Aquaporin publishes prospectus and offer details for its Initial Public Offering and contemplated listing on Nasdaq Copenhagen

Aquaporin A/S ("the Company" or "Aquaporin" or, together with its subsidiaries, the "Group"), a water technology company with the aim of contributing to a more sustainable world by encouraging responsible consumption of water, today publishes a Prospectus and offer details for its initial public offering ("IPO" or "Offering") and contemplated subsequent admission to trading and official listing of its shares on Nasdaq Copenhagen A/S ("Nasdaq Copenhagen") (the "Admission"). The offer period will commence today.

Niels Heering, Chairman of the Board of Aquaporin, said:

"Aquaporin's story resonates well with both private and institutional investors, and today marks a milestone as the prospectus for the IPO of the company is released. Since we announced the intention to list on Nasdaq Copenhagen, we have received very positive feedback, and we are grateful for the continued/substantial interest from potential shareholders. With the funding to be received from the impressive group of cornerstone investors, Aquaporin will be well positioned for commercial success."

Peter Holme Jensen, founder and CEO of Aquaporin, said:

"Today we invite private and professional investors to join us in making the world more sustainable. When you invest in Aquaporin, you invest in natural, clean water, which is the earth's most important resource, but also a limited one. Our technology contributes to solving huge, global challenges and are supported by mega trends such as climate change and urbanisation. I am proud to be part of a Danish company with a global reach, which I believe will make a difference in the world. But for now, I am excited about the upcoming talks with potential shareholders about how we will accelerate our commercial journey."

Information for distributors

Solely for the purposes of the product governance requirements contained within: (a) Directive 2014/65/EU of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU, as amended ("MiFID II"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 of 7 April 2016 supplementing MiFID II with regard to safeguarding of financial instruments and funds belonging to clients, product governance obligations and the rules applicable to the provision or reception of fees, commissions or any monetary or non-monetary benefits; and (c) local implementing measures (together, the "MiFID II Product Governance Requirements"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the shares that are the subject of the Offering (the "Offered Shares") have been subject to a product approval process, which has determined that the Offered Shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "Target Market Assessment"). Furthermore, it is noted that, notwithstanding the Target Market Assessment, the Global Coordinator will only procure investors who meet the criteria of professional clients and eligible counterparties (except for a public offering to investors in Denmark conducted pursuant to this Prospectus that has been approved by and registered with the Danish Financial Supervisory Authority).

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Offered Shares.

Each distributor is responsible for undertaking its own target market assessment in respect of the Offered Shares and determining appropriate distribution channels.
