MilDef intends to carry out a directed new share issue

MilDef Group AB (publ) ("**MilDef**" or the "**Company**") has mandated Skandinaviska Enskilda Banken AB ("**SEB**") to evaluate the conditions for carrying out a new share issue of approximately SEK 450 million directed towards Swedish and international institutional investors, including a number of existing shareholders (the "**Directed Share Issue**"). The Company intends to use the proceeds from the issue to part-finance the acquisition of roda computer GmbH ("**roda**"), which was communicated separately by MilDef earlier today. MilDef's existing shareholders Svolder AB, Andra AP-fonden and Tredje AP-fonden have expressed interest in participating in the Directed Share Issue.

MilDef intends to carry out the Directed Share Issue, partly based on the authorisation granted by the annual general meeting held on 23 May, 2024, ("**Tranche 1**"), and partly subject to the subsequent approval by an Extraordinary General Meeting ("**Tranche 2**"). The subscription price and the total number of new shares in the Directed Share Issue will be determined through an accelerated bookbuilding procedure, which will begin immediately following this announcement and is expected to close before the commencement of trading on Nasdaq Stockholm on 14 November, 2024, and may close at any time at short notice. MilDef will announce the outcome by way of a press release following the closing of the bookbuilding procedure.

MilDef's existing shareholders Svolder AB, Andra AP-fonden and Tredje AP-fonden have expressed interest to participate in the Directed Share Issue. In addition, several other external investors and existing shareholders have expressed interest in participating in the Directed Share Issue.

The Company intends to use the proceeds from the Directed Share Issue to partly finance the acquisition of roda. Prior to the Board of Directors' decision on the implementation of the Directed Share Issue, the Company's Board of Directors has made an overall assessment and carefully considered the possibility of raising capital through a rights issue, but concluded that an issue with deviation from the shareholders' preferential rights is a better alternative for the Company and its shareholders. A prerequisite for the acquisition of roda is that the Company secures sufficient financing through a capital injection. In this regard, it is important to raise capital in a time and cost effective manner, and the Board of Directors considers it necessary to swiftly secure the necessary financing. A rights issue would be significantly more time and resource consuming, especially due to work and costs related to guarantee procurement and prospectus processing. In addition, a rights issue

MilDef's products are sold to over 200 customers through MilDef's subsidiaries in Sweden, Norway, Finland, Denmark, United Kingdom, Switzerland, United States, and Australia as well as through a partner network in more than 40 countries. would not be practicable prior to the closing of the acquisition of roda, which is expected to take place in the first quarter of 2025 as soon as customary regulatory approvals and closing conditions have been met, which is why costs related to bridge financing would also have to be incurred. Furthermore, the time required for a rights issue under the current market conditions would also entail a not insignificant exposure to market volatility and risk of worsening the conditions for raising capital. It is expected that the Directed Share Issue can be carried out in a time and cost effective manner, with what the Board of Directors considers to be a good result. In addition, it is considered advantageous to further diversify and strengthen the Company's ownership among Swedish and international institutional investors of strategic importance, which the Board of Directors consider to be positive for MilDef and the liquidity of the share. In the opinion of the Board of Directors, this creates security and stability for both the Company and its shareholders.

With the above in mind, the Board of Directors is of the opinion that a directed share issue with deviation from the shareholders' preferential rights is the most advantageous alternative for both the Company and for all shareholders. Since the subscription price in the Directed Share Issue will be determined through a bookbuilding procedure, the Board of Directors assesses that the subscription price will reflect current market conditions and demand.

Provided that the Board of Directors resolves on the Directed Share Issue in accordance with the above, an Extraordinary General Meeting will be convened to approve Tranche 2 of the Directed Share Issue. A valid resolution regarding Tranche 2 requires the approval of at least two-thirds of the votes and shares cast at the Extraordinary General Meeting, which is intended to be held on or about 9 December 2024. The issue of Tranche 2 will be conditional upon an Extraordinary General Meeting approving the resolution no later than 13 January, 2025, and that it is registered by the Swedish Companies Registration Office no later than 27 January, 2025. Three of MilDef's largest shareholders, Svolder AB, Andra AP-fonden and Tredje AP-fonden, which together hold approximately 19 percent of the outstanding shares and votes in MilDef, have expressed their support for the contemplated acquisition of roda and the Directed Share Issue and, together with other shareholders and members of MilDef's Board of Directors, management and other employees who together hold approximately 44 percent of the outstanding shares and votes in MilDef, to vote to approve the resolution to issue shares in Tranche 2 as set out above. Provided that the Board of Directors resolves on the Directed Share Issue, a notice of an Extraordinary General Meeting will be published to approve Tranche 2.

The Company has undertaken, subject to certain exceptions, not to issue additional shares during a period of 180 days following the settlement date for Tranche 2. In addition, all members of the Company's executive management and Board of Directors have, subject to certain exceptions, agreed not to sell any shares in the Company during a period of 90 days following the settlement date for Tranche 2, with certain exceptions for financing, including tax effects, and incentive program participation.
