Remuneration Report 2024

Introduction

This Remuneration Report describes the implementation of Citycon Oyj’s (Citycon or company) Remuneration Policy in 2024 and presents the remuneration and other financial benefits paid to the Board of Directors and the CEO during the financial year 2024. The remuneration of the governing bodies of Citycon is based on Citycon’s Remuneration Policy approved on 2 August 2021 by the advisory resolution of the Extraordinary General Meeting.

This Remuneration Report has been prepared in accordance with the Finnish Corporate Governance Code 2025 and the provisions of the Limited Liability Companies Act (624/2006, as amended) as well as the Finnish Securities Market Act. The Report has been prepared by the Nomination and Remuneration Committee of the Board of Directors and it will be presented to the company’s Annual General Meeting in April 2025.

A remuneration report is issued each year together with Citycon’s financial statements, management report and Corporate Governance Statement and is available on Citycon’s website for 10 years.

In accordance with the ‘pay for performance’ principle, it is important to reward good performance, as performance-based remuneration motivates people to continue to strive for excellence. As outlined in Citycon’s Remuneration Policy, Citycon’s general remuneration approach is built around the principles of driving Citycon’s business strategy to create long-term,

sustainable performance while increasing shareholder value. The objectives of Citycon’s incentive structure and related incentive plans are to align the business strategy with a competitive level of remuneration to attract, retain and motivate the best-qualified talent and experience to lead Citycon and to contribute to its success.

In line with the Remuneration Policy, a significant part of the CEO’s total remuneration is long-term, and performance based. In 2024, the total combined remuneration of Citycon’s respective CEOs was EUR 2,040,052. 75% of the CEO’s total remuneration was in the form of variable pay. The variable remuneration payout correlates with the company’s operational performance. Additionally, a total of EUR 1,044,195 was paid as severance compensation in connection with CEO transitions. In 2024, no clawbacks or temporary deviations from the Remuneration Policy were made.

Overview of Company’s Financial Performance and Remuneration

Citycon’s mixed-use strategy focusing on combining necessity-based retail with municipal services, residential and office, has shown it’s stability. The tenant mix, that is relying on municipality and grocery anchor tenants, has brought further resilience during the past five years. Citycon’s net rental income, EPRA earnings and direct operative profit have shown solid development considering the impact of the global pandemic, macroeconomic uncertainties and opportunistic asset sales in the past five years.

The CEO’s remuneration consists of fixed and variable pay components. The fixed remuneration includes the annual base salary and fringe benefits, whereas Citycon has paid no additional pension contributions.

In line with emphasizing the principle of pay-for performance, the CEO has had more significant portion of total compensation tied to variable incentives than employees on average. The purpose of the short-term incentive plan is to steer towards the successful delivery of the annual business plan. The long-term incentive plans reward for creating sustainable long-term shareholder value and ensure the CEO’s commitment to the company.

During the period of 2019–2024 the Board of Director’s annual fees and meeting fees have remained unchanged.
