

Rejlers has signed a new framework agreement with E.ON

E.ON Sweden and Rejlers have signed a new framework agreement for engineering services in Energy and Infrastructure. The agreement includes assignments in nuclear power, wind power, hydropower and heat production and also electricity grid and telecommunications. E.ON, OKG and Oskarshamn Energy have the opportunity to use Rejlers services.

Rejlers delivers solutions that increase the efficiency and safety of the customer's facilities and systems. We are pleased about a new confidence from E.ON and our long-term cooperation continues, says Anders Fransson, Business Area Manager of Electrical Power and Energy at Rejlers.

Several of Rejlers business areas are covered by the contract, valued at approximately SEK 25 million. The agreement is valid until 2013-12-31.
