Quarterly Report, Q1 2013, for Spar Nord Bank A/S

Pre-tax profits of DKK 193 million and an annualized 12.7% return on equity - best profit performance in 24 quarters

- Core income ended at DKK 748 million, up 17% on Q1 2012: 17% growth in net interest income, 29% growth in net income from fees, charges and commissions and a 3% drop in market-value adjustments. Growth in core income is driven primarily by the larger business volume after the merger with Sparbank.
- Costs ended at DKK 427 million - 14% up on Q1 2012, but slightly lower than expected. The cost/income ratio improved to 0.57.
- Core earnings before impairment thus ended at DKK 321 million - 21% up on Q1 2012.
- Loan impairment amounted to DKK 109 million, equal to an impairment ratio of 1% p.a. - in line with expectations.
- Solid capital and cash position: The Common Equity (Tier 1) ratio stood at 12.8%, the excess coverage relative to the solvency need ratio amounted to 6.1% (DKK 2.7 billion) and the excess cash coverage to DKK 16.7 billion.
- Since the merger with Sparbank in Q4 2012, the integration process has been progressing very satisfactorily: Synergies and non-recurring costs are still expected to be realized at the levels announced in connection with the merger.
- Contributions from discontinuing activities (leasing) of DKK 10 million - better than expected.
- The forecasts for full-year core earnings before impairment and non-recurring costs have been maintained at DKK 1,000-1,100 million. Impairment of loans and advances is still expected to end at around 1% of total loans, advances and guarantees.

Lasse Nyby, Chief Executive Officer, has the following comments on the financial statements:

- The financial statements just published bear witness to our best first quarter since 2007 - and, incidentally, this is our best quarterly performance in 24 quarters. The promising results are greatly due to the highly satisfactory integration of Sparbank, which accounts for the respectable growth we are experiencing in an otherwise challenging market. When we look at the individual lines in the financial statements, we are particularly pleased to see growth in the activity-dependent income and a drop in impairment. Among the challenges we are facing, the sustained low growth in the Danish economy - and thus the pressure on lending volume - gives the greatest cause for concern. Unquestionably, however, the story that the interim financial statements tell is mainly positive: We are recording substantial income growth, keeping tight reins on costs, seeing impairment decline and holding a particularly strong capital and cash position.

**) Spar Nord's impairment allowance account amounted to DKK 1,475 million (end-2012: DKK 1,330 million) (note 12) and the discount on commitments taken over from Sparbank amounted to DKK 1,291 million (end-2012: DKK 1,412 million).

The Spar Nord Group's pre-tax profits came to DKK 193 million in Q1 2013 versus DKK 144 million in Q1 2012 and DKK 5 million in Q4 2012. This performance corresponds to an annualized 12.7% return on equity before tax.

Net income from interest, fees, charges and commissions rose 20% compared with Q1 2012 and 17% on the previous quarter, and market-value adjustments were maintained at a highly satisfactory level. Developments in costs were slightly better than anticipated.

Impairment of loans and advances, etc. dropped DKK 109 million, which is in line with expectations, while contributions to sector-wide solutions ended at DKK 31 million, which was slightly higher than forecast.

Management finds this performance highly satisfactory, and in this light maintains the outlook for total core earnings for the year at DKK 1,000-1,100 million before impairment and non-recurring costs.

LARGER LENDING VOLUME DRIVES GROWTH IN NET INTEREST INCOME

Net interest income in Q1 amounted to DKK 451 million, which is DKK 65 million, or 17%, higher than in the same period last year – and DKK 37 million, or 9%, higher than in Q4 2012.

The increase compared with Q4 2012 is attributable to the fact that the business volume taken over in connection with the merger with Sparbank has been included in the profits for the full quarter. To this should be added lower funding costs attributable to the positive trend in the Group's cash position.

29% GROWTH IN NET INCOME FROM FEES, CHARGES AND COMMISSIONS

Net income from fees, charges and commissions ended at DKK 196 million, equal to an advance of DKK 44 million, or 29%, on Q1 2012.

The growth in income from fees, charges and commissions also stems primarily from growth in the business volume following the merger with Sparbank.

In addition, the securities and asset management-related income are developing better than expected.

MARKET-VALUE ADJUSTMENTS MAINTAINED AT AN ULTRA-HIGH LEVEL

Market-value adjustments ended at DKK 77 million, which is DKK 28 million up on Q4 2012 and in line with the Q1 2012 performance.

The satisfactory market-value adjustments are attributable in part to the gap between Danish mortgage bonds and interest swaps, which remains favourable for Spar Nord.

Market-value adjustments and dividends on the Bank's portfolio of shares in financial-sector companies were at a level equivalent to that in the same period of 2012, while earnings on customers' interest and foreign-exchange transactions rose.

SMALL INCREASE IN OTHER INCOME

The "Other operating income" item ended at DKK 8 million, which is DKK 1 million higher than in Q1 2012.

The profit on equity investments in associates and group enterprises, including Nørresundby Bank, was DKK 16 million versus DKK 14 million in the same period last year.

COSTS ARE DEVELOPING SATISFACTORILY

Total costs and expenses amounted to DKK 427 million, which is 14% higher than in the same period of 2012. The increase is lower than expected.

DKK 254 million of the total costs went to wages and salaries. Payroll costs ended DKK 39 million up on Q1 2012, which is due exclusively to the fact that the Group has 241 more employees (continuing activities, converted into full-time equivalents) after the merger and the associated organizational adaptations than at the end of Q1 2012.

The other operating expenses ended at DKK 13 million, corresponding to an increase of 9% on last year's level. The growth in other operating expenses, which is slightly lower than expected, derives from an increase in IT costs brought about by a higher customer number and business volume.

IMPAIRMENT OF LOANS AND ADVANCES DECLINING - BUT STILL HIGH

Impairment of loans and advances, etc. ended at DKK 109 million in Q1 2013 - DKK 47 million down on Q4 2012, which corresponds to an impairment ratio of 1.0% for the year to date.

DKK 86 million of the DKK 109 million profit impact is attributable to business customers, representing an annualized impairment ratio of 1.3% for this customer category. The remaining DKK 23 million relates to retail customers, corresponding to an annualized impairment ratio of 0.5%.

In light of developments in Q1, Management still expects the profit impact for the year from impairment to end at around 1% of total loans, advances and guarantees.

EARNINGS FROM INVESTMENT PORTFOLIOS ENDED AT DKK 17 MILLION

In Q1 2013, the Group recorded an income of DKK 17 million (Q1 2012: DKK 6 million) on its portfolio of securities and unlisted equity investments via Erhvervsinvest Nord A/S and Erhvervsinvest K/S. The satisfactory result is attributable primarily to the divestment of portfolio companies in Erhvervsinvest K/S.

INTEGRATION OF SPARBANK PROCEEDS SATISFACTORILY

At the time the merger with Sparbank was announced – and later in the 2012 Annual Report – we stated that the merger was expected to result in synergies totalling some DKK 130 million, DKK 110 million of which would be realized in 2013, and in non-recurring costs of around DKK 110-120 million.

The status at the end of Q1 2013 is that we expect to realize the synergies at about the previously announced level, whereas non-recurring costs are now expected to be realized at the lower end of the announced range.

CONTRIBUTIONS TO SECTOR-WIDE SOLUTIONS OF DKK 31 MILLION

The accounting item “Contributions to sector-wide solutions” comprises Spar Nord’s payments and Spar Nord’s share of Nørresundby Bank’s payments to the Danish Guarantee Fund for Depositors and Investors.

In Q1 2013, DKK 31 million was expensed, which can be broken down into about DKK 8 million relating to post-adjustments regarding Fjordbank Mors and about DKK 23 million in payments regarding the new Depositors’ Guarantee Scheme.

Spar Nord now expects total contributions to sector-wide solutions to end at around DKK 100 million for the full year.

RESULTS OF DISCONTINUING ACTIVITIES: DKK 10 MILLION

Results of discontinuing activities (leasing) ended at DKK 10 million compared with DKK 14 million in Q4 2012 and DKK -2 million in Q1 2012.

For more details see the section on Business Areas.

DKK 193 MILLION IN PRE-TAX PROFITS

The pre-tax profits can accordingly be calculated at DKK 193 million compared with DKK 144 million in Q1 2012 and DKK 5 million in Q4 2012.

TAX

The Group’s effective tax rate was 23% in Q1 2013, and post-tax profits can thus be calculated at DKK 149 million.

BUSINESS VOLUME

The Group's total business volume (deposits, loans, advances and guarantees) stood at DKK 93.6 billion at the end of Q1 2013 - a level resembling the end-2012 level and 20% up on the same time last year.

Compared with end-2012, lending, banking activities, dropped by DKK 0.5 billion, and lending, leasing activities, declined by DKK 0.5 billion.

Deposits, banking activities, rose by DKK 0.8 billion compared with end-2012, amounting to DKK 42.7 billion at end-Q1.

Of the Group's total bank lending and guarantees (continuing activities) in the amount of DKK 40.0 billion, 40% is attributable to retail customers and 60% to business customers.

During the past 12 months, mortgage-credit loans arranged increased DKK 15.2 billion, equal to 36%. Thus, the Group's arranged credits have increased 27% in total.

STRONG CAPITAL POSITION

Spar Nord's objective on the capital side is to have a Common Equity (Tier 1) ratio (CET1) of at least 12.0%, an overall solvency ratio of at least 15.0% and a spread between the solvency ratio and the solvency need ratio (ICAAP result) of at least 3 percentage points.

At end-Q1 2013, the Group's CET1 stood at 12.8% (end-2012: 12.1%). Management finds it satisfactory that the CET1 is already well above the strategic target just one quarter after the completion of the merger with Sparbank.

The solvency ratio has been calculated at 16.2% (end-2012: 15.5%), which should be viewed in relation to Spar Nord's having calculated the solvency need ratio (ICAAP result) at 10.1%. Thus, the Bank has an excess capital coverage of 6.1 percentage points, equal to DKK 2.7 billion.

EXCESS COVERAGE RELATIVE TO STRATEGIC LIQUIDITY TARGET STOOD AT DKK 16.7 BILLION

On the liquidity side, Spar Nord pursues the strategic goal of using long-term funding to finance bank lending at all times. Thus, the goal is for bank deposits, senior loans, issued bonds, subordinated loan capital and shareholders' equity to exceed the Bank's lending. Subordinated loans, senior loans and issued bonds due within 12 months are not included in the Bank's strategic liquidity.

At end-Q1 2013, Spar Nord's excess coverage relative to the strategic liquidity target stood at DKK 16.7 billion, representing an improvement of DKK 1.9 billion since end-2012.

The improvement is mainly driven by continued growth in deposits, coupled with a decline in the Group's total lending.

THE SUPERVISORY AUTHORITY DIAMOND MODEL

RISKS

Reference is made to the 2012 Annual Report and to the Group's risk report for 2012, which both describe the most significant risks and elements of uncertainty that may affect the Group and the Parent Company.

OUTLOOK FOR 2013

The Annual Report for 2012 projected core earnings before impairment to end in the DKK 1,000-1,100 million range for the full year of 2013. In light of the growth in Q1, the Bank repeats this projection.

LOSSES AND IMPAIRMENT

Impairment of loans and advances, etc. is still expected to end at around 1% of total loans, advances and guarantees.

SPAR NORD'S LOCAL BANKS

DKK m	Q1 2013	Q4 2012	Q3 2012	Q2 2012	Q1 2012
Core income	615	512	438	493	514
Costs	360	316	288	316	302
Core earnings before impairment	255	196	151	176	212
Impairment of loans and advances, etc.	109	156	111	221	106
Core earnings	146	40	40	-45	106

In Q1 2013, Spar Nord's Local Banks recorded DKK 615 million in core income, versus DKK 512 million in Q4 2012, and DKK 514 million in the same period of 2012.

Costs and expenses ended at DKK 360 million, which is 19% up on Q1 2012. The increase is attributable to the merger with Sparbank.

Loan impairment, etc. ended at DKK 109 million, which is DKK 47 million less than in the previous quarter but in line with Q1 2012.

Core earnings thus came to DKK 146 million against DKK 40 million in Q4 2012, and DKK 106 million in the same period of 2012.

Activities in Q1 focused most strongly on the savings and investment area, including counselling on a strategy shift from cash savings to more active asset management. In addition, factors such as the merger engendered respectable growth in the housing area in general and for mortgages in particular.

The total business volume of Spar Nord's Local Banks amounted to DKK 80.1 billion at the end of Q1 2013 – a level 2% up on end-2012 and 31% higher than at the same time last year.

As a result of the sharp rise in customer numbers, bank lending by Spar Nord's Local Banks grew DKK 4.7 billion compared with the same time last year. In the same period, arrangement of mortgage credit rose by DKK 15.2 billion, representing a growth in total arrangement of loans and advances of DKK 19.9 billion, or 28%.

TRADING, FIN. MARKETS & THE INTERNATIONAL DIV.

DKK m	Q1 2013	Q4 2012	Q3 2012	Q2 2012	Q1 2012
Core income	117	106	106	78	108
Costs	14	18	17	18	19
Core earnings before impairment	103	88	89	60	89
Impairment of loans and advances, etc.	0	0	0	0	0
Core earnings	103	88	89	60	89

Trading, Financial Markets & the International Division recorded core earnings of DKK 103 million versus DKK 88 million in Q4 2012, and DKK 89 million during the same period of 2012. The favourable trend is attributable to a wide range of activities, including particularly in Markets, which has benefited from the strong performance of the Danish mortgage-credit bonds in the market characterized by the continued debt crisis in southern Europe.

The activity level was high also in the Asset Management area, with a substantial influx of fresh capital, both in pension pools and in other types of proxy agreements. Thus, at end-Q1 assets under management rose DKK 1.5 billion to about DKK 11 billion.

In the shares area, Q1 was characterized by rising share prices and more intensive customer activity.

LEASING

DKK m	Q1 2013	Q4 2012	Q3 2012	Q2 2012	Q1 2012
Net income	53	75	62	74	78
Costs, incl. deprec. of operational lease assets	35	48	37	45	55
Profits before impairment	17	27	25	29	23
Impairment of loans and advances, etc.	7	14	19	10	25
Profit/loss before tax	10	13	6	19	-2

In Q1 2013, leasing activities recorded DKK 53 million in core income, versus DKK 75 million in Q4 2012 and DKK 78 million in the same period of 2012. The decline is due to the sharp reduction in business volume scheduled and anticipated. Since the phase-out programme for Spar Nord Leasing was launched in October 2011 and leasing activities were taken over in connection with the merger, total assets have thus been reduced by DKK 5.2 billion, equal to 59%.

Costs and expenses amounted to DKK 35 million versus DKK 48 million in Q4 2012, and DKK 55 million in the same period of 2012.

Loan impairment ended at DKK 7 million compared with DKK 14 million in Q4 2012 and DKK 25 million in the same period of 2012.

Pre-tax profits ended at DKK 10 million – a performance that is DKK 12 million better than in Q1 2012 and substantially better than forecast.

*) With reference to the Danish Financial Supervisory Authority's "Guidelines on the reporting of financial ratios", the financial ratio "Large exposures as % of capital base" was adjusted for exposures to credit institutions below DKK 1 billion after deductions in 2011, 2012 and 2013 in accordance with section 145 of the Danish Financial Business Act, for which reason this financial ratio is not fully comparable with previous years.

**) The continuing activities are the Spar Nord Group's activities, excl. the discontinuing leasing activities; see note 20.

Share-based financial ratios for 2009, 2010 and 2011 have been multiplied by an adjustment factor of 0.7073 as a result of the capital increase in 2012.

Note

1 ACCOUNTING POLICIES

The Interim Financial Statements of the Spar Nord Group covering the period from 1 January to 31 March 2013 have been prepared in accordance with IAS 34, "Interim Financial Reporting", as adopted by the EU, and additional Danish disclosure requirements for interim reports of listed financial institutions.

Apart from the changes referred to below, the accounting policies have been consistently applied with those adopted in the 2012 Annual Report, which contains the complete wording of the accounting policies applied.

Changed accounting policies

Effective 1 January 2013, the Spar Nord Group implemented Amendments to IAS 1, IFRS 13 and Annual improvements to IFRSs 2009-2011.

IFRS 13 changes the principles for calculating the fair value of both financial and non-financial assets and liabilities and introduces a number of new disclosure requirements. The Spar Nord Group already observes the principles for calculating fair value, for which reason the standard will exclusively have relevance for the disclosure requirements in the Spar Nord Group.

None of the new accounting standards and interpretations impact recognition and measurement.

2 ACCOUNTING ESTIMATES

The measurement of certain assets and liabilities requires Management to estimate how future events will impact on the value of such assets and liabilities. Estimates of significance to the financial reporting are made in connection with determining the impairment of loans and advances, the fair value of unlisted financial instruments, provisions, etc. Estimates are based on assumptions that Management considers appropriate but which are uncertain by their nature.

The most significant estimates that Management makes in applying the Group's accounting policies and the most important uncertainty affecting estimates made when preparing the condensed Interim Financial Statements are unchanged from the estimates made in connection with the preparation of the Financial Statements at 31 December 2012 and the uncertainties prevailing at that time.

Bonds, assets linked to pooled schemes and derivative instruments are valued according to the following principles:

- In case of listed prices, the fair value is fixed at the listed price or the price quoted by an exchange or another external party.
- In case of pricing based on observable inputs, the fair value is calculated by means of a market-based yield curve plus/minus a credit spread, which is also calculated based on market prices.
- In case of pricing based on non-observable inputs, the calculation includes inputs based on the Bank's own valuations of individual elements, and also market data in some cases.

Shares are valued according to the following principles:

- In case of external prices, the fair value is fixed at the price quoted by an exchange or another external party (e.g. the Local Banks Association).
- In case of pricing based on observable inputs, the fair value is calculated in accordance with the provisions of shareholders' agreements, etc. or inputs based on actual trades.
- In case of pricing based on non-observable inputs, the calculation includes shares valued according to generally accepted valuation principles, e.g., the discounting of future expected cash flows.
- The fair value has been determined reliably for all shares, and accordingly no shares have been recognized at cost.

Financial instruments measured at fair value based on non-observable prices (Level 3)

In Q1 2013, the Bank recognized unrealized market-value adjustments of DKK -2.1 million in respect of unlisted shares and bonds valued on the basis of non-observable inputs.
