## **Bittium Corporation's Subsidiary, Bittium Biosignals Ltd. Starts Change Negotiations in Finland**

*Bittium Corporation, Stock Exchange Release, May 7, 2025, at 9.00 am (CEST+1)*

As part of the measures to improve profitability and develop operations, Bittium Corporation has today decided to start change negotiations in its subsidiary, Bittium Biosignals Ltd., which is operating the Finnish entity of Medical Business Segment. The negotiations concern the whole personnel of Bittium Biosignals Ltd, a total of 102 employees. The planned measures, if implemented, could lead to a termination of employment or lay-offs of a maximum of 20 employees. Change negotiations are initiated for financial and production-related reasons as well as for reasons related to the reorganization of the company's operations.

Bittium has earlier announced that it plans to renew the Medical Business Segment's organization, improve the competitiveness of the products, focus the operations further, and grow profitable international business. Through reorganization and sharper operational focus, the company seeks to streamline its cost structure and improve profitability. Bittium also continues to optimize its processes and improve its operational efficiency.

With these measures to improve profitability and strengthen competitiveness, Bittium aims for annual cost savings of approximately EUR 2.0 million. The impact of the cost savings is expected to materialize in full in 2026.
