Disclaimer

The information contained in this confidential document ("Presentation") has been prepared by Nova Minerals Limited (the "Company"). It has not been fully verified and is subject to material updating, revision and further amendment.

While the information contained herein has been prepared in good faith, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisers give, have given or have the authority to give, any representations or warranties (express or implied) as to, or in relation to, the accuracy, reliability or completeness of the information in this Presentation, or any revision thereof, or of any other written or oral information made or to be made available to any interested party or its advisers (all such information being referred to as "Information") and liability therefore is expressly disclaimed. Accordingly, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisers take any responsibility for, or will accept any liability whether direct or indirect, express or implied, contractual, tortious, statutory or otherwise, in respect of, the accuracy or completeness of the information or for any of the opinions contained herein or for any errors, omissions or misstatements or for any loss, howsoever arising, from the use of this Presentation.

Neither the issue of this Presentation nor any part of its contents is to be taken as any form of commitment on the part of the Company to proceed with any transaction and the right is reserved to terminate any discussions or negotiations with any prospective investors. In no circumstances will the Company be responsible for any costs, losses or expenses incurred in connection with any appraisal or investigation of the Company. In furnishing this Presentation, the Company does not undertake or agree to any obligation to provide the recipient with access to any additional information or to update this Presentation or to correct any inaccuracies in, or omissions from, this Presentation which may become apparent.

This Presentation should not be considered as the giving of investment advice by the Company or any of its shareholders, directors, officers, agents, employees or advisers. Each party to whom this Presentation is made available must make its own independent assessment of the Company after making such investigations and taking such advice as may be deemed necessary. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgement, analysis and assumptions and each recipient should satisfy itself in relation to such matters.

Neither this presentation nor any copy of it may be (a) taken or transmitted into the United Kingdom, Canada, Japan or the United States of America, their territories or possessions; (b) distributed to any U.S. person (as defined in Regulation S under the United States Securities Act of 1933(as amended)) or (c) distributed to any individual outside Australia, Canada or Japan who is a resident thereof in any such case for the purpose of offer for sale or solicitation or invitation to buy or subscribe any securities or in the context where its distribution may be construed as such offer, solicitation or invitation, in any case except in compliance with any applicable exemption. The distribution of this document in or to persons subject to other jurisdictions may be restricted by law and persons into whose possession this document comes should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the laws of the relevant jurisdiction.

The Company confirms that it is not aware of any new information or data that materially affects the information included in this document and that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed from the announcements released on the ASX on 28 February 2022.

Competent person statement

Mr Vannu Khounphakdee P.Geo., who is an independent consulting geologist of a number of mineral exploration and development companies, reviewed and approves the technical information in this release and is a member of the Australian Institute of Geoscientists (AIG), which is ROPO accepted for the purpose of reporting in accordance with ASX listing rules. Mr Vannu Khounphakdee has sufficient experience relevant to the gold deposits under evaluation to qualify as a Competent Person as defined in the 2012 edition of the 'Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Vannu Khounphakdee is also a Qualified Person as defined by S-K 1300 rules for mineral deposit disclosure. Mr Vannu Khounphakdee consents to the inclusion in the report of the matters based on information in the form and context in which it appears.

Approved and authorized for release by the board of Directors

Nova at a Glance

Highlights

- Estelle Gold Trend – 35km long with multiple large deposits
- High-grade RPM Resource
 - 1.5 Moz Au @ 2 g/t
- Bulk tonnage Korbel Resource
 - 8.1 Moz Au @ 0.3 g/t
- Massive resource growth upside
- 20+ other prospects advancing

Upcoming Milestones

Next 12 Months

- Resource update (30,000m additional drilling)
- Phase 2 Scoping Study (Includes high-grade RPM)
- PFS Trade off studies commenced
- Additional drilling at RPM, Train & Cathedral
- Pre-Feasibility Study
- Further exploration discoveries

Fact Sheet

- Location: Alaska, USA
- Jurisdiction: Tier 1*
- Project Stage: Scoping Study/PFS
- Commodity: Gold, copper, silver
- Resources: 9.6 Moz Au - 3.0 Moz Au Indicated & 6.6 Moz Au Inferred
- Tenure: 450km² of State of Alaska Mining claims
- Drilling: **World class, thick, high-grade intercepts**

Investments

- Snow Lake Resources - Lithium
- Asra Minerals – Rare earths & gold
- RotorX – Innovative eVTOL aircraft

* Consistently ranked in the Fraser Institute top 4 jurisdictions

Board of Directors

Anna Ladd-Kruger
Chair of the Board

Anna was the former Chief Financial Officer of McEwen Mining Inc. where she was brought in to strengthen the Company's executive team leading financial and operational turnaround strategies. Previously she was CFO and part of the team of Trevali Mining Corp., which grew the company from a junior exploration market capitalization of \$30 million to a mid-tier base metals producer that reached over \$1 billion on the TSX. She has raised over \$1 billion US dollars in debt and equity throughout her career in the mining sector.

Christopher Gerteisen
Executive Director & CEO

Chris as CEO controls all aspects of the Estelle Gold project while implementing efficiencies and savings to keep cost per discovery ounce well below industry average. He has over 20 years of experience as a professional geologist with an extensive record of managing and advancing complex and challenging resource projects across North America, Australia, and Asia.

Louie Simens
Executive Director

Louie has been an Executive Director of Nova since 2017. He is responsible for managing the company's core business operations which requires oversight of company-wide operational efficiencies and working with management and the board to review and implement strategic plans to facilitate growth.

Craig Bentley
Director of Finance & Compliance

Craig is responsible for finance, compliance and risk management, as well as assisting with the company's strategy during Nova's forecasted rapid growth period. He has over 30 years commercial and finance experience working in senior roles within multinational private enterprises as well auditing for Ernst and Young.

Rodrigo Pasqua
Non-Executive Director

Rodrigo is a mining engineer who's skills encompass most aspects of underground and open pit engineering. He has a vast experience in unlocking the value of mining projects across the world, including specific expertise in large tonnage bulk mining operations. At his tenure at Evolution Mining Limited, as Group Head of Mining and Transformation, amongst many other projects and sites, Rodrigo was involved with the Cowal Open Pit project and was also instrumental in the Red Lake mine turnaround.

Avi Geller
Non-Executive Director

Avi has extensive investment experience and a deep knowledge of corporate finance, including capital markets, venture capital, hybrid, debt and private equity. He served as Chief Investment Officer of Leonite Capital, a family office he co-founded focusing on real estate and capital markets. Mr. Geller also serves as a director of the real estate company Parkit Enterprise.

Estelle

150km northwest of Anchorage,
Alaska's major city

Estelle

Multiple Deposits over a new “Alaskan” Gold Trend

Project History

- 2017: Claims staked
- 2018: Target generation
- 2019 – 2022: Drilling, resource growth, further discoveries
- 2022 Onwards: Economic studies, resource growth on the path to production

Completed to Date

- Over 85,000m drilled
- Over USD\$30m spent
- USD\$3.50 cost per discovery ounce
- USD\$250 per meter drilling cost
- ~10 Moz Au resource in 3 years
- Site infrastructure established

Growing Gold Resource

Well on the way to becoming a world-class, tier-one, global gold producer

2022

We are only getting started!

2021

9.6 Moz

2021

6.2 Moz

2019

2.5 Moz

2018

Field activities started

- Estimated JORC total gold resource
- Resource from 2 of 20+ prospects
- Drilling ongoing across the Estelle Gold Trend

RPM – High Grade Resource

- Exceptional high-grade inferred **1.5 Moz @ 2g/t Au** resource
- 38 holes, 13,500m drilled to date
- Broad zone of continuous high-grade gold, from surface
- Mineralisation remains wide open
- Numerous gold zones already identified
- World class, thick high-grade, drill intercepts

RPM-005 400m @ 3.5 g/t Au

Incl: 287m at 4.8 g/t Au

132m at 10.1 g/t Au

86m at 14.1 g/t Au

RPM-015 258m @ 5.1 g/t Au

Incl: 161m at 8.1 g/t Au

117m at 11.1 g/t Au

45m at 25.3 g/t Au

RPM-008 260m @ 3.6 g/t Au

Incl: **140m @ 6.5 g/t Au**

87m @ 10.1 g/t Au

56m @ 15.0 g/t Au

RPM-022 193m @ 3.9 g/t Au

Incl: **67m at 10.4 g/t Au**

43m at 15.8 g/t Au

34m at 19.4 g/t Au

RPM-010 199m @ 1.9 g/t Au

Incl: 168m @ 2.3 g/t Au

61m @ 5.6 g/t Au

30m @ 10.0 g/t Au

RPM-025 198m @ 2.1 g/t Au

Incl: 60m at 2.0 g/t Au

30m at 11.2 g/t Au

15m at 19.2 g/t Au

RPM – Upside Potential

- RPM South drilling is showing a potential genetic link to RPM North, with a larger surface foot print
- RPM South intrusive remains wide open in all directions
- ~ 600m high priority continuous target area identified linking RPM North to RPM South
- Highest priority resource target and focus of ongoing economic mining studies

RPM North - 1.5moz @ 2g/t Resource

- 400m of strike length defined by close spaced measured level resource drilling
- Remains wide open in strike and depth
- Bonanza grade zone – 150mL x 50mW x 300mD
- 2nd mineralised intrusive intercepted in RPM-025 presents significant resource upside

RPM North Sections

Thick zones of continuous high-grade gold defined by close space drilling

Korbel – Bulk Tonnage Resource

- Large bulk tonnage resource **8.1 Moz @ 0.3g/t Au** – 3.0 Moz Indicated & 5.1 Moz Inferred
- Intrusion Related Gold System (IRGS)
- 3km of strike length and remains wide open from surface
- 212 holes, 72,000m drilled to date
- Numerous gold zones already identified
- Korbel stand alone Phase 1 Scoping Study completed with NPV_{5%} USD\$381M on 15 year LOM, 3 year payback with a strip ratio of 0.8:1, 186k oz Au annual production & AISC USD\$879
- NPV extremely sensitive to gold grade, which will come from the high-grade RPM deposit

Conceptual
Phase 1
Pit Option

KBDH-012 429m @ 0.6 g/t Au
Incl: **101m at 1.3 g/t Au**
82m at 1.5 g/t Au

KBDH-024 549m @ 0.3 g/t Au
Incl: 97m at 0.8 g/t Au
15m at 2.3 g/t Au

KBDH-066 67m @ 1.0 g/t Au
Incl: **44m at 1.5 g/t Au**
13m at 3.9 g/t Au

KBDH-072 113m @ 1.0 g/t Au
Incl: **49m at 1.5 g/t Au**
21m at 2.5 g/t Au

Potential location for the
Korbel Central Processing
Facility

KBDH-081 277m @ 0.5 g/t Au
Incl: **94m at 1.0 g/t Au**
30m at 1.9 g/t Au

Korbel Upside

Untapped Potential Across Korbel

- >10 Moz Au potential within the wider Korbel area
- Korbel Main infill drilling complete for Indicated Resource upgrade
- Korbel Main – 8.1 Moz Au Resource
 - Lower grade material upgraded (up to 6 g/t Au) using ore sorting
 - High grade material (approx. 1.6 Moz Au @ >1 g/t Au) for direct mill feed
- Korbel Area
 - Cathedral - Drill tested this year (Assays pending)
 - You Beauty – Drill tested this year (Assays pending)
 - Additional targets identified
 - Follow up drilling planned for 2023

Estelle Gold Trend - Unlocked

High-Grade RPM Deposit To be included in the Phase 2 Scoping Study

Proven Flowsheet

Estelle Gold Trend

Strategy Next 18 Months

- Resource update (30,000m additional drilling)
- Phase 2 Scoping Study (includes high-grade RPM)
- PFS Trade Off Studies, including:
 - Mining operating strategy (owner vs contractor operator vs hybrid)
 - Plant location and through put capacity (including potential future modular upgrade)
 - Mine to mill materials handling
 - Power generation alternatives
- Additional drilling at RPM, Train, Stoney & Korbel (Plan subject to assay results)
- Pre-Feasibility Study
- Further exploration discoveries – Awaiting rock chip samples from the 2022 exploration program at Muddy Creek, Mt Estelle, Train, Shadow, West of RPM & Revelation

2022 Drilling (Ongoing)

- RPM North – 24 holes ~ 9,000m drilled – 16 received, 8 pending
- RPM South – 8 holes ~ 3,000m drilled – All Assays pending
- Cathedral – 12 holes ~ 5,000m drilled – All assays pending
- Korbel Main – 30 holes ~ 10,000m drilled – All assays pending
- Hydro Wells – 12 holes ~ 1,000m drilled – All assays pending

Estelle's Path to Production

All timelines subject to assay lab turn arounds, market and operating conditions, all necessary approvals, regulatory requirements, weather events and no unforeseen delays (including freight delays, delays due to COVID-19 etc).

Prospect Pipeline

Korbel

Train

Shoeshine

RPM

Stoney

- **Korbel**

Multiple targets including expanding Korbel Main, Cathedral, Isabella, Sweet Jenny, Portage, NK, You Beauty, Blocks C&D

- **Train and Shoeshine**

High grade rock samples include:

30.4g/t, 24.5g/t, 21.6g/t, 7.5g/t, 5.7g/t, 5.4g/t

Exploration confirms another large IRGS at surface with 1km strike, 500m wide at Train and 1km long at Shoeshine

- **Stoney**

High grade polymetallic rock samples include:

48.4g/t Au, 2720g/t Ag, 2.4% Cu

Exploration mapping and sampling campaign confirms massive polymetallic mineralized vein observed along 4km of strike length, up to 10m wide, and >300m vertical extent

- **Other Prospects**

Numerous other prospects across the wider Estelle Gold Trend – RPM area, Muddy Creek, etc...

3 Nova Gold own 50% of the Donlin Creek JV. MRE & Reserves represent 50% attributable to Nova Gold (Not related to Nova Minerals)

4 Nova Minerals market cap excludes the value of Snow Lake Resources & Asra Minerals

Creating Long-Term Value for All Stakeholders

Established a Social Licence To Operate

- Hire and buy Alaskan
- Support local communities
- Responsible development
- Health and safety

Committed to creating a safe and environmentally responsible future mining operation that provides opportunities for all Alaskans.

Year Round Operation

Airstrip, Winterized camp and sample processing facility established

- 4,000 foot airstrip compliant for DC3 aircraft, with plans to expand to allow for larger capacity aircraft
- Support 80 person fully winterized camp
- On-site sample crushing and splitting preparation laboratory with the ability to process up to 10,000 samples per month at less cost and quicker assay turnaround time

Why Invest in Nova Minerals

9.6 Moz and growing fast! Multiple deposits over a new gold trend comparable to the legendary Carlin Trend in Nevada

Passion, drive and energy – The Nova team work 24/7/365 with one goal in mind – To get Estelle into production as fast as possible to become the **next world class global gold producer**

Tier one jurisdiction and tenure. Consistently rated in the top 4 of the Fraser Institute investment attractiveness index. Tenure on State land with no federal or native corp lands overlap

Alaska-based hands on **CEO with 30 years mining experience taking projects through to production and expansion**, including, the Carlin Trend in Nevada, the Sepon mine in Laos, and the Carosue Dam project in Australia

Phase 2 Scoping Study in progress, which is expected to have an enormous positive impact on the overall project economics

Ongoing drilling campaigns, to increase the size and confidence of the resources across the wider Estelle Gold Trend

RPM-005 132m @ 10.1 g/t (400m @ 3.5 g/t) and RPM-008 140m @ 6.5g/t (260m @ 3.6 g/t) two of **the best drill intercepts in the last 10 years globally**

20+ other very exciting known prospects to explore across the wider Estelle Gold Trend, plus other potential – Train & Muddy Creek

NASDAQ: LITM

Snow Lake Resources Ltd, is engaged in lithium exploration at the Thompson Brothers Lithium Project, located in Manitoba, Canada, which comprises of a dominant 56 km² position located on Crown land and encompasses two lithium rich spodumene clusters known as the Thompson Brothers and Sherritt Gordan pegmatite dykes. The project presently has an SK-1300 compliant lithium mineral resource estimate of 9.08 Mt @ 1.00% Li₂O indicated, and 1.97 Mt @ 0.98% Li₂O inferred. Snow Lake is currently undertaking resource expansion drilling to significantly increase both the resource size and confidence and has initiated its feasibility studies, with an aim to be mining by 2024/25.

Pre-listing

Rotor X Aircraft Manufacturing is a helicopter kit manufacturing company that produces the world's most affordable and reliable 2 seat personal helicopter. Recently Rotor X also announced that it has entered the electric vertical take-off and landing (eVTOL) market, with the aim of developing innovative, low operating cost, heavy-lift electric helicopters and drones, to support mining and other industries, as well as the growing urban air taxi market. The unprecedented potential benefits for Nova's mining operations through the innovative application of clean aircraft technology, which are expected to lower Nova's estimated logistics costs by a third, have been the primary motive behind the Company's investment in aerospace company Rotor X.

For more information, see www.rotorxaircraft.com
