

Net Insight wins significant expansion orders from EBU

STOCKHOLM, Sweden – Net Insight, a leading provider of efficient and scalable transport solutions for media, IP and broadcast networks, today announces that EBU has ordered the Nimbra platform for expansion of its global fibre network.

The European Broadcasting Union (EBU), the world's largest alliance of public service media organizations, operates EUROVISION, the premier distributor and producer of TV, providing broadcasters a wide array of content spanning from live sports and news events to entertainment, culture and music. The EUROVISION fibre network is based on Net Insight's Nimbra platform. EBU will perform several different build-outs of its network to support large global events.

The value of the new orders exceeds 1 MEUR and delivery will take place during the second quarter 2013.

"EBU is our customer since 2004 and have evolved its EUROVISION network continuously to meet increasing customer requirements for more capacity and new services," says Fredrik Trägårdh, CEO of Net Insight.

Net Insight AB discloses the information provided herein pursuant to the Securities Market Act and/or the Financial Instruments Trading Act. The information was submitted for publication on June 12, 2013 at 09:30 CET.
