

PRESS RELEASE

Halmstad, 28 September 2010

Arise Windpower establishes a presence in Gotland

Arise Windpower AB (Arise) and Vindshejkerna i Stjups AB (Vindshejkerna) have signed an agreement giving Arise the right to acquire Vindshejkerna's project in Stjups to the north of Näsudden on the island of Gotland. The project comprises existing permits for the erection of six wind turbines with a combined output of about 18 MW.

Construction and commissioning are scheduled to take place immediately upon conclusion of a grid connection agreement but no earlier than autumn 2011.

The project is the first Arise project in Gotland, where conditions for wind power are particularly favourable. A continued expansion is planned.

About Arise Windpower

Arise Windpower is one of Sweden's leading companies in onshore windpower. Arise Windpower's business concept is to sell electricity generated at the company's own onshore wind turbines in southern Sweden. The company is aiming to install and put into operation about 300 wind turbines with an annual output of about 2 TWh of green electricity by 2014. Arise Windpower is listed on NASDAQ OMX Stockholm. www.arisewindpower.se
