FMV orders hardware from MilDef worth SEK 126 million

As part of the accelerated defense rearmament, the Swedish Defence Materiel Administration (FMV) has decided to replace older IT equipment with new from MilDef. In total, this involves IT equipment for digitization of the Swedish army. The order value amounts to SEK 126 million and deliveries will take place in 2025.

The Swedish Defense Materiel Administration, FMV, procures, develops and delivers equipment and services to the Swedish Armed Forces. MilDef has collaborated with FMV since 1997 on tactical and ruggedized IT. The latest order provides the Swedish Armed Forces with the very latest technology for digitization of command-and-control system and capability enhancement, developed and manufactured by MilDef in Sweden.

“With a long and strong relationship with FMV, we work closely together to contribute to a stronger defense of Sweden, with quality and speed. With increased digitization and secure communications via our systems, the Swedish Armed Forces are now taking important steps towards increased effect and defense capability, something we are proud to contribute to”, says Daniel Ljunggren, President and CEO of MilDef.
