

Delivery to large Japanese Financial Services Company delayed to Q1 and expected revenue for Q4

LUND, Sweden - December 30th, 2015 – Anoto announced on August 7th 2015 the largest enterprise solutions contract to date from Japanese Financial Services Company of 29,000 Anoto Live Pen™ Pro with digital writing software. Anoto's part of the contract is 37 MSEK and was planned to be delivered in Q4 of this year. Manufacturing schedule has now been changed till after Chinese New Year and expected delivery is therefore changed till 3rd week of February. The customer's sales force will use Anoto Digital pen and paper as an integral part of their new insurance policy sales process. The Anoto digital pens, which will be used to fill in medical and personal information as well as the personal signature, are equipped with a camera for recording personal identification of customers for regulatory compliance. By using this solution, the customer will improve internal process handling by eliminating scanning and re-keying of contracts and will minimize paper consumption.

Anoto Group expects revenues for Q4 2015 (excluding the 37 MSEK delivery) to be approximately 46 MSEK. Except for the delayed delivery to Japan we see no changes in the outlook for coming quarters than what was communicated in the Q3 report.
