Nurminen Logistics streamlines organization, senior vice president Ari Penttilä leaves the company

Nurminen Logistics Plc streamlines its organisation structure. Ramping up the block train connection between China and Finland and improving productivity of Vuosaari terminal in Helsinki are key points in improving company's profitability. Now established organisation structure brings both functions under CEO's direction. In connection to this change the senior vice president Ari Penttilä, who has been in charge of these functions, leaves the company. These changes are effective immediately.

"I thank Ari for all the work he has done at Nurminen. I believe that streamlining the organization is the best way to bring energy and speed to company's turnaround program." states CEO Ville Iho.
