

Episurf Medical enters into licensing agreement of SEK 1.5m for **µFidelity®** software platform

Episurf Medical (Nasdaq: EPIS B) today announces that the company enters into an agreement of SEK 1.5m for out-licensing of the **µFidelity®** software platform. The platform constitutes the communication and distribution platform for Episurf Medical's orthopaedic product line, where medical imaging constitutes a central part. By the transaction, the company is licensing its platform to a US-based orthopaedic company, which intends to establish its own communication and distribution platform based on **µFidelity®**.

About Episurf Medical

Episurf Medical is endeavoring to bring people with painful joint injuries a more active, healthier life through the availability of minimally invasive and individualised treatment alternatives. Episurf Medical's Episealer® individualised implants and Epiguide® surgical drill guides are developed for treating localised cartilage injury in joints. Episurf Medical's µFidelity® system enables implants to be cost-efficiently tailored to each individual's unique injury for the optimal fit and minimal intervention. Episurf Medical's head office is in Stockholm, Sweden. Its share (EPIS B) is listed on Nasdaq Stockholm. For more information, go to the company's website: www.episurf.com.
