

## Net Insight Signs Contract with Zayo

*Zayo enabled to offer expanded video network services*

**Stockholm, Sweden – Net Insight, a provider of efficient and scalable transport solutions for media, IP and broadcast networks, today announces it has signed a contract to provide video network infrastructure to Zayo Group, LLC (“Zayo”), an international provider of Bandwidth Infrastructure.**

Under the contract, valued at more than SEK 50 million, Net Insight will provide Zayo with hardware, software, and support services, to be delivered during the second and third quarter of 2014.

The deal enables Zayo to establish a video network in the U.S. and offer customers both compressed and uncompressed HD-SDI and 3G-SDI managed video network services.

“We selected Net Insight’s platform because it is flexible and resilient,” said David Howson, chief network and services officer and head of Europe at Zayo. “Net Insight will allow Zayo to provide the managed video transport quality and service levels demanded by our customers, with support for simplifying network operations.”

“Net Insight has succeeded in winning another important deal in the North American market,” said Fredrik Tumegård, CEO of Net Insight. “Zayo is an international player in Bandwidth Infrastructure, and we believe bringing them on as a customer will strengthen Net Insight’s market position in the North American market,”
