The board of directors of BioPorto A/S has resolved to exercise the authorisation in article 16a of BioPorto A/S's articles of association to increase the share capital of the company. In connection with the Offering, BioPorto A/S publishes a prospectus in accordance with the rules on proportional disclosure in relation to issuance with pre-emptive subscription rights.

The basis of the Offering and the application of the proceeds

In recent years, BioPorto A/S has focused on the development and marketing of The NGAL Test™, a diagnostic test to measure acute kidney injury. In order to continue the marketing and to pursue implementation of The NGAL Test™, the company has resolved to raise additional capital through the Offering.

Upon full subscription of the Offering, the gross proceeds will amount to a total of DKK 70,724,526 and the estimated net proceeds are expected to amount to approximately DKK 65.4 million. Upon minimum subscription of 40,000,000 shares, the estimated net proceeds are expected to amount to approximately DKK 35 million.

Upon completion of the Offering, an amount of DKK 8 million of the proceeds will be applied to settle the bridge financing, which the company obtained in June 2013, and thus will be converted into Offer Shares. Furthermore, the company expects to apply DKK 13.5 million of the proceeds to settle convertible bonds issued by the company in ISIN code DK0030263454. The bridge financing and the convertible bonds fall due on 16 and 20 September 2013, respectively. Approximately DKK 1,3 million is expected to be applied as payment of accrued interest of the bridge financing and the convertible bonds.

BioPorto A/S contemplates to use the rest of the net proceeds from the Offering to further develop the product portfolio of BioPorto A/S, to promote NGAL tests, especially The NGAL Test™, to ensure the company's IP rights as well as general application in the company.

Advance undertakings and guarantee commitments

A group of investors have submitted binding advance undertakings to subscribe for in total 30,823,618 Offer Shares equivalent to combined gross proceeds of DKK 30,823,618 by way of exercise of subscription rights or by subscription of any remaining shares. The company's CEO has undertaken to acquire and exercise, personally or through a company controlled by the CEO, subscription rights or to acquire shares for an aggregate amount of DKK 200,000. These conditions are met on the date of the prospectus. The advance undertakings and the guarantee commitments may be cancelled, if the company prior to the expiration of subscription period for the Offer Shares, publishes a company announcement concerning matters, which from the perspective of the Company has a material adverse effect on the company's business, economic position and/or future prospects.
