

Net Insight receives Significant Orders from EBU

Stockholm, Sweden – Net Insight, a leading provider of efficient and scalable transport solutions for media, IP and broadcast networks, today announces that the European Broadcasting Union (EBU) has placed orders for modernization and upgrades to its global fiber network.

The EBU operates EUROVISION, the premier distributor and producer of TV EUROVISION, and is the media industry's premier distributor and producer of top quality live sport and news, as well as entertainment, culture and music content. The EUROVISION fiber network is based on Net Insight's Nimbra platform, and the EBU will upgrade its global network with Nimbra 600 series MSRs.

The value of the new orders is just below 1 MEUR and delivery will take place during the fourth quarter of 2013.

"EBU will modernize the network to serve broadcasters with new and additional video and data services," says Fredrik Tumegård, CEO of Net Insight. "We support the EBU fully in its objective to adapt its network infrastructure to stay cost-efficient and flexible with guaranteed Quality of Service (QoS)."

Net Insight AB discloses the information provided herein pursuant to the Securities Market Act and/or the Financial Instruments Trading Act. The information was submitted for publication on November 29, 2013 at 08.30 am CET.
