

## New European patent approval for Episurf Medical

The European patent office EPO has announced its intention to grant another European patent for Episurf Medical (NASDAQ: EPIS B). The patent, entitled “Design method of a rig”, is within the area of individualised surgical instruments related to the company’s Episealer® implants.

*“This patent covers parts of the surgical instruments that, together with the individualised Episealer® implants and Episurf’s imaging technology, form the Episealer® technology”,* says Katarina Flodström, COO, Episurf Medical.

### About Episurf Medical

*Episurf Medical is endeavoring to bring people with painful joint injuries a more active, healthier life through the availability of minimally invasive and individualised treatment alternatives. Episurf Medical’s Episealer® individualised implants and Epiguide® surgical drill guides are developed for treating localised cartilage injury in joints. Episurf Medical’s piFidelity® system enables implants to be cost-efficiently tailored to each individual’s unique injury for the optimal fit and minimal intervention. Episurf Medical’s head office is in Stockholm, Sweden. Its share (EPIS B) is listed on Nasdaq Stockholm. For more information, go to the company’s website: [www.episurf.com](http://www.episurf.com).*
