Rejlers helps Svenska Kraftnät to create a modern and climate friendly energy system

Rejlers has signed a framework agreement with Svenska Kraftnät to be a full service supplier for the next three years. The agreement covers technical consultancy services within all the required areas: Project management for stations and lines, Quality, Safety and the working environment, Environment and permits and Specialist areas such as HVDC and power system analysis.

"I am very pleased that Svenska Kraftnät have selected us to be their full service supplier for the next three years. Svenska kraftnät will be making massive investments in the grid and have shown confidence in our ability to provide expertise within all the required areas. This means that Rejlers will be part of the construction and development of the Swedish national grid for the next few years, with the aim of creating a modern and climate friendly energy system," says Jenny Edfast, Business Manager Energy.

The three year agreement runs from 2016 – 2018 with the option of extension for 1 + 1 year.
