

Net Insight Wins Significant Orders from Leading EMEA Media Service Provider

Stockholm, Sweden – Net Insight, a leading provider of efficient and scalable transport solutions for media, IP and broadcast networks, today announces that the company has received significant orders from a leading media service provider in the EMEA region for an upgrade and extension to its existing Nimbra-based core media network.

The service provider runs a core media network based on Net Insight's Nimbra MSR platform and the upgrade will enhance its capabilities in offering high-end media solutions to the global broadcast media market. This will be achieved by expanding its European and U.S. sites together with opening additional international POP locations.

By expanding, the service provider will add new Nimbra core MSR nodes providing multiple routes between its main uplink locations. This offers unsurpassed diversity and the ability to provide any to any port format switched services.

The total value of the new orders exceeds 1 MEUR and the majority of the delivery will take place during the fourth quarter of 2013.

Net Insight AB discloses the information provided herein pursuant to the Securities Market Act and/or the Financial Instruments Trading Act. The information was submitted for publication on December 5, 2013 at 08.30 am CET.
