from Rederi AB Transatlantic (publ)*

TransAtlantic's icebreakers Vidar Viking is called in for icebreaking

The Swedish Maritime Administration, SMA, has drafted TransAtlantic's offshore/icebreaker vessels, Vidar Viking for icebreaking assignment. The vessel will be equipped with detachable towing notches in Landskrona and is expected to be in service from middle of this week.

This means that all three of TransAtlantic's offshore /icebreaker are drafted for icebreaking assignment around the coast of Sweden.
