Ponsse Plc, Interim Report, 24 October 2023 9:00 a.m.

July-September (continuing operations):

- Net sales amounted to EUR 169.2 (178.5) million
- Operating profit totalled EUR 6.5 (13.0) million, equalling 3.9 (7.3) per cent of net sales

January-September (continuing operations):

- Net sales amounted to EUR 579.0 (530.5) million
- Operating profit totalled EUR 33.4 (34.9) million, equalling 5.8 (6.6) per cent of net sales
- Net result was EUR 22.4 (24.2) million
- Earnings per share were EUR 0.80 (0.86)
- Order books stood at EUR 278.1 (365.5) million at the end of period under review
- Cash flow from business operations was EUR -4.8 (-50.8) million (continuing and discontinued operations)
- Equity ratio was 54.8 (56.7) per cent at the end of period under review (continuing and discontinued operations)
- Ponsse issued a new performance guidance on October 18<sup>th</sup>, 2023: The company's euro-denominated operating profit in 2023 is expected to be on par with the comparable operating profit of its continuing operations in 2022 (EUR 46.6 million).
- Ponsse has classified the Russian operations subject to trade as assets held for sale and reported them as discontinued operations. Unless otherwise specified, the figures presented in this interim report refer to continuing operations.

PRESIDENT AND CEO JUHO NUMMELA:

The weakening demand in the forest sector and general uncertainty led to a decrease in the demand for PONSSE forest machines during the last quarter. During the third quarter, order intake totaled roughly EUR 153.1 million. At the end of the period under review, the company's order books stood at EUR 278.1 (365.5) million.

Our customers' business situation is decent, but logging volumes for the current year are expected to decrease. The weakening of the market is reflected in a reduction in the order books whilst the factory's production volumes still remain close to a normal level. The availability of parts and components has improved significantly as the general demand has decreased in our suppliers' business areas.

The company's net sales amounted to EUR 169.2 (178.5) million during the last quarter. New machine invoicing didn't reach last year's numbers, but we were able to both improve the delivery of used machines and boost their net sales. Our technology company, Epec, managed to grow a little. During the past quarter, we were able to finish the sales process of our Russian subsidiary.

Our relative profitability during the past quarter was poor, 3.9 (7.3) per cent. The main factors affecting our profitability were the persistent inflation, the operating expenses that grew faster than what the net sales developed, and the slower-than-expected improvement of the operative challenges of our subsidiary, Ponsse Latin America Ltda. Entering a weakening business cycle, also the

discontinuation of our Russian operations and the challenges in the organization's overall cost structure are reflected in the company's profitability. The growth in our net sales originates from the less profitable market areas.

The company's cash flow was EUR -4.8 (-50.8) million. Part of our capital is still temporarily tied to raw material stocks and, especially, to used machine stocks. The growth of the used machine stock took a turn during the quarter and started decreasing, but the used machine stock rotation is still on a too poor level.

In order to secure the fulfilment of our strategy and goals, we are developing the company's operative model. We want to ensure even stronger customer service, respond to market changes, and secure the growth of the company's profitability in the changed business environment. The development of the operative model will have a clear impact on our competitiveness. Ponsse evaluates investments very carefully, prioritizes operations, and will cut costs. The investments are made in the development of new products and technologies, the Group's information systems, and digital services.

## NET SALES

Consolidated net sales for the period under review amounted to EUR 579.0 (530.5) million, which is 9.1 per cent more than in the comparison period. International business operations accounted for 73.8 (79.5) per cent of net sales.

## ACQUISITIONS AND SALES OF OPERATIONS

On September 18<sup>th</sup>, 2023, Ponsse Plc completed the sale of all shares in OOO Ponsse, its subsidiary that provided PONSSE services in Russia and Belarus. After the conditions of the transaction were met, Ponsse's business operations in Russia transferred to OOO Bison and the trade received the approval of the local authorities. On 15 June 2022, Ponsse announced its intention to divest its operations in Russia, and on 28 June 2022, Ponsse informed that it had signed a deed of sale regarding all shares in OOO Ponsse. All facilities of OOO Ponsse, including spare parts warehouses and maintenance vehicles, as well as its personnel have been transferred to OOO Bison. Additionally, the deal included the Russian real-estate company, Ponsse Centre, that was 100% owned by OOO Ponsse. As a result of the completion of the deal, all Ponsse's activities in Russia ended. Ponsse has classified the traded functions as asset items available for sale and reported them as discontinued operations since its mid-year report published on 9 August 2022. The impact of the business arrangement is described in more detail in the note Discontinued operations.

On August 7<sup>th</sup>, 2023, Ponsse announced that it had signed a retail agreement with PacWest Machinery from the US. At the same time, the two companies signed a deed of sale, in which Ponsse undertook to sell its maintenance service operations in Coburg, Oregon, to PacWest Machinery. Hereafter, PacWest will be responsible for the sale and maintenance of PONSSE forest machines in the states of Oregon, Washington, and Idaho on the West Coast of the United States. The transaction

price was not made public since the price has no impact on the measurement of Ponsse's value or result.

## SHARE-BASED INCENTIVE PLANS

The Board of Directors of Ponsse Plc has approved two new Ponsse Group's share-based incentive plans. A stock exchange release regarding the incentive plans has been published on 3 March 2023. The aim of the new plans is to align the objectives of the shareholders and plan participants for increasing the value of the company in the long-term, to retain the participants at the company and to offer them competitive reward schemes that are based on earning and accumulating the company's shares.

The CEO plan consists of five performance periods, calendar years 2023, 2023-2024, 2023-2025, 2024-2026 and 2025-2027. A restriction period is included in performance periods 2023 and 2023-2024, which begins from the reward payment and ends on 31 December 2025. The matching reward will be paid by the end of May 2024, 2025 and 2026. The matching shares delivered as a matching reward cannot be transferred during a restriction period that will end on 31 December 2025, 31 December 2026 and 31 December 2027. The performance-based reward will be paid by the end of May after the end of each performance period. The shares received as reward based on performance periods 2023 and 2023-2024 cannot be transferred during the restriction period, i.e. 31 December 2025. The amount of rewards to be paid based on the performance periods that began in 2023 will correspond to an approximate maximum total of 75,000 Ponsse Plc shares, also including the portion to be paid in cash (gross reward).

The key employee plan consists of three performance periods, each lasting for three calendar years, performance periods 2023-2025, 2024-2026 and 2025-2027. The matching reward will be paid in 2023, 2024 and 2025 after the acquisition of the investment shares and confirmation of reward, as soon as practically possible. The matching shares delivered as a matching reward cannot be transferred during a restriction period that will end on 31 December 2025, 31 December 2026, and 31 December 2027. The performance-based reward will be paid by the end of May after the end of each performance period. The share acquisitions for the first performance periods began on April 28, 2023, and ended on July 12, 2023. The number of shares acquired totaled 16,500.

During the period under review, the cost effect of the share-based incentive plans was approximately EUR 0.6 million. For the restriction periods that started in 2023, the total cost effect of the share-based incentive plans is estimated to be around EUR 2.0 million in the years 2023-2025.

During the financial period 2021, the Group implemented the restricted share plan, where the reward is based on the participant's valid employment or director contract and the continuity of the employment or service during a restriction period. The 24-month restriction period of the system ended in 2023 and accordingly, 3,000 company shares were paid as a reward. The expenses were distributed over the entire period, of which the 2023 portion is EUR 56 thousand.

## SHARE PERFORMANCE

The company's registered share capital consists of 28,000,000 shares. The trading volume of Ponsse Plc shares for 1 January – 30 September 2023 totalled 450,013, accounting for 1.61 per cent of the total number of shares. Share turnover amounted to EUR 13.0 million, with the period's lowest and highest share prices amounting to EUR 25.55 and EUR 35.00, respectively.

At the end of the period, shares closed at EUR 26.20, and market capitalisation totalled EUR 733.6

million.

At the end of the period under review, the company held 14,562 treasury shares.

## ANNUAL GENERAL MEETING

A separate release was issued on 12 April 2023 regarding the authorizations given to the Board of Directors and other resolutions at the AGM.

## GOVERNANCE

In its decision-making and administration, the company observes the Finnish Limited Liability Companies Act, other regulations governing publicly listed companies and the company's Articles of Association. The company's Board of Directors has adopted the Code of Governance that complies with the Finnish Corporate Governance Code approved by the Board of the Securities Market Association. The purpose of the code is to ensure that the company is professionally managed and that its business principles and practices are of a high ethical and professional standard.

The Code of Governance is available on Ponsse's website in the Investors section.

## NON-FINANCIAL INFORMATION REPORTING

Each year, Ponsse publishes its responsibility report in conjunction with its annual report. The report is also available on the company's website under responsibility and investors.

## RISK MANAGEMENT

Our risk management is based on the company's values and strategic and financial goals. The purpose of risk management is to support the company's strategic objectives and to secure its financial development and the continuity of its business. Ponsse's management conducts an annual risk assessment that includes the sustainability risks and opportunities impacting the company's business. Within them, aspects related to climate change, biodiversity, and resource efficiency together with digitalisation and technological development are emphasised.

The purpose of risk management is to identify, assess, and monitor business-related risks that may impact the realisation of the company's strategic and financial objectives or the continuity of business. This information is used to decide what measures will be required to prevent risks and respond to current risks.

Risk management is part of the company's daily business and has been incorporated into its management system. Risk management is directed by the risk management policy approved by the Board of Directors.

A risk is any event that may prevent the company from achieving its objectives or threatens the continuity of business. A risk may also be a positive event, in which case the risk is treated as an opportunity. Each risk is assessed on the basis of its impact and probability. The company's risk management methods include the avoidance, mitigation, and transfer of risk. Risks may also be managed by controlling and minimising their impacts.

## SHORT-TERM RISK MANAGEMENT

Our major short-term risks are related to the geopolitical situation, sudden economic fluctuations, and both persistent and high inflation which has led to rising interest rates. The geopolitical situation also increases uncertainty through financial market operability and sanctions. The risks in the financial market may also increase the volatility of developing countries' foreign exchange markets. The instability of the world economy and increasing financing costs may also reduce demand for forest machines.

In the challenging situation, Ponsse's strong financial position is important. In terms of financing, Ponsse has carried out all measures necessary to ensure business continuity, and financial situation is regularly evaluated.

The key objective of the company's financial risk management policy is to manage liquidity, interest, and currency risks. The company's financial position has remained strong due to good liquidity and binding credit limit facilities agreed with several financial institutions.

The effect of adverse changes in interest rates is minimised by utilising credit linked to different reference rates and by concluding interest rate swaps. The effects of currency rate fluctuations are partly mitigated through derivative contracts.

Changes taking place in the fiscal and customs legislation in countries to which Ponsse exports may hamper the company's export trade or its profitability. General delivery problems in the supply chain have made it more difficult to manage PONSSE forest machine production schedules, tied up more capital in the supply chain, and increased the risks related to working capital management.

The parent company monitors the changes in the Group's internal and external trade receivables and the associated risk of impairment. The company has long-term and extensive service contracts, which may involve operational risks.

In order to strengthen cybersecurity, Ponsse has clarified software update policy and user manual. We will improve our ability to detect and react to abnormal activity on our networks, and we will regularly test our digital services with our partners against cyber-attacks.

## OUTLOOK FOR THE FUTURE

The company's euro-denominated operating profit in 2023 is expected to be on par with the comparable operating profit of its continuing operations in 2022 (EUR 46.6 million).

Due to the uncertainty in the markets, the company will keep prioritising its investments, continues to monitor its costs, and develops its operative model in order to improve competitiveness. The development work to improve profitability continues. The company monitors changes in the operating environment and customers operating conditions closely.

We monitor Ponsse Latin America Ltda -subsidiary's situation in an enhanced manner and the company takes measures to improve the situation.

## EVENTS AFTER THE PERIOD

On October 18<sup>th</sup>, 2023, Ponsse issued a new performance guidance which expects the company's euro-denominated operating profit in 2023 to be on par with the comparable operating profit of its continuing operations in 2022 (EUR 46.6 million). Essentially, the new performance guidance was issued since the development of the company's profitability was weaker than previously expected.

Persistent inflation has kept affecting the profitability of the business. Entering a weakening business cycle, the discontinuation of the Russian operations and the challenges in the organization's overall cost structure are reflected in the company's profitability. The growth in the company's net sales has originated from the less profitable market areas. The company's profitability has also been affected by the operating expenses that grew faster than the net sales, and the slower-than-expected improvement of the operative challenges of Ponsse's subsidiary, Ponsse Latin America Ltda.

In the previous interim reports of 2023, Ponsse's estimation about the near-future results has been as follows: "the company's euro-denominated operating profit in 2023 is expected to be slightly higher than the comparable operating profit of its continuing operations in 2022 (EUR 46.6 million)."

There have been no other subsequent events after the review period that require recognition or disclosure.

## NOTES TO THE RELEASE FOR THE INTERIM REPORT

The stock exchange release for the interim report has been prepared observing the recognition and valuation principles of IFRS, but some of the IAS 34 requirements have not been complied with. The same accounting principles were observed for the closing of the books as for the annual financial statements dated 31 December 2022, except for the IAS/IFRS standard and interpretation modifications that came into effect on January 1<sup>st</sup>, 2023. These interpretation and standard modifications haven't had a material impact on the interim report.

Ponsse has classified the Russian operations subject to trade as assets held for sale and reported them as discontinued operations. Unless otherwise specified, the figures presented in this interim report refer to continuing operations.

The above figures have not been audited.

The above figures have been rounded and may therefore differ from those given in the official financial statements.

Ponsse is preparing for the adoption of Pillar 2 minimum tax rules in the beginning of 2024 and will disclosure information about the impacts in 2023 financial statements according to IAS 12.

This communication includes future-oriented statements that are based on the assumptions currently made by the company's management and its current decisions and plans. Although the management believes that the future expectations are well founded, there is no certainty that these expectations will prove to be correct. This is why the results may significantly deviate from the assumptions included in the future-oriented statements as a result of, among other things, changes in the economy, markets, competitive conditions, legislation or currency exchange rates.

To item other provisions the Group has recognised a provision based on an agreement entered into by Ponsse Latin America Ltda, as the fulfilment of the contractual obligations is estimated to generate expenses that exceed the expected economic benefits obtained from the agreement. The provision has been measured based on the best possible estimate of the expenses arising from the fulfilment of the obligations on the closing date.

## 2. DISCONTINUED OPERATIONS

The sale of all Ponsse's shares in its Russian subsidiary, OOO Ponsse, to the Russian company, OOO Bison, came to a completion in September after the conditions of the transaction were met. As the trade received the approval of the local authorities on September 18<sup>th</sup>, 2023, it is considered the official date of the sale of Ponsse's Russian operations. On 15 June 2022, Ponsse had announced its intention to divest its operations in Russia, and on 28 June 2022, Ponsse informed that it had signed a deed of sale regarding all shares in OOO Ponsse. As a result of the sale, all facilities of OOO Ponsse, including spare parts warehouses and maintenance vehicles, as well as its personnel have been transferred to OOO Bison. Additionally, the deal included the Russian real-estate company, Ponsse Centre, that was 100% owned by OOO Ponsse. Ponsse has classified the traded functions as asset items available for sale and reported them as discontinued operations since its mid-year report

published in August 2022.

Because of the deal, Ponsse made a sales loss of EUR 12.3 million which includes a total of EUR 9.7 million in RUB/EUR translation difference. The transaction price is not made public due to contractual reasons. The sales price includes EUR 3 million receivable which is due in 18 months. The receivable has not been discounted in the interim report since its impact is not material. The deal's effect on the parent company's distributable reserves is EUR +14.9 million.
