

Glaston receives an important order in China

Glaston has closed a deal worth approximately EUR 2.2 million with the Chinese company Xianning CSG Glass Co., Ltd. for two flat tempering furnaces: Glaston CHF™ and Glaston CCS900™. The orders are a follow-up to sales of several CCS™ and CHF™ furnaces installed in various CGS factories during the last five years. The new machines will be manufactured in Glaston's Tianjin plant and delivered to the customer during the last quarter of the year 2013. Orders will be booked on Glaston's Q2/2013 order book.

CSG Holding Ltd. was established in 1984. The company is the largest supplier of energy saving glass in China and an important producer even in the whole Asia. CSG has participated in composing and developing several significant national and industrial standards for energy saving in buildings and in end products. The Group concentrates on high end architecture glass products like double silver LowE and triple silver LowE glass.
