Net Insight wins significant order from OBS

STOCKHOLM, Sweden – Net Insight, a leading provider of efficient and scalable transport solutions for media, IP and broadcast networks, today announces that OBS has selected the Nimbra platform for a major sporting event in Russia 2014.

OBS has chosen the Nimbra platform to be used for carrier Ethernet data transport. The solution will be built on the Nimbra 600 MSR series which provides 100% quality of services.

The delivery will take place during the third quarter 2013.

"Data services are becoming increasingly important for the production and transport of TV and video and the Nimbra platform provides a unique solution to secure lossless transport of both data and video", says Per Lindgren, CTO and SVP Business Development at Net Insight.

Net Insight AB discloses the information provided herein pursuant to the Securities Market Act and/or the Financial Instruments Trading Act. The information was submitted for publication on July 2, 2013 at 10.00 am CET.
