## **Important information**

The information in this press release does not constitute an offer to acquire, subscribe for or otherwise trade in shares, warrants, unit rights or other securities in Anoto.

This press release may not be released, published or distributed, directly or indirectly, in or into the United States, Australia, Canada, Hong Kong, Japan, New Zealand, Singapore, South Africa or any other jurisdiction where such action is wholly or partially subject to legal restrictions or where such action would require prospectuses, registrations or other actions in addition to what follows from Swedish law. Nor may the information in this press release be forwarded, reproduced or disclosed in a manner that contravenes such restrictions or would entail such requirements. Failure to comply with this instruction may result in a violation of applicable securities laws.

No subscription rights, BTUs (interim units), shares or warrants have or will be registered under the U.S. Securities Act of 1933, as amended, (“Securities Act”), or securities legislation in any state or other jurisdiction in the United States and may not be offered or sold, directly or indirectly, in or into the United States, except pursuant to

an available exemption from the registration requirements of the Securities Act and in compliance with the securities laws of any state or other jurisdiction of the United States.

### **About Anoto Group**

Anoto is a publicly held Swedish technology company known globally for innovation in the area of information-rich patterns and the optical recognition of those patterns. It is a leader in digital writing and drawing solutions, having historically used its proprietary technology to develop smartpens and the related software. These smartpens enrich the daily lives of millions of people around the world. Now Anoto is also using its pattern, optics, and image-processing expertise to bridge between the analogue and digital domains through an initiative known as Anoto DNA (ADNA). ADNA makes it possible to uniquely and unobtrusively mark physical objects and then easily identify those individual objects using ubiquitous mobile devices such as phones and tablets. ADNA is enabling exciting possibilities for product innovation, marketing insights, and supply-chain control. Anoto is traded on the Small Cap list of Nasdaq Stockholm under ANOT.
