

Net Insight wins a significant contract with TeliaSonera International Carrier

TeliaSonera International Carrier expands their network based on Net Insight's Nimbra Platform

STOCKHOLM, Sweden – Net Insight, a leading developer of efficient and scalable transport solutions for media, IP and broadcast networks, today announces that TeliaSonera International Carrier will expand their media contribution network based on Net Insight's platform to transport media traffic from sports and event arenas in Sweden.

TeliaSonera International Carrier, a leading global IP provider and carrier in Europe, provides the service Media Connect for Occasional Use or permanent connections to their global fiber network. The service is targeted to broadcasters, production companies and events and is designed to meet the high quality demands for live sport broadcasts. TeliaSonera International Carrier is now expanding their Nimbra-based national media contribution network with 10 Gbps capacity links to transport HD video from Swedish sports and event arenas.

The order value exceeds 15 million SEK.

"Quality of service is the most important factor for us to ensure a perfect experience," said Regina Donato-Lundgren, Director of Production, TeliaSonera International Carrier. "We have therefore chosen Net Insight and their highly reliable technology. Our customers will run their media traffic in a dedicated high quality media network".

"TeliaSonera International Carrier provides continued confidence in Net Insight and we look forward to expanding their national network," said Fredrik Trägårdh, CEO of Net Insight. "Building large sports media networks is a steadily growing business opportunity for us".
