such period does not exceed the option's original expiration date or the tenth anniversary of the option grant date), and (iv) payment in full of a reasonable estimate of COBRA premiums for 12 months (18 months in the case of our CEO). In addition, the Eligible Executive will have until six months from the employment termination date to exercise any vested options, except that no option will be exercisable after the option's expiration date.

In the event of an Eligible Executive's death or termination of employment due to "disability" (as such term is defined below for purposes of the Severance Plan), the Eligible Executive or their estate, as applicable, will receive the Termination Payment described above. If the death or termination due to disability has occurred within 12 months following a change of control of the Company, they or their estate, as applicable, will receive the Change of Control Termination Payment described above.

As defined in the Severance Plan:

- "cause" means (i) gross negligence or willful misconduct in the performance of an executive officer's duties; (ii) a material and willful violation of any federal or state law that if made public would injure the business or reputation of the Company; (iii) a refusal or willful failure to comply with any specific lawful direction or order of the Company or a material violation of a policy or procedure of the Company including but not limited to the Company's Code of Conduct, Harassment Prevention Policy, and the Company's Insider Trading Policy as well as any obligation concerning proprietary rights and confidential information of the Company; (iv) a conviction (including a plea of *nolo contendere*) of a felony, or of a misdemeanor that would have a material adverse effect on the Company's

goodwill if the executive officer were to continue to be retained as an employee of the Company; (v) commission of theft, embezzlement, fraud, financial impropriety, or any act of dishonesty relating to employment with the Company; (vi) failure to cooperate with the Company in any internal investigation or administrative, regulatory, or judicial proceeding; or (vii) a substantial and continuing willful refusal to perform duties ordinarily performed by an employee in the same position and having similar duties as the executive officer.

- “good reason” refers to the executive officer’s resignation from the Company within thirty days following the Company’s failure to cure the occurrence of any of the following events: (i) without the executive officer’s express written consent, a material reduction of the executive officer’s duties, authority, or responsibilities relative to the executive’s duties, authority, or responsibilities as in effect immediately prior to such reduction, or the assignment to the executive officer of such reduced duties, authority, or responsibilities; provided, however, that: (a) the occurrence of a Change of Control (as defined below for purposes of the Severance Plan) shall not, in and of itself, constitute a material adverse change in the executive officer’s duties, authority, or responsibilities; and (b) a change in the executive officer’s position or title following a Change of Control shall not constitute Good Reason so long as the executive officer retains substantially the same duties, authority, or responsibilities of a division, subsidiary, or business unit that constitutes or includes a significant portion of the business of the Company following the Change of Control; (ii) a material reduction by the Company in the base salary or bonus opportunity of an executive officer as in effect immediately prior to such reduction; provided, however, that such reductions shall not constitute Good Reason if they are pursuant to a company-wide reduction of base salaries and/or bonuses; or (iii) the relocation of an executive officer’s principal work location to a facility or a location more than 50 miles from the executive officer’s then present principal work location. “Good reason” shall not exist unless the executive officer provides written notice of the circumstances alleged to give rise to Good Reason within 30 days of their occurrence and the Company (or our successor) fails to cure such circumstances within 30 days.
- “disability” means a mental or physical disability, illness or injury, evidenced by medical reports from a duly qualified medical practitioner, which renders an executive officer unable to perform any one or more of the essential duties of their position after the provision of reasonable accommodation, if applicable, for a period of greater than 90 days within a one-year period.
- “change of control” means the occurrence of one or more of the following with respect to the Company: (i) the acquisition by any person (or related group of persons), whether by tender or exchange offer made directly to the Company’s stockholders, open market purchases or any other transaction or series of transactions, of stock of the Company that, together with stock of the Company held by such person or group, constitutes more than 50% of the total fair market value or total voting power of the then outstanding stock of the Company entitled to vote generally in the election of the members of the Company’s Board of Directors; (ii) a merger or consolidation in which the Company is not the surviving entity, except for a transaction in which both (A) securities representing more than 50% of the total combined voting power of the surviving entity are beneficially owned (within the meaning of Rule 13d-3 promulgated under the Securities Exchange Act of 1934), directly or indirectly, immediately after such merger or consolidation by persons who beneficially owned common stock of the Company immediately prior to such merger or consolidation, and (B) the members of the Board of Directors immediately prior to the transaction (the “Existing

Board”) constitute a majority of the Board of Directors immediately after such merger or consolidation; (iii) any reverse merger in which the Company is the surviving entity but in which either (A) persons who beneficially owned, directly or indirectly, common stock of the Company immediately prior to such reverse merger do not retain immediately after such reverse merger direct or indirect beneficial ownership of securities representing more than 50% of the total combined voting power of the Company’s outstanding securities or (B) the members of the existing Board do not constitute a majority of the Board of Directors immediately after such reverse merger; or (iv) the sale, transfer or other disposition of all or substantially all of the assets of the Company (other than a sale, transfer or other disposition to one or more subsidiaries of the Company).

The Severance Plan may not be amended or terminated without the consent of any Eligible Executive during the one year prior to or following the occurrence of a change of control, if such amendment would be adverse to the interest of such Eligible Executive. If any payment or benefit under the Severance Plan would be a “parachute payment” (within the meaning of Section 280G of the IRC) and would therefore result in the imposition of an excise tax, an Eligible Executive’s payments and benefits will not exceed the amount that produces the greatest after-tax benefit to the Eligible Executive.

To receive payments and benefits under the Severance Plan, an Eligible Executive must execute a release of all claims against the Company. If the Eligible Executive is considered a “specified employee” under Section 409A of the IRC at the time of their termination of employment, any amounts payable under the Severance Plan will be delayed for a period of six months if it is determined that such a delay is necessary in order to prevent the payment from imposing excise taxes on the executive officer.

Since January 20, 2022, our Severance Plan has included a clawback provision entitled “Recoupment in the Event of Subsequently Discovered Cause.” Under this provision, if, after a termination of employment, the Company discovers that an Eligible Executive had engaged in acts or omissions during the course of the executive’s employment under circumstances constituting “Cause,” then the Company may cease the delivery of any further payments or benefits pursuant to the Severance Plan and any payments and/or the value of any benefits already provided to the Eligible Executive may be recouped for the benefit of the Company, plus interest at the then-prevailing prime rate. Our Severance Plan was amended and restated as of August 24, 2023, and such amendment acknowledged that any recoupment under our Severance Plan would be in addition to any applicable recoupment under our Recovery of Erroneously Awarded Incentive Compensation Policy. See the section of this proxy statement entitled “*Clawback Policy*.”

Incentive Plan

In addition, executive officers participating in the Incentive Plan, as described further in the “*Compensation Discussion and Analysis*” section of this proxy statement, may also receive payments upon termination of employment. Pursuant to the Incentive Plan, a participant, including each of our NEOs, must be continuously employed through the last day of the applicable semiannual performance period and through the later date that cash bonuses under the Incentive Plan for such semiannual performance period are actually paid. However, participants whose employment terminates due to death or “disability” during a semiannual performance period will be eligible to receive a pro rata cash bonus payment based on the number of days the participant was employed during that semiannual performance period and the Company’s actual performance during the semiannual performance period. The pro rata bonus amount will be paid to the terminated participant on or before the 15th day of the third month after the later of (i) the last day of the calendar year in which such participant died or incurred a “disability” or (ii) the last day of the Company’s taxable year in which such participant died or incurred a “disability.” Payment under the Incentive Plan would no longer be received if a participant’s employment was terminated for some other reason during a semiannual performance period.

For purposes of the Incentive Plan, “disability” means total and permanent disability as defined in accordance with the Company’s Long-Term Disability Plan.

The discussion and tables below present an estimate of the amount of compensation and/or other payments and benefits payable to our NEOs in the event of their termination of employment and/or in the event of a change of control of the Company. The amounts disclosed assume that such termination and/or the occurrence of such change of control was effective as of March 29, 2025, the last day of fiscal year 2025, and that price per share of our common stock was the closing market price as of that date (which was \$99.51 per share). We also assume that each NEO was continuously employed by the Company and under the Severance Plan and the Incentive Plan throughout at least the second half of fiscal year 2025. The amounts below have been calculated using assumptions, such as these, that we believe to be reasonable, along with further assumptions that are described in more detail below. The actual amounts that would be paid under each scenario depend on various factors, which may or may not exist at the time a NEO’s employment is actually terminated and/or a change of control actually occurs. Therefore, such amounts and disclosures should be considered “forward-looking statements.”

Severance Benefits Involving Involuntary Termination of Employment Without Cause or Termination Resulting from Death/Disability

The estimated amount payable to each of our NEOs, other than Mr. Nathamuni, pursuant to the Severance Plan and the Incentive Plan in the event of an involuntary termination of employment by the Company other than for cause, or due to the NEO’s death or disability, in each case, assuming such termination occurred on March 29, 2025 (and was not following a change in control of the Company), and in view of the other assumptions above, is set forth in the table below. Mr. Nathamuni was not eligible to receive benefits under the Severance Plan or the Incentive Plan in connection with his termination of employment in May 2024.

Such terminations of employment will not result in the acceleration of vesting of outstanding equity awards; therefore, there is no value associated with stock options, RSUs, MSUs, or PSUs in the table below for our NEOs, except for Mr. Woolard’s one-time make-whole RSUs, which are eligible to vest if he is terminated without cause. For purposes of our calculations, we have assumed that all material compensation elements and expenses have been paid current, and there would be no need to include additional values for items such as accrued vacation or paid time off.

| Name | Salary Continuation ⁽¹⁾ | Health Benefits ⁽²⁾ | Cash Bonus Under Incentive Plan ⁽³⁾ | Make-Whole RSUs ⁽⁴⁾ | Total |
|--|------------------------------------|--------------------------------|--|--------------------------------|-------------|
| John M. Forsyth, President and Chief Executive Officer | \$695,000 | \$27,201 | \$434,375 | | \$1,156,576 |
| Jeff Woolard, Chief Financial Officer | \$237,500 | \$13,600 | \$178,125 | \$2,360,576 | \$2,789,801 |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | \$187,500 | \$ 8,601 | \$ 93,750 | | \$ 289,851 |
| Gregory S. Thomas, Executive Vice President, General Counsel | \$235,500 | \$13,600 | \$176,625 | | \$ 425,725 |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | \$228,500 | \$ 7,813 | \$171,375 | | \$ 407,688 |
| Justin Dougherty, Executive Vice President, Global Operations | \$228,500 | \$13,600 | \$171,375 | | \$ 413,475 |

- (1) The salary continuation payment for our CEO represents the value of 12 months of base salary, based on our CEO’s base salary level in effect on March 29, 2025. For each of the other NEOs,

the amount is based on six months of base salary, at the base salary level in effect on March 29, 2025. In the case of Mr. Habermann, the amounts in this table are based on the base salary level for his position following the transition from Interim CFO.

- (2) Amounts attributable to healthcare benefits were computed based on an estimate of the COBRA payments payable by the Company at the rates in effect as of March 29, 2025 for the following time periods following termination of employment: 12 months for our CEO and six months for each of the other NEOs.
- (3) The NEOs would only receive the payments enumerated in this column in the event of a termination of employment due to death or disability. In the event employment is terminated for any other reason, the NEO would forfeit these amounts. On a termination due to death or disability, the NEO would be entitled to a pro rata payment of their bonus under the Incentive Plan. Because March 29, 2025 is the last day of the semiannual performance period, the NEO would be entitled to a full payment of the semiannual bonus. As such, we have calculated the cash bonus under the Incentive Plan as the target Incentive Plan Payout Percentage (100%) applied to each individual's current target bonus under the Incentive Plan for the semiannual performance period ending on March 29, 2025.
- (4) The valuation of accelerated vesting of unvested equity awards has been computed based on the value of the make-whole RSUs subject to accelerated vesting based on the closing market price of our common stock on March 28, 2025 (the last trading day prior to March 29, 2025), which was \$99.51 per share.

Severance Benefits Involving a Change of Control

The estimated amount payable to each of our NEOs, other than Mr. Nathamuni, pursuant to the Severance Plan in the event of a termination of employment during the 12-month period following a change of control of the Company by the Company other than for cause, by the NEO for good reason, or due to the NEO's death or disability, in each case, assuming such termination occurred on March 29, 2025, and in view of the other assumptions above, is set forth in the table below. In the event of qualifying termination of employment following a change of control as described above, the Severance Plan provides that outstanding equity awards will be accelerated (i.e., such awards are "double trigger"). The potential application of any cutback required under the Severance Plan due to the operation of Sections 280G and 4999 of the IRC has not been included in these calculations:

| Name | Lump Sum Salary Payment ⁽¹⁾ | Accelerated Vesting of Unvested Equity ⁽²⁾ | Health Benefits ⁽³⁾ | Cash Bonus Under Severance Plan ⁽⁴⁾ | Total |
|--|--|---|--------------------------------|--|--------------|
| John M. Forsyth, President and Chief Executive Officer | \$1,390,000 | \$14,742,845 | \$40,801 | \$2,171,875 | \$18,345,521 |
| Jeff Woolard, Chief Financial Officer | \$ 475,000 | \$ 4,699,758 | \$27,201 | \$ 534,375 | \$ 5,736,334 |
| Ulf Habermann, Former Interim CFO, Principal Accounting Officer | \$ 375,000 | \$ 1,773,069 | \$17,202 | \$ 281,250 | \$ 2,446,521 |
| Gregory S. Thomas, Executive Vice President, General Counsel | \$ 471,000 | \$ 2,320,469 | \$27,201 | \$ 529,875 | \$ 3,348,545 |
| Carl J. Alberty, Executive Vice President, Mixed Signal Products | \$ 457,000 | \$ 2,320,469 | \$15,625 | \$ 514,125 | \$ 3,307,219 |
| Justin Dougherty, Executive Vice President, Global Operations | \$ 457,000 | \$ 2,320,469 | \$27,201 | \$ 514,125 | \$ 3,318,795 |

- (1) The lump sum salary payment for our CEO represents the value of 24 months of base salary, based on our CEO's base salary level in effect on March 29, 2025. For each of the other NEOs,

the amount is based on 12 months of base salary, at the base salary level in effect on March 29, 2025. In the case of Mr. Habermann, the amounts in this table are based on the base salary level for his position following the transition from Interim CFO.

- (2) The valuation of accelerated vesting of unvested equity awards has been computed based on:
 - (1) the estimated value that would have been realized based on the difference between the exercise price of the options that were subject to accelerated vesting and the closing market price of our common stock on March 28, 2025 (the last trading day prior to March 29, 2025), which was \$99.51 per share, and
 - (2) the value of the RSUs and target-level MSUs and PSUs subject to accelerated vesting based on that same closing market price.
- (3) The valuation of healthcare benefits has been computed based on an estimate of the COBRA payments payable by the Company at the rates in effect as of March 29, 2025 for the following time periods following termination of employment: 18 months for our CEO and 12 months for each of the other NEOs.
- (4) The amounts in this column consist of two components: (a) 100% of the NEO's annual target bonus amount as of the termination date (in the case of the CEO, 200%) plus (b) a prorated target bonus amount corresponding to the current bonus period as of the termination date. Because the termination is deemed to occur on the last day of the fiscal year, this prorated target bonus component represents the NEOs' target bonus amount for the semiannual performance period ending on March 29, 2025.

EQUITY COMPENSATION PLAN INFORMATION

The following table provides information as of March 29, 2025 about shares of our common stock that may be issued upon the exercise of options, warrants, and rights under the Company's 2006 Stock Incentive Plan and the Amended and Restated 2018 Long Term Incentive Plan:

| | (A) Number of securities to be issued upon exercise of outstanding options | (B) Weighted-average exercise price of outstanding options | (C) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (A)) |
|--|---|--|--|
| Equity Compensation Plans Approved by Security Holders ⁽¹⁾ | 3,249,581 ⁽²⁾ | \$81.53 ⁽³⁾ | 2,539,768 |
| Equity Compensation Plans Not Approved by Security Holders | <u>—</u> | <u>—</u> | <u>—</u> |
| TOTAL | 3,249,581 | \$ 81.53 | 2,539,768 |

- (1) Represents equity awards under the Amended and Restated 2018 Long Term Incentive Plan and 2006 Stock Incentive Plan; a 1.5 full value award multiplier is applied to all RSUs, MSUs and PSUs granted.
- (2) Includes 2,745,719 shares that are issuable upon the vesting of the outstanding RSUs, MSUs, and PSUs granted under the Amended and Restated 2018 Long Term Incentive Plan.
- (3) The weighted average exercise price does not take into account the shares issuable upon the vesting of the outstanding RSUs, MSUs and PSUs.

PAY RATIO DISCLOSURE

In accordance with Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the median of the annual total compensation of all employees of our Company (other than our CEO) and the annual total compensation of John Forsyth, our CEO. For fiscal year 2025:

- the median of the annual total compensation of all employees of our Company (other than our CEO) was \$176,289; and
- the annual total compensation of our CEO was \$9,852,387 (as reflected in the Fiscal Year 2025 Summary Compensation Table included in this proxy statement).
- Based on this information, the annual total compensation of our CEO was estimated to be 55.9 times that of the median of the annual total compensation of all employees of our Company (other than our CEO).

We believe this ratio is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K. Different companies may use different methodologies in arriving at a pay ratio, and as a result, these ratios are not necessarily designed to facilitate comparisons among different companies. Rather, they allow stockholders to better understand and assess each particular company's internal compensation practices.

Identifying the Median Employee

We identified our median employee by considering our employee population as of the last day of our fiscal year, March 29, 2025. We considered all employees at our consolidated subsidiaries and all worldwide employees other than our CEO, whether employed on a full-time, part-time, temporary, or seasonal basis. For purposes of selecting our median employee, we used a consistently applied compensation measure that included (1) base pay during fiscal year 2025 using salary or base pay rate as of March 29, 2025, (2) all cash bonuses earned during fiscal year 2025, and (3) the aggregate full grant date fair value of equity awards granted during fiscal year 2025, calculated in accordance with FASB ASC Topic 718. Compensation paid in foreign currencies was converted to U.S. dollars based on the average monthly exchange rate for March, 2025. For employees who were employed for less than the full fiscal year, we annualized their base pay. The value of the Company's retirement/401(k) plan and medical benefits provided was excluded, as all employees in a given jurisdiction are offered the same benefits, and we did not make any cost-of-living adjustments.

Calculating the Ratio

After identifying the median employee, we calculated the elements of such employee's annual total compensation for fiscal year 2025 pursuant to Item 402(c)(2)(x) of Regulation S-K: \$176,289. For the annual total compensation of our CEO, we used the amount reported in the "Total" column (column (j)) of our Fiscal Year 2025 Summary Compensation Table included in this proxy statement: \$9,852,387.

PAY VERSUS PERFORMANCE DISCLOSURE

Pay Versus Performance Table

| Fiscal Year | SCT Total to PEO (Forsyth) | Compensation Actually Paid to PEO (Forsyth) | SCT Total to PEO (Rhode) | Compensation Actually Paid to PEO (Rhode) | Average SCT Total for Non-PEO NEOs | Average Compensation Actually Paid to Non-PEO NEOs | Value of Initial Fixed \$100 Investment Based On: | | Net Income (\$000s) | Company Selected Measure: Operating Profit Margin |

| 2021 | \$3,835,080 | \$ 4,824,068 | \$2,158,910 | \$2,782,421 | \$1,676,775 | \$1,925,001 | \$134 | \$212 | \$217,344 | 22.4% |

- (1) The principal executive officers (PEOs) reflected in columns (b), (c), (b'), and (c') are John M. Forsyth, our current Chief Executive Officer who was a PEO during all the fiscal years in the table, and Jason P. Rhode, our former Chief Executive Officer. Dr. Rhode was a PEO during fiscal year 2021 but not during fiscal years 2025, 2024, 2023, or 2022.
- (2) The non-principal executive officer named executive officers ("NEOs") reflected in columns (d) and (e) consist of the following individuals:
FY2025: Jeff Woolard, Ulf Habermann, Venk Nathamuni, Gregory S. Thomas, Carl J. Alberty, and Justin Dougherty
FY2024: Venk Nathamuni, Gregory S. Thomas, Jeffrey W. Baumgartner, and Justin Dougherty
FY2023: Venk Nathamuni, Thurman K. Case, Denise Grodé, Gregory S. Thomas, and Jeffrey W. Baumgartner
FY2022: Thurman K. Case, Gregory S. Thomas, Jeffrey W. Baumgartner, and Andy Brannan
FY2021: Thurman K. Case, Gregory S. Thomas, Jeffrey W. Baumgartner, and Jo-Dee M. Benson
- (3) The "Peer Group TSR" of column (g) and within this Pay Versus Performance Disclosure corresponds to the Philadelphia Semiconductor Index ("PHLX Semiconductor"), which we also utilize in the stock performance graph required by Item 201(e) of Regulation S-K included in our Annual Report for the fiscal year ended March 29, 2025. The comparison assumes \$100 was invested in the Company and in the PHLX Semiconductor, respectively, for the period beginning after markets closed on last trading day before the earliest fiscal year in the table through the end of the noted fiscal year in the table.
- (4) The Net Income of column (h) is GAAP net income as reported under the Company's Consolidated Statements of Income on Form 10-K for the applicable fiscal year.
- (5) The Company Selected Measure of column (i) is our Operating Profit Margin, which corresponds to the metric defined in our 2007 Management and Key Individual Contributor Incentive Plan ("Incentive Plan"), which is used (along with revenue growth) in the calculation of cash bonuses. This Operating Profit Margin metric is discussed in the Compensation Discussion and Analysis subsection entitled "*Incentive Plan Pay-Out Percentage*" of the Company's proxy statements for each applicable fiscal year. Effective fiscal year 2023, the definition of Operating Profit Margin was changed with the intention that Operating Profit Margin would be equivalent to our publicly-reported non-GAAP operating profit. The figures presented in column (i) for fiscal years 2022 and 2021 are calculated under this current definition of Operating Profit Margin, aligning with our non-GAAP operating profit figures for those fiscal years.

- (6) To calculate the Compensation Actually Paid (CAP) of columns (c) and (e), the following adjustments were made to the Summary Compensation Table (“SCT”) total compensation of columns (b) and (d) for each applicable fiscal year:

PEO SCT Total to CAP Reconciliation

| Fiscal Year | Salary | Bonus | Non-Equity Incentive Plan Compensation | Stock and Option Award Compensation | Other Compensation | Summary Compensation Table Total | Deductions from Summary Compensation Table Total | Adjustments to Summary Compensation Table Total | Compensation Actually Paid |
|----------------|-----------|-------|--|-------------------------------------|--------------------|----------------------------------|--|---|----------------------------|
| | | (i) | | | (ii) | | (iii) | (iv) | |
| 2025 | \$695,000 | \$— | \$1,144,174 | \$8,000,222 | \$12,991 | \$9,852,387 | \$(8,000,222) | \$10,136,083 | \$11,988,248 |
| 2024 | \$675,619 | \$— | \$ 799,969 | \$7,000,214 | \$10,867 | \$8,486,669 | \$(7,000,214) | \$ 1,387,666 | \$ 2,874,121 |
| 2023 | \$700,000 | \$— | \$1,182,058 | \$6,500,117 | \$11,650 | \$8,393,825 | \$(6,500,117) | \$ 9,451,848 | \$11,345,556 |

| 2021 | \$380,249 | \$ — | \$500,338 | \$ 783,353 | \$12,836 | \$1,676,775 | \$ (783,353) | \$1,031,579 | \$1,925,001 |

- i. Reflects average of one-time cash signing bonuses reported in the SCT for our NEOs for each fiscal year shown.
- ii. Reflects average “all other compensation” reported in the SCT for each fiscal year shown.
- iii. Represents the average grant date fair value of equity-based awards granted each year as determined in accordance with FASB ASC Topic 718.
- iv. Reflects the value of equity awards calculated in accordance with the SEC methodology for determining average non-PEO NEO CAP (as set forth in Item 402(v) of Regulation S-K) for each fiscal year shown. The equity component of CAP for each covered fiscal year is further detailed in the supplemental tables immediately below, where column (a) represents the fair value of equity awards granted during the covered fiscal year that are outstanding and unvested as the end of the covered fiscal year, column (b) reflects the change in fair value of any outstanding and unvested equity awards granted in any prior fiscal year from the end of such prior fiscal year to the end of the covered fiscal year, and column (c) reflects the change in fair value of any equity awards granted in any prior fiscal year from the end of the prior fiscal year to the vesting date at the end of or during the covered fiscal year.

PEO Equity Component of CAP

| FY2025 (Forsyth) | Fair Value of Current Year Equity Awards at 3/29/2025 | Change in Fair Value of Prior Year Unvested Equity Awards at 3/29/2025 | Change in Fair Value of Prior Year Equity Awards that Vested in FY2025 | Equity Adjustment Included in Compensation Actually Paid |
|-----------------------------|--|--|--|---|
| Equity Type | (a) | (b) | (c) | (d) = (a) + (b) + (c) |
| RSUs | \$2,541,585 | \$ 321,034 | \$198,586 | \$ 3,061,205 |
| MSUs | \$2,321,813 | \$1,284,103 | \$206,955 | \$ 3,812,871 |
| PSUs | \$2,541,585 | \$ — | \$ — | \$ 2,541,585 |

| Dividend yield | 0% | 0% | 0% | 0% | 0% |

Tabular List of Financial Performance Measures

We consider the following, listed in no particular order, to be the most important financial performance measures we use to link compensation actually paid to our NEOs, for fiscal year 2025, to Company performance.

- Operating Profit Margin
- Revenue Growth
- Relative TSR
- Strategic Revenue

Operating Profit Margin, which is a metric defined in our Incentive Plan and is intended to be equivalent to our non-GAAP operating profit margin, and revenue growth are both used in the calculation of cash bonuses under the Incentive Plan. As described in the Compensation Discussion and Analysis section of this proxy statement, these two metrics determine a cash bonus payout percentage. Relative TSR is a metric we use to determine the payout percentage, ranging between 0–200%, for MSUs. As described in the Compensation Discussion and Analysis section of this proxy statement, for MSU grants starting in February 2024, the Company’s TSR is measured relative to the TSR of the component companies of the Russell 3000 Index. For MSU grants prior to February 2024, the Philadelphia Semiconductor Index was used as our relative TSR comparison index. Strategic revenue is a metric we use to determine the payout percentage for PSUs, ranging between 0-200%.

Relationship Between CAP and Financial Performance Measures

In the charts below, the PEO figures include amounts for our current CEO, Mr. Forsyth, and as a separate bar, amounts corresponding to Dr. Rhode’s tenure as our CEO during a segment of fiscal year 2021.

In the first chart, PEO amounts generally trend with the Company’s TSR, reflecting general alignment between pay and performance over the covered period. However, fiscal year 2024 reflects a decrease in stock price that drove both a lower TSR and a more pronounced decline in the equity component of CAP. The “Peer Group TSR” shown in the chart corresponds to the Philadelphia Semiconductor Index. Over the five-year period shown, the Company’s TSR was relatively flat. The Peer Group TSR was also flat for the first three years, then rose in the fourth year while the Company’s TSR declined. In the fifth year, the Peer Group TSR declined while the Company’s TSR improved.

In the second chart, an increase in GAAP net income is reflected over the last two fiscal years. Also reflected, CAP amounts are relatively lower in fiscal year 2024, primarily due to a decrease in stock price, and GAAP net income is lower in fiscal year 2023 due, in part, to intangible impairment charges, lease impairments, and restructuring costs taken that year.

In the third chart, Operating Profit Margin has remained generally flat, while the illustrated CAP figures have varied as described above.

1. CAP versus Company TSR and Company TSR versus Peer Group TSR

2. CAP versus GAAP Net Income

3. CAP versus Company-Selected Measure (CSM) (Operating Profit Margin)

REPORT OF THE AUDIT COMMITTEE OF THE BOARD

The Audit Committee is comprised solely of independent directors, as defined by the applicable Nasdaq listing standards and rules of the SEC, and it operates under a written charter adopted by the Board, which is available under the Corporate Governance section of our “Investors” page on our website at investor.cirrus.com. The composition of the Audit Committee, the attributes of its members, and the responsibilities of the Audit Committee, as reflected in its charter, are intended to comply with applicable requirements for corporate audit committees. The Audit Committee continues to review and assess the adequacy of its charter on an annual basis, and will revise it to comply with new rules and regulations as they are adopted.

As described more fully in its charter, the primary focus of the Audit Committee is to assist the Board in its general oversight of the Company’s financial reporting, internal control, and audit functions. Management is responsible for the preparation, presentation, and integrity of the Company’s financial statements; accounting and financial reporting principles; internal controls; and procedures designed to assure compliance with accounting standards, applicable laws, and regulations. The Company’s independent registered public accounting firm, Ernst & Young, is responsible for performing an independent audit of the consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (“PCAOB”).

In accordance with the Sarbanes-Oxley Act and the Nasdaq listing standards, the Audit Committee has ultimate authority and responsibility to select, compensate, evaluate and, when appropriate, replace the Company’s independent registered public accounting firm.

The Audit Committee serves an oversight role for the Board in which it provides advice, counsel, and direction to management and the auditors on the basis of the information it receives, discussions with management and the auditors, and the experience of the Audit Committee’s members in business, financial, and accounting matters. The Audit Committee members are not professional auditors, and their functions are not intended to duplicate or to certify the activities of management and the independent auditors, nor can the Audit Committee certify that the independent auditors are “independent” under applicable rules.

In this context, the Audit Committee has met and held discussions with management and Ernst & Young. Management represented to the Audit Committee that the audited financial statements of the Company contained in the Company’s Annual Report to Stockholders for the fiscal year ended March 29, 2025, were prepared in accordance with U.S. generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors. The Audit Committee discussed with Ernst & Young matters required to be discussed by the applicable requirements of the PCAOB and the SEC.

The Audit Committee has received and reviewed the written disclosures and the letter from Ernst & Young required by applicable PCAOB rules regarding the independent accountant’s communications with the Audit Committee concerning independence, and the Audit Committee discussed with Ernst & Young the firm’s independence. In addition, the Audit Committee has considered whether the provision of non-audit services is compatible with maintaining Ernst & Young’s independence.

Based upon the Audit Committee’s discussions with management and the independent auditors, the Audit Committee’s review of the representations of management, and the report of the independent auditors to the Audit Committee, the Audit Committee recommended that the Board include the audited consolidated financial statements in the Company’s Annual Report on Form 10-K for the fiscal year ended March 29, 2025, as filed with the SEC.

Submitted by the Audit Committee of the Board:

Alexander M. Davern, Chair
Duy-Loan Le
Catherine P. Lego

AUDIT AND NON-AUDIT FEES AND SERVICES

Audit and Related Fees

The following table shows the fees accrued by the Company for the audit and other services provided by Ernst & Young for fiscal years 2025 and 2024. The Audit Committee pre-approved 100% of these services and related fee amounts.

| | <u>2025</u> | <u>2024</u> |
|--------------------------|--------------------|--------------------|
| Audit Fees | \$1,620,000 | \$1,495,000 |
| Audit-Related Fees | \$ 5,000 | \$ 35,000 |
| Tax Fees | \$ 0 | \$ 127,013 |
| All Other Fees | \$ 0 | \$ 5,000 |
| Total | \$1,625,000 | \$1,662,013 |

Audit Fees. Audit services consisted of the audit of the Company's consolidated financial statements and of management's assessment of the operating effectiveness of internal control over financial reporting included in the Company's Annual Report on Form 10-K, the review of the Company's financial statements included in its quarterly reports on Form 10-Q, and statutory audits required internationally.

Audit-Related Fees. Audit-related services generally include fees for accounting consultations in connection with acquisitions, internal control reviews, or due diligence.

Tax Fees. No tax fees were paid for fiscal year 2025. The fiscal year 2024 tax fees relate to technical tax advice and tax planning.

All Other Fees. The other fees correspond to an Ernst & Young research tool.

Pre-Approval Policies and Procedures

The Audit Committee has adopted a written policy for the pre-approval of audit, audit-related, and non-audit services provided by the Company's independent registered public accounting firm.

For audit and audit-related services, the independent auditor will provide the Audit Committee with an engagement letter and estimated budget for formal acceptance and approval. A list of non-audit services and estimated budget for such services for the upcoming fiscal year are submitted to the Audit Committee by Company management for pre-approval. To ensure prompt handling of unexpected non-budgeted non-audit related services, the Audit Committee has delegated to its Chair the authority to amend or modify the list of approved permissible non-audit services and fees if the cost of the service is less than \$100,000. Any such unexpected services for which the cost is more than \$100,000 are approved by the Audit Committee. If the Chair takes any action, the Chair will report such action to the Audit Committee at the next Audit Committee meeting.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Indemnification and Insurance. Our Bylaws require us to indemnify our directors and executive officers to the fullest extent permitted by Delaware law. We have entered into indemnification agreements with all of our directors and executive officers and have purchased directors' and officers' liability insurance.

Procedures for Review, Approval, and Ratification of Related Party Transactions. The Board recognizes that Related Party Transactions (as defined below) can present conflicts of interest and questions as to whether transactions are in the best interests of the Company. Accordingly, the Board has documented and implemented certain procedures for the review, approval, or ratification of Related Party Transactions greater than \$50,000. Related Party Transactions less than \$50,000 are reported to the Audit Committee at least annually.

Pursuant to these procedures, the Audit Committee must review, approve, or ratify any such transactions with Related Persons (as defined below). When it is impractical to wait for a scheduled Audit Committee meeting, a proposed Related Party Transaction may be submitted to the Audit Committee Chair for approval and then subsequently reported to the Audit Committee at the next Audit Committee meeting.

This procedure seeks to promote Company decisions that are based on the merits of the transaction and the interests of the Company and its stockholders. While it is the Company's preference to avoid Related Party Transactions, this procedure sets forth a methodology for considering a proposed Related Party Transaction in which the standard to be applied is whether such transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the Related Person's interest in the transaction.

For these purposes, a "Related Person" is any person who: (1) is, or at any time since the beginning of the Company's last fiscal year was, a director or executive officer of the Company; (2) is known to be the beneficial owner of more than 5% of any class of the Company's voting securities; (3) is an immediate family member of any of the foregoing persons; or (4) any firm, corporation, or other entity in which any of the foregoing persons is employed or is a director, general partner or principal or in a similar position, or in which such person has a 5% or greater beneficial ownership interest.

For these purposes, a "Related Party Transaction" is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which the Company was, is, or will be a participant and in which a Related Person had, has, or will have a direct or indirect interest.

Transactions with Related Persons. For fiscal year 2025, we had no related party transactions that were required to be disclosed in accordance with SEC regulations.

DELINQUENT SECTION 16(A) REPORTS

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors and persons who own more than 10% of a registered class of the Company's equity securities to file an initial report of ownership on Form 3 and changes in ownership on Form 4 or 5 with the SEC. Executive officers, directors, and greater than 10% stockholders are also required by the federal securities rules to furnish the Company with copies of all Section 16(a) forms they file.

The Company believes that, during the fiscal year 2025, all Section 16(a) filing requirements applicable to its officers, directors, and greater than 10% stockholders were met in a timely manner except for one late Form 4 filing for our then-Interim CFO, Ulf Habermann. The filing, pertaining to one transaction (the vesting of RSUs), was inadvertently delayed due to an administrative error and submitted on February 10, 2025, instead of by the required date of November 5, 2024.

HOUSEHOLDING

The SEC has adopted rules that permit companies and intermediaries (such as stockbrokers) to implement a delivery procedure called “householding.” Under this procedure, multiple stockholders who reside at the same address may receive a single copy of our annual report and proxy materials, including the Notice of Internet Availability of proxy materials, unless the affected stockholder has provided contrary instructions. This procedure reduces printing costs and postage fees.

This year, we expect that a number of stockbrokers with account holders who beneficially own common stock will be “householding” our annual report and proxy materials, including the Notice of Internet Availability of the proxy materials. A single Notice of Internet Availability of the proxy materials and, if applicable, a single set of annual report and other proxy materials will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your stockbroker that it will be “householding” communications to your address, “householding” will continue until you are notified otherwise or until you revoke your consent. Conversely, if multiple stockholders who reside at the same address receive multiple copies of our annual report and proxy materials, they may provide instructions if they prefer to receive only one copy of such materials. Stockholders may provide instructions or change their instructions at any time by contacting Broadridge, either by calling toll-free (866)-540-7095, or by writing to Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717.

If you contact Broadridge using the contact information above, we will promptly deliver to you a separate copy of our Annual Report, Notice of Internet Availability of the proxy materials, and the proxy materials for the 2025 Annual Meeting, and for future meetings, if you so request. Please also contact Broadridge if you wish to request delivery of a single copy of those materials if you currently receive multiple copies.

COMMUNICATING WITH US

Communicating with the Board

If you would like to contact the Board, including a Committee, you may write to the following address:

Board of Directors
c/o Corporate Secretary
Cirrus Logic, Inc.
800 W. 6th Street
Austin, Texas 78701

The Corporate Secretary or Chair of the Governance and Nominating Committee, as appropriate, reviews all correspondence addressed to the Board and regularly forwards to the Board all such correspondence that, in the opinion of the Corporate Secretary or Chair of the Governance and Nominating Committee, deals with the functions of the Board or the Committees. Directors may at any time review a log of all correspondence received by the Company that is addressed to the Board or individual Board members. Concerns relating to accounting, internal controls, or auditing issues will be immediately brought to the attention of the Chair of the Audit Committee.

Other Communications

If you would like to receive information about the Company, you may use one of these convenient methods:

1. To have information such as our latest Annual Report on Form 10-K or Quarterly Report on Form 10-Q mailed to you, please call our Investor Relations Department at (512) 851-4125.

2. To view our home page on the internet, use our website address: www.cirrus.com. Our home page provides you access to product, marketing and financial data, job listings, and an online version of this proxy statement, our Annual Report on Form 10-K, and other filings with the SEC.

If you would like to write to us, please send your correspondence to the following address:

Cirrus Logic, Inc.
Attention: Investor Relations
800 W. 6th Street
Austin, TX 78701

If you would like to inquire about stock transfer requirements, lost certificates, and change of stockholder address, please contact our transfer agent, Computershare Investor Services, at (877) 373-6374 (toll free) or (781) 575-2879 or by visiting their website at www.investorcentre.com (click the “need help” and then “contact us” links).

If you would like to report any inappropriate, illegal, or criminal conduct by any employee, agent, or representative of the Company; any violation of the Company’s Code of Conduct; or any complaint or concern including those regarding accounting, internal accounting controls, or auditing matters, you may file an anonymous and confidential report by contacting EthicsPoint, an independent reporting system provider, by telephone at 1-866-384-4277 (1-866-ETHICSP), or through its website at cirruslogic.ethicspoint.com.

ANNUAL REPORT

On May 23, 2025, we filed with the SEC an Annual Report on Form 10-K for the fiscal year ended March 29, 2025. The Annual Report on Form 10-K has been provided concurrently with this proxy statement to all stockholders entitled to notice of, and to vote at, the Annual Meeting.

Stockholders may also obtain a copy of the Annual Report on Form 10-K and any of our other SEC reports, free of charge, (1) from the SEC's website at www.sec.gov, (2) from our website at investor.cirrus.com, or (3) by writing to Investor Relations, Cirrus Logic, Inc., 800 W. 6th Street, Austin, TX 78701. The Annual Report on Form 10-K is not incorporated into this proxy statement and is not considered proxy solicitation material.

BY ORDER OF THE BOARD OF DIRECTORS

A handwritten signature in black ink, appearing to read "J. M. Forsyth", with a stylized flourish at the end.

John M. Forsyth
President and Chief Executive Officer
Austin, Texas
June 4, 2025
