**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary in order to make the interim financials not misleading have been included and all such adjustments are of a normal recurring nature. The operating results for the three and nine months ended September 30, 2006 are not necessarily indicative of the results that can be expected for the year ending December 31, 2006.

The balance sheet as of December 31, 2005 has been derived from the audited financial statements at such date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

The accounting policies followed by the Company are set forth in Note 2 to the Company's consolidated financial statements in the December 31, 2005 Form 10-KSB.

For further information, please refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report of Form 10-KSB for the year ended December 31, 2005.

Intercompany transactions have been eliminated in consolidation.

Certain reclassifications have been made to prior period financial statements to conform to the current year presentation.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue and Income Recognition

The Company recognizes revenues and income using the percentage-of-completion method for custom production-type contracts while revenues from other products are recorded when such products are accepted and shipped. Profits on custom production-type contracts are recorded on the basis of the Company's estimates of the percentage-of-completion of individual contracts, commencing when progress reaches a point where experience is sufficient to estimate final results with reasonable accuracy. Under this method, revenues are recognized based on costs incurred to date compared with total estimated costs.

The asset, "Costs and estimated earnings in excess of billings on uncompleted contracts," represents revenues recognized in excess of amounts billed.

The liability, "Billings in excess of costs on uncompleted contracts" represents amounts billed in excess of revenues earned.

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments purchased with an original maturity of three months or less at the date of purchase to be cash equivalents.

Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. ("FIN") 48, Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109 Accounting for Income Taxes, which clarifies the accounting for uncertainty in income taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation requires that the Company recognize in the financial statements, the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods and disclosure. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006 with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. The Company is currently evaluating the impact of adopting FIN 48 on its financial statements.

CVD EQUIPMENT CORPORATION AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In September 2006, FASB issued Statement No. 157, Fair Value Measurements. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements. The other accounting pronouncements affected include Statements No. 107, Disclosures about Fair Value of Financial Instruments; No. 115, Accounting for Certain Investments; No. 124, Accounting for Certain Investments Held by Non-for-Profit Organizations; No. 133, Accounting for Derivative Instruments and Hedging Activities. Statement No. 157 is effective for financial statements issued for fiscal years after November 15, 2007 and interim periods within those fiscal years. Statement No. 157 is not expected to have a material impact on the Company's consolidated financial statements.

	<u>\$ 2,660,015</u>	<u>\$ 2,067,255</u>

NOTE 5: BAD DEBTS

Accounts receivables are presented net of an allowance for doubtful accounts of \$8,597 as of September 30, 2006 and December 31, 2005, respectively. The allowance is based on prior experience and management's evaluation of the collectibility of accounts receivable. Management believes the allowance is adequate. However, future estimates may change based on changes in economic conditions.

NOTE 6: SHORT TERM BORROWINGS

	(Unaudited) <u>September 30, 2006</u>	<u>December 31, 2005</u>
	\$125,000	\$100,000

The Company has a line of credit with a bank permitting it to borrow on a revolving basis amounts up to \$1,250,000 until June 1, 2007. Interest is payable on any unpaid principal balance at the bank's prime rate plus $\frac{3}{4}$ of 1%. The prime rate was 8.25% and 7.25% and the amount outstanding on the facility was \$125,000 and \$100,000 on September 30, 2006 and December 31, 2005 respectively. Borrowings are collateralized by the Company's assets.

The Company has a line of credit for equipment purchases from the same bank permitting it to borrow up to 100% of the purchase price of the equipment. The amount borrowed is immediately converted into a five year term loan at the bank's prime rate plus 1 $\frac{1}{4}$ %. As of September 30, 2006, there was approximately \$81,000 outstanding on this facility. Borrowings are collateralized by the equipment purchased.

NOTE 7: STOCK COMPENSATION EXPENSE

On January 1, 2006, the Company adopted the provisions of SFAS No. 123-R "Share-Based Payment" using the modified prospective method. SFAS No. 123-R requires companies to recognize the cost of employee services received in exchange for awards of equity instruments based upon the grant date fair value of those awards. Under the modified prospective method of adopting SFAS No. 123-R, the Company recognized compensation cost for all share-based payments granted after January 1, 2006, plus any awards granted to employees prior to January 1, 2006 that remain unvested at that time. Under this method of adoption, no restatement of prior periods is made.

Prior to January 1, 2006 the Company recognized the cost of employee services received in exchange for equity instruments in accordance with Accounting Principles Board Opinion No. 25 "Accounting for Stock Issued Employees" (APB 25). APB 25 required the use of the intrinsic value method, which measures compensation cost as the excess, if any, of the quoted market price of the stock over the amount the employee must pay for the stock. Compensation expense was measured under APB 25 on the date the shares were granted. Under APB 25, no compensation expense was recognized for stock options.

During the three and nine months ended September 30, 2006 the Company recorded into selling and general administrative expense approximately \$33,000 and \$129,000 respectively, for the cost of employee services received in exchange for equity instruments based on the grant-date fair value of those instruments in accordance with the provisions of SFAS No. 123-R.

During the three and nine months ended September 30, 2005 had the cost of employee services received in exchange for equity instruments been recognized based on the grant-date fair value of those instruments in accordance with the provisions of SFAS No. 123, the Company's net income and earnings per share would have been impacted as shown in the following table.

NOTE 8: INCOME TAXES

The provision (benefit) for income taxes includes the following:

	(Unaudited) Three Months Ended <u>September 30, 2006</u>	(Unaudited) Nine Months Ended <u>September 30, 2006</u>
Current:		
Federal	\$ 67,548	\$ 281,635

Total Deferred (Benefit)	<u>99,257</u>	<u>214</u>
	<u>\$ 177,523</u>	<u>\$ 292,690</u>

All of the Company's federal and state net operating loss carry forwards of approximately \$203,000 and \$420,000 respectively, have been utilized through September 30, 2006. For the nine months ended September 30, 2006, the Company recorded a current income tax expense of approximately \$293,000, which related to various federal, state and local taxes. The current income tax provision was reduced by approximately \$94,000 as a result of the use of available net operating losses.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the consolidated financial statements and accompanying notes filed as part of this report.

Except for historical information contained herein, this "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, as amended. These statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements. These forward-looking statements were based on various factors and were derived utilizing numerous important assumptions and other important factors that could cause actual results to differ materially from those in the forward-looking statements. Important assumptions and other factors that could cause actual results to differ materially from those in the forward-looking statements, include but are not limited to: competition in the Company's existing and potential future product lines of business; the Company's ability to obtain financing on acceptable terms if and when needed; uncertainty as to the Company's future profitability, uncertainty as to the future profitability of acquired businesses or product lines, uncertainty as to any future expansion of the Company. Other factors and assumptions not identified above were also involved in the derivation of these forward-looking statements and the failure of such assumptions to be realized as well as other factors may also cause actual results to differ materially from those projected. The Company assumes no obligation to update these forward looking statements to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking statements.

Results of Operations

Revenue for the three month period ended September 30, 2006 was \$3,635,531 compared to \$2,851,327 for the three month period ended September 30, 2005, representing an increase of \$784,204 or 27.5%. As a result of an increase in the number of inquiries the Company has received and proposals the Company has submitted, the Company has experienced an increased demand for customized CVD systems along with requests for equipment provided by the First Nano product line.

Revenue for the nine months ended September 30, 2006 was approximately \$9,958,000 representing an increase of approximately \$1,700,000 or 20.6% over the \$8,258,000 of revenue for the nine months ended September 30, 2005. This increase is a result of increased demand for the Company's products as discussed in the previous paragraph.

The Company generated a gross profit of approximately \$1,417,000 and a gross profit margin of 39.0% for the three months ended September 30, 2006 compared to a gross profit of approximately \$937,000 and a gross profit margin of 32.9% for the three months ended September 30, 2005. This increase in both gross profit and gross profit margin is attributable to the Company's successful efforts to control the direct costs incurred in manufacturing the product lines despite rising labor, insurance and energy costs.

The Company's gross profit increased 21.6% to approximately \$3,553,000 during the current nine month period compared to \$2,923,000 in gross profit for the nine month period during the prior year. The gross profit margin increased to 35.7% for the nine months ended September 30, 2006 compared to 35.4% for the nine months ended September 30, 2005. The Company was able to increase its gross profit margin despite increased labor costs as a result of the increased personnel needed to develop and expand the sales of the First Nano equipment line in addition to rising employee benefit, insurance and energy costs.

Selling and shipping expenses for the three months ended September 30, 2006 and 2005 were \$222,391 and \$181,752 respectively, representing a 22.4% increase. The increase is primarily due to greater commissions earned as a result of projects being completed and shipped during the current three month period.

Selling and shipping expenses for the nine months ended September 30, 2006 were approximately \$620,000 compared to \$519,000 for the corresponding period one year ago, representing an increase of 19.5%. This increase is due to an increase in commissions earned and increased costs of trade shows attended by the Company.

The Company incurred approximately \$741,000 of general and administrative expenses during the period ended September 30, 2006, representing an increase of 5.8% or approximately \$41,000 compared to the approximately \$700,000 of general and administrative expenses incurred in the period ended September 30, 2005. As a result of the Company adopting the provisions of SFAS No. 123-R "Share-Based Payment" approximately \$43,000 of stock compensation costs were recognized in the current three month period which were not recognized last year. Other than the stock compensation costs, despite increasing labor, employee benefit, insurance and energy costs, the Company managed to avoid an increase in general and administrative costs

General and administrative expenses for the nine months ended September 30, 2006 were approximately \$2,200,000 compared to \$1,873,000 for the nine months ended September 30, 2005 representing a 17.5% increase as a result of a combination of increased personnel as well as various increases in employee benefit costs, insurance, professional fees and energy costs. Additionally, as a result of the Company adopting the provisions of SFAS No. 123-R "Share-Based Payment" approximately \$129,000 of stock compensation costs were recognized in the current nine month period which were not recognized last year.

Interest expense for the three months ended September 30, 2006 increased by 14.4% to \$57,882 compared to \$50,591 during the three months ended September 30, 2005. This is a result of increased borrowing and higher interest rates on the Company's revolving line of credit from its bank during the current three month period.

Interest expense for the nine months ended September 30, 2006 increased by 2.2% or \$3,000 to approximately \$173,000 compared to approximately \$170,000 during the nine months ended September 30, 2005. This is a result of higher interest rates on the Company's revolving line of credit from its bank during the current nine month period.

Other income during the nine months ended September 30, 2006 was approximately \$97,000 compared to approximately \$34,000 for the corresponding period one year ago. This increase is the result of the Company receiving \$70,000 for equipment sold to a former customer that filed a voluntary petition for relief under Chapter 11, in the United States Bankruptcy Court in February 2004. The Company had previously written off all accounts receivables from this customer.

For the three and nine months ended September 30, 2006, the Company had earnings before taxes of approximately \$406,000 and \$658,000 compared to approximately \$24,000 and \$396,000 for the three and nine months ended September 30, 2005. For the nine months ended September 30, 2006 the Company recorded income tax expense of approximately \$293,000 which related to various federal, state and local taxes. The current income tax provision was reduced by approximately \$94,000 as a result of the use of available net operating losses.

As a result of the foregoing factors, for the three and nine months ended September 30, 2006, the Company earned approximately \$229,000 and \$365,000 respectively, compared to net income of approximately \$35,000 and \$329,000 respectively, for the same periods, one year ago. The increase in earnings is a result of increased revenues during the current periods and the successful efforts of the Company to maintain costs despite the recognition of approximately \$43,000 and \$129,000 in stock compensation costs, respectively and an increase in personnel costs and insurance and energy costs.

Liquidity and Capital Resources

As of September 30, 2006, the Company had an aggregate working capital of approximately \$3,755,000 compared to \$3,123,000 at December 31, 2005 an increase of \$632,000 or 20.2%

Accounts receivable, net of allowances, as of September 30, 2006 was \$2,187,040 compared to \$1,893,665 as of December 31, 2005. This increase is attributable to timing of shipments and customer payments.

As of September 30, 2006 the Company's backlog was approximately \$3,143,000, an increase of \$495,000 or 18.7% compared to \$2,648,000 at December 31, 2005. The timing for completion of the backlog varies depending on the product mix, however, there is generally a one to six month lag in the completion and shipping of backlogged product.

The Company has a revolving line of credit with a bank permitting it to borrow on a revolving basis amounts up to \$1,250,000 until June 1, 2007. Interest is payable on any unpaid principal balance at the bank's prime rate plus $\frac{3}{4}$ of 1%. As of September 30, 2006, \$125,000 was outstanding on this facility. Borrowings are collateralized by the Company's assets.

The Company also has an equipment line of credit of \$250,000 with that same bank. The Company is permitted to borrow up to 100% of the purchase price of the equipment. The amount borrowed is immediately converted into a five year term loan at the bank's prime rate plus 11/4%. As of September 30, 2006, there was approximately \$81,000 outstanding on this facility. Borrowings are collateralized by the equipment purchased.

The Company believes that its cash, cash equivalents and available credit facilities will be sufficient to meet its working capital and investment requirements for the next twelve months. However, future growth, including potential acquisitions, may require additional funding, and from time to time the Company may need to raise capital through additional equity or debt financing.

Item 3. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as required by Exchange Act Rule 13a-15, as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective to insure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

Changes in Internal Controls

There were no significant changes in the Company's internal controls over financial reporting that occurred during the six months ended June 30, 2006 that have materially affected, or are reasonably likely to materially affect, the internal controls over financial reporting.

Limitations on the Effectiveness of Controls

We believe that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control systems are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.
