

## **Net Insight to deliver Nimbra equipment for expansion of media transport network in North America**

23 December 2008

**Stockholm, Sweden – Net Insight, leading developer of efficient and scalable optical transport solutions for media, IP and broadcast networks, has received an expansion order from a North American media network operator for extension of their transport network.**

The network is based on Net Insight's Nimbra platform, offering high capacity transmissions to deliver uncompressed and compressed HD and SD video services and guarantee exceptional service delivery.

This existing customer will now continue to expand the network and has ordered Nimbra 360 and Nimbra 340 for multiple new points-of-presence in North America. The equipment will be delivered in the fourth quarter 2008.
