

## **Net Insight receives order for TV distribution and media network in Middle East**

30 December 2008

**Stockholm, Sweden – Net Insight, leading developer of efficient and scalable optical transport solutions for media, IP and broadcast networks, has received an order for a TV distribution and media network in Middle East.**

This is a first small order for a larger TV distribution and media network in a country in Middle East.

The Nimbra platform is a versatile transport solution with several unique features for DTT and Mobile TV networks. In addition, Nimbra offers a flexible and cost-effective solution for delivering advanced multimedia services in Broadcast and Media networks and for IPTV/CATV distribution. TV operators deploying Digital Terrestrial TV based on the Nimbra platform not only get a DTT network but a multi-service transport infrastructure that opens up new business opportunities, turning the network into a very powerful media contribution platform.
