Dissemination of a Regulatory Announcement, transmitted by

Comparison figures for 2009-2013 based on Tryg's new portfolio split between
Commercial and Corporate.

As announced in the annual report 2013, Tryg has made a new portfolio split
between the business areas Commercial and Corporate as of 2014. With the new
split, 8,000 customers, corresponding to DKK 0.9bn, are transferred from
Corporate to Commercial. The purpose of the new split is to make Corporate more
targeted towards large customers and at the same time ensure the use of the
incorporated service model for medium-sized customers in Commercial.

Commercial | sells insurance products to small and medium-sized companies in
Denmark and Norway.

Corporate | sells insurance products to corporate customers under the 'Tryg'
brand in Denmark and Norway and the 'Moderna' brand in Sweden.

The change to the portfolio split between Commercial and Corporate means that
the limit as to when a business customer belongs to Corporate is at least 100
employees and a turnover of DKK 100m. Previously the limit was 50 employees or
an annual premium of DKK 900,000.

The enclosed tables for 2009-2013 outline the pro forma quarterly comparison
figures for Tryg's new portfolio division. (excel sheet can be downloaded at
