

## **BerGenBio ASA: Notice of Extraordinary General Meeting**

**Bergen, Norway, 18 November 2020** – Notice is hereby given that an Extraordinary General Meeting in BerGenBio ASA will be held virtually on 9 December 2020 at 16:00 hours (CET).

The notice, registration form and power of attorney are attached to this release. The notice will be sent to all registered shareholders and is available at <https://www.bergenbio.com/investors/general-meetings/>

All shareholders are encouraged to exercise their shareholder rights, either through advance electronically voting through VPS Investor Services, by using the enclosed proxy form to provide proxy to the Chairman Sveinung Hole (or the person he appoints), or to attend the general meeting virtually.

Virtual attendance, advance vote or proxy for the Extraordinary General Meeting can be registered through the company's website or VPS Investor Service. All registered shareholders will receive a reference number and a pin code required for registration through the company's website. Reference number and pin code will be received either by VPS Investor Service or by post depending if the shareholder is registered as electronic user.

**We encourage all shareholders to register as electronic user in VPS to save environment impact.**

-Ends-

### **About BerGenBio**

BerGenBio is a clinical-stage biopharmaceutical company focused on developing transformative drugs targeting AXL as a potential cornerstone of therapy for aggressive diseases, including immune-evasive, therapy resistant cancers and infectious diseases. The company's proprietary lead candidate, bemcentinib, is a potentially first-in-class selective AXL inhibitor in a broad Phase II oncology clinical development programme focused on combination and single agent therapy in lung cancer, leukaemia and COVID-19. A first-in-class functional blocking anti-AXL antibody, tilvestamab, is undergoing Phase I clinical testing. In parallel, BerGenBio is developing a companion diagnostic test to identify patient populations most likely to benefit from bemcentinib: this is expected to facilitate more efficient registration trials supporting a precision medicine-based commercialisation strategy.

BerGenBio is based in Bergen, Norway with a subsidiary in Oxford, UK. The company is listed on the Oslo Stock Exchange (ticker: BGBIO). For more information, visit [www.bergenbio.com](http://www.bergenbio.com)
